NEAR FIFTH AVE.

SEEDS · BULBS · SHRUBS

Lawn Grass Seed for All Purposes

The most beautiful feature of a city home or country estate is a well-kept lawn. Beds of many-hued flowers and stately trees embellish the surroundings, but it will be conceded that it is the rich, velvety, green lawn which completes the pleasing picture. In the luxuriant turf lies the whole secret.

In addition to prices on Grass Seeds, add postage at 8 cents per pound, if to be mailed.

"Perpetual Green" Lawn Mixture

A combination of various native and foreign dwarf-growing, fine-leaved grasses, carefully balanced and blended, with a view of producing a turf that will retain its rich green color throughout the entire season. This is our standard mixture that we have sold for years to parks, cemeteries, and large private estates. Half pound, 20c; lb., 30c; 3 lbs., 85c; 5 lbs., $1.35. 10 lbs., $2.65; 25 lbs., $6.45; 100 lbs., $25.00.

Choice Mixture

While containing fewer and less expensive grasses than our "Perpetual Green," this is a good, well-balanced mixture which we do not hesitate to recommend. Lb., 25c; 5 lbs. for $1.00. 10 lbs., $1.85; 25 lbs., $4.50; 100 lbs., 17.50.

Barnard's "Special" Lawn Mixture

This mixture is composed of grasses selected irrespective of cost as representing the best low-growing, narrow-leaved varieties of fine texture and color. In preparing this "Special" mixture only seeds of the highest grades and extra heavy weight are employed. It costs more, but "it's worth more." Seeded liberally upon good ground, well prepared, a lawn of the very highest excellence will result. Lb., 40c; 5 lbs., $1.85; 10 lbs., $3.50; 25 lbs., $8.25; 100 lbs., $30.00.

Terrace Mixture of Grasses

For seeding side hills, terraces, embankments, etc. A mixture of grasses whose roots penetrate deeply and bind the soil. When sowing, add to the mixture about one-fifth part of oats, which holds the soil together until the grasses have made a good start. Lb., 30c; 5 lbs. for $1.35.

Shady Place Mixture

Made up of grasses selected for locations shaded by trees or buildings. Lb., 35c; 5 lbs., $1.60. 10 lbs., $3.00.

Putting Green Mixture

This mixture is intended not only for putting greens, but for all lawns that are to be used as pleasure grounds and necessarily requiring a fine, dense turf—one capable of withstanding constant wear. With this in view, after experimenting with several combinations of the best fine-leaved, low-growing grasses, we selected those which, rightfully proportioned together, produce just the results we were endeavoring to obtain. Have furnished some of the best-known golf clubs in the vicinity of Chicago with this mixture, and it has given splendid results. Price per lb., 45c; 5 lbs. for $2.10; 10 lbs., $4.00; 25 lbs., $9.50; 100 lbs., $36.00.

Mixture for Quick Effect

There is considerable demand for a grass seed that will produce a quick-growing turf. For this purpose we have prepared a mixture of a few strong-germinating, vigorous-growing grasses, which will produce a turf of fair quality within a few weeks after seeding. The grasses in this mixture are mostly annuals or biennials, and such a turf could be relied upon only for one or two seasons. A permanent lawn could be secured, however, by reseeding at any time with any of our other mixtures. Price, per pound, 20c; 5 lbs. for 80c; 10 lbs., $1.50; 25 lbs., $3.50; 100 lbs., $13.50.

White Clover

The best variety for lawns, Extra fancy quality. Lb., 50c; 5 lbs. for $2.25. 10 lb., $4.25.

HINTS ABOUT LAWNS—Their Formation and Care

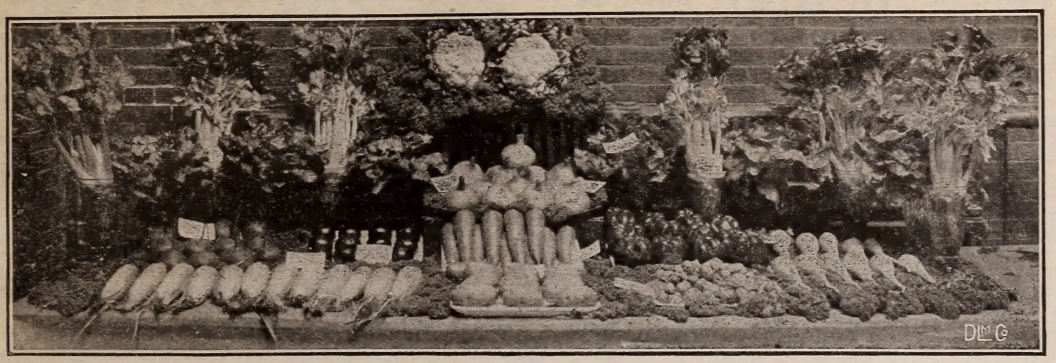
The ground should be thoroughly drained, and if not naturally rich, fertilizers should be added before sowing. For this purpose bone dust, crushed bone, or fertilizers containing bone and potash are the best.

Work the soil by plowing or spading until thoroughly pulverized, being careful to leave the entire surface as near alike as possible, that the grass may be even in its growth; finish by harrowing or raking until made fine, and finally level by use of heavy roller. We recommend Dunham's Ball Bearing Lawn Rollers and carry them in stock.

Seeding may be done in **spring or fall.** If done during the hot months of summer, the ground must be kept moderately moist. With the ground prepared as directed, let the surface be gone over with a fine rake, and the seed evenly scattered, after which carefully rake or brush the seed in and follow with the roller. **To secure the best results use plenty of seed. One pound is sufficient for 300 square feet.**

Lawn Fertilizer We offer a rich, well-balanced compost which is to be scattered broadcast and raked into the soil before seeding down at the rate of 15 to 25 lbs. to 1,000 square feet, or from 600 to 1,000 lbs. per acre. On old lawns, use as a top dressing. Three light applications on old lawns during the season are better than one heavy one. Price, not prepaid: 5 lbs., 30c; 10 lbs., 45c; 25 lbs., $1.00; 50 lbs., $1.75; 100 lbs., $3.00; 500 lbs., $12.00.

General Catalogue of Seeds, Bulbs, Plants, Etc.



THE publication of this catalogue, with the advent of our twenty-sixth year in the seed business, affords an opportune occasion to express our grateful thanks for a generous patronage which is constantly on the increase. We continue to sell only goods of the HIGHEST QUALITY *at a moderate price.* Orders may be sent to us at once for present delivery or at a later date if desired.

This book was designed to bring to the readers' attention in form for easy reference, a complete descriptive list of the seeds, bulbs, plants, etc., in which we deal, and by directions and suggestions to point the road to successful gardening. We sell almost everything in seeds that is planted, as well as tools, sundries, and fertilizers used in gardening operations.

Catalogue Plan Our goods are grouped in departments, the offerings covering the pages indicated: **Vegetable Seeds and Plants,** 1-28; **Farm Seeds,** 29-36; **Flower Seeds,** 37-60; **Summer Flowering Bulbs,** 61-67; **Plant Department,** including Hardy Perennials, Peonies, Climbers, Shrubs, Fruit and Ornamental Trees, etc., 68-85; **Garden Sundries,** including Lawn Mowers and accessories, 86-93; **Insect Remedies,** Sprayers, etc., 92-93; **Fertilizers,** 94; **Horticultural Books,** 82 and 95; **Poultry Supplies,** 95; **Index of Contents,** 96.

Forwarding We deliver, postpaid, in the United States, all seeds by the packet, ounce, and one-fourth pound; bulbs at single and dozen rates; books (named in this catalogue). When larger quantities are to be mailed, add postage at the rate of eight cents per pound, fifteen cents per quart for peas and beans, ten cents for corn. Seeds in quantities of ½ lb. and 1 lb., pints, quarts, pecks, and bushels; bulbs (at the 100 rate); plants, shrubs, and other bulky and heavy goods are forwarded by express or freight to points outside of Chicago, purchaser to pay delivery charges on receipt.

Parcel Post This affords an economical means of transportation as all seeds and many garden supplies are mailable at parcel-post rates. If we are to send by parcel post, please add extra remittance to cover mailing expense. Consult your postmaster for local rate from Chicago.

Order Early We would impress on all the importance of sending us their orders early. Please state definitely how we are to ship—express, freight, or parcel post. Kindly make use of our order sheet and keep a copy to check up the goods. Cash should accompany your letter; send Money Order, Draft, Check, or Postage Stamps.

The W. W. BARNARD COMPANY gives no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and will not be responsible for the crop.

ARTICHOKE SEED

Sow seeds in April or May in deep, rich, sandy loam with plenty of well-rotted manure. When large enough, transplant into rows three feet apart and two feet in the row.

LARGE GREEN GLOBE. Flower heads can be cooked like Asparagus. Pkt., 5c; oz., 30c.

JERUSALEM ARTICHOKE. The tubers are planted like potatoes, about 3 bushels to acre. They are excellent for feeding stock, especially hogs. Qt., 20c; pk., 75c; bu., $2.50. Special prices on larger quantities.

ASPARAGUS

SPARGEL, Ger. ASPERGE, Fr.

Asparagus seed should be sown early in spring, on rich, light soil, in drills a foot or more apart, covering the seed an inch deep. Thin to three or four inches and keep the ground mellow and clear of weeds the first season by frequent hoeing. The next spring, transplant to a permanent bed, which should be in deep, mellow soil, made very rich by a liberal application of manure. **One ounce will sow 40 feet of drill.**

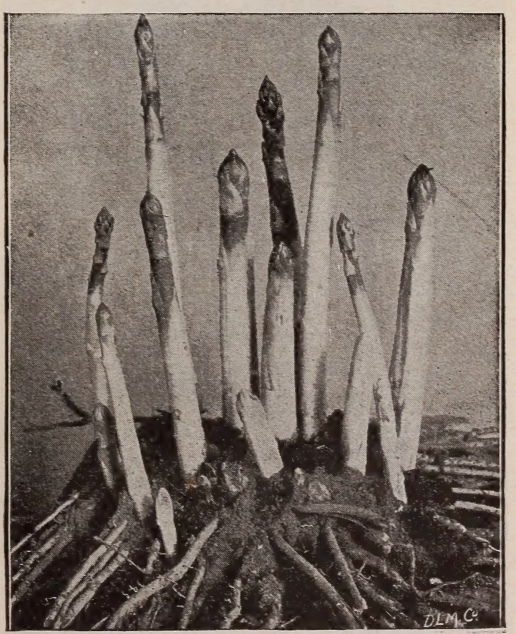
Bonvallet's Giant This giant variety not only combines high productive power and lasting quality, but it withstands the rust so frequently disastrous to Asparagus beds. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.50.

COLUMBIAN MAMMOTH WHITE. Produces shoots which stay white as long as fit for use without earthing up or any other artificial blanching. Nearly all seedlings will produce clear white shoots. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c.

CONOVER'S COLOSSAL. A standard variety. Popular, productive; good. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c.

PALMETTO. A large, dark-green variety. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c.

ASPARAGUS ROOTS. See page 28.



ASPARAGUS ROOTS

BONNEN, Ger. # BEANS HARICOT, Fr.

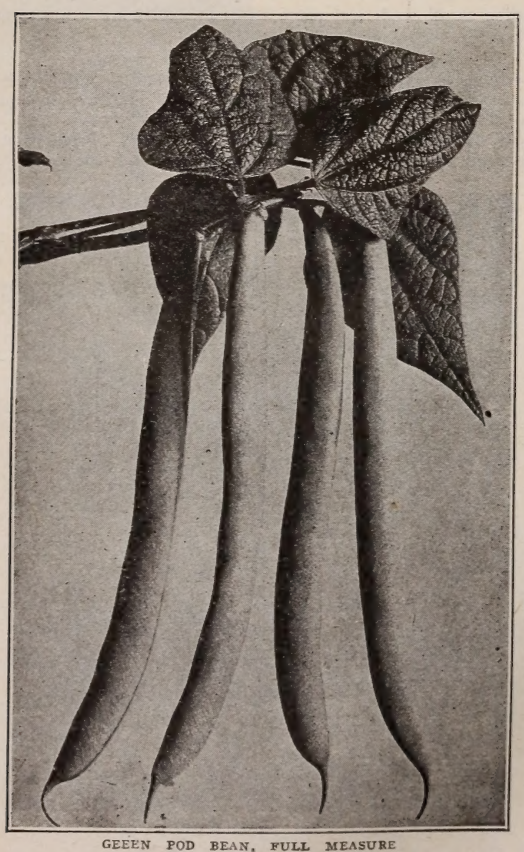
DWARF, BUSH or SNAP

In many localities the low-growing varieties are known under different names. Under this classification we include the best sorts selected after years of careful observation—Bush, Bunch, Snap, String, or Dwarf Beans.

The bean is a semi-tropical plant and very susceptible to injury by frost. We therefore do not recommend planting until late in April or early in May. This crop will thrive on a variety of soils, but does best in a rich, light loam that is well drained. Such soil stimulates a rapid and vigorous growth of the plant which is necessary for the production of crisp, well-shaped and well-filled pods. Such a crop is also much less subject to disease than one grown under less favorable conditions. For Dwarf, Green Pod, or Wax varieties the seed should be planted in drills about 2 feet apart with a distance of from 2 to 4 inches between the beans in the row. The depth of covering depends upon the soil, and would vary from 1 to 3 inches. The heavier the soil, the less the covering required. The early varieties should be ready for use in about 6 weeks from the time of planting, and if the pods are picked as soon as they are edible, the plant will continue to bear for several weeks. For a succession of crops the seed should be planted about every three weeks during the growing season.

1 qt. to 100 ft. of drill; 1½ bu. to the acre in drills.

Burpee's Stringless Green Pod A splendid bean for home use, possessing so many merits that it is deserving of a place in every garden where beans are planted. It is hardy and early so that several plantings can be made during the season for succession of crops. The plants are dwarf, sturdy and yield abundantly. The pods are round, of good size and of exceptionally fine quality, the special merit being that they are strictly stringless. This, together with their brittleness and tenderness and good flavor, places the variety among the very best of the green pod sorts. We have a splendid strain of Seed of this excellent bean. Pkt. 5c; carton 10c; pt. 20c; qt. 35c; pk. $2.25.



GEEEN POD BEAN, FULL MEASURE

DWRAF GREEN-PODDED BEANS—Continued

Full Measure A bean of recent introduction that gave much promise of becoming very popular. Medium early, producing an abundance of long, round pods that are stringless, of fine quality and of attractive appearance. When better known we believe it will be well received by both the home gardener and the market gardener. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

Longfellow This is an excellent variety to grow for either home use or for the market. It bears profusely and the long, slender pods are attractive to the buyer and their fine quality meet the demands of the most critical. This is a very desirable bean to grow for late planting as it requires less time to mature than almost any other variety. Pkt. 5c; carton 10c; pt. 20c; qt., 35c; pk., $2.00.

BLACK VALENTINE. An extra early variety and therefore suitable for late planting. A favorite with the market gardeners both north and south. It is hardy and a good yielder. The pods are flat, of firm strong fibre, consequently it is a suitable shipping variety. Pkt. 5c; carton 10c; pint, 20c; quart, 35c; peck, $2.00.

RED VALENTINE. One of the best known of the green-pod varieties and planted extensively in the south. It is very hardy and a reliable yielder. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.75.

REFUGEE, or 1000 to 1. A late variety, very attractive pods, round and very small, and one of the best canning sorts. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

EXTRA EARLY REFUGEE. An improvement on the above on account of its earliness and dwarf habit of growth, in which respect it is distinct from almost any other variety. It is a good yielder, pods uniformly round and nearly stringless, therefore a favorite with canners and shippers." Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

LONG YELLOW SIX WEEKS. Early, very attractive, long fleshy pods. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

EARLY MOHAWK. An old and well-known variety. Early and very hardy. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.75.

Varieties for Shelling

The largest return will result from planting in drills from two to three feet apart and leaving the plants two to six inches apart in the row. Up to the time of flowering they should have frequent shallow cultivation, but any mutilation of the roots by cultivation after the plants come into bloom is likely to cause the blossoms to blast and so cut off the crop. The cultivation of beans should always be very shallow.

LARGE WHITE MARROW. The standard large white Bean commonly sold in market. Beans are good green or dry, of vigorous growth and productive. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.50.

WHITE NAVY. Valuable chiefly as a field bean and considered by many the best baking variety. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.00.

ROYAL DWARF, or WHITE KIDNEY. Excellent cooked with sweet corn, making "succotash." Among best as a winter bean. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.50.

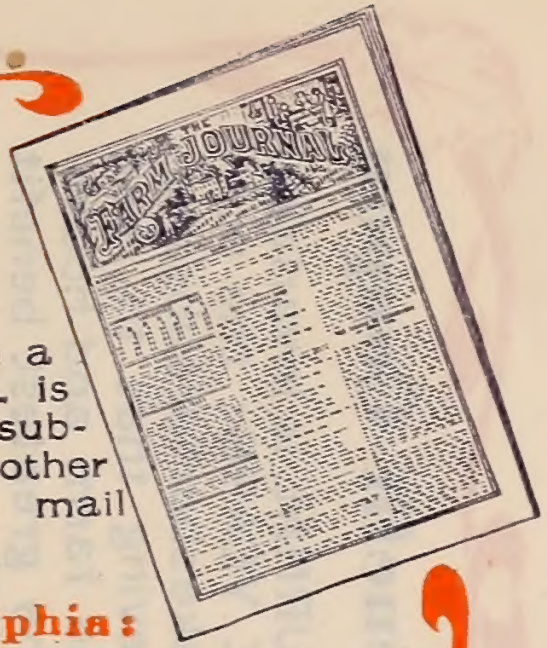
DWARF HORTICULTURAL. Late; productive and much esteemed for good quality of the beans. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

DWARF WAX BEANS

Davis Kidney Wax The best early wax Bean for market gardeners. This variety since its introduction, 12 or 15 years ago, has become very popular, especially with truck growers. It is a reliable and exceedingly heavy yielder, with the merit of maturing early and very evenly. The pods are attractive, being long and straight and of a beautiful waxy white that does not discolor in cooking. The flesh is close grained and of fine fibre. The Seeds are pure white, kidney shaped and are excellent for cooking either green or dry. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.75.

WARDWELL'S KIDNEY WAX. This is another profitable variety for market gardeners to grow for the main crop. The pods are large, flat and good substance and color. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.75.

Try this Astonishing Paper at this Special Rate



You will be delighted with it, and wonder how such a splendid paper can cost so little. The FARM JOURNAL is 38 years old, has more than 800,000 paid-in-advance subscribers, from Maine to California. It is unlike any other paper. Sign this Mutual Benefit Coupon below, and mail AT ONCE with 20 CENTS at the publishers' risk.

To the FARM JOURNAL, Philadelphia:

Enclosed find 20 cents for which send me the FARM JOURNAL Twelve Months on trial. I am not now a subscriber to your paper.

Name ..... St.or R.F.D. .....

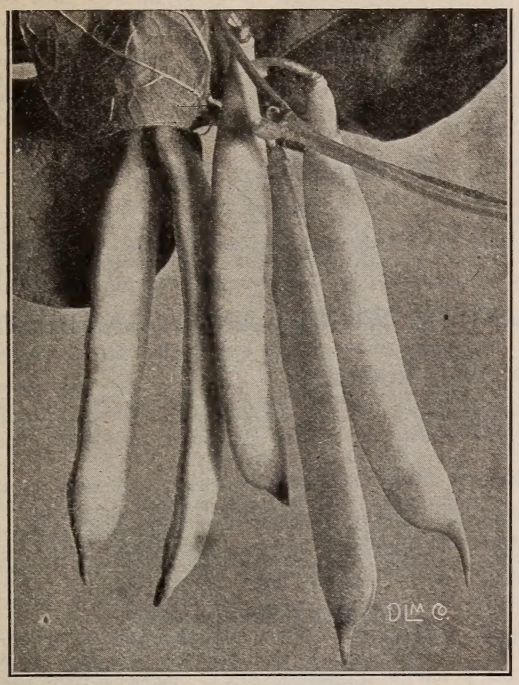
NOT GOOD FOR RENEWALS; SEE OTHER SIDE

DWARF WAX BEANS—Continued

HODSON WAX. This is a late Bean, but a splendid yielder, one of the largest podded of the wax varieties. It is an exceptionally good Bean for the shipper, the pods holding their form and color a long time after they are picked. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.50.

CURRIE'S RUST PROOF. A well-known, flat-podded variety, extensively planted in the south. Seeds bluish black. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.50.

MICHIGAN WHITE WAX. This is an excellent recent introduction, called by some a white-seeded Golden Wax. It is an early maturing variety of vigorous growth and a good yielder. The pods are attractive for the market and of fine quality. The dry beans are also very good for cooking. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.75.



HODSON WAX BEAN

PENCIL POD BLACK WAX. Medium early. Pods round and pencil shaped. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.75.

CHALLENGE BLACK WAX. The earliest of all, very dwarf in habit of growth. Pods are round, attractive in color, and crisp and tender in quality. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.50.

GOLDEN WAX. An old, standard variety, hardy and early. Pods flat. Seeds white blotched with reddish purple. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.50.

REFUGEE WAX. Hardy, round podded variety, good for canning. Seeds brown and black mottled, similar to Refugee Green Pod. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.50.

POLE BEANS

Pole Beans are even more sensitive to cold and wet than the dwarf varieties, and should be sown two weeks later. After settled warm weather, set poles four to eight feet long in rows four feet apart and extending north and south, the poles being three feet apart in the row. Around each stake plant five to eight beans, two inches deep.

One quart will make about 100 hills.

KENTUCKY WONDER, or Old Homestead. Pods green, nine inches or more long, nearly round, fleshy, stringless, and of excellent flavor. Dry beans, long, oval, dun-colored. It is an early and most prolific variety. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

POLE BEANS—Continued

GOLDEN CLUSTER WAX. Long, broad, thick pods, borne in clusters. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c. pk., $2.25.

SCARLET RUNNER. A favorite, both as a Snap Bean and for its flowers, which are of a bright scarlet. Seeds broad and kidney-shaped. Pkt., 5c; carton, 10c; pt., 25c; qt., 40c.

LAZY WIFE. This is a superior variety for the home garden, also as a field bean among corn. Desirable either for cooking in the pod or shelled for winter. The large, green pods are from 4 to 6 inches in length. Very tender, of delicious flavor. They are broad and thick, and are stringless until quite large. Dry beans are round, pure white. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

CUT SHORT, or CORN HILL. An old variety that is in favor for planting among corn. It will yield a good crop without the use of poles. Beans nearly oblong, cut off at the ends, white and partially dotted with spots. Pkt., 5c; carton, 10c; pt., 20c; qt., 30c; pk., $1.50.

DUTCH CASE KNIFE. This is also used as a cornhill bean. Pods long and flat; beans flat, kidney-shaped, white, of excellent quality green or dry. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

POLE LIMA BEANS

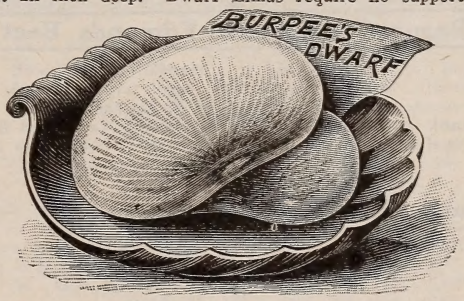
Lima Beans are not only profitable as green shell beans, but are also a paying crop to sell as dried beans during winter. They are always in demand and bring good prices.

Lima Beans will not grow until the weather and ground are warm; if planted earlier, the seeds are apt to rot in the ground.

KING OF THE GARDEN LIMA. Vines vigorous and productive, producing a continuous bloom and fruitage to the end of the season. **The pods are of enormous size,** many specimens measuring from 5 to 8 inches, and some containing seven beans to the pod, all perfectly formed and of superior quality. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

DWARF LIMA BEANS

Bush Limas should be planted three feet apart, dropping two or three beans fifteen inches apart in the row. Cover about an inch deep. Dwarf Limas require no support.



BURPEE'S DWARF LIMA. Plants make perfect bushes from eighteen inches to two feet high. They are **sure croppers** and **immense yielders.** Pods as large as those of the Pole Lima, and contain three to five beans of the best quality. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.25.

DREER'S DWARF LIMA. Thick pods and large thick beans, three or four in a pod. Ripens fully ten days earlier than the Pole Lima of same name. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.50.

HENDERSON'S BUSH LIMA. Valuable on account of extreme earliness. Extremely productive, tender, and delicious. The dry beans are small and white. The best variety to use for canning. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

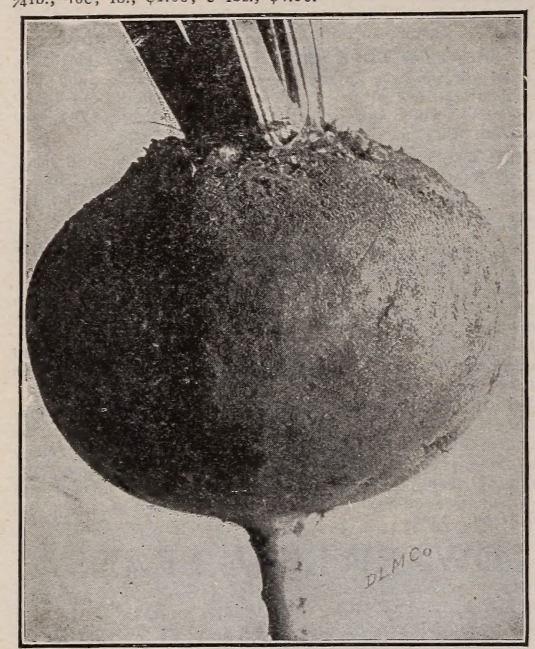
FORDHOOK BUSH LIMA. This is an excellent bush Lima bean for the home garden. It is a type between the Burpee's and Dreer's. Very good yielder, the pods being well filled with thick, meaty beans, which are excellent for cooking. Pkt., 10c; carton, 15c; pt., 25c; qt., 45c; pk., $3.25.

RUNKELRUEBEN, Ger. # BEETS BETTERAVE, Fr.

Sow as early in the spring as ground can be worked, and for succession, every two weeks after up to the first of July, in drills twelve to fourteen inches apart, and when well up thin to from four to six inches. The young plants removed in thinning are excellent cooked in the same manner as Spinach. Take up the roots in October and store in cellar like potatoes. Covered with sand they will keep in nice, tender condition for winter use.

One ounce will sow 50 feet of drill; 5 to 6 pounds are required for an acre.

Crosby's Egyptian Much in demand by market gardeners for forcing and early out-of-door sowing. This beet is perfect in shape, and deepest red, almost black, in color. Equally good for early bunching as well as the fall market. Its fine color and superior quality make this one of the best beets. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.00; 5 lbs., $4.50.



Barnard's Selected Edmands Beet

Good for bunching, and is a standard winter beet. Its uniformity, handsome appearance, small top, and single tap root commend it most strongly to the market gardener, and **for table use scarcely any other variety can equal it in fine quality.** The skin is deep blood-red in color, flesh dark red, sweet and tender. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.00; 5 lbs., $4.50.

Crimson Globe Handsome in shape, a little deeper than round, with a smooth surface and small tap root. Flesh deep crimson, ringed and zoned. Not only desirable for bunching for early use, but it is good for main crop, as it keeps well until spring. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c; 5 lbs. for $4.00.

DEWING'S BLOOD TURNIP. Suitable for market men. Medium size; smooth skin; flesh red with white bands. Good main crop variety. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c; 5 lbs. for $4.00.

EARLY BLOOD TURNIP. An old and standard variety. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c.

Fireball Handsome globe-shaped Beet, with particularly smooth skin, and as the name implies, very attractive color. The flesh is solid and sweet, fully the equal in quality of any of the table varieties of Beet. Its chief recommendation, however, is in its extreme earliness, which combined with many other superior qualities, makes it an ideal Beet for either private growers or market gardeners. Pkt. 5c; oz., 15c; ¼lb., 40c; lb., $1.25.

ECLIPSE. This is not only an extra early beet, but if sown late, it is valuable for winter use. Its rapid growth, extreme earliness, neat globe shape with small top and bright crimson color, make this a most popular sort with growers. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c; 5 lbs. for $4.00.

HALF-LONG BLOOD. One of the best beets for winter and spring use. The roots are pear-shaped, smooth, and handsome; flesh a rich dark red, crisp, tender, sweet, and retaining its excellent quality longer than any other sorts. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., 90c.

IMPROVED LONG DARK BLOOD. Tops large, necks small, leaf stems and vines red, leaf green, roots large, tapering, growing even with the surface. Flesh dark red, zoned with lighter shade, tender and sweet and remaining so when kept till spring. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c.

DETROIT DARK RED. A medium early globe-shaped beet of excellent quality. It is especially esteemed on account of its dark-red color which extends entirely through the beet, and without the light-colored rings seen in some varieties. The beets are smooth and handsome. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., 90c; 5 lbs., $4.00.

SWISS CHARD, or Sea Kale Beet

It is superior to the common beet for greens; if sown at the same time, it will be fit for use before it. Later, the plants form broad, wax-like stems to the leaves, which are very delicious cooked or pickled. They have a flavor similar to spinach. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c.

MANGEL-WURZEL AND SUGAR BEETS

One ounce for 50 feet of drill; 5 lbs. for an acre.

MAMMOTH LONG RED. On good soil sometimes grows eighteen inches long. Dark leaves; skin bright dark red; flesh white with veined rings of rose-pink. An excellent keeper; nutritious and milk-producing. Oz., 5c; ¼lb., 15c; lb., 50c; 5 lbs., $2.00; 10 lbs., $3.50.

GOLDEN TANKARD. A yellow-fleshed variety highly prized by dairymen for milk-producing qualities. Oz., 5c; ¼lb., 15c; lb., 45c; 5 lbs., $2.00; 10 lbs., $3.50.

CHAMPION GLOBE. The best **round** Mangel. It is valuable for shallow soils, a better keeper than Long Red. Oz., 5c; ¼lb., 15c; lb., 45c; 5 lbs., $2.00; 10 lbs., $3.50.

THE BEST SUGAR BEETS

KLEIN WANZLEBEN. White flesh. Contains much sugar. Oz., 5c; ¼lb., 15c; lb., 50c; 5 lbs., $2.00; 10 lbs., $3.50.

LANE'S IMPERIAL SUGAR BEET. Forms a large root, long and tapering. Snow white flesh. Oz., 5c; ¼lb., 15c; lb., 45c; 5 lbs., $2.00; 10 lbs., $3.50.

BORECOLE, or Kale

DWARF GERMAN, or GERMAN GREENS. A dwarf variety, rarely exceeding 18 inches in height, but spreading out under good cultivation to 3 feet in diameter; the leaves are very beautifully curled, and of a bright green. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 85c.

GREEN CURLED SCOTCH. About two feet high. Pkt., 5c. oz., 10c; ¼lb., 25c; lb., 85c.

BROCCOLI, Fr. ## BROCCOLI SPARGELKOHL, Ger.

Taller and more hardy than Cauliflower, but otherwise very similar to that delicious vegetable. Culture and use are identical with that of Cauliflower.

One ounce of seed for 2,000 plants.

EARLY PURPLE CAPE. Pkt., 5c; oz., 30c; ¼lb., $1.00.

WHITE CAPE. Pkt., 5c; oz., 30c; ¼lb., $1.00.

BRUSSELS SPROUTS

These are miniature cabbages produced from the side of the stalk. They are regarded as a great delicacy boiled and served in the same manner as Cauliflower. Sow in seed bed in May, transplant and cultivate like cabbage. Pkt., 5c; oz., 15c; ¼lb., 45c; lb., $1.25.

Add 8c to pound prices if we are to mail. Smaller quantities are postpaid at prices named.

MOEHREN, Ger. # CARROTS CAROTTE, Fr.

For Market or Home Garden

This is a vegetable deserving to be more generally cultivated, both for use upon the table and for stock feeding purposes. There is no more healthful root crop.

For early, sow in spring as soon as ground can be worked, in drills 15 inches apart, covering one-half inch. For the main crop, sow from the middle of May to the first of July. Thin out in row from 5 to 6 inches apart. Hoe often and deeply between the rows. Light, sandy loam, richly manured, is the best soil.

One ounce will sow about 125 feet of drill.

Barnard's Improved Danvers

This is a splendid strain which produces a fine, broad-shouldered carrot about ten inches long, very uniform in shape. Color is a handsome orange red. Skin smooth with very few indentations. In quality it has no superior. The flesh is close grained, sweet and of good flavor. It is the favorite carrot with our market garden customers. An enormous yielder, and therefore a valuable carrot for stockmen as well sa the garden. Pkt., 10c; oz., 20c; ¼lb., 40c; lb., $1.25; 5 lbs., for $5.50.

Chantenay Deep red flesh, fine grained and sugary. One of the best for home or market garden. It is early, grows about six inches long; stump rooted, always smooth. A heavy cropper. This carrot will please everybody. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c.

OX HEART, or Guerande. Much esteemed either for family use or market. It is intermediate between the half long and horn varieties. Roots are about six inches long, cylindrical in shape, and rich orange color. The flesh is fine grained, little core. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c.

HALF LONG SCARLET, Pointed. Much used for bunching, especially when young; of fine quality, medium early. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.00.

EARLY SCARLET SHORT HORN. Short, nearly round, good for shallow soil. Adapted for forcing for market and culture for early home use. Deep orange in color, flavor excellent. Pkt., 5c; oz., 15c; ¼lb., 35c. lb., $1.00.

DANVERS, HALF LONG. A smooth, well-formed carrot, which grows to medium size, tapering to a point. Valuable for a feed crop. Flesh orange color. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c.

HALF LONG SCARLET NANTES. An early stump-rooted variety about six inches long, that is valuable for table use. Flesh red, little core. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., 90c.

Carrots for Stock Feeding

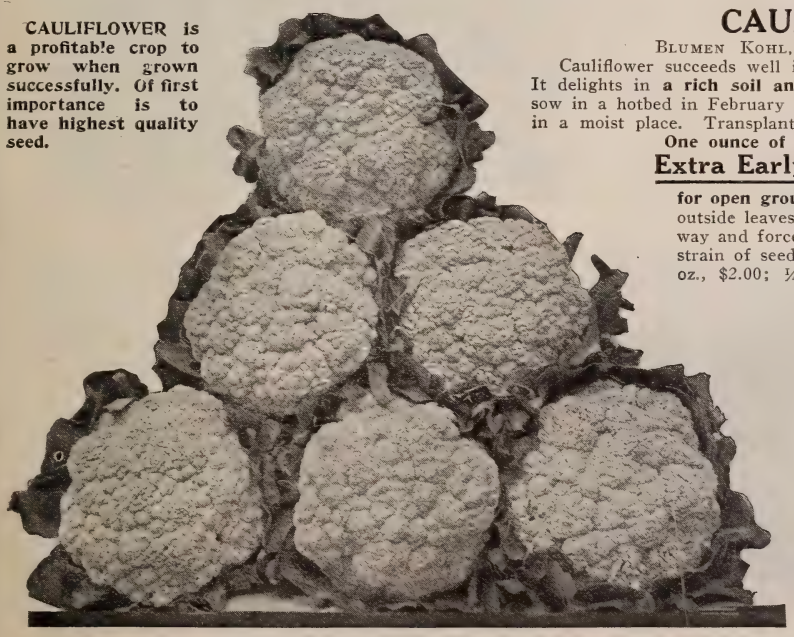
For feeding horses and milch cows, carrots are unsurpassed. **Four pounds of seed required for an acre.**

IMPROVED LONG ORANGE. Requires deep soil; plants should stand 8 inches apart in 18-inch drills for roots to attain full size. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., 80c.

LARGE WHITE BELGIAN. Grows one-third above ground. Root pure white, green above ground with small top; flesh rather coarse. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 65c; 5 lbs. for $2.75.

BARNARD'S IMPROVED DANVERS CARROT

CAULIFLOWER is a profitable crop to grow when grown successfully. Of first importance is to have highest quality seed.



BARNARD'S SNOWBALL CAULIFLOWER

CAULIFLOWER

BLUMEN KOHL, Ger. CHOUFLEUR, Fr.

Cauliflower succeeds well in any soil where cabbages will grow. It delights in **a rich soil and plenty of water.** For early sorts, sow in a hotbed in February or March; for later crop, sow in May in a moist place. Transplanting should be done in moist weather.

One ounce of seed for 3,000 plants.

Extra Early Dwarf Erfurt **Best for Forcing. Good for open ground.** Dwarf and very solid, with short outside leaves. Can be planted 20 inches apart each way and forced. Almost as early as Snowball. Our strain of seed is very choice. Pkt., 20c; ¼oz., 75c; oz., $2.00; ¼lb., $7.50.

Barnard's Snowball

For main crop and for every purpose except for first early, or for culture under glass (for which we recommend the Extra Early Dwarf Erfurt) we emphasize **Barnard's Snowball** as a variety of the highest quality and reliable, sure cropping strain. Pkt., 20c; ¼oz., 75c; oz., $2.00; ¼lb., $7.50.

EXTRA EARLY PARIS. Still used by some gardeners. Pkt., 5c; ½oz., 30c; oz., 50c.

DENMARK. A favorite second early and main crop sort. It makes large and fine heads. Pkt., 10c; ¼oz., 50c; oz., $1.50.

AUTUMN GIANT. Late; vigorous grower. Pkt., 5c; ½oz., 30c; oz., 50c.

Kopfkohl, Ger. **CABBAGE** Chou Pomme, Fr.

OUR CABBAGE SEED is grown under the care of practical, painstaking and reliable men; in localities where experience and thorough tests have proved the climate and soil to be the best adapted to their production in highest perfection; from fully developed, perfect heads, carefully cured and stored until time of planting; thoroughly tested as to vitality, our seeds can but give satisfaction, and we unhesitatingly recommend it for the use of either market or private gardener.

All that Cabbage requires is the soil to be rich, deep, well-drained, and abundantly manured. For the early kinds, plant 30 inches between the rows and 16 inches between the plants. For the late kinds, three feet between the rows and two feet between the plants. For very early use, sow in January or February, in hotbeds. Set out when the plants are strong enough into other hotbeds, or set in cold-frames in March. Transplant when danger from frost is past to the open ground. For a succession, sow in the open ground last of March or early in April. The late or winter crop seed can be sown in May and the plants set out in July. **An ounce of seed produces 1,500 plants; one-half pound to transplant for an acre.**

HOW TO DESTROY CABBAGE WORMS. Slug Shot can be used lightly or heavily and the cabbage suffers no harm. The cabbage forms its head by the interior growth; it throws off its earlier and outside leaves, and no dust can enfold within its head. Apply Slug Shot with a duster, sieving it over the plants or full-grown cabbages. The powder is very fine and goes a long way in field or garden. **Not prepaid, 5lb. pkg., 35c; 10lbs., 70c; Tin Duster, each, 35c.**

Copenhagen Market This is very heavy and solid, like the "Ballhead" type of cabbage; makes a fine, large, globe-shaped head with well-developed outside leaves, **but is very much earlier in maturing** than any of the Danish Cabbages, in fact as early as Early Jersey Wakefield, and will give a much heavier yield per acre than that variety. It is short-stemmed, the heads being produced almost on the ground. The leaves are tightly folded around each other, which permits close setting of plants. **The heads mature all at the same time.** Pkt., 10c; oz., 35c; ¼lb., $1.25; lb., $4.00.

CABBAGE, COPENHAGEN MARKET

GLORY OF ENKHUIZEN. A very good cabbage. Medium in size, forms a ball-shaped head which is very firm and of good keeping quality. Matures about two weeks later than Copenhagen Market. This is a desirable cabbage for home use. It is a valuable second-early for those who grow for the market. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

ALL HEAD EARLY. Heads flat, deep, and solid; valuable also for late. Seeds sown in July and set out in August will make fine heads. Largely planted by market gardeners. Nearly 10,000 can be grown on an acre, and almost every one will head. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.75.

EARLY SPRING. The **first early round-head** Cabbage, maturing about the same time as Jersey Wakefield. One of its chief claims to superiority is the remarkable uniformity of the heads. They are also very solid, even when young. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

EARLY SUMMER. Matures about ten days later than Early Jersey Wakefield. Heads are large, nearly round, somewhat flattened. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

EARLY DWARF FLAT DUTCH. A well-known early short-stem variety. Heads of medium size and very compact. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

CABBAGE, EARLY JERSEY WAKEFIELD

Winningstadt An old and famous type of second-early cabbage. It makes a large, conical head, about ten days later than Wakefield. Color, a bright, glossy green. Valuable not only for early use, but as a winter cabbage. A vigorous grower, it thrives even under unfavorable conditions. Pkt., 5c; oz., 15c; ¼lb., 50c; lb., $1.75.

Early Jersey Wakefield Long recognized as the best, earliest **marketable** cabbage. In size, medium; in shape, pyramidal with pointed peak. Its uncommonly fine heading qualities, together with its fitness for wintering in cold frames, pleases the most critical gardeners. Our strain of seed is of superior quality. Pkt., 5c; oz., 25c; ¼lb., 60c; lb., $2.25.

LARGE WAKEFIELD, or CHARLESTON. The heads are similar in form, although generally not so pointed, but of equal solidity as the original **Jersey Wakefield**, while they grow half again as large, reaching full size about ten days later. Pkt., 5c; oz., 25c; ¼lb., 60c; lb., $2.25.

CABBAGE PLANTS

At the proper season, we shall have ready for delivery all the leading varieties, both early and late. See page 28.

CABBAGE, continued

Second Early, or Main Crop

ALL ROUND FLAT HEADS

ALL SEASONS. A splendid main crop sort, much grown by market gardeners; is also an excellent variety for home use. Remarkable for its ability to stand hot sun and dry weather. Makes solid, hard heads, of large size. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

FOTTLER'S IMPROVED BRUNSWICK. We have a superior strain of this seed, which brings large, flat, solid heads of excellent quality. Stem very short. A sure header. Pkt., 5c; oz., 15c; ¼ lb., 60c; lb., $2.25.

Chicago Market Cabbage

This valuable Cabbage continues to give the utmost satisfaction, not only to Chicago gardeners, but in every locality in which it has been introduced. **We have yet to find a variety more thoroughly adapted to general culture and which combines so many good qualities as our "Chicago Market" Cabbage. It will surely please you.** Planted early, it develops fine, large, solid heads one week later than the Wakefield, while if set out later it makes excellent heads for winter use. It stands the hot sun well, is almost certain to head, and does not crack; is an excellent keeper. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.75.

AUTUMN AND WINTER SORTS

Surehead A compact-growing, general crop Cabbage that is well named, as it can be relied upon with certainty to head even under unfavorable circumstances. The heads are large, hard, firm, fine in texture, and sweet flavored. It is a late variety, keeps well, is good for shipping, and is a favorite sort with market gardeners and also for home use. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.25.

Danish Ballhead Cabbage

The Best Cabbage for Spring Sales

For several years our strain of this Cabbage has been known to be unexcelled. **Danish Ballhead** commands a higher price in the market than any other variety. It is remarkable for the **solidity of its heads and long-keeping qualities.** The heads are of medium size, with a few outer leaves, admitting of close planting; exceedingly fine-grained, hardest of all, tender, crisp, solid, with no waste heart. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

Danish Short Stem As compared with Ballhead, Danish Short Stem is ready for market ten days earlier. Heads of medium size; lighter in color; outer leaves set very close, producing more weight to the acre. Seed imported direct from Denmark. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

CABBAGE—CHICAGO MARKET

LATE WINTER CABBAGE, continued

SELECTED LATE FLAT DUTCH. It grows very large, is remarkably hardy, a sure header, uniform in shape, size, and color. Few varieties can approach this for superior quality. Market gardeners grow this very extensively for a late crop. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

PREMIUM LARGE LATE DRUMHEAD. Head enormous. Very hardy and desirable fall and winter variety, also a good shipper. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

LUPTON. This fine Cabbage has now acquired a splendid reputation. It is a dark green in color, has a short stem, and is **one of the best keepers,** coming out in the spring bright and fresh; a little earlier than Flat Dutch and Drumhead. We have some very choice seed. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., $2.25.

HOLLAND. The superior merit of this variety is the hard heading and long keeping quality. Heads medium size; white. If properly stored, they will be found, when taken up in spring to be in perfect condition. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50.

Autumn King, or World Beater Large, broad heads are uniform in shape, hard and solid as a rock, fine grained and tender—more so than any other very large cabbage. Forming so few outer leaves, it goes almost **all to head.** It is a rapid grower, and does not require special culture to bring out its excellencies. Pkt., 5c; oz., 25c; ¼lb., 60c; lb., $2.25.

RED CABBAGE

MAMMOTH RED ROCK. By far the *best,* largest, and hardest heading red cabbage in cultivation; very uniform in size, weight, solidity, and deep red color. The heads grow to weigh 10 or 12 pounds. Pkt., 5c; oz., 25c; ¼lb., 60c; lb., $2.25.

SAVOY, or CURLED LEAVED

The quality and flavor of these "curled-leaved" Cabbages is very superior; grown in fall and allowed to be touched by frost, they are sweet, delicate, and most delicious.

AMERICAN DRUMHEAD SAVOY. The best of its class for home use and market. Heads large, **solid and compact.** Has rich, sweet flavor of the cauliflower when cooked. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.00.

HAMMOND'S SLUG SHOT
Kills Insects, Saves Foliage.

SLUG SHOT kills cabbage worms, also cucumber, melon, squash and potato bugs. Contains nothing in the least injurious. 5-lb. pkg. *not prepaid,* 35c; 10 lb., 70c.

SELLERIE, Ger. **CELERY** CELERI, Fr.

Celery can be successfully grown with but little labor in a home garden, in any good garden soil, by following the very detailed instructions contained in the little book **"CELERY CULTURE,"** which we mail, postpaid, for 50 cents. Celery delights in low, moist, rich bottom land, or well-drained muck soil. It is usually grown as a second crop. The self-blanching Celeries are recommended for autumn and early winter use, as they do not keep so well as others.

Celery is sometimes grown by what is termed the new process, which consists in making a spot as rich as possible and there setting the plants six to eight inches apart each way. If the soil is very rich and there is an abundance of water, the plants will blanch each other and the product will be very white and handsome.

One ounce of seed will produce 3,000 plants or more.

Golden Self-Blanching

THE best celery in cultivation and the most profitable for market and family use. The handsome appearance and straight, strong stalks of this celery are well brought out in the illustration. The heart is large, solid, golden yellow in color, and of delicious flavor. It will turn at maturity to a yellowish white without banking, but like all other celeries is improved by having some soil brought up to the stalks. Pkt., 10c; oz., $1.00; ¼lb., $3.50.

CELERY—GOLDEN SELF-BLANCHING

White Plume

The peculiarity of this leading variety is that the inner leaves and heart are **naturally** white, so that by closing the stalks, either by tying or by drawing the soil close about the plant and pressing it together with the hands, the blanching is completed. It is the **earliest** Celery in cultivation, but will not keep longer than the holiday season. Pkt., 5c; oz., 20c; ¼lb., 60c.

GIANT PASCAL. Broad, thick, solid, cream-colored stalks of handsome appearance which are entirely stringless, crisp and tender. For January and February use is undoubtedly unexcelled. It is a good shipping variety, free from rust or rot. Pkt., 5c; oz., 15c; ¼lb., 50c.

PERFECTION HEARTWELL. One of the best of the white varieties. The stalks are of good size, vigorous growth, very sound and never hollow; crisp, tender, and of exceedingly fine nutty flavor. Pkt., 5c; oz., 15c; ¼lb., 50c.

EVANS' TRIUMPH. The best late Celery. Not only a splendid keeper, but the very large solid stalks are of the finest texture and quality, crisp, brittle, tender, and really nut-like flavor, and has a stronger celery taste than any other variety. Per pkt., 5c; oz., 15c; ¼lb., 50c.

GIANT WHITE SOLID. Fine for market as well as family garden. Pkt., 5c; oz., 15c; ¼lb., 50c.

NEW ROSE. We offer this as the choicest of the red varieties. Pkt., 5c; oz., 20c; ¼lb., 60c.

GIANT GOLDEN HEART. Large size, beautiful color, crisp and deliciously flavored. One of the best celeries for market, and for home use. Pkt., 5c; oz., 15c; ¼lb., 50c.

DWARF GOLDEN HEART. A distinct, rare, and decidedly ornamental type; when blanched, being an exquisite golden yellow. Pkt., 5c; oz., 15c; ¼lb., 40c.

WINTER QUEEN. Makes broad and solid white stalks. Close, compact grower. Pkt., 5c; oz., 15c; ¼lb., 50c.

BARNARD'S GIANT CELERIAC

CELERIAC, or TURNIP-ROOTED CELERY

Produces large turnip-like roots which keep well for winter use; it is highly esteemed either cooked for flavoring soup or sliced and used with vinegar, making an excellent salad. It is cultivated like celery, little or no earthing being required. Ready for use in October. **One ounce for 50 feet of row.**

BARNARD'S GIANT. Very large roots. Flesh white with a stronger and sweeter flavor than other varieties. Pkt., 10c; oz., 25c; ¼lb., 85c.

LARGE SMOOTH PRAGUE. One of the best. Roots smooth, and almost round. An excellent keeper. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.00.

CHERVIL Used for flavoring or garnishing, and is more beautiful than Pars'ey. Sow in early spring in rich soil, and when plants are large enough, transplant to a foot apart. Pkt., 5c; oz., 10c.

CHICORIC, Ger. **CHICORY** CHICOREE, Fr.

LARGE-ROOTED, or COFFEE. The roots, when dried, roasted, and ground, are largely used as an adulterant or substitute for coffee. The young leaves are excellent when used as a salad. Cultivate same as carrots. Pkt., 5c; oz., 10c.

WITLOOF. This variety is becoming very popular as a valuable salad plant for winter use. The seed, when planted in the spring, will produce roots for winter forcing. Pkt., 5c; oz., 20c; ¼lb., 50c.

CHIVES Their green tops, which appear in early spring, are used wherever the flavor of onions is desired. They are entirely hardy. One or two clumps are sufficient for a family garden. Clumps, 20c each, prepaid. Not prepaid, each, 15c; dozen, $1.25.

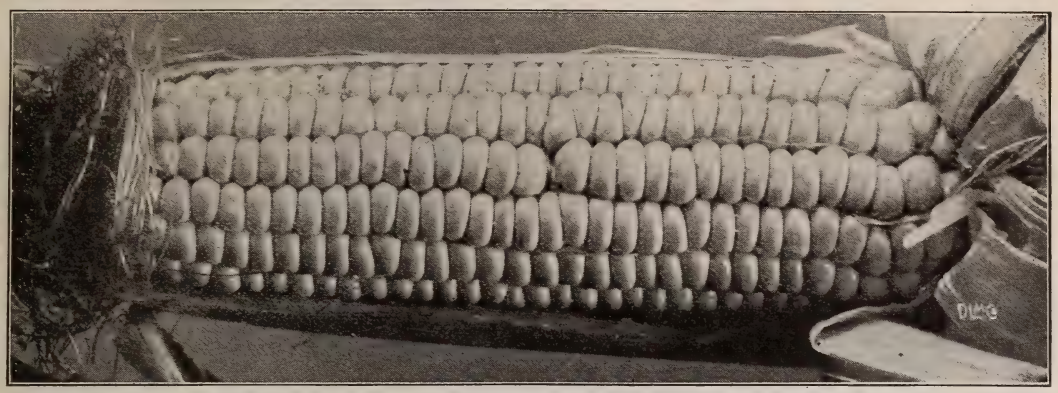
WELSCHKORN, Ger.

CORN, Sweet or Sugar

MAIS, Fr.

Seeds of Sweet or Sugar Corn being liable to rot in cold or wet ground, should not be planted before May, or **until the ground has become warm.** For a succession, continue planting every two weeks until the middle of July, in rich, well-manured ground, in hills three feet apart each way, covering about half an inch, and thin out to three plants to a hill. The extra early varieties can be planted 18 inches in the row and 2½ feet between the rows.

One quart of seed corn plants 200 to 300 hills; one peck will sow an acre in hills.



CORN, GOLDEN BANTAM

Golden Bantam We place this at the head of our list as we consider it the ideal Corn for the home garden. It is comparatively a new variety that already has won for itself the highest mention in nearly every seed catalog. For sweetness and richness of flavor it has no equal It is a hardy, early maturing variety of very dwarf growth and can, therefore, be planted closer than other sorts and through a longer range of season. The cob is small, but fills out nicely with large, deep, cream-colored kernels, which turn to yellow when entirely ripe. Our seed is northern grown, which assures the highest standard of vitality and permits of very early planting. No family garden should be without a plot of this excellent Corn. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.35; bu., $5.00.

MAMMOTH WHITE CORY. This is the favorite early variety with our market gardeners. It is a larger Corn than the old Early White Cory, has a fine, broad white kernel that is very sweet. It is a dwarf variety and a wonderfully prolific yielder, the ears being very uniform in size. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25. bu., $4.50.

PEEP-O'-DAY. A very dwarf but very early white variety, probably the earliest in cultivation, sweet and of good quality. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25; bu., $4.50.

PREMO. This is an early white variety of good quality, ears ranging from 5 to 7 inches in length and produce generally two to a stalk. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.10; bu., $4.25.

COUNTRY GENTLEMAN. One of the best known of the mid-season varieties. Is the old shoepeg type of kernel; pure white, very sweet and tender. It is a good yielder and remains ready for use longer than any other sort. Extensively used for canning. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25; bu., $4.50.

EARLY CHAMPION. A good second early Corn, especially valuable to market gardeners, who always find a ready sale for large, well-filled ears. Quality is excellent. It is also a very productive variety, averaging two to three ears to a stalk. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.10; bu., $4.25.

KENDEL'S EARLY GIANT. As the name implies, this is a very large Corn, maturing in season with the Early Champion and like that one, a favorite with market gardeners. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.10. bu., $4.25.

CHICAGO MARKET. Quite a popular variety with the market gardeners in the vicinity of Chicago on account of its productiveness, large size, and splendid table qualities. Kernels white, ripening in mid-season. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25; bu., $4.50.

BLACK MEXICAN. Well known and a favorite in a great many home gardens, the kernels having a decidedly bluish tinge when ready to eat, later turning to black. It is one of the sweetest varieties in cultivation. Price: Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25; bu., $4.50.

Stowell's Evergreen The most popular late Sweet Corn. More extensively planted than any other sort, being the general favorite with market gardeners and canners for late use. If planted at the same time with earliest kinds, it will keep the table supplied until October. Ears are of good size, grain deep, tender, and sugary, remaining a long time in condition for cooking. Pkt., 5c; pt., 15c; qt., 25c; pk., $1.10; bu., $4.25.

EARLY EVERGREEN. Possessing all the merits of the Stowell's and maturing about ten days earlier. It is a splendid Corn for either the gardener or canner. Pkt., 5c; pt., 15c; qt., 25c; pk., $1.10; bu., $4.25.

ZIG ZAG EVERGREEN. Pkt., 5c. pt., 15c; qt., 25c; pk., $1.25; bu., $4.50.

EXTRA EARLY ADAMS. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.00; bu., $3.25.

Other Varieties Carried in Stock

Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.10.

CROSBY'S EARLY. This is extensively grown for canning. Ears short, grain thick and sweet. Comes in three or four days later than Early Minnesota.

EARLY MINNESOTA. An old and popular dwarf variety. One of the best for market and private gardens.

EARLY RED CORY. Dwarf in habit. Ears of fair size. Cob red. An old standard.

SHAKER'S EARLY. A favorite market sort.

MOORE'S CONCORD. Medium early; 12 to 16 rowed. Ears large and well filled. Good to follow Crosby.

PERRY'S HYBRID. Nearly as early as Minnesota; larger ears, twelve to fourteen rowed.

OLD COLONY. Ripens a little ahead of Stowell's Evergreen. Stalks grow tall and carry usually two large ears.

MAMMOTH. Ripens a little later than Evergreen. Large ears; kernels flat; largely used by canners and gardeners.

POP CORN **A Profitable Crop.** Boys and girls can easily grow an acre or so and dispose of the product to the groceryman. We have choice seed. It pops large and white. Pkt., 5c; pt., 15c; qt., 25c; pk., $1.00.

If to be mailed, add 5c to pint, 10c to quart, for postage, to price.

COLLARDS A form of cabbage very extensively used in some of the Southern States. One ounce for 150 feet of row. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

CORNSALAD, or Fetticus

One ounce will sow about 18 square feet.

BROAD-LEAVED (Large-Seeded). A delicious salad, used during the winter and spring months as a substitute for lettuce, and also cooked and used like spinach. **Pkt.,** 5c; oz., 10c; ¼lb., 25c.

CRESS, or Peppergrass

Sow early in the spring, rather thickly, in shallow drills, one foot apart, in the open ground.

DOUBLE CURLED. For salads and garnishing. Leaves are pungent. Pkt., 5c; oz., 10c; ¼lb., 20c.

WATER CRESS. Scatter the seed on a muddy bank of an ever-running stream. Pkt., 10c; oz., 30c.

UPLAND CRESS. Perennial. It is ready to use very early in spring. Has the flavor of Water Cress. **Pkt., 5c; oz., 25c.**

GURKE, Ger. # CUCUMBER CONCOMBRE, Fr.

Cucumbers succeed best in warm, moist, rich, loamy ground. They should not be planted in the open air until there is a prospect of settled warm weather. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil in each a shovelful of well-rotted manure. Sprinkle the vines liberally with **Slug Shot** to protect from bugs, and when all danger from insects is past, thin out the plants, leaving three to four of the strongest to each hill.

One ounce of seed will plant about 50 hills; two pounds will plant an acre.

DAVIS PERFECT CUCUMBER

Davis Perfect A splendid cucumber for the home garden and for the truck farmer. Possesses all the merits of the best slicing varieties; wonderfully uniform in shape and exceedingly productive. Their handsome shape and fine dark green color commands the highest price on the market. For that reason it is rapidly becoming a favorite with our market garden customers. Also a good greenhouse Cucumber. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

EVERGREEN WHITE SPINE. An extra long, dark green Cucumber, one of the very best for slicing and an excellent variety for shipping. We can recommend this for either the home gardener or trucker. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

IMPROVED LONG GREEN. This is an old, well-known variety, attaining a length of about 12 inches. A favorite for sweet pickles and also desirable for slicing. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

Cumberland A distinct variety of the White Spine type. The fruits are rich, dark green, large, **straight and symmetrical.** Cumberland is as choice a slicing variety as it is for pickles. The flesh is solid, crisp, tender, and of excellent quality at all stages of growth. Pkt., 5c; oz., 10c. ¼lb., 30c; lb., $1.00.

Chicago Pickling Originating in Chicago, it is now known the country over as one of the most valuable of the pickling varieties. Of robust growth, it is a reliable and heavy cropper. Fruit is a fine dark green color. In shape, tapering to each end and very uniform. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

JERSEY PICKLING. A standard pickling variety, slender and tapering, of good quality and color. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00

ARLINGTON WHITE SPINE. This variety is used for forcing in frames and hothouses. Long fruits of dark green color. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

KLONDIKE. Averages 6 to 7 inches in length. Color, dark green. The young fruits are good for pickles. Also one of the best for slicing. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

EARLY CLUSTER. Vine vigorous, producing the bulk of the crop near the root and in clusters. Fruit short, with uniformly thick end, dark green, but paler at blossom end. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

EARLY FRAME, or SHORT GREEN. A desirable variety either for pickling or slicing. Fruit bright green, straight, round at each end. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

EXTRA EARLY GREEN PROLIFIC. Ten days earlier than the ordinary kind. Small, good for pickles. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

NICHOLS' MEDIUM GREEN. An old standard variety of good size and superior quality. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

WEST INDIA GHERKIN, or BURR. Small, prickly fruit. This is the variety that is used for small pickles. Pkt., 5c; oz., 10c; ¼lb., 50c.

JAPANESE CLIMBING. This variety can be trained upon fences and trellises, producing good fruit for slicing or pickling, and is quite a novelty in the garden. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.25.

FORCING CUCUMBERS

TELEGRAPH. Suitable only for growing in frames or in greenhouses. Smooth green fruit, 14 to 16 inches in length. Pkt., 20c.

Add 8c to pound prices if we are to mail. We pay postage on smaller quantities.

NEW YORK IMPROVED EGG PLANT

EGG PLANT

EIERPFLANZE, Ger. AUBERGINE, Fr.

Sow in hotbed early in spring; transplant 2½ feet apart each way after weather becomes settled and warm. If no hotbed is at hand, plants may be started in pots or boxes. The potato beetle is very fond of the plants. Paris Green, also Slug Shot, applied same as to potatoes, will keep them in check. **One ounce for 1,000 plants. For prices on plants, see page 28.**

NEW YORK IMPROVED PURPLE. This variety is a general favorite both for market and private use. Plants large, spreading, foliage light green; fruit very large, oval; color a splendid dark purple. Plants usually ripen four to eight large fruits. Pkt., 5c; oz., 35c; ¼lb., $1.00.

ENDIVEN, Ger. **ENDIVE** CHICOREE, Fr.

For the first crop, sow in May, and for succession, in June and July. When the plants are two or three inches high, transplant them into light soil, one foot apart. When the leaves are eight to ten inches long, tie the tops together to blanch the heart and remove the bitter taste. Lift late in fall with ball of earth attached and place close together in a frame or cellar. **It makes a delicious salad for winter use. One ounce will sow 150 feet of drill.**

GREEN MOSS CURLED. A unique variety, somewhat resembling a tuft of moss. Very crisp, tender, and of good flavor. Being less hardy than other sorts, it requires protection from cold. Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., $1.00.

BROAD-LEAVED BATAVIAN. Has slightly wrinkled thick leaves. It is usually grown for use in soups and stews. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00.

GARLIC Used by some for seasoning soups, stews, etc. Plant the sets in spring and cultivate like onion sets. ¼lb., 15c; lb., 40c, postpaid.

HORSE RADISH This is grown from pieces of roots. Plant in spring, small end down. Sets by mail, postpaid: dozen, 25c; 100, 75c. In larger quantities, write for prices.

KOHLRABI

Turnip-Rooted Cabbage

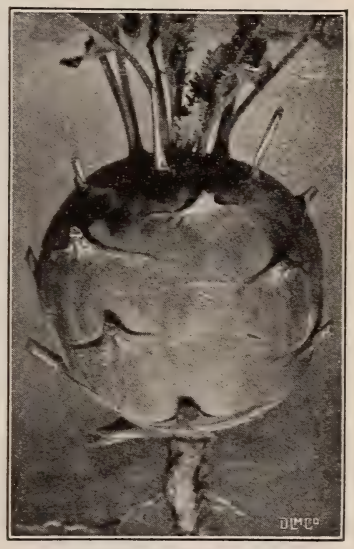
KOHLRABI, Ger. CHOU-RAVE, Fr.

For early use, sow in hotbed, afterwards setting plants 8 inches apart in rows. For later use, sow seed in drills and thin out. **One ounce of seed will sow a drill of about 200 feet.**

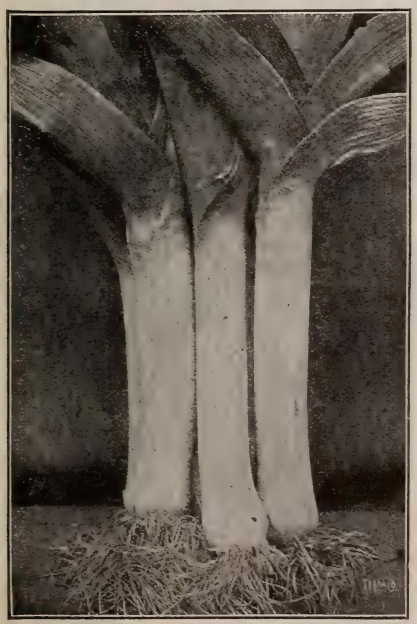
WHITE SHORT LEAVED. Much superior to Vienna. It is very early and **the best for forcing** as well as for outdoor culture. Bulb is greenish-white, smooth, of finest texture and quality. Pkt., 10c; oz., 25c; ¼lb., 75c. lb., $2.60.

EARLY WHITE VIENNA. Early, small, white bulb. Best for table use. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.00.

EARLY PURPLE VIENNA. A little later than the white; color purple. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.00.



EARLY WHITE VIENNA KOHLRABI



LEEK, MUSSELBURGH

USE ORDER SHEETS

The use of order sheet enclosed in this catalog is a great help to us in facilitating filling and shipping of orders. More will be sent on receipt of a postal asking for same.

Keep a Copy of Your Order. Check goods received with this copy.

LAUCH, Ger. **LEEK** POIREAU, Fr.

One ounce of seed to 150 feet of drill.

Sow seed out-of-doors in June and thin out to 4 inches apart. Leek is a vegetable of unusual merit, and is not half appreciated by the American people, while it is regarded as a great favorite by many of our foreign population.

LONDON FLAG. This is the sort chiefly grown by market gardeners. It is of excellent quality, mild flavor and uniform. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.25.

MUSSELBURG. Large and broad leaves. Flavor mild and pleasant. A good Leek. Pkt., 5c; oz., 15c; ¼lb., 40c; lb. $1.50

MONSTROUS CARENTAN. The largest variety often three inches in diameter, and becoming very white and tender. A very hardy and desirable sort, which is worthy of more extensive cultivation. **Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.50.**

Add 8c to lb. price if to be mailed.

LATTICH, Ger. # LETTUCE LAITUE, Fr.

There are two distinct classes of Lettuce. One forms heads like cabbage, the other merely produces loose leaves. The so-called "Head Lettuce" are those most generally cultivated, especially in the home garden All of them are of good flavor, solid, crisp, and tender. **One ounce of seed will produce about 1,500 plants.**

Sow the seed in hotbeds in February or March, and transplant into a sheltering border with a southern exposure. For successive crops, sow in the open ground in early spring continue to do so until July. Always thin out well, or the plants will not be strong. When wanted as a cut salad, sow the seed thickly in rows or broadcast.

Curled or Loose Head Varieties

Black-Seeded Simpson The best known and probably the most largely planted of any variety. Early, hardy, dependable, it is a favorite with market gardeners, both for planting outside or for growing under glass. The leaves are large, light green, quite crimpled throughout but especially frilled at the border. They grow compactly without forming a distinct head, are of firm texture and of good quality either for family use or for shipping. Can be planted later than most sorts as its vigorous growth enables it to withstand the summer heat. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

Grand Rapids Of highest merit as a forcing variety. Owing to its peculiar upright habit of growth, it economizes in bench room and in a short time produces a mass of beautifully frilled leaves of splendid quality for the table or for shipping. It is also an attractive and desirable variety for growing outside in the home garden. We have an excellent strain of seed of this variety which is proving very satisfactory to our customers who grow under glass. Pkt., 5c. oz., 10c; ¼lb., 30c; lb., $1.00.

BLACK-SEEDED SIMPSON LETTUCE

EARLY CURLED SIMPSON. Standard loose-leaf variety, forming a dense growth but not heading. The leaves are light green, curled, and good quality. A satisfactory sort for the home garden. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

PRIZEHEAD. Well known, loose-heading lettuce, quite distinct from most other sorts on account of its peculiar color, light green shading to bright reddish brown. The leaves are somewhat crimped and grow more so at the border. In quality, tender and sweet. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

Cabbage or Heading Varieties

Big Boston A splendid Lettuce for market gardeners, either north or south. Leaves are light green, nearly smooth except the outside edges, which are somewhat ruffled. Forms large and very compact heads that are especially suitable for shipping, for which purpose it is planted very largely in the south for the northern market. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

BIG BOSTON LETTUCE

IMPROVED HANSON. This is one of the very best for the home garden. Forms solid heads with the inner leaves nicely blanched. The outer ones are light green, handsomely frilled at the edges. In quality it has no superior, the heads being of delicate, crisp texture, tender and sweet. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

ICEBERG. Somewhat similar to Hanson, but smaller and of slightly darker color. A good variety for either the market gardener or for family use. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

All Seasons This is a large, solid headed Lettuce, much esteemed by truck growers in the vicinity of Chicago. An excellent variety for the home garden. The leaves are extremely light color, nearly smooth, overlapping each other, nearly blanching the inner ones. Of good substance, sweet and tender. Pkt., 5c; oz., 10c. ¼lb., 30c; lb., $1.00.

CALIFORNIA CREAM BUTTER. Favorite head Lettuce for summer planting and extensively grown in the south. Leaves rich, glossy green, slightly tinged with brown, of good quality and flavor. This is a hardy, reliable variety. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

MAY KING. This is an extremely hardy Lettuce. Can be planted very early in the spring. Matures more quickly than any other of its class, forming large heads, the inner leaves blanching yellow, the outer ones somewhat tinged with brown. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

TRIANON WHITE COS. The varieties of this class are quite distinct from the soft leaf lettuce. The leaves are long and very firm in texture, producing a loaf-shaped head, the inner leaves blanching thoroughly. The quality is excellent, the leaves remaining crisp and fresh. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

TRIANON WHITE COS LETTUCE

We can also supply any of the following well-known varieties at the uniform price of Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00. **Head Lettuce:** Denver Market, St. Louis Market, Wonderful, Black Seeded Tennis Ball, Yellow Seeded Butter, White Seeded Tennis Ball, an excellent forcing sort. **Curled Lettuce:** Early Curled Silesia.

Add 8c to pound rate if we are to mail. Smaller quantities are postpaid at prices quoted.

MUSKMELON

CANTALOUP, Ger. MELON MUSCADE, Fr.

Prepare hills 4 to 6 feet apart in a rich, moderately dry sandy soil, thoroughly mixing therewith well-rotted manure. Early in May, or when ground has become warm, plant 10 to 12 seeds one inch deep in each hill, afterwards thinning out so that 3 or 4 plants remain. Pinch the vines when blossoming begins, to promote fruitfulness, and cultivate till the vines cover the ground. To combat insect attacks, dust with ashes, lime, or road dust. **Use SLUG SHOT to kill them.**

One ounce of seed for 60 hills; 2 to 3 pounds per acre in hills.

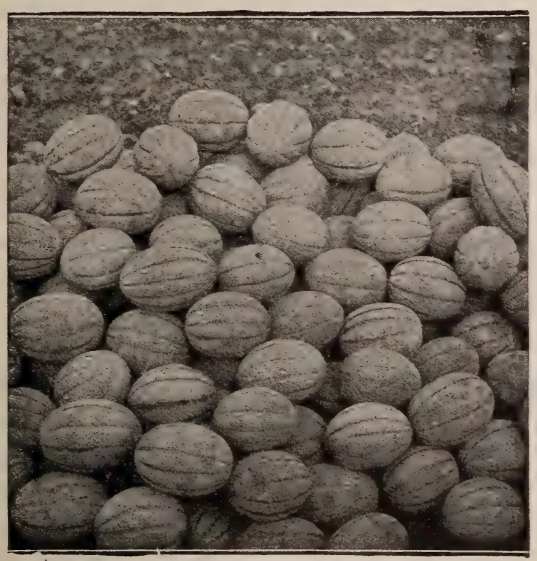
GREEN-FLESHED VARIETIES

EXTRA EARLY HACKENSACK. An early strain of the well-known large Hackensack. Very popular with the market gardeners as it is the first of the large melons to be ready for market. The fruit is of good size, round and heavily netted. Flesh green, very sweet and good flavor. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

CHICAGO MARKET. A large, round melon, much esteemed in the Chicago market. Green flesh, which is thick, fine grained and very sweet. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

LONG ISLAND BEAUTY. A handsome melon. In form nearly round; somewhat flattened at the ends. Matures early and is hardy and reliable. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.25.

MONTREAL MARKET. A very large melon, extensively grown in the vicinity of Montreal. Deep green flesh of excellent quality. The fruits are round, flattened at the ends, and have very broad ribs. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.25.



ROCKY FORD MUSKMELON

Rocky Ford Nearly every leading hotel and restaurant in America uses large quantities of this famous melon, which is just the right size to serve in halves. The ripe melons are beautifully netted and ribbed. Solid green flesh, sweet and melting. We offer a splendid strain of seed of this fine melon, grown for us at Rocky Ford, Colo., saved from specimens that were especially selected for seed purposes. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c.

Henderson's Bush Muskmelon This recent introduction is a very desirable addition to the list of melons, as it is a variety that can be grown to advantage in small gardens where there is not sufficient room for the running types. It is a small, green flesh melon, a dependable cropper, sweet, and of good flavor. Pkt., 10c; oz., 40c.

IMPROVED GREEN NUTMEG. An old, well-known variety. In shape, nearly round. Flesh greenish yellow, sweet, and of delicate flavor. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

GREEN CITRON. An early well-known sort; sweet, juicy, and delicious. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

ORANGE OR SALMON-FLESHED VARIETIES

OSAGE. The best known and most in demand of the red-flesh varieties. Medium size, oval in shape; skin very dark green and slightly netted. The flesh is a rich salmon color, very thick and sweet and of delicious flavor. The market gardeners in the vicinity of Chicago grow this melon extensively, and we have secured a splendid strain of seed to meet their demands. Pkt., 5c. oz., 15c; ¼ lb., 35c; lb., $1.25.

EMERALD GEM MUSKMELON

Emerald Gem Well-known variety of recognized merit. Of medium size, nearly round. Smooth, dark-green skin, salmon-colored flesh, of a lusciousness equaled by few others. One of the best for home use. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.25.

PAUL ROSE. This melon is a cross between the Osage and Netted Gem, and about ten days earlier than the former. Of a size very suitable for shipping in baskets, it is becoming very popular in the market, especially where its superior qualities are known. The thick, red flesh is exceptionally sweet. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.25.

BURRELL'S GEM. A splendid shipping variety, each melon averaging 2¼ pounds in weight. Very tough but thin rind, which is heavily netted. The flesh is an attractive reddish orange and fine-grained, thick and sweet. Has a peculiar flavor. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.25.

HOODOO. A new melon with many good qualities. Its size is about that of the popular Rocky Ford, which appeals to the shipper, while the delicate flavor of the thick, red flesh should commend it to every private gardener. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.25.

TIP TOP. Hardy, vigorous-growing melon of Tip Top quality, commendable to either the truck grower or private gardener. Medium size, yellow flesh, juicy and sweet. Pkt., 5c; oz., 15c; ¼lb., 35c; lb., $1.25.

MANGO MELON, or VINE PEACH. About the size of an orange, sometimes called "Orange Melon." Fine for sweet pickles or preserves. Pkt., 5c; oz., 25c.

GARDEN LEMON. Similar in size and habit of growth to Mango Melon, but with sharper flavor. Pkt., 5c; oz., 25c.

Add 8c to pound prices if we are to mail.

WASSERMELONE, Ger. # WATER MELON MELONE D'EAU, Fr.

Watermelons delight in a light, sandy soil, fully exposed to the sun. Plant in hills 8 feet apart each way. Put eight or ten seeds in each hill; when danger from insects is past, thin out to three plants.

One ounce of seed will make 20 or 30 hills; 4 pounds are sufficient for an acre.

Tom Watson Although one of the newer varieties, it is now universally known and planted. No doubt, one of the very best of the large sorts. Attains a weight of about 50 pounds. Oblong in shape, with a thin but tough rind. Dark green, somewhat mottled. The flesh is solid and sweet, of a very handsome scarlet throughout. The many merits of this melon recommend it to both the shipper and the home gardener. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

Kleckley Sweets A splendid melon for the home garden. Weighs 20 to 25 pounds. Oblong shape. Dark green rind, very thin. Flesh unusually sweet and fine grained. Ripens close to the rind. Of recent introduction, it has become very popular. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

Cole's Early For the northern states this is desirable on account of its extreme earliness and vigorous growth. Rather small and nearly round in shape. Light green rind, striped with darker green. Scarlet flesh, solid and sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

WATERMELON—TOM WATSON

ALABAMA SWEET. Good shipping melon. Oblong in shape; very thin but tough rind, dark green mottled. Flesh bright scarlet. Price: Per pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

BLACK DIAMOND. Very dark skinned melon of good size and of excellent shipping qualities. Pkt., 5c; oz., 10c; ¼lb., 20c; lb. 65c.

CITRON. Round; striped and marbled. Seeds red; flesh white. Used for pickles and preserves. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

CUBAN QUEEN. Oval-shaped. Very productive, averaging about 30 pounds in weight. Rind light and dark green mottled. Flesh scarlet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

DARK ICING. Medium size, oval shape melon. A good variety for the home garden as it matures early. Has a thin rind, thick flesh, deep pink and very sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

DIXIE. Very popular in the south. Medium size. Rind very thick; dark green striped lighter. Flesh bright scarlet, firm and sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

SWEETHEART. A light green melon, slightly mottled, nearly round in shape. Very thin rind, bright red flesh, fine grained and very sweet. Ripens down close to the rind. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

PHINNEY'S EARLY. Hardy, robust growing variety, oblong shape. Rind light and dark green mottled. Flesh pink, of very good quality. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

HALBERT'S HONEY. A long, dark green melon of recent introduction. Rind very thin and brittle. Flesh bright scarlet, solid and sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 70c.

HUNGARIAN HONEY. A small, early melon, one of the sweetest. Very productive, and suitable for planting in the northern states. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 85c.

PEERLESS, or ICE CREAM. A hardy and productive melon, oval shape, bright green mottled. Flesh light pink, firm and sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c.

BLANC DE CHAMPIGNON, Fr # MUSHROOM SPAWN CHAMPIGNON BRUT, Ger.

Mushrooms are much enjoyed as a table luxury. **They may be grown in a variety of situations—a dark room, cellar, stable, in sheds, under greenhouse benches—where the temperature can be maintained at 50 to 65 degrees. Ten pounds of spawn are required for ten feet square.**

The mushroom spawn we sell is the product of a noted English maker. We import stock several times each year

ENGLISH MILL TRACK SPAWN

CULTURAL DIRECTIONS.—Two or three weeks before the bed is to be made, collect a quantity of horse manure, free from straw, and mix an equal weight of loam from an old pasture with it. Place it under cover, turning it over once or twice a week until the fiery heat has become exhausted. When the manure is in condition to be made up, lay out the bed, say three feet wide, ten feet long, and make the bed in layers of about one foot deep; press it down firmly as the process of building goes on. When the bed has been made some time, say a week or thereabouts, and the heat is sufficiently declined to a temperature of about 65 or 75 degrees, the spawn may be put into it. Break the spawn in pieces two inches square, and put them six inches apart, all over the bed, then cover the bed with two inches of rich soil, not too wet or overdry. Cover the bed with a foot of dried straw or hay, and the work is done. If everything goes on well, you may expect mushrooms in about five or six weeks.

ENGLISH MILLTRACK SPAWN. Stock of recent importation. It comes in bricks weighing twenty ounces. Each brick is sufficient for eight square feet of bed. Per brick, 20c (by mail, 30c). By express: 5 lbs., 65c; 10 lbs., $1.00; 25 lbs., $2.25. Purchaser pays the transportation charges.

Books about Mushroom Growing

Mushroom Culture. An English work. 50c, postpaid.

Mushrooms. By Wm. Falconer. The best American book for beginners. Goes into full details. $1.00, postpaid.

MARTYNIA, For Pickles

The young and tender seed-pods make excellent pickles, and as they are produced in great abundance, a few plants will suffice for an ordinary garden. Sow in May or June. Pkt., 10c; oz., 30c; ¼lb., $1.00; lb., $3.00.

MUSTARD, For Salads or Greens

SENF, Ger. MONTARDO, Fr.

Sow thickly in shallow drills a foot apart, and cut when a few inches high. May also be boiled and eaten like spinach.

One ounce sows 75 feet of drill.

WHITE. Excellent for salads or garnishing. Oz., 5c; ¼lb., 15c; lb., 35c.

BLACK or BROWN. Leaves oblong, broad and cut. Seeds reddish brown. Oz., 5c; ¼lb., 15c; lb., 35c.

SOUTHERN GIANT CURLED. Leaves much crumpled at the edges and twice the size of the ordinary White Mustard. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c.

GIANT SMOOTH LEAF. Large, fleshy leaves of mild flavor. Plant 12 to 18 inches across. A favorite variety in the South. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

NASTURTIUM, or INDIAN CRESS

The seed pods, gathered green, are used in flavoring pickles, or as a substitute for capers.

TALL. Climber, 10 ft. high, ornamental flowers, large seeds. Pkt., 5c; oz., 10c; ¼lb., 20c; ½lb., 35c; lb., 60c.

DWARF. A trailer, requiring no support; smaller but more profuse. Pkt., 5c; oz., 10c; ¼lb., 20c; ½lb., 35c; lb., 65c.

OKRA, or GUMBO

ESSBARER SAFRAN, Ger. GUMBO, Fr.

Sow after weather becomes warm, in rows three feet apart, two feet apart in the rows. Will succeed in any good garden soil. The young green pods make a healthful and nutritious soup, and when pickled are a fine salad.

IMPROVED DWARF. A distinct early variety. Pods comparatively short. Pkt., 5c; oz., 10c; ¼lb., 15c; lb., 50c.

WHITE VELVET. Bears round, white, smooth pods, unlike other varieties, which are ridged or square-edged. The pods are of extra large size, and are produced in great abundance. Pkt., 5c; oz., 10c; ¼lb., 15c; lb., 50c.

ZWIBEL, Ger **ONION SEED** OGNON, Fr.

We pride ourselves in supplying the VERY BEST ONION SEEDS that can be produced

ANY ARTICLE which is used in quantities proportionately large becomes an article of sharp competition, and this business rivalry naturally leads to strife to produce the commodity at lowest possible price. This, in many things, is legitimate and desirable, but **emphatically NOT SO in Onion Seed.** Nevertheless, the effort to offer Onion Seed at low prices has a tendency to make the grower less careful in its production, the result being seeds **not** of the high quality appreciated by experienced planters.

The Onion is most successfully grown in a rich, sandy loam. Continued cultivation upon the same plot of ground, contrary to the general rule, rather improves the crop than otherwise.

As early as the ground can be worked in the spring, sow the seed in drills 14 inches apart, covering half an inch. When the plants first appear in the rows, commence hoeing, just skimming the surface. Subsequently, weed thoroughly and carefully by hand. When the tops die, pull the onions and spread evenly over the ground; stir or turn until thoroughly dried, then cut the tops off one-half inch from the bulb. Winter in a frost-proof place.

One ounce for 200 feet of drill; 4 to 5 lbs. for an acre.

GLOBE ONIONS *are preferred by some growers to those of any other shape. Such onions do not occupy any more space in the row; their size and solidness make them weigh out and measure more, and their attractive appearance finds for them ready sale in nearly all markets.*

SOUTHPORT YELLOW GLOBE. Large and fine-shaped globe onion of excellent quality, well known to all onion growers and regarded by them as one of the best. Pkt., 5c; oz., 20c; ¼lb., 50c; lb., $1.60; 5 lbs. for $7.50.

YELLOW GLOBE DANVERS. A well-known standard onion for market purposes and home use. A heavy cropper and good keeper. Skin, silvery yellow; flesh white, comparatively mild and well flavored. Pkt., 5c; oz., 15c; ¼lb., 45c; lb., $1.50; 5 lbs., $6.50.

MICHIGAN YELLOW GLOBE. This onion, while globe shaped, has a somewhat flattened base. The bulbs are deep yellow in color, ripen early, and are good keepers. Pkt., 5c; oz., 15c; ¼lb., 45c; lb., $1.50; 5 lbs. for $6.50.

SOUTHPORT WHITE GLOBE. One of the most beautiful globular onions. Of large size, fine quality, and salable anywhere. Market gardeners find it an excellent sort to plant for bunching. Pkt., 5c; oz., 20c; ¼lb., 70c; lb., $2.50; 5 lbs. for $11.50.

Barnard's Select Red Globe Handsome both as to shape and color. A selection of the Southport strain of fine quality for the home garden. A splendid shipper. Growers for the southern market should raise this variety. It is a good yielder and matures early. Color a rich dark red; thin, glossy skin. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.00; 5 lbs. for $9.00.

SOUTHPORT RED GLOBE. Splendid variety, grown very extensively. Of good color and shape. Pkt., 5c; oz., 20c; ¼lb., 50c; lb., $1.60; 5 lbs. for $7.50.

Barnard's Yellow Globe This splendid strain of the high globe type onions matures early and very uniformly. The neck is small and ripens down close to the bulb. Color is an attractive bright yellow so much in demand in all the markets. Bulbs are fine grained, solid and excellent keepers. Our present fine strain of this variety is the result of careful selection of the bulbs at planting time with reference to their size, shape, and color. Large onion growers and market gardeners will do well to try this variety. We are having an increasing demand for it each season. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $1.75; 5 lbs. for $8.50.

ONION---Continued

Prizetaker Very large, mild-flavored onion, sometimes called "Mammoth Spanish." Attains its largest size when started in hotbeds and transplanted. It is quite globular in form with a light yellow skin, and in quality almost equal to the imported onions. A favorite variety to grow for exhibition purposes. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.40; 5 lbs. for $6.00.

Ailsa Craig This is a recently introduced onion of the Prizetaker type, which, like that variety, in order to obtain best results, should be started in hotbeds. Grows to an even larger size than the Prizetaker. It is lighter in color, skin almost white. It is very fine grained, with mild flavor. It is now being grown quite extensively and profitably by market gardeners. Should have a place in the home garden. Pkt., 10c; oz., 40c; ¼lb., $1.25; lb., $3.50.

Flat Varieties

RED WETHERSFIELD. Most popular of the red flat varieties. Grows to a large size and is very productive. Being a good keeper, it is grown largely for shipping and also for onion sets. Color, very dark red. Pkt., 5c; oz., 15c; ¼lb., 50c; lb., $1.65; 5 lbs. for $8.00.

EXTRA EARLY RED FLAT. This is a smaller and earlier onion than the Red Wethersfield. Of good quality and flavor. Pkt., 5c; oz., 15c; ¼lb., 45c; lb., $1.40; 5 lbs. for $6.50.

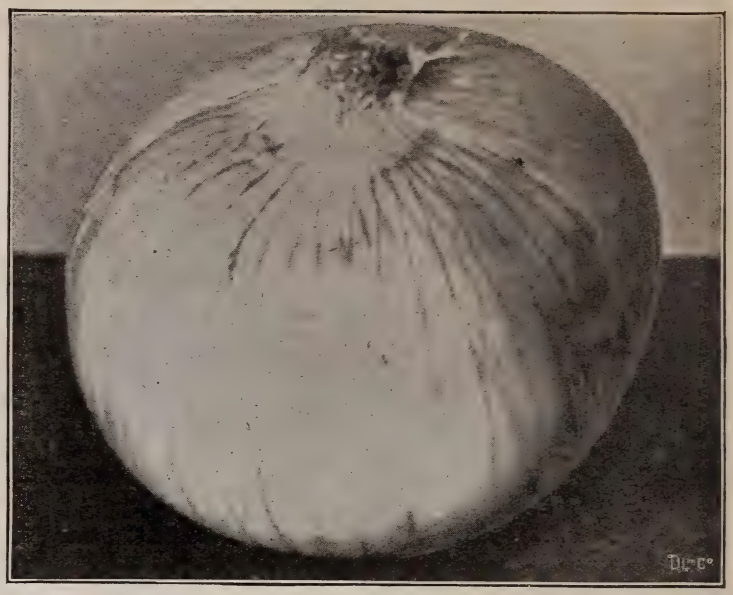
WHITE PORTUGAL. An early, white, flat variety. A favorite with set growers, and a good pickling sort. Also forms a fair-sized onion of good keeping quality. Pkt., 5c; oz., 20c; ¼lb., 45c; lb., $1.60; 5 lbs. for $7.50.

YELLOW DUTCH or STRASSBURG. This is the kind largely used around Chicago and elsewhere for growing sets. Produces a handsome set of good shape and color and of splendid keeping qualities. Also will mature into a good marketable sized onion. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00; 5 lbs. for $4.50.

YELLOW FLAT DANVERS. This differs from Yellow Globe Danvers in that the bulb is flatter. Being a heavy yielder, it is largely cultivated both for market and home use. It is also grown to a considerable extent for sets. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00; 5 lbs. for $4.50.

AUSTRALIAN BROWN. Of medium size; brownish yellow color. Very hardy and probably the best keeper of all. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00; 5 lbs. for $4.50.

Add 8c to lb. price if to be mailed.



PRIZETAKER ONION

Imported Onion Seed

MAMMOTH SILVER KING. In this onion are combined these desirable qualities: immense size, fine shape, white flesh of wonderful tenderness and sweetness. **Matures early.** For exhibition purposes and for fancy grocery trade this onion is a desirable one to grow. Pkt., 5c; oz., 20c; ¼lb., 50c; lb., $1.60.

WHITE QUEEN. Fine pickling variety. Bulbs flat and small. Sown in February, they will make onions one or two inches in diameter in early summer. Very early and of rapid growth, and keeps the year round. Pkt., 5c; oz., 15c; ¼lb., 50c; lb., $1.60; 5 lbs. for $7.50.

Bermuda Onion Seed

Seed Offered is Genuine Teneriffe Grown

In very early spring, the handsome oval Bermuda onions reach the northern markets, where their great size at once arrests attention. They are tender and mild in flavor. These fine onions can be grown in our northern climate, but will not attain the size of the imported ones. For best results sow in hotbed and transplant.

RED BERMUDA. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.
WHITE BERMUDA. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.
CRYSTAL WHITE WAX. A white flat onion; fine for slicing. Pkt., 5c; oz., 35c; ¼lb., $1.25; lb., $4.00.

ONION GROWERS and Market Gardeners who use large quantities of Onion Seed should write us for special prices. Name quantity and kinds wanted.

Add 8c to pound prices if we are to mail the seeds.

ONION SETS

Bottom Sets are grown from seed, and are the most used. **Top Sets** are cultivated in some parts of the country. **White Multipliers** are fine for bunching green. They are enormously productive. **Three quarts of sets will plant a row 100 yards long.**

White Bottom Sets	Pint, 15c	Quart, 25c
Yellow Bottom Sets	" 15c	" 25c
Red Bottom Sets	" 15c	" 25c
Top Onion Sets	" 15c	" 25c
Potato Onion Sets	" 25c	" 35c
White Multiplier Sets	" 25c	" 35c

If to be mailed, add 10c per quart.

Prices on large quantities are subject to market changes. Write us when you are ready to buy, stating quantity and kinds wanted.

Seeds by Mail. To our pound prices 8c should be added to cover postage.

PARSLEY

PETERSILIE, Ger. PERSIL, Fr.

1 oz. will sow about 150 ft. of drill.

Soak the seeds a few hours in lukewarm water and sow early in spring, in drills one foot apart. Thin out the plants to four inches. To preserve in winter, transplant to a light cellar or glass frame. Used for garnishing and seasoning soups, meats, etc.

CHAMPION MOSS CURLED PARSLEY

CHAMPION MOSS CURLED. The leaves are extra large, *extra dark green*, tender, crimpled and curled. Just the thing for bunching in pot herbs. We recommend this variety for either greenhouse or outdoor planting. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

FINE DOUBLE CURLED. A curled variety having crimped leaves. It is used mostly for garnishing. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 85c.

PLAIN OR SINGLE. Plain leaves of excellent flavor. They are longer than those of the curled Parslies. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 85c.

HAMBURG. The edible portion is the fleshy root. It is highly esteemed for flavoring soups, stews, etc. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

PARSNIP

PASTINAKE, Ger. PANAIS, Fr.

1 oz. will sow about 150 ft. of drill.

Cultivate as for Carrots. It is customary to leave Parsnips in the ground over winter, as frost improves the quality of the roots. The Parsnip is valuable not only as a table vegetable, but for stock feeding purposes also.

MAGNUM BONUM PARSNIP

Magnum Bonum It gives the utmost satisfaction and yields the most money to the market gardener because of its decidedly handsome appearance, smooth, heavy roots, which are broad at the shoulder, fine grained, and of superior quality. Pk., 5c; oz., 10c; ¼lb., 20c; lb., 70c.

HOLLOW CROWN. An old standard sort, long, sweet, and very productive. One of the best for general cultivation. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 70c.

IMPROVED GUERNSEY. This is a good, half-long variety, having smooth roots. It is of good quality and recommended for the family garden. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 70c.

EARLY ROUND. The earliest. Roots are of small size. Sometimes used for bunching with pot herbs. For shallow soils use this sort. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 70c.

PEANUTS

When sending your seed order, don't forget to order a few Peanuts for the boys and girls. Plant in May, in drills 3 feet apart, placing the nuts 8 to 12 inches apart in the drill. Cultivate flat and keep clean. By mail, postpaid, ½lb., 15c; lb., 25c.

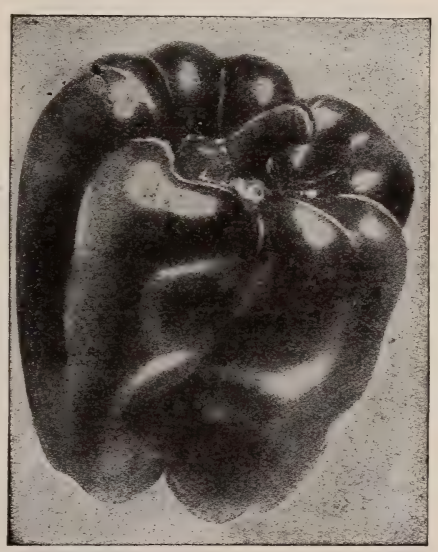
PEPPER

PFEFFER, Ger. PIMENT, Fr.

Peppers are indispensable as a seasoning for soups and meats. The large varieties are mainly used for the purpose, and for pickling. The mild, sweet varieties, like **Golden Dawn** and **Ruby King**, are used for mangoes, while the small-fruited sorts are best for sauces.

Peppers are more tender than most vegetables. The seed should be sown in a hotbed, cold-frame, or if no other convenience, a box in the window, and transplanted about the last of May. They can be sown in the open ground when the weather becomes warm and settled. Warm, mellow soil, well fertilized, should be used.

One ounce of seed for 1,500 plants.



CHINESE GIANT PEPPER

Chinese Giant A very large, mild-flavored pepper, of a bright scarlet color when ripe. Excellent for eating and stuffing. A good variety for the market gardener to grow. Pkt., 5c; oz., 30c; ¼lb., $1.00; lb., $3.75.

Nocera Sweetest and mildest of all peppers. Can be picked from plant and eaten as one would eat an apple. It is an early fruiting variety and an abundant yielder. The plants make a very handsome appearance in any garden with their showy scarlet fruit, which attains to a large size. Be sure to plant this pepper. Pkt., 5c; oz., 20c; ¼lb., 75c.

LARGE BELL, or BULL NOSE. An old, standard variety, of vigorous growth and productive. Fruit of good size, dark green turning to scarlet at maturity; mild, pleasant flavor Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

SWEET MOUNTAIN. Similar to Bell; very popular for stuffed pickles. Pkt., 5c; oz., 20c; ¼lb., 60c; lb.,$2.25.

GOLDEN DAWN. Color bright golden yellow, very brilliant and handsome. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

RUBY KING. A pepper of large size, well known and much esteemed by truck growers. When ripe, its color is a beautiful ruby red, very attractive and of good quality. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.25.

LONG RED CAYENNE. Slender fruit; green turning to scarlet. Very pungent and hot. Pkt., 5c; oz., 25c; ¼lb., 60c; lb., $2.25.

CELESTIAL. Conical fruits, creamy tinted, turning to scarlet when ripe. Pkt., 5c; oz., 25c; ¼lb., 75c.

CHERRY RED. Smooth, round variety. Fruit glossy scarlet. Pkt., 5c; oz., 25c; ¼lb., 75c.

PEPPER PLANTS. These we can supply in season. (See page 28 at end of Vegetable Seeds.)

ERBSEN, Ger. # GARDEN PEAS POIS, Fr.

Our Seed Peas are all grown in the north, and are of the **earliest and hardiest as well as the purest strains.** They are far superior to most of the Seed Peas sold. They may be expected to bring well-filled pods, which cheap and carelessly grown seed will not do.

The number of Garden Peas is almost limitless. While new and improved sorts are constantly being brought out, a great many of the others continue to be popular. It is worth while to make a trial of some of the new ones offered here as well as the standard sorts on the page which follows this, to determine upon the best for future use.

The smooth-seeded early sorts, such as **Leader, Alaska,** and **First and Best,** can be sown while frost is yet in the ground, while larger and sweeter peas sown at the same time would rot. **Sow some of the early, second early, and late varieties at intervals of about two weeks apart,** and your table will be supplied with delicious peas during the entire season.

Dwarf growing Peas require very rich soil and *need no support of any kind;* tall growing sorts should be trained to wire trellises or supported by brush. Wrinkled peas are the sweetest, and are recommended for the home garden.

Figures preceding description of varieties indicate height.

One quart of seed will sow 100 feet of drill.

Dwarf and Half Dwarf Smooth Peas

FIRST AND BEST. 2½ ft. A well-known variety; very early and hardy. Planted quite extensively by southern truckers. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

BARNARD'S LEADER. 2½ ft. A round, smooth pea, in size similar to the First and Best, but more uniform and more prolific. Matures very early. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

ALASKA. 2½ ft. This is the pea used extensively by canners and truckers for the early market. We have a splendid strain of this variety. Much labor has been expended on it with a view of obtaining earliness, productiveness, and uniformity of growth. Our stock now is such that we can recommend it to the most critical canner or market gardener. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

TOM THUMB. 12 inches. Peas smooth and white. A very hardy, extremely dwarf variety. Good for early planting. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

Add 8c to pint, 15c to quart prices, if to be mailed.

PEA, LITTLE MARVEL

Saxonia 2 ft. Much effort and money has been expended to produce a large-podded "First and Best" pea. Hitherto, these attempts have only succeeded at the expense of earliness. The New Saxonia, however, is fully as early and much larger and more prolific than the best strains of First and Best. This gives it a great advantage over any existing sort. Saxonia is thoroughly fixed and free from sporting tendencies, of healthy, vigorous growth, and very hardy. The pods are 3½ to 4 inches long and borne in pairs. Market gardeners who tried this pea speak very highly of it, and we look forward to a large demand for seed the coming season. Pkt., 10c; carton, 15c; pt., 20c; qt., 35c; pk., $2.00.

Dwarf Wrinkled Varieties

Little Marvel 18 inches. The ideal pea for the home garden, early and enormously productive. Pods borne in pairs; they are about 2½ inches in length, well filled with large peas of delicious flavor. This variety is taking the place of some of the older and better-known dwarf peas. Price, pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.25.

AMERICAN WONDER. 12 inches. The standard variety of this country for a great many years. Very dwarf; matures early and is vigorous and productive, so well known that it needs but little description here. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

NOTT'S EXCELSIOR. 15 inches. The pods average fully one-third larger than those of American Wonder, and while Nott's Excelsior may not always be quite so early by a few days, are all ready for picking at one time. Each pod contains 6 to 8 large peas. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

SUTTON'S EXCELSIOR. 18 inches. A splendid pea for the home garden. As early as Nott's Excelsior with larger pods that are well filled with large, sweet peas. Pkt., 5c; carton, 10c; pt., 20c; qt., 40c; pk., $2.00.

PREMIUM GEM. 18 inches. A well-known and very satisfactory variety for the home garden. A little taller and later than the American Wonder. Pods of good size; peas very sweet. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

SEDDON. 18 to 21 inches. A new and dwarf variety of exceptional merit. In season about the same time as American Wonder. The vines and pods of Richard Seddon pea are dark green in color. The latter are well filled with large, sweet peas of finest flavor. It has proven a sure cropper, and is certain to meet with universal favor. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

Laxtonian 18 inches. The largest-podded of the dwarf wrinkled peas. A splendid new variety, becoming a favorite with those who grow for the market or for the home garden. Might be called a dwarf Gradus. The peas have the same delicate flavor of that variety. Laxtonian matures earlier and is very prolific. If you have not grown this pea, try it this season. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.50.

Dwarf Telephone 20 in. This grand pea is rapidly gaining favor among gardeners of all classes. In habit it is dwarf and stocky. Bears close planting, and requires no sticks or supports. The pods frequently measure 5 inches in length, and are broad, straight, and remarkably well filled. A splendid mid-season variety. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

GARDEN PEAS—Continued

Half Dwarf Wrinkled Varieties

EVERBEARING. 24 inches. A large-podded, late variety. Good for summer and autumn use. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

ADVANCER. 30 inches. A popular variety with canners. Of vigorous growth and very productive. Pods 2¾ to 3 inches long and borne well up on the stalks. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

HORSFORD'S MARKET GARDEN. 2-2½ ft. Another popular canning variety. Extremely prolific. Pods of medium size and borne in pairs. Peas very sweet. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

ABUNDANCE. 2-2½ ft. Very similar to the Horsford's Market Garden. A good variety for either the canner or the gardener. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

Gradus, or Prosperity 30 inches. A grand, early, large-podded wrinkled pea. Has become one of the favorites with truck growers in nearly every section of the country. Pods are from 4 to 4½ inches in length and the peas are unusually large, very sweet and of delicious flavor. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.25.

THOMAS LAXTON. 3 ft. Resembles Gradus in many respects. A little earlier and more hardy. Pods not quite as large, but usually more productive. Considered by our truck growers as one of the very best for the early market. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.25.

DELICATESSE. 3 ft. A new English pea, very productive. Pods short, but packed with peas that are extremely sweet and tender. Pkt., 10c; carton, 15c; pt., 25c; qt., 40c; pk., $2.25.

IMPROVED STRATAGEM. 2 ft. A splendid late pea. Foliage and pods dark green. Pods about 4 inches in length, well filled with large peas of best quality. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

CARTONS OF PEAS, BEANS, AND SWEET CORN

These special packages are designed for those who find a 5c pkt. too small and a pint more than sufficient. The carton is between the two sizes, and contains a desirable quantity for the family garden. Postage paid.

Tall-Growing Wrinkled Varieties

Pea Vines of tall habit of growth require support of some kind. A wire woven or poultry netting is admirable for this purpose. Sow the seeds in double rows eight inches apart and stretch the wire support between the rows. The ends of the support should be fastened securely to posts at each end. A few additional stakes will afford greater strength

Alderman 4 ft. A grand second early pea. One of the very best in this class for the market gardener. It is a vigorous growing, productive variety, bearing pods of immense size, 5 to 6 inches in length. Very handsome dark green color. The peas are large, and in quality sweet and tender. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

ADMIRAL DEWEY. 4 ft. Another of the large-podded, medium late peas, quite similar to the Alderman, and like that variety excellent for the market gardener. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

Tall Telephone 4 ft. An old, well-known variety. One of the best of the late maturing sorts. Pods are large, containing 8 to 10 peas of good quality and flavor. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

CHAMPION OF ENGLAND. 4 to 5 ft. A splendid variety and a favorite late pea for the home garden. Pods are large, well filled with peas of good quality. Can be picked for eating in about 70 days after planting. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.60.

GLADSTONE. 4 ft. Main crop. Its long pods are pointed and slightly curved. They are in good condition to pick at a period of the year when practically all other peas have ceased to bear. The peas are of high quality. We bespeak a trial of this fine new variety. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.00.

GRADUS, OR PROSPERITY PEA

Tall Smooth Varieties

AMEER. 3½ ft. Large, smooth, green pea, sometimes called "Large-Podded Alaska." Southern truckers are planting it extensively. The pods are of good size, dark green color, and good quality for shipping. Pkt., 5c; carton, 10c; pt., 20c; qt., 35c; pk., $1.75.

LONG ISLAND MAMMOTH, or TELEGRAPH. 4 ft. Smooth, green pea, maturing about the same time as the Telephone. Preferred by some on account of its hardness. Pkt., 5c; carton, 10c; pt., 15c; qt., 30c; pk., $1.75.

WHITE MARROWFAT. 4 ft. A very hardy, strong growing variety, with thick, large pods about 3 inches in length. Grown as a field crop quite extensively. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25.

BLACK EYE MARROWFAT. 4 ft. Similar in habit of growth to the White Marrowfat. Considerably in demand in some sections of the south. Peas are white with black eye. Pkt., 5c; carton, 10c; pt., 15c; qt., 25c; pk., $1.25.

Sugar or Edible-Podded Peas

When cooked, they are equal to the best snap beans. Being hardy, can be planted early in spring. Of strong, upright habit, growing about 12 to 15 inches high. The pods are gathered while young and boiled whole. Packet, 5c; carton, 10c; pt., 20c; qt., 35c; pk., $2.25.

If to be mailed, add to price 8c to pint, 15c to quart, to cover postage.

One Peck Will Plant 125 Hills

Selected Seed Potatoes

In Drills, 10 to 12 Bushels per Acre

The greater portion of our stocks of seed potatoes were grown specially for us way up far north. In the fertile regions of Northern Minnesota and adjoining States are found conditions which produce potatoes far superior to those grown elsewhere for seed purposes.

Any good, well-drained, fibrous loam will produce Potatoes under right climatic conditions. For early potatoes, which mature 8 to 10 weeks from planting, the soil must be particularly rich. A rich clover sod, manured and broken the year before and planted to corn, beans, peas, oats, etc., is in best shape for giving a good yield of nice clean potatoes.

Culture. Potatoes are planted at various times—both early and late. Cut the tubers so there will be two to three eyes to each piece. Plant in hills or rows about 3 feet apart and from 15 to 18 inches apart in the row. Spray the leaves of the young plants with Arsenate of Lead or dust with Bug Death as a protection against blight and attacks of beetles.

Changing Seed. It pays to change Seed Potatoes occasionally, just as much so as Seed Oats. Advantages gained, among other things, are increased vigor and productiveness—in some instances well-selected seed stock has doubled the crop on the same quantity of land. Tubers grown from changed seed are smoother, of better appearance, and more salable.

EARLY WHITE ALBINO

The skin and flesh are extremely white, of exceptionally good cooking quality and very prolific, fully as early as the old Early Rose in maturing, and particularly valuable for the early market by reason of its fine shape and early maturity. The vines grow erect and it is one of the best early varieties to withstand blight and disease. Plant this potato early in good soil and give it good cultivation, and pleasing results are sure at harvest time. One grand thing in favor of this early potato is its great keeping quality. Pk., 65c; bu., $2.00; sack, $4.50.

WHITE ALBINO

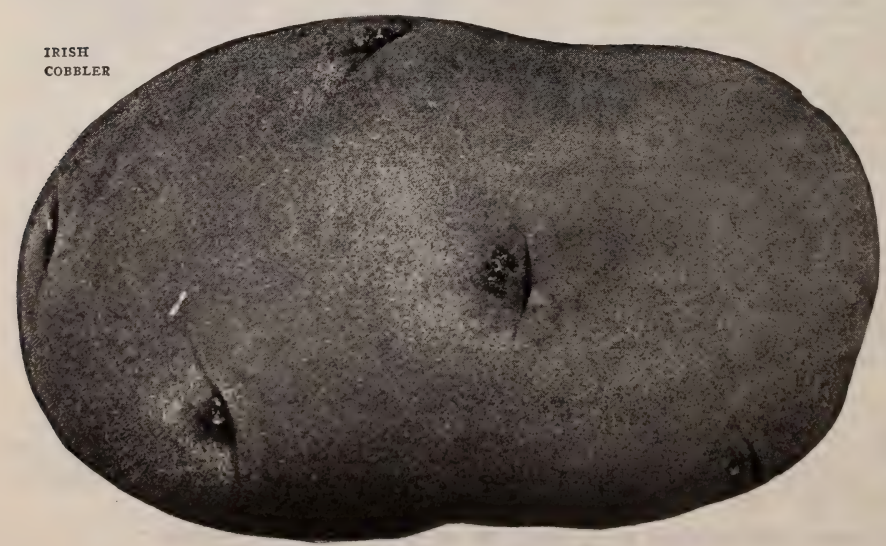
Early Rose Some growers declare that Early Rose has never been excelled in quality or productiveness by newer varieties. Tubers are of good size, in color light pink. Pk., 50c; bu., $1.50; sack (2½ bu.) for $3.25.

Red River Early Ohio Probably the most popular early potato in the country. Tubers smooth, oblong in shape; resisting scab and dry weather well and bearing the even-sized, abundant tubers compactly in the hill. A popular favorite. Pk., 50c; bu., $1.50; sack (2½ bu.) for $3.25; 5 bu. for $6.25.

Rural New Yorker, No. 2 A medium second early (about a week later than Early Ohio). A large yielder and of excellent quality. Tubers nearly round, flattened, with very smooth, pure white skin, always attractive in appearance. Pk., 40c; bu., $1.25; sack (2½ bu.) for $3.00; 5 bu., for $5.25.

Irish Cobbler Round, pure white, extra early, and of the very best quality. Grows uniformly large, there being fewer small potatoes than in any other early kind. The seed we offer is exceptionally fine. **Irish Cobbler** will produce results on soils that are too heavy for other potatoes, making it a valuable variety for those whose potato ground of the right sort is limited. Pk., 50c; bu., $1.50; sack (2½ bu.), $3.50; 5 bu. for $6.50.

IRISH COBBLER



Potato Growers' Requisites

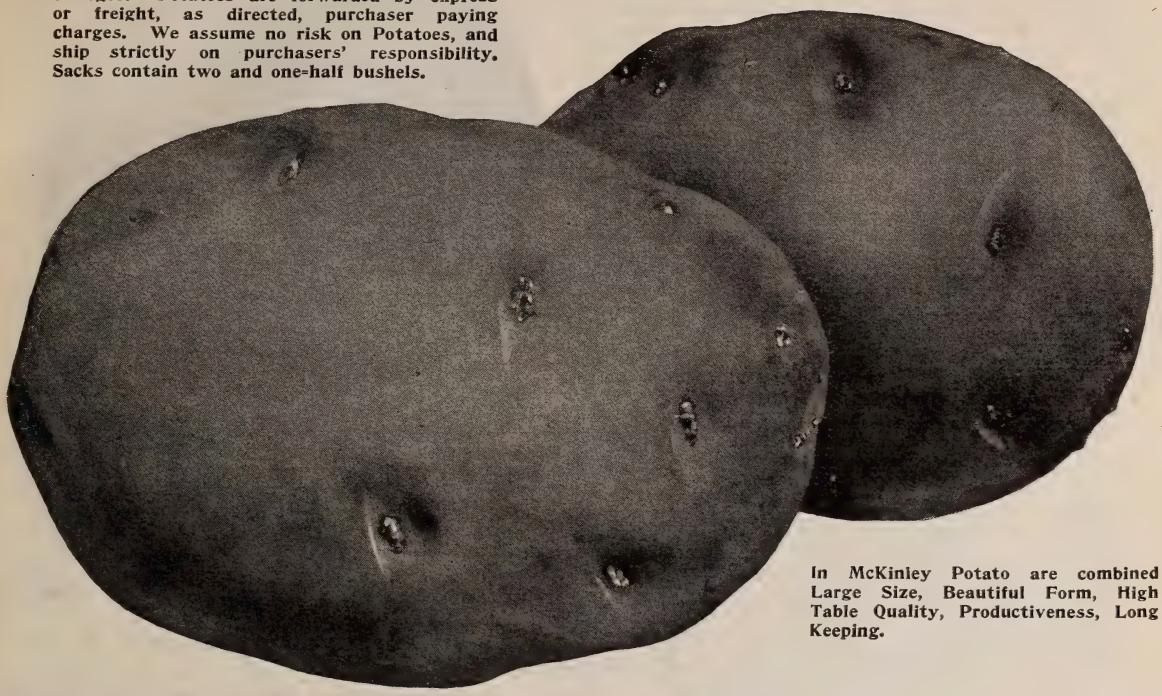
Leggett's Powder Gun. Distributes Paris Green, Hellebore, Sulphur, and all *dry* powder. Price, $8.00 complete.

Bug Death. Safe and sure on potatoes and garden truck generally. For price, see page 93.

Dickey's Duster (25c) and **Acre-an-Hour Sifter** (75c) are adapted to applying **Bug Daath.**

POTATOES---Continued

Prices of Potatoes are subject to market changes. Potatoes are forwarded by express or freight, as directed, purchaser paying charges. We assume no risk on Potatoes, and ship strictly on purchasers' responsibility. Sacks contain two and one-half bushels.



In McKinley Potato are combined Large Size, Beautiful Form, High Table Quality, Productiveness, Long Keeping.

McKinley — THE CHAMPION LATE POTATO

The McKinley is a white-skinned potato of the Green Mountain type. The tubers (as shown in the illustration from a photograph) are square to oval in shape and somewhat flat in appearance. As will be seen below, its records prove this potato to be an enormous yielder, while as a keeping variety it is equal to the best. Tubers properly kept in root cellars through winter will bake just as mealy and fine as in December. The flesh cooks up dry and mealy with a flavor all its own.

The original McKinley potato came from the East. A Minnesota grower greatly improved the strain by hill-to-hill selection. His practice was to take nothing for seed from a hill which did not produce at least ten standard-sized, typical-shaped potatoes, and from those the very best were selected for seed. It is from such most carefully chosen tubers that our stocks were grown. In field culture 76 tubers yielded 26½ bushels. One acre made over 525 bushels, while twelve acres averaged over 400 bushels to the acre. The measurements were not guesswork; the potatoes were weighed from the field as they were put in the root cellar.

At the land show in St. Paul, McKinley potato was awarded the prize for the best bushel grown that year in Minnesota. At the land show in New York the McKinley was a part of the potato exhibit which secured the premium for the best potatoes grown in the United States.

Summing up, the McKinley is a very strong, prolific strain of a first-class potato that we can with great confidence recommend to growers in the Central States. Its record in all respects entitles it to rank with the very best late potatoes now grown upon American soil. Succeeds everywhere and is the style of potato most in demand in the markets just now. As a winter keeper we know of none better. No progressive cultivator should fail to give it a trial. Pk., 60c; bu., $1.75; sack, $3.75; 5 bu., $7.00.

PRACTICAL POTATO CULTURE. Price, 50c. By E. A. Rogers. This new and valuable publication will be presented (on request) with every order of potatoes from this catalog amounting to $3.00.

Snow — A GRAND NEW MAIN-CROP POTATO

Snow is a white potato with a netted skin. The market wants just such a potato. It is of handsome shape and most desirable for the best trade. It is a vigorous grower, ripens uniformly, is a good keeper, and fast becoming one of the most popular medium late varieties. The vines are always very heavy, the seed being especially vigorous and tubers always good size where soil is well tilled. Our customers will find the Snow a very reliable potato. We can furnish nice stock while the supply lasts. Pk., 60c; bu., $1.75; sack (2½ bu.) for $3.75.

Carman No. 3 This is a well-known, standard late potato that does well everywhere. All the Carman seedlings proved excellent potatoes, but Carman No. 3 excels. It makes large yields of fine, large, smooth, white tubers, nearly all of them of marketable size; eyes are few and shallow. Of strong, vigorous growth, little affected by drouth or blight. Pk., 40c; bu., $1.25; sack, $3.00; 5 bu. for $5.25.

SEED SWEET POTATOES

Choice Stock Grown Expressly for Seed Purposes.

Please order early, giving date you wish them shipped. **We do not ship until planting time.**

We pack Seed Sweet Potatoes for shipment in boxes and barrels with greatest care, but as Sweet Potatoes are very susceptible to climatic changes, **we assume no responsibility for their condition after leaving our hands.**

The following can be supplied. Price subject to market changes.

	Peck	Bu.
Yellow Nansemond	$0.60	$1.85
Yellow Jersey	.60	1.85
Red Bermuda	.85	2.25

Please send orders in early.

KUEBBIS, Ger. **PUMPKIN** POTIRON, Fr.

The seeds are planted with corn or potatoes, but may be profitably raised in fields by themselves. Sow early in May in hills eight feet apart. For monster pumpkins for exhibition purposes plant Mammoth Tours in very rich ground and feed liberally with liquid manure.

One ounce will plant 50 hills. 3 seeds to the hill.

Winter Luxury A fine cooking sort, 10 to 12 inches in diameter. Golden yellow, netted somewhat like a muskmelon. One of the very best to store through the winter. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

CALHOUN. A small, yellowish brown variety with thick, salmon-colored flesh. Fine for cooking. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

TENNESSEE SWEET POTATO. This is an old standard pumpkin. Somewhat pear-shaped. Skin and flesh creamy white. An excellent keeper. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

JAPANESE PIE. A Crookneck Sort. Seeds peculiarly sculptured. Ripens early. Flesh salmon-colored, fine-grained, and sweet. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

MAMMOTH TOURS. Grown chiefly for exhibition purposes and for stock feed. It grows to an enormous size, frequently weighing over one hundred pounds. Skin salmon color; flesh yellow. Keeps a long time. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., 90c.

CUSHAW, GREEN STRIPED. Large crookneck pumpkin. Cream-colored, striped with green. Very popular in the south. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

LARGE CHEESE. A large buff-colored variety of distinct shape, used extensively for canning. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

SWEET OF SUGAR PUMPKIN

Small Sugar An excellent variety for pies. Nearly round, 10 to 12 inches in diameter; rich orange color. Flesh thick, fine grained, and very sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 75c.

YELLOW CUSHAW. Similar to the above, except in color. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 80c.

CONNECTICUT FIELD. Common cornfield pumpkin. Grown largely for stock purposes, suitable also for table use. Oz., 5c; ¼lb., 15c; lb., 35c.

RETTIG, Ger. **RADISH** RADIS, Fr.

For an early supply, sow in a hotbed in February, care being taken to give abundant ventilation to prevent running to leaves. For open air culture and succession, sow from middle of March until September at intervals of a week or ten days. The growth must be rapid to insure crispness, succulence, and mildness of flavor. A fine, dry, sandy loam, enriched and made light with well-rotted manure is best adapted for the purpose, all heavy soils producing directly the opposite results from those desired.

One ounce to 100 feet of drill; 9 or 10 lbs. per acre.

EARLY SCARLET GLOBE RADISH

GLOBE AND TURNIP-SHAPED VARIETIES

Except otherwise noted, any variety: Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c; 5 lbs. for $3.00. **To pound price add 8c if wanted by mail.**

Early Scarlet Globe **Special Market Gardener's Strain.** This is a splendid variety for hotbed or greenhouse culture. We consider it the best of the round scarlet forcing sorts. Our sales of this stock are to some of the largest growers under glass in the country. The radishes mature very quickly, producing small growth of tops and are solid and crisp; very uniform in shape. The color is a handsome, bright scarlet. When bunched, these radishes bring the top price. Sample packet free to those who grow for the market. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c; 5 lbs. for $3.50.

NON PLUS ULTRA. Well-known variety. Good for forcing; matures in 18 to 20 days. Color, bright scarlet.

EXTRA EARLY SCARLET FORCING. A small-leaf, globe-shaped variety, especially adapted for forcing under glass.

EARLY SCARLET TURNIP WHITE TIP FORCING. This is a special forcing strain of the well-known Scarlet Turnip White Tip Radish.

SCARLET TURNIP WHITE TIP. Market gardeners' favorite Radish for outdoor planting. A very desirable one for the home garden. It is an early maturing variety, only a little later than the forcing strain. Turnip-shaped; handsome scarlet in color, with a distinct white tip. We have two strains of this variety, one where the white is just in evidence and another in which the white covers about one-third of the radish. The latter strain is the favorite one.

ROSY GEM. Very similar to the above variety. Round; scarlet with white tip.

Crimson Giant A large globe-shaped variety. Handsome deep scarlet; thin skin, solid white flesh of best quality. Attains a large size without becoming pithy or losing its crispness. An excellent variety,

RADISH—Continued

SPARKLER

GLOBE AND TURNIP-SHAPED VARIETIES

Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c; 5 lbs. for $3.00.

8 cents per pound should be added if wanted by mail.

Sparkler A splendid radish of the same type as the Scarlet Turnip White Tip, but larger and showing more white, practically the whole lower portion being white and the upper part deep scarlet. This radish is not only very showy, but of the finest quality, and is sure to become popular with private gardeners as well as growers for the market.

EARLY ROUND DARK RED. A quick growing, deep red turnip-shaped radish, good for either inside or outdoors.

EARLY SCARLET TURNIP. An old, well-known variety; bright scarlet, solid white flesh, excellent eating.

EARLY WHITE TURNIP. Very much like the scarlet; a trifle earlier in maturing. Skin and flesh pure white.

LARGE WHITE SUMMER. This is a radish which is quite popular in certain sections of the south. Nearly round in shape. Pure white. Attains a size of 3 inches in diameter without losing any of its good qualities.

YELLOW SUMMER. Turnip-rooted. Can be sown late, stands heat well. Skin light yellow, flesh white.

Olive-Shaped Varieties

Pkt., 5c., oz., 10 ¼lb., 20c; lb., 65c.; 5 lbs. for $3.00.

CARMINE OLIVE. An extra early olive-shaped radish. Color, deep carmine skin; flesh white, solid, and crisp.

ROSE OLIVE. A quick-growing, bright scarlet radish of good quality, from 1½ to 2 inches in length.

WHITE OLIVE. Like the above in size and shape.

French Breakfast An oblong-shaped radish. Fine for open ground or forcing. Valued for its excellent quality and fine color, which is a beautiful scarlet on the body and white at the extremity. Flesh white, tender, and mild.

FRENCH BREAKFAST RADISH

HALF LONG AND LONG VARIETIES

Price of all named below (except as noted): Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 65c; 5 lbs. for $3.00.

LONG SCARLET SHORT TOP. A well-known variety and extensively planted. Roots 6 inches in length, about one-third of which grows above the ground. Color, bright red.

Cincinnati Market Similar to the above, grows a little longer and is more slender; somewhat darker in color. A splendid radish for the table or for the market.

HALF LONG DEEP SCARLET. An early radish much esteemed by some growers. Roots about 3 inches in length; attractive deep scarlet. Flesh white and firm.

WOOD'S EARLY FRAME. Earlier, shorter, and thicker than Long Scarlet.

BRIGHTEST LONG SCARLET, or CARDINAL. Vivid scarlet, tipped with white. For so long a radish is very early, being ready for use in 25 days.

CHARTIER. One of the very best for outdoor sowing in summer. Roots bright crimson in upper portion, shading to white at the tip. Can be eaten when quite small. Remains solid and crisp.

Icicle A beautiful pure white radish, about 5 inches in length and quite slender. This is one of the very best of the summer radishes. Skin is smooth and thin; flesh fine-grained.

ICICLE RADISH

LONG WHITE VIENNA. A well-known and splendid variety; long, smooth, white.

WHITE STRASSBURG. A good, late radish, oblong shape. Both skin and flesh are pure white. Roots when fully grown, about 6 inches in length and 2 inches in diameter.

LONG WHITE STUTTGART. Another good summer radish, somewhat turnip-shaped. Grows quickly and attains a good size. Skin and flesh pure white and quality excellent.

WINTER VARIETIES

Sow in July and August

CHINESE WHITE. A large, white smooth skin radish, cylindrical in shape, 6 to 8 inches long and 2 or 3 inches in diameter. Mildest flavored of the winter sorts.

CHINESE ROSE. Not quite as large as the white variety and more pungent. Skin bright rose, flesh white. A splendid keeper, and grown largely for the market.

LONG BLACK SPANISH. A long, very hardy radish. Skin nearly black; flesh pure white. Very well known and extensively planted.

ROUND BLACK SPANISH. A large, turnip-shaped radish. Skin and flesh same as the long variety. Quality about the same.

SAKURAJIMA. A mammoth Japanese variety. Flesh pure white, with sharp but agreeable flavor. Pkt., 5c; oz., 20c.

RHUBARB

Or Pie Plant

Sow seeds thinly in shallow drills one foot apart. Thin the seedlings to stand 3 or 4 inches apart. Keep the soil loose and free from weeds. In fall or spring select the strongest seedlings and set out permanently three feet apart each way.

LINNÆUS. The earliest variety grown. Desirable for market or family garden. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00.

VICTORIA. Leaf stalks tall and large. Sometimes weighing 2 lbs. each. Skin thick and red stained. Pulp quite acid. Productive and profitable for market gardeners. Pkt., 5c; oz., 15c; ¼lb., 30c; lb., $1.00.

RHUBARB ROOTS

When only a few plants are required, we would suggest the purchase of roots instead of seed. From our medium size or large clumps, Rhubarb stalks can be cut the following season. The growth of the plant is very rapid from these clumps. A mulch of stable manure during the winter will insure their protection and stimulate stronger growth in the spring. Mailing size, each 15c, postpaid; clumps. See page 28.

SORREL

Sow thinly in shallow drills about one foot apart. Remove seed stalks as soon as formed.

LARGE LEAVED FRENCH. Used for soups and salads. Its green leaves have a pleasant acid flavor. Pkt., 5c; oz., 15c; ¼lb., 25c; lb., 75c.

SWISS CHARD, LUCULLUS

SALSIFY

Or Vegetable Oyster

Soil and culture should be the same as for parsnips, taking pains to make sowings as early as practicable each spring. Salsify is boiled like parsnips or carrots, or is half-boiled and grated, then made into balls which are dipped into batter and fried like oysters.

MAMMOTH SANDWICH ISLAND. A new and improved type, producing roots of nearly double the size and weight of the old sort, and in every way preferable. Much valued by market gardeners, as it grows stronger and is less inclined to branch. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.25.

BLACK SALSIFY or Scorzonera. Similar to above, but skin is black. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.00.

SWISS CHARD

Or Spinach Beet

Also called Sea Kale Beet. The middle of the leaf, or midrib, is cooked and served like asparagus. The other portions of the leaf may be used like spinach. This beet does not make a large root, but is a delicious summer vegetable when cut young and used for "greens." There are several varieties of Swiss Chard. We recommend the **Lucullus** where the rib of the leaf is to be used. When wanted as a substitute for spinach, the **Green Curled** variety. We supply either sort at: Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 75c.

SPINACH

Epinard, Fr. Spinat, Ger.

This is an important crop for the market gardener. It is of easy cultivation. Sow for main crop in September, either broadcast or in drills one foot apart and one inch deep, in rich soil; the stronger the ground, the more delicate and succulent will be the leaves. Protect during the winter with hay or straw. For spring and summer use, sow as soon as the ground can be worked, and every two weeks for succession.

1 oz. for 100 ft. of drill; 10 to 12 lbs. per acre.

SPINACH, VICTORIA

Special price for all varieties except New Zealand; 5 lbs., 80c; 10 lbs., $1.50; 100 lbs., $13.00.

GIANT THICK LEAVED. An early variety; very hardy and of good quality. Large, round leaves, nearly smooth, of dark green color; favorite with market gardeners. Oz., 5c; ¼lb., 10c; lb., 25c.

VICTORIA. Large, very dark green leaves, slightly crimpled. Remains in good condition for market for a long time. A newer variety that is becoming very popular with the truckers. Planted extensively in the South. Oz., 5c; ¼lb., 10c; lb., 25c.

BROAD FLANDERS. One of the most vigorous and strong growing varieties. The leaves are nearly round, uniformly deep green, thick and somewhat crimped in the center. Oz., 5c; ¼lb., 10c; lb., 25c.

LONG STANDING. Leaves dark green and thick. Not inclined to run to seed for a long time. Popular with market gardeners. Oz., 5c; ¼lb., 10c; lb., 25c.

PRICKLY WINTER. Use for fall sowing, as it is extremely hardy. Seeds prickly, leaves not so large as those of other varieties. Oz., 5c; ¼lb., 10c; lb., 25c.

BLOOMSDALE or Savoy Leaved. Of upright growth; leaves curled and crimpled, thick and fleshy. Keeps well after cutting. Suitable for fall sowing. Oz., 5c; ¼lb., 10c; lb., 25c.

NEW ZEALAND. A different type of Spinach, suitable for use during the hot weather. Plants grow to a large size, producing an abundance of leaves, tender and of good quality. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

Add 8c to lb. price if we are to mail.

SQUASH

Speise Kurbis, Ger. Cowege, Fr.

Plant when all danger from frost is past, and get in the winter varieties as soon as possible in order that they may mature. Plant in hills 4 feet apart for the bush varieties and 6 or 8 feet apart for running sorts. Put 6 or 8 seeds in a hill, thinning when all danger from insects is past to 3 or 4 plants in a hill. If the young plants are dusted two or three times with **Bug Death** before the bugs come, the insects will not be likely to attack them.

One ounce for 50 hills; 3 to 4 lbs. per acre.

MAMMOTH WHITE BUSH SQUASH

Early Summer Varieties

MAMMOTH WHITE BUSH. An early, round, flat squash; color clear white, handsomely scalloped. Called Patty Pan in the South. Largely planted in every section of the country. One of the very best of the early summer varieties. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 75c.

MAMMOTH YELLOW BUSH. Same as above, except in color, which is a bright yellow. Early and of good quality. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 75c.

MAMMOTH SUMMER CROOKNECK. A well-known and standard variety. Grows from 18 inches to two feet in length. The shell is hard and warted and of an attractive bright yellow color. The thick flesh is of good quality. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 75c.

Fall and Winter Varieties

ORANGE MARROW. Handsome appearance; creamy colored. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

FORDHOOK. This squash can be either used as a summer or winter variety. Color bright yellow, meat thick and good quality. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

DELICIOUS. This is a new variety for which there is an increasing demand. It is top-shaped, of medium size. Hard, green shell. The flesh is deep yellow; rich, fine-grained, and splendid for cooking. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

DELICATA. A small, oblong-shaped winter variety. Orange-colored striped with dark green. Firm, sweet flesh. Pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

HUBBARD. A favorite winter squash. Shell dark green and extremely hard. Flesh rich orange; dry and sweet. Splendid for cooking or pies. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

WARTED HUBBARD. Same as above, except that the shell is rough or warted. This variety is an excellent keeper. Largely grown for the market. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

BOSTON MARROW. Early fall sort; rich orange color, excellent flavor. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

MAMMOTH CHILI. Favorite variety for exhibition purposes. Attains an immense size, weighing sometimes 200 lbs. or more. Excellent for stock. Can also be used for the table, as the flesh is fine-grained and of good flavor. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.40.

Sibley or Pike's Peak. An old, well-known variety. Oval shape; hard, dark green rind. Flesh rich golden yellow, of fine cooking quality. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

GOLDEN HUBBARD. Earlier than Green Hubbard; a little smaller. Color orange red. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

ESSEX HYBRID. Sometimes called Turk's Cap. A good-sized squash with a hard shell. Popular in some sections of the country. Pkt., 5c; oz., 10c; ¼lb., 25c; lb., 90c.

VEGETABLE MARROW. A small mottled green and yellow squash. Flesh white and very tender. This is the famous English variety and highly prized by English people. Price, pkt., 5c; oz., 10c; ¼lb., 30c; lb., $1.00.

Add 8c to pound prices if we are to mail. Smaller quantities are postpaid at prices named.

WARTED HUBBARD SQUASH

LIEBESAPFEL, Ger. **TOMATO** TOMATE, Fr.

For early crops sow in hotbed, greenhouse, or inside the window or sitting room, where the temperature does not fall below 65 degrees, in February or March, transplanting—to secure stockiness—when three inches high, to pots, cold-frames, or other parts of the bed, and about five inches apart. After all danger of frost is over, transplant finally to open ground, four to six feet apart.

ACME, Improved Strain. Ripens early; of medium, uniform size; glossy red with purplish tinge; round and smooth, free from cracks. An excellent tomato for market gardeners' use, as it ships well. Pkt., 5c; oz., 15c; ¼lb., 55c; lb., $2.00.

Beauty, Improved Strain. This has been a standard variety for many years, and is still the favorite main crop tomato with our market gardeners. Medium early, round, very uniform in shape. Skin smooth, crimson with purplish tinge. Flesh solid and of excellent flavor. A splendid tomato for either the home garden or for shipping. Pkt., 5c; oz., 15c; ¼lb., 55c; lb., $2.00.

CORELESS. A grand main crop, scarlet, globe-shaped variety. One of the best for shipping long distances. Bears its fruit in clusters, immensely productive. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.

CRIMSON CUSHION. Bears continuously and late. Extremely large and smooth; solid as a beefsteak; nearly seedless. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.75.

Dwarf Champion (Tree Tomato). Quite distinct from the other varieties in habit of growth and foliage. Good sort for the home garden as the plants, owing to the peculiar upright growth, take up but little room and yield abundantly. Resembles the Acme in form and color. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.75.

DWARF STONE. A vigorous growing, dwarf, red tomato of recent introduction. Fruit good size, and of excellent quality. This variety is becoming very popular. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.

June Pink The earliest of the pink tomatoes and one of the very best for the family garden. The skin is thin, very smooth; flesh solid, of excellent quality and flavor. An especially good tomato for slicing. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.

TOMATO PLANT TRAINED TO STAKE

BEAUTY TOMATO

EARLIANA. A fine scarlet tomato. Ready for the market several days ahead of any other variety. Ripens uniformly and is a good yielder. We have a special market garden strain of this seed. Pkt., 5c; oz., 20c; ¼lb., 75c; lb., $2.50.

CHALK'S EARLY JEWEL. An early tomato, vigorous and productive. Fruit deep scarlet, of good size and fine quality. A good variety for either home use or for the market. Pkt., 5c; oz., 20c; ¼lb., 75c; lb., $2.50.

LIVINGSTON'S GLOBE. A good globe-shaped tomato. Skin smooth, of purplish tinge. Flesh is firm, of good quality. Can be used for greenhouse culture. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.75.

Early Detroit The latest new tomato. The vine is a better yielder and more vigorous than that of Acme. Not only are more fruits produced, but they average more nearly globe-shaped, are heavier, and are equally as firm, smooth, and suitable for shipping. The fruits are of good size throughout the season, which is unusually long for so early a variety. We are confident that this rare combination of very desirable features will soon bring Early Detroit into general prominence as the best of its class. Pkt., 5c; oz., 25c; ¼lb., 75c; lb., $2.50.

PERFECTION. A well-known, large, smooth, red tomato. Pkt., 5c; oz., 15c; ¼lb., 55c; lb., $2.00.

PONDEROSA. This is a very large, solid tomato. Color pink, changing to purple. On account of its large size it is suitable to grow for exhibition purposes. It is of good quality, however, and very largely in demand for home gardens. Pkt., 5c; oz., 25c; ¼lb., 80c; lb., $3.00.

STONE. A large, bright-red tomato, very well known and highly regarded. One of the very best for canning purposes. Good also for slicing. Matures early and very uniformly. Vigorous and productive. Pkt., 5c; oz., 25c; ¼lb., 55c; lb., $2.00.

COMET (Forcing). Considered the best of the greenhouse varieties. Fruit scarlet and medium size. Pkt., 10c; oz., 50c.

Small-Fruited Tomatoes

STRAWBERRY, or Husk Tomato. Also called ground cherry. The small yellow fruits are each enclosed in a husk, and are of delicious flavor, either raw or preserved. Pkt., 5c; oz., 25c.

Yellow Plum, Red Currant, and Red Cherry. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $2.50.

PEACH. Quite distinct from other varieties. The skin has the color and texture of a peach. It grows about the same size. Pkt., 5c; oz., 25c; ¼lb., 80c.

TURNIP

WEISZE RUEBEN, Ger. NAVET, Fr.

For early use, sow as soon as ground opens in spring, in drills from 12 to 15 inches apart; thin out to 6 or 9 inches in the rows. For succession, continue to sow every two weeks until June; for fall and winter crop, sow in July and August. The Rutabagas are grown for feeding stock, and are also excellent for the table. Take up the roots in November, or before severe frosts; cut off tops within an inch of the crown, store in cool cellar or pit, or pile in a conical form out-of-doors, in dry ground; cover carefully with long straw, and finish by earthing up with about 12 to 15 inches of earth, leaving a trench around the heap to carry off water. **One ounce of seed for 150 feet of drill; one pound for an acre.**

Extra Early Purple Top Milan Of handsome appearance; somewhat flattened, white with purple top. Two weeks earlier than Purple Top Strap Leaf, good for spring or fall planting. Bulb forms very rapidly. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.00.

EARLY WHITE MILAN. Similar in shape and size to the above, equally early; surface smooth and pure white; flesh white, tender, fine grained, and of fine table quality. Pkt., 5c; oz., 10c; ¼lb., 35c; lb., $1.00.

EARLY WHITE FLAT DUTCH. A popular, early, white, flat turnip of medium size. Smooth and of good quality. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 55c.

WHITE EGG. A good, early, oval-shaped turnip. Grows partly out of the ground. White and smooth skin; flesh mild and sweet. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

Purple Top White Globe A fine table turnip. It is an early and heavy cropper as well as a good keeper. The bulb is a very handsome globe, and is especially in demand among market gardeners. This is also a good turnip for stock feed as it will grow to a large size if left for that purpose. Pkt., 5c; ¼lb., 20c; lb., 55c; 5 lb., $2.50.

Purple Top Strap Leaf This is probably more extensively planted than any other variety. It is a very early flat turnip of medium size, the lower portion white and the upper part reddish purple. The flesh is fine-grained and sweet. A splendid table variety and desirable also for stock feed. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 55c; 5 lbs., $2.50.

WHITE FLAT NORFOLK. A large white round turnip, chiefly planted for feeding stock. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

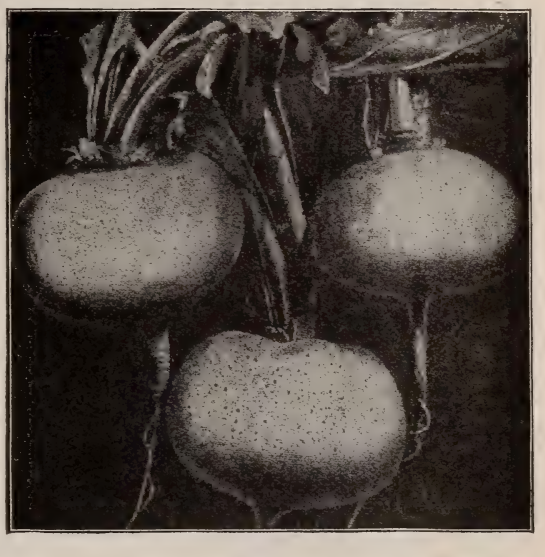
COW HORN. A long, white, carrot-shaped turnip, growing to a length of 12 to 14 inches. Flesh white and solid. Suitable for table use when small, and when matured excellent for feeding stock. This variety is sometimes planted to plow under as a fertilizer. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

POMERANIAN WHITE GLOBE. A large and most perfect globe in shape, skin white and smooth. Of strong growth and one of the most productive varieties. Valuable for both table and stock. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 55c.

SNOWBALL, or SIX WEEKS. The finest white-fleshed, ball-shaped, early table turnip. Bulbs small, smooth, and round, with clear white skin and sweet, crisp flesh. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.

PURPLE TOP RUTABAGA

YELLOW GLOBE. A handsome light yellow turnip. Fine grained, sweet and tender. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 60c.



TURNIP, EARLY MILAN

PURPLE TOP YELLOW ABERDEEN. Root round and tapering. Flesh pale yellow, tender, sugary, and of superior flavor. A hardy and productive standard variety. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 55c.

RUTABAGAS

Ruta-Bagas Swedish or Russian Turnips are extensively grown for a farm crop. The roots are close-grained, hard, and will endure a considerable degree of cold without injury if preserved in a pit or cellar during the winter. Rutabagas are superior to any other vegetable root grown for cattle, horses and sheep. The animals thrive and fatten on rutabagas, carrots, and mangels fed in combination with hay.

American Purple Top A very large, globe-shaped Rutabaga, yellow with purple top. Hardy, vigorous growing variety of excellent quality for the table and one of the best for stock feed. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c; 5 lbs., $2.25.

SKIRVING'S PURPLE TOP. An old, well-known variety, grows to a large size; very productive and good keeper. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c; 5 lbs., $2.25.

WHITE SWEDE OR RUSSIAN. A large, white, globe-shaped Rutabaga. Flesh fine quality, sweet and tender. Excellent for the table. Can be grown to a large size if wanted for stock feed. Pkt., 5c; oz., 10c; ¼lb., 20c; lb., 50c.

TOBACCO SEED

(One ounce will sow a bed of fifty square yards)

The seed should be sown as early as possible after danger of frost is over. When the plants are about six inches high, transplant into rows four or five feet apart each way.

CONNECTICUT SEEDLEAF. This variety is grown in the Middle and Northern States, being comparatively hardy. Pkt., 5c; oz., 20c; ¼ lb., 60c.

HAVANA. The seed offered is a superior strain of Cuban grown stock. Pkt., 10c; oz., 40c; ¼ lb., $1.00.

Medicinal and Pot Herbs

The cultivation of herbs is very simple, and but little care is needed beyond keeping down the weeds. Sow in April or May, in drills 12 to 15 inches apart, and thin out the young plants where they stand too thickly. Gather when just coming into bloom, tie in small bunches and dry in the shade.

THYME

Anise (Annual). Seeds used for flavoring and medicinal purposes. Leaves used for garnishing. Pkt., 5c; oz., 10c.

Balm (Perennial). Leaves used for medicinal purposes. Pkt., 5c; oz., 20c.

Basil, Sweet (Annual). The seeds and stems used for flavoring. Pkt., 5c; oz., 15c.

Borage (Annual). Good bee plant. Also leaves can be used for salads. Pkt., 5c; oz., 15c.

Catnip. Used for medicinal purposes. Pkt., 10c; oz., 35c.

Caraway. Seeds used for flavoring. Pkt., 5c; oz., 10c.

Coriander. Used for flavoring. Pkt., 5c; oz., 10c.

Dill (Annual). Seeds used for seasoning; also leaves used very extensively for flavoring in pickle factories. Pkt., 5c; oz., 10c; lb., 50c.

Hop. Used in brewing. Pkt., 15c.

Fennel (Perennial). Seeds used for flavoring and leaves for garnishing. Pkt., 5c; oz., 10c.

Horehound (Perennial). Used for medicinal purposes. Pkt., 5c; oz., 15c.

Hyssop (Perennial). Used in medicine. Pkt., 5c; oz., 15c.

Lavender (Perennial). Largely used in the making of perfume. Pkt., 5c; oz., 15c.

Marjoram Sweet. Used both in the green and dry state for seasoning. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.25.

Pennyroyal (Annual). For medicinal purposes. Pkt., 10c.

Rosemary (Perennial). Leaves used for seasoning and making of perfume. Pkt., 5c; oz., 25c.

Rue (Perennial). Used for medicinal purposes; also recommended for diseases of poultry. Pkt., 5c; oz., 15c.

Saffron (Annual). Used for coloring. Pkt., 5c.; oz., 10c.

Sage (Perennial). Grown very extensively for seasoning. Pkt., 5c; oz., 15c; ¼lb., 40c; lb., $1.25.

Summer Savory. A well-known annual herb. Excellent for seasoning. Pkt., 5c; oz., 20c; ¼lb., 60c; lb., $1.75.

Tansy (Perennial). For medicinal purposes. Pkt., 5c; oz., 35c.

Thyme (Perennial). Well known and grown to a considerable extent for seasoning. Pkt., 5c; oz., 30c.

Wormwood (Perennial). Leaves with very bitter taste. Is grown for medicinal purposes; recommended also as of value to poultry. Pkt., 5c; oz., 20c.

Vegetable Plants

Prices named do not include prepayment. If wanted by mail, add for postage 5c per dozen, 25c per 100 on Cabbage, Cauliflower, Celery, and Sweet Potato Plants; 10c per dozen on Egg Plants, Pepper, and Tomato Plants. We strongly advise shipment be made by express.

Fifty or more at 100 rate.

Culinary Roots

ASPARAGUS

A year's time can be gained by setting out Asparagus roots instead of planting seed. A bed of Asparagus, properly made, should last for twenty years or more. The ground should be spaded to a depth of at least two feet and well fertilized. For a small garden, it is desirable to set out the roots in rows two feet apart and 10 to 12 inches between the plants in the row. The roots should be carefully spread out and the crown covered to a depth of about four inches.

Our two-year-old Asparagus roots are heavy, clean stock that will make a vigorous growth the first season.

Note—Prices do not include postage. If to be mailed, add 25c per 100 for the one-year-old plants, and 50c per 100 for the two-year-old plants.

Bonvallet's Giant. One-year-old, 100, 75c; 1,000, $5.00. Two-year-old roots, 25 for 40c; 100, $1.00; 1,000, $7.00.

Columbian Mammoth White. One-year-old, 100, 60c; 1,000, $4.50. Two-year-old, 25 for 40c; 100, $1.00; 1,000, $7.00.

Conover's Colossal. One-year-old, 100, 50c; 1,000, $4.00. Two-year-old roots, 25 for 30c; 100, 75c; 1,000, $5.50.

Palmetto. One-year-old roots, 100, 50c; 1,000, $4.00. Two-year-old roots, 25 for 30c; 100, 75c; 1,000, $5.50.

HORSE RADISH SETS. Dozen, 25c; 100, 75c, postpaid.

Special Prices on Large Quantities

RHUBARB ROOTS. Mailing size, each, 15c, postpaid. Clumps, each, 25c to 75c, according to size; not prepaid.

Bedding Plants

In May, we carry large stocks of seedling Asters, Pansies, and Salvias; also Geraniums and other pot-grown plants.

RHUBARB PLANT

Farm Seed Department

Most important to all who depend for their living on the products of the soil is selected seed, that not only will germinate, but is reliable. That is the kind we sell. Every seedtime the sales in this department show a large increase over the previous year. We number among our patrons some of the most well-to-do farmers in the country, several of whom annually entrust to us their entire orders for the seed grain as well as for the grass and clover seeds required for their acres. We have built up a large trade in improved varieties of farm seeds. If kind you wish to sow is not listed here, write us.

There's a reason for the confidence our customers have in the seed we supply—**Quality.** When this business was established, **Quality** was taken as the watchword. We furnish **the best** that can be had anywhere. Pedigreed seed comes higher than ordinary, but the value to the planter of high-grade stocks is vastly greater. Our seed grain is grown and specially prepared for planting purposes. It is carefully selected by experienced seedsmen, thoroughly cleaned, and handled only by careful employees, as a safeguard against errors in filling.

Prices, unless stated otherwise to the contrary, include bags for shipping and delivery to depot in Chicago. Purchaser is to pay freight or express charges. The prices named are **Net, no discount,** and are based on value existing when this is written. We will maintain prices as far as possible, but *they are subject to change without notice.*

SEED OATS

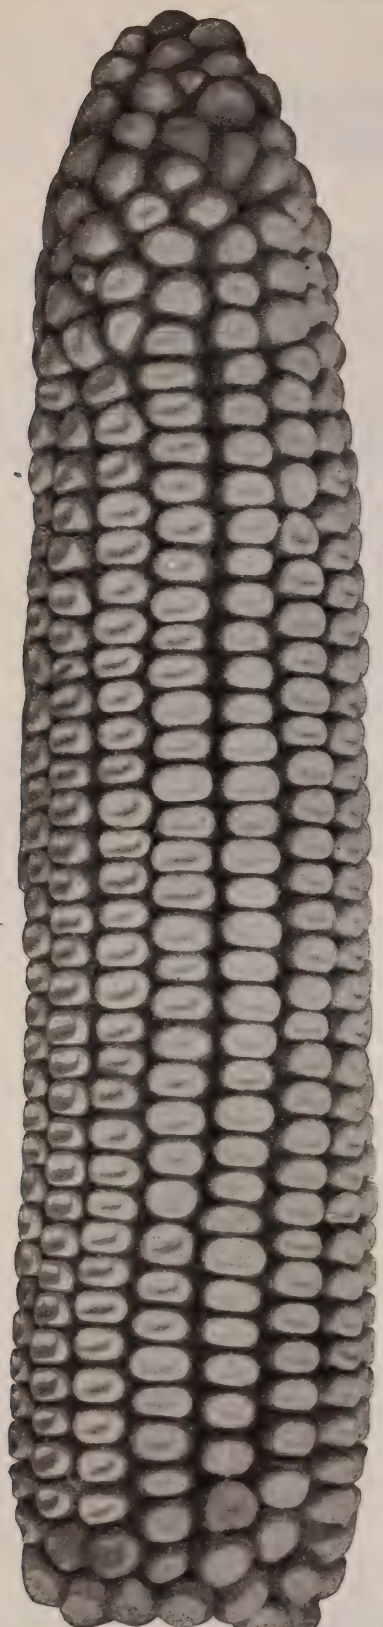
We make no charge for bags, but do not pay freight charges.

Swedish Select Oats The United States Department of Agriculture describes this as the "Best American Oat." It is an early white variety, producing grain of good weight and quality. Straw is medium in height and strong. Swedish Select, on account of its vigorous root action, can be recommended for a variety of soils, doing well on nearly all. Our stock of Swedish Select Oats is northern grown in a section of the country that has proven itself especially adapted to this crop. One hundred bushels to the acre is not an uncommon yield. Oats grown in a northern latitude are more vigorous, hardier and mature earlier than stocks grown anywhere else. We have a fine clean strain of these oats and will gladly send sample to any who are planning to change their seed stock. You can in this manner know exactly what you will receive for your money. Bu., $1.25; 10 bu., $10.00; 50 bu. lot, 90c bushel.

Big Four Oats This is a well-known and popular variety throughout the central states and northwest. It ripens early and yields abundant crop. It is a large, white oat, free from black kernels. In comparison with other sorts, one close observer has stated, "It has the plumpest kernel of any variety, and is as large." The straw is of medium length and of a quality that stands up well on almost any kind of soil. We have a bright, heavy stock to offer, which we would be pleased to sample to you. Pk., 30c; bu., $1.00; 10 bu. at 90c; 50 bu. at 85c.

Good Seed Oats Very often we have an opportunity to buy good clean northern grown oats of no special variety at a very reasonable figure. By proper cleaning, these make very good seed oats. We offer in 10 bu. lots or more at 65c bu.

Black Tartarian Oats They are preferred by those who have had experience with them principally on account of their superior yielding qualities, but besides being fully equal, if not better than white oats in point of feeding qualities, they possess another very valuable characteristic in the unequalled stiffness and strength of straw. Lb., 30c., postpaid; pk., 40c; bu., $1.35, not prepaid. Special prices will be named for quantities.



GOLDEN GLOW CORN

Selected Field Corn

Corn is the most important crop with the majority of farmers who will read this catalog; consequently, we are devoting considerable space to the description of the different varieties we have to offer, but are listing only those that we consider to be the very best of their type. Our stocks are the product of carefully selected seedstock and of crops that have received every care necessary to the production of a grade of corn that can be recommended as strictly seedstock. We consider that we are listing these at very reasonable prices considering the high standard of quality which we know they represent.

When you stop to think that at our prices it would only cost you from 35c to 40c per acre to plant seed that will produce for you a crop yielding perhaps many bushels in excess of that which you would harvest were you to plant inferior or less carefully grown stock seed, we believe you will agree with us that the purchase of a few bushels of some of these select strains would prove to be a good investment. We would appreciate your order for any quantity and are prepared to make special prices on large lots. Prices herein named are for shipment F. O. B. Chicago. Bags free.

Golden Glow The illustration on this page shows a typical ear of this splendid variety. It is one of the earliest of the yellow dents and is especially adapted for growing in the northern states. It is now very largely planted in the state of Wisconsin and some splendid crops were harvested there last fall. The type of this corn is well fixed, the ears maturing very uniformly as to size and shape; the kernels are of good depth and set closely together filling out the cob evenly from butt to tip. The stalks are strong with ample foliage for silage if wanted for that purpose. We strongly recommend this variety for planting in Northern Illinois, Wisconsin, Michigan or sections in about the same latitude. Our stock was grown in central Wisconsin, has been carefully selected, shelled and graded and thoroughly tested as to vitality. Pk. 75c; bu. $2.50; 5 bu. for $11.00.

Minnesota No. 13 Another splendid early yellow dent. The ears are of handsome appearance, bearing 16 to 20 rows of bright, rich yellow, smooth, wedge-shaped kernels packed closely on the cob from butt to tip. The ears average eight inches in length, and are borne usually two on a stalk. No corn excels in quality the Minnesota No. 13; the cobs are well filled and the individual kernels plump and of good color. Minnesota No. 13 thoroughly matures in ninety days when planted on favorable soil and in a good location, but ninety-five to one hundred days places it out of danger under average conditions. Minnesota No. 13 will thrive and produce abundantly on most any soil, and will do remarkably well under adverse conditions when other varieties would fail entirely. Pk., 60c; bu., $2.00; 5 bu. for $9.50.

Pride of the North **16-Rowed. Matures 90 days** Ears 8 to 10 inches in length and 1¼ inches in diameter. Kernels closely set, above medium size, long, narrow, thin, of deep orange color, shading to pale yellow at the tip. Cob very small and red. In a test, 70 pounds of ears, not selected and but imperfectly dried, produced 60¼ pounds of shelled corn and only 9¼ pounds of cobs, instead of 14 pounds, the usual proportions. Stalks about medium height—6 to 8 feet. Our stock is Northern Illinois grown. Pk., 50c; bu., $2.00; 5 bu. for $9.00.

White Cap Yellow Dent **16 to 18 Rowed. Matures 90 to 100 Days** For poor, thin land this is the Seed Corn to plant for good crops. It is a strong grower (6 to 7 feet high), resists heat and drouth wonderfully, yielding good large ears on small cobs. The outer end of the grain is white, deeply dented. The inside is yellow. The fodder is abundant and of superior quality, as it remains green after the grain is matured. Many of our Illinois and Wisconsin customers who have tried this think it is the best variety for their sections. Pk., 60c; bu., $2.00.

Silver King or Wisconsin No. 7 The best of the white dent varieties for planting in latitude of northern Illinois or Southern Wisconsin. Of recent introduction, this variety has already become very popular. It has a great many merits to recommend it. Of good size, ears averaging from 8 to 10 inches in length, cobs uniformly and evenly filled out, kernels of good depth and pure white. For so large a Corn, it is early, maturing in about 100 days. It is a heavy cropper and will probably yield more to the acre than any other variety either yellow or white that can be grown in the latitude mentioned. We have an excellent stock of this splendid white corn. Pk., 75c; bu., $2.50; 5 bu. for $11.00.

TO AVOID DELAY, when ordering, mention your second choice.

SELECTED FIELD CORN—Continued

Reed's Yellow Dent The ear is of excellent shape, nearly cylindrical, tapering gradually to tip, length about 10 inches, kernels firm on cob, 18 to 24 rows, with narrow space between rows, color medium yellow with red cob. The ear is quite solid and rather smooth; matures in about 110 days, and yields well. Pk., 60c; bu., $2.00; 5 bu. for $9.00.

Iowa Gold Mine This variety has everywhere received the most cordial endorsement as one of the best and most profitable varieties. It is early, ripening in about 100 days, ears of good size, color a bright golden yellow; grain is very deep, cob small, and therefore dries out very quickly as soon as ripe. Seventy pounds of ear corn will make about sixty pounds of shelled corn; and in hauling to market it weighs out considerable more to the wagon load than common varieties. Pk., 60c; bu., $2.00; 5 bu. for $9.00.

Iowa Silver Mine Matures in about 100 days in the Illinois corn belt, say south of Chicago. The stalks grow to a height of 7 or 8 feet and set the ears about 3½ to 4 feet from the ground. The ears measure from 10 to 12 inches in length, and often weigh 1½ pounds. They are uniform in size and shape, with 16 to 20 straight rows of deep, pure white kernels on a very small cob. *It is the heaviest yielder we know.* Pk., 60c; bu., $2.00; 5 bu. for $9.00.

Champion White Pearl A pure-white early corn, maturing in 90 to 100 days. Very prolific; the grain is long and wide, two of which will span the cob. The cobs are unusually small for the size of the corn, and are almost all white. The ears are medium-sized, 16-rowed, and can be planted much thicker than a large corn and yet bear full-sized ears. Makes splendid meal, and is very largely grown for that purpose throughout the Middle states. Popular in the South. Pk., 60c; bu., $2.00; 5 bu., for $9.00.

FLINT VARIETIES

Yellow Flint (Longfellow). The most popular of all flint varieties. It is a beautiful eight-rowed yellow flint, with slender, straight ears, 10 to 15 inches long. Kernels are large and wide, and cob very small. Ripens in 75 to 85 days, and very prolific. Well adapted to the Northern states and largely grown in northern Wisconsin and Minnesota. Pk., 75c; bu., $2.25.

White Flint (Sanford). A well-known white flint corn. Medium-sized ear, averaging about 10 inches long. Handsome, large, and well-filled grains. Pk., 75c; bu., $2.25.

Red Flint (King Phillip). An early, prolific corn suitable for northern climate, where it will produce a crop when many others fail. Pk., 75c; bu., $2.25.

MAKING ENSILAGE AND FILLING THE SILO

CORN FOR FODDER AND SILO

We consider the best time to cut Silo Corn is when the kernels have become well dented and the ears nearly ripe. The stalks, however, should be green with the possible exception of a few lower leaves, which probably will have started to dry.

Leaming Fodder Plant this for your silo. We consider it to be the best corn in our list for that purpose. It is a large, vigorous growing variety, producing an immense amount of fodder and forming large ears which, in this latitude, develop into the proper stage for ensilage in about 90 days from planting. This will require about ¼ bushel to the acre and should be drilled in. When planted only for green feed, it can be planted thicker—from ¾ to 1 bushel to the acre. Price, pk., 50c; bu., $1.75; 5 bu. at $1.60 per bushel

Red Cob Fodder Well known ensilage corn. Will mature good white corn in the South, and on account of its large growth of leaf and stalk, it is used freely in the West and North for fodder and ensilage purposes. Pk., 40c; bu., $1.40.

Sweet Fodder Corn We have a grade of Evergreen Sweet Corn which we can offer for this purpose at a very reasonable figure. This makes wholesome fodder, relished by all stock. Pk., 65c; bu., $2.00

SEED BARLEY

This crop is receiving more attention in some parts of the country than formerly. It has proved of **inestimable value to every one who feeds stock,** either alone or mixed with other feed. It also brings a fair price in market. **(48 lbs. to bushel. Sow 2 bushels to the acre.)**

Oderbrucker **Six Row Barley.** This variety possesses high malting and feeding qualities. It is similar to the Manshury, and has the additional merit of being a heavier yielder. The kernels are meaty and very nutritious, which has brought it into high regard by stockmen. The heads fill out well, and the straw is of medium length and steady growth, which makes it an easy crop to harvest. We consider it the best of the six-row varieties, and in all sections where it has been tried, it has superseded the other varieties. We have a very nice stock of Wisconsin grown seed. Peck, 50c; bu., $1.60.

White Hulless This comparatively new variety is fast coming into favor throughout the barley-growing section of the country. When once grown, its merits will insure it becoming a permanent crop on the farm. The kernels are white, large, and plump, and about the same weight as wheat. It is a splendid feed for fattening hogs, and can be ground and fed to other stock to advantage. It is also excellent for poultry. It is hardy and adapts itself to almost any soil, maturing in a short season and yielding as high as 50 to 60 bushels to the acre. This barley makes especially fine feed for young pigs. The straw is also of good feeding value for hay. Prices: Lb., 20c, postpaid. Pk., 50c, not prepaid; bu., $1.75. Write for prices in quantity.

Beardless This is a splendid feeding barley, full of nutriment and safe for young stock on account of its freedom from beards. It is early and an abundant yielder, and will do well on any soil where bearded barley can be grown. Peck, 50c; bu., $1.65.

Read's Triumph is the result of a scientific cross made by G. A. Read in 1897 between the two-rowed Highland Chief and the six-rowed Manshury, to produce a distinct six-rowed variety with stronger straw and heads as long, but thicker and better filled than Manshury. Its points of superiority are: Strongest straw; stands up best; crinkles least; rapid grower, arrests weeds; enormous stooler; best for grain mixtures; resists drouth best; never affected by disease; largest heads; grain colors less and weighs 48 to 52 pounds per bushel; grand malting variety; soft, silky beards; safer to feed; easier to handle.

READ'S TRIUMPH BARLEY

Prices: By express or freight, not prepaid: 1 pk., 75c; ½ bu., $1.25; 1 bu., $1.85; 2½ bu., $5.00; 10 bu., $17.00.

We guarantee all of the grain we sell this year under Read's name and description to come direct from him.

FIELD OF BUCKWHEAT

Evergreen Broom Corn

Wherever the location is suitable for growing Broom Corn, farmers find it a paying crop, the demand for the brush exceeding the supply. This evergreen variety grows about 8 to 10 feet high, stands up well, and is entirely free from crooked brush. The fiber is long and fine. It will not get red in the field before it is cut, but is strictly a green variety of brush. Lb., 20c, postpaid; pk., 75c, not prepaid.

Buckwheat

Sow 3 pecks to 1 bushel to the acre.

Buckwheat is not considered exhaustive to the soil. As a smothering crop, where the land contains objectionable weeds, it is very desirable, and it puts the soil in admirable condition for any crop that is desired to use for rotation.

It can be sown so late as to prove a profitable second crop to follow early peas, potatoes, etc. Good pasturage for bees.

JAPANESE. It proves to be two weeks earlier than Silver Hull, both being planted at the same time. Kernels are peculiar and distinct. Makes a superior grade of flour. Lb., 20c, postpaid. Pk., 50c; bu., $1.50, not prepaid.

SILVER HULL. Grain silvery-gray in color. Rounder than common buckwheat, is earlier, has thinner husk, and yields more. Lb., 20c, postpaid. Pk., 50c; bu., $1.50.

COMMON BUCKWHEAT. Selected Seed. Lb., 15c, postpaid. Pk., 40c; bu., $1.40.

Write for prices in larger quantities than here named.

Seed Flax

Price subject to market changes.

Flax should be sown late enough in the spring to avoid frost, but as early as it is possible to do so, in order to secure the early spring rains. When grown for the fiber, about one bushel should be sown to the acre; but if for seed alone, usually one-half bushel is sufficient. Lb., 20c, postpaid. Pk., 85c, not prepaid.

Write for prices in larger quantity.

Cahoon Seed Sower

Sows all kinds of grain, clover seeds, etc., evenly and rapidly. Price, $3.25.

MILLETS

The several varieties will furnish food for livestock in the form of grain or seed, fodder, soil food or pasture. Especially valuable in seasons when the hay crop is short. They make the best hay if cut in blossom and carefully cured.

German Millet. Can be planted as late as July, and will produce from three to four tons of hay per acre. For this purpose the crop should be cut when in full bloom. Sow at the rate of 35 lbs. per acre. Choice stock. Lb., 10c; 10 lbs., 75c; 100 lbs., $4.00.

Common Millet. Similar to above and used for the same purpose. Does not yield so heavily as above, nor is the hay of as good quality. Lb., 10c; 10 lbs., 75c; 100 lbs., $4.00.

Hungarian Millet, sometimes called Hungarian Grass. This variety is in good demand, as it will produce a crop earlier than any of the other sorts. It can, therefore, be planted later. The hay is also of excellent quality. Lb., 10c; 10 lbs., 60c; 100 lbs., $3.50.

Japanese Millet. Especially valuable for planting on low lands. It will make a growth of 6 to 8 feet, affords an immense amount of excellent fodder. It is quite distinct from the other millet. Should be seeded broadcast at the rate of about 20 pounds to the acre. Can be drilled in and cultivated, requiring when sown in that way about 10 lbs. to the acre. Lb., 15c; 10 lbs., $1.00; 100 lbs., $6.00.

SEED RYE

(Sow at the rate of two bushels to the acre)

Spring Rye. This is distinct from Winter Rye. It does not stool out like that variety, but the straw is equally valuable. Spring Rye is now largely sown in the Middle and Western states in place of oats. It makes a good "catch crop" where winter grain has failed. Lb., 10c; pk., 50c; bu., $1.65. Write for prices in larger quantities.

Winter Rye. This supplies a quick growing crop that is desirable to plow under for green manure or can be pastured and cut early in the spring. Hardy and seldom winter killed. Lb., 10c; pk., 50c; bu., $1.65.

Sunflower, Mammoth Russian The best variety for the farmer. Growing to double the size of the common, and the yield of this seed is **twice as great.** Drill in seed at the rate of about 7 lbs. to acre. It is much relished by poultry and horses. Oz., 5c; lb., 20c, postpaid; 10 lbs., 75c, not prepaid.

WILD RICE (Zizania Aquatica) This plant thrives on the borders of lakes and ponds. It is a favorite food for wild ducks and geese. Seed should be sown immediately after harvest or preserved in damp moss for spring planting. We offer stock for either delivery. Write for prices.

WINTER OR HAIRY VETCH

MILLET

VETCHES or TARES

Sand or Winter Vetch (*Vicia Villosa*). Rapidly coming into favor as a winter cover crop, also desirable to plow under for green manure, or can be pastured or cut for hay. It is usually sown in the fall, broadcast, at the rate of a bushel (60 lbs.) to the acre. Sometimes sown with rye, 40 to 50 lbs. of Vetch to about 30 lbs. of rye. If sown in the spring, it will produce a crop which can be cut for hay in mid-summer and second growth pastured afterwards. Choice quality seed, per pound, 15c; 100 lbs., $13.00.

Spring Vetch (*Vicia Sativa*). Used for soiling or fodder. Sow 80 lbs. to the acre when alone, or with wheat or oats about 50 lbs. Lb., 10c; 100 lbs., $6.00.

SPRING WHEAT

(Sow from 1¼ to 1¾ bushels per acre)

Marquis. An introduction from Canada a few seasons ago. It has proven itself by many tests to be an improvement over nearly every other variety in earliness, productiveness and quality. The kernel is dark red, plump and very hard. Before planting this spring ask us to mail you a sample of our Marquis wheat, so you can judge somewhat of its fine quality. Pk., 65c; bu., $2.00.

Blue Stem. A distinct variety from all other spring wheat. In the early stages of growth the stem has a decidedly blue cast in color which disappears as the grain ripens. The stem is of medium length, very sturdy, and free from rust. The grain is without beard, the kernel large and of the old Red Fife type. A very productive variety, and an excellent one for milling purposes. Pk., 50c; bu., $1.75.

PERENNIAL RYE

Superior Grass Seeds

KY. BLUE GRASS

Our stocks of grass seeds are selected with the greatest care. We handle none other than those of highest quality.

We wish to direct attention to our low prices on Kentucky Blue Grass and Canada Blue Grass. The past season was very favorable for the growth of these grasses so that a splendid crop of fine quality was harvested. These conditions enable us to offer these excellent grasses at much lower prices than ordinarily sold for.

The prices quoted are net, and subject to market fluctuations. Ask for ruling prices on Timothy and Clover when ready to buy. We ship by freight or express at expense of purchaser. If to be mailed, please add 8 cents per pound for postage.

Awnless Brome Grass (*Bromus inermis*). Will stand long droughts and produce heavy crops in dry sections where other grasses would perish. It is one of the hardiest grasses. Will succeed in a wider range of temperature than any other grass. Sow 35 to 40 lbs. to the acre.

Canada Blue Grass (*Poa compressa*). Used sometimes as a substitute for Kentucky Blue Grass in Lawn Grass Mixtures, but not so desirable for that purpose either in color or texture. Its merit is in the fact that it will grow on almost any soil and under adverse climatic conditions where other grasses would fail. Especially suited for thin, dry soil.

Creeping Bent Grass (*Agrostis Stolonifera*). Adapts itself fairly well to most soils, but thrives best on low or moist lands. On account of its short, slender foliage, vigorous root growth, and creeping habit, it produces a turf capable of withstanding a great deal of wear, and should be included in all Mixtures designed for pleasure grounds. Seed with other grasses at the rate of about 30 pounds to the acre.

Crested Dogstail (*Cynosurus Cristatus*). On dry, hard soils and hills it is valuable for its hardiness. Useful for lawn mixtures. Sow 25 lbs. to the acre.

Hard Fescue (*Festuca Duriuscula*). A dwarf grass desirable for dry localities where many other grasses would fail. Sow 30 lbs. to the acre.

Italian Rye Grass (*Lolium Italicum*). Yields an early and abundant harvest on any good common soil. Recommended for pasture mixtures. Also adapted for moist situations.

Kentucky Blue Grass (*June Grass: Poa Pratensis*). A low-growing, creeping grass of fine texture and color, also of good nutritive value. Desirable for either lawns or pastures. It is of slow growth, requiring at least two seasons in which to establish itself. For that reason it should be seeded with other grasses. It should form a liberal proportion of all good lawn grass mixtures, as it possesses to a larger extent perhaps than any other variety, those qualities most essentially required for a fine, permanent turf. For this purpose sow 30 to 40 pounds to the acre with other grasses. Succeeds almost everywhere.

Meadow Fescue (*English Blue Grass; Festuca Pratensis*). An excellent pasture grass, early, nutritious, and thrives well on all good soils. The long tender leaves are much relished by cattle. It makes a very good quality of hay. Flowers in June and July. Sow 40 lbs. to the acre.

Meadow Foxtail (*Alopecuris Pratensis*). One of the finest varieties for permanent pastures, grows rapidly after the cropping of sheep and cattle. It grows well on all soils except the dryest sands and gravels, but thrives best on a rich, moist, strong soil. Flowers in May. Sow 25 lbs. to the acre.

Orchard Grass (*Cocksfoot; Dactylis Glomerata*). One of the most widely known of pasture grasses. Its properties are earliness, rapid growth, and power to resist drought. Will endure some shade. If cut when in flower, it makes first-rate hay; ripe, it makes poor hay. Flowers about the same time as Red Clover. Sow 24 lbs. to the acre.

Perennial Rye Grass (*Lolium Perenne*). Nutritious and valuable; in most places not excelled by Blue Grass for pasture. It thrives on almost all cultivated soils; starts early and grows all summer. Flowers in June. 24 lbs. to the bushel. Sow 60 lbs. to the acre.

Perennial Sweet Vernal (*Anthoxanthum Odoratum*). Useful as a mixture with other grasses on account of its early growth. It emits an agreeable odor when cut for hay. Sow 10 lbs. to the acre with other grasses.

Red Top (*Agrostis Vulgaris*). Thrives best on low lands, where it cuts a good crop of rather light hay of fair quality. Suitable for low pastures. Sow 2 bu. per acre; 14 lbs. to bushel. Useful for lawn or field.

Rhode Island Bent (*Agrostis canina*). A low-growing, fine-leaved grass of good color. Useful in lawn mixtures. Adapts itself to almost any soil, but thrives best on high or sandy land.

Tall Fescue (*Festuca Elatior*). Produces large crops on strong, heavy land. Grows naturally in shady woods, roots deeply, and stands dry weather remarkably well. Sow 40 lbs. to the acre.

SHEEP'S FESCUE

Timothy (*Phleum pratense*). The standard grass for hay lands. Owing to short crops the past two years the supply has become very limited. To seed alone use 15 lbs. to the acre. or 12 lbs. of Timothy and 3 lbs. Medium Red Clover (a desirable combination). It thrives best on loamy soils.

Wood Meadow Grass (*Poa nemoralis*). The best variety for sowing in orchards under trees, or for shady lawns and pastures. Sow 30 lbs. to the acre.

Grass Seed (not prepaid)	lb.	100 lbs.	Grass Seed (not prepaid)	lb.	100 lbs.

Express or Freight charges always to be paid by the purchaser, but if wanted to be sent by mail, add at the rate of 8 cts. per pound to prepay postage. If this is omitted the quantity will be reduced.

MEADOW FESCUE

GRASS SEED MIXTURES FOR HAY AND PASTURE

These mixtures are specially blended with a view to secure the largest possible yields. All the grasses are permanent when once established. They will last indefinitely if occasionally top dressed.

ALL AUTHORITIES agree that for **Pasture** and **Hay,** best results are obtained from the use of grass seeds **in species.** The reasons are obvious. First, **A number of species** will insure a **much denser growth** than the same kind of seeds of one or two species, and prove **less exhausting** to the soil, since they live to a large extent on the same constituents. Second, seasons that affect some grasses adversely are **favorable** to other sorts, so that with a mixture failure is **practically impossible,** provided, of course, the seed is good. We take great pains in selecting grass seeds in order to secure the **highest germination,** and mixtures are based on a full appreciation of the requirements of the different soils for which they are intended.

Mixture for Hay Land This is composed of thoroughly recleaned grasses and clovers which mature evenly and produce a heavy growth of high nutritive value. After the crop is cut, continuous and abundant pasturage until late fall sets in. Sow 20 pounds to the acre. Price per pound, 25c.

Mixtures for Permanent Pastures Containing grasses and clovers rightly proportioned, insure a succession of rich fodder throughout the entire season. We have made a very careful selection of such varieties as are especially adapted to the different soils named below, and our sales testify that these mixtures are giving our customers excellent results. Sow 30 lbs. to the acre.

For Average Land, per acre $6.00. For Low or Moist Land, per acre $6.50. For High or Dry Land, per acre $5.50

FIELD OF ALFALFA—THIRD CUTTING IN ONE SEASON

CLOVERS—Recleaned Seeds

Prices subject to change without notice. Bags, 22c each extra

Alfalfa or Lucerne

One of the most valuable forage plants. It will adapt itself to almost any land that will grow clover, but thrives best on deep, well-drained soil. It may be cut several times during a season, and will yield more than any other like crop. The hay is excellent in quality, relished by all stock and of special value to the dairy farmer. Though a wonderful cropper, it does not impoverish the soil, but actually adds to its fertility. A vigorous root growth enables it to withstand extreme drought, which often makes it a desirable hillside crop. It has steadily come into favor and is now extensively grown in nearly all the states. Every farmer should not delay another season, but put in a trial acreage this spring. We recommend spring seeding at the rate of 20 lbs. to the acre. A well-prepared seed bed free from weeds is essential for best results. Selected and thoroughly recleaned stock, per pound, 35c, prepaid; bushel of 60 pounds, not prepaid, $12.00. Samples of this stock gladly mailed upon request.

GRIMM'S ALFALFA. Extremely hardy. Especially suitable for northern latitude. Good stock of this strain is very scarce. We expect to have only a limited quantity to offer. Write for price.

Medium Red or June Clover. One of the most widely grown farm crops. Valuable for hay, pasturage, or for plowing under. If seeded alone, about 12 lbs. is required to the acre. Medium red clover is used very largely to rotate with other farm crops. It adds fertility to the soil and produces two crops. The first is usually cut for hay; the second left for seed or to be plowed under. Extra select stock, per lb., postpaid, 35c; 10 lbs., not prepaid, $2.50; 100 lbs., $21.00.

Mammoth Clover. Grows taller and makes heavier growth than Medium Red. Excellent to plow under for green manure. Seed 10 to 12 lbs. to the acre. Per lb., postpaid, 35c; 10 lbs., not prepaid, $2.50; 100 lbs., $21.00.

Alsike. A very hardy clover; good for pasture and hay. Does especially well on low or moist land. Lb., postpaid, 35c; 10 lbs., not prepaid, $2.50; 100 lbs., $21.00.

Crimson Clover. A quick growing annual. Desirable for pasture or to plow under. Where the winters are not too severe, should be seeded in the fall about 15 lbs. to the acre. Lb., postpaid, 30c; not prepaid, 10 lbs., $2.00.

White Clover. Its short, spreading habit of growth makes it valuable for lawn or pasture; very hardy. Extra fancy stock, pound, postpaid, 60c; 5 lbs., not prepaid, $2.25.

Bokhara (Sweet Clover). We handle only the white variety, which we consider the best. This plant is rapidly coming into favor with dairymen and stockmen. Formerly it was deemed of value only as a food for bees; but now, its merits as a pasture and hay crop, are being recognized. To a large extent, it has the good qualities of alfalfa, besides thriving on a greater variety of soils. For hay, it should be cut just prior to blossoming. It yields two to three crops. It is a biennial **and dies out after the two seasons unless allowed to seed itself.** Like all legumes, it is a great soil builder. We offer recleaned seed free from hull. It should be sown at the rate of about 20 lbs. to the acre. Lb., 40c; 10 lbs., $3.50; 100 lbs., $32.00. These quotations, based on values prevailing when book was assembled, are subject to change.

FORAGE AND FODDER PLANTS

A FIELD OF COW PEAS

COW PEAS—Equal to Clover as a Soil Fertilizer

WHIP-POOR-WILL. As a soil builder or for forage his is one of the best crops that can be grown. Some years ago, its usefulness was confined chiefly to the South, but now the value of this crop in the Western and Northern states has been fully established and there is an increasing acreage planted each year. We recommend and list only the Whip-Poor-Will variety, which matures very early and produces a good growth of vine. When planted for plowing under, the seed may be broadcasted at the rate of 1½ bushels to the acre. If the crop is to be grown for seed, we would suggest drilling it in about a bushel to the acre. In the Northern states the planting should not be done until the ground is thoroughly warm, say from May 15 to June 15. For hay, the crop should be cut just as the first pods begin to ripen. Cow Pea hay is full of nutriment and is grown extensively in the South. As a quick-growing crop, it is excellent for pasture, especially valuable for that purpose to hog raisers. Like all legumes, it adds nitrogen to the soil and improves the land, even if pastured or cut for hay. As a fertilizer, however, the best results are obtained by plowing under the green crop or the stubble after it has been pastured. For any of the purposes named, this crop is well deserving of a place on every farm. Pk., $1.00; bu., $3.50; 5 bu. at $3.25.

CANADA FIELD PEAS

Grown with Oats makes a fodder or hay which doubles the production of Milk.

They should be sown in March or early April, two bushels of peas and two bushels of oats to the acre. The peas should be sown first and plowed under about 4 inches deep; the oats then sowed and harrowed in. They will be ready for cutting about the latter end of June when the oats are in milk and the pods formed on the peas. Prices variable, but always as low as the market will permit. Pk., 85c; bu., $3.00.

SOY BEANS

Like Cow Peas, this is an introduction from the South, and by many farmers considered fully the equal of that crop for either pasturing or for plowing under. As in the case of Cow Peas, planting should be delayed until the ground is warm and for best results, seed should be drilled in at the rate of about three-fourths of a bushel to one bushel to the acre. Pk., $1.00; bu., $3.50; 5 bu. at $3.25.

DWARF ESSEX RAPE

One of the best crops that can be grown for sheep or hog pasture. It is ready for use in from six to eight weeks from time of planting and of a good crop; one acre will furnish enough feed for a dozen sheep for a period of two months. It can be planted from April to August—three pounds to the acre when drilled in, five pounds when sown broadcast. This plant is very hardy and will withstand frost longer almost than any other pasture crop. If planted in corn after the last cultivation, it will furnish a fine feed for grazing after the corn is cut. No farmer who raises sheep or hogs can afford to be without this valuable crop. Lb., postpaid, 20c; by freight or express, 5 lbs., 70c; 10 lbs., $1.20; 100 lbs., $9.50.

NON-SACCHARINE SORGHUMS

Jerusalem Corn A sure cropper, even in dry seasons. The grains are white, flat, and much relished by chickens. Postpaid, lb., 20c; by freight or express not prepaid, 10 lbs., $1.00; 50 lbs., $3.25; 100 lbs., $6.00.

Milo Maize Will make a crop where corn would fail. Stalks reach eight to ten feet in height and yield a large amount of fodder. Produces large heavy heads of grain. Plant in three-foot rows, leaving one or two plants every twelve inches in the row, and cultivate as corn. Three to five pounds per acre. Postpaid, lb., 20c; by freight or express, not prepaid, 10 lbs., 75c; 50 lbs., $3.00; 100 lbs., $5.50.

Kaffir Corn **(Red or White Seeded).** This is one of the best of forage plants, and is the greatest grain producer of the cane family. It is greedily eaten by all domestic animals, whether fed in the grain or ground and cooked. Valuable as a substitute for Buckwheat flour. For grain sow at the rate of 5 to 7 pounds per acre and cultivate same as corn; average yield, 50 bushels per acre. Postage paid, lb., 20c; by freight or express, not prepaid, 10 lbs. for 50c; 25 lbs. for $1.00; 100 lbs., $3.25, bags included.

Sugar Cane or Sorghum This is a splendid fodder plant and is grown extensively for dairy feed; also for hogs or sheep. For fodder, it is sown broadcast, about 40 pounds to the acre or drilled in thickly, 10 to 15 pounds. We have also an excellent stock of the Early Amber variety, which we recommend to those who plant for syrup. For this purpose, drill in 4 or 5 pounds to the acre.

Sugar Cane for fodder, 10 lbs., 75c; 100 lbs., $5.00.
Early Amber, lb., 15c; 5 lbs., 65c.

Notes on Raising Flowers from Seeds

SUCCESS in the cultivation of flowers from seeds depends to a great extent on the earlier operations. Much of the disappointment and failure that attends this pursuit may be avoided by carefully noting the class to which each belongs and then following the appropriate culture. Generally speaking, brief cultural directions are printed on every packet of seed sold, and in some instances they prove sufficient, but we here offer a few suggestions which may be helpful to beginners.

The first and most essential requisite is **Reliable Seeds.** Next, a suitable soil. That best suited for flower culture is a rich loam containing enough sand to make it porous. A large portion of the summer flowers are **Annuals.** As they do not take kindly to transplanting, it is best to sow seed where the plants are to bloom. Sow from March until June in dry soil previously fertilized by bone meal, sheep manure, or similar stimulants. Make a broad but shallow depression in which sow the seeds as thinly and evenly as possible and cover in proportion to the size of the seeds. Very small seeds should not be covered. Press them into the soil with a flat board. The seedlings should be thinned out during moist or dull weather.

HALF HARDY ANNUALS. Towards the end of May seeds of this class may be sown in the place where they are to bloom. It is advisable, however, to sow the seeds in March and April indoors, either in pans, shallow boxes, or pots. When the little plants have made three or four leaves, reset them into another box so they may be strong and sturdy to set in the garden at planting time. Occasional watering with weak liquid sheep manure is beneficial.

HARDY PERENNIALS. These may be sown in open borders any time from April to October. **Biennials** require similar treatment to Hardy Perennials. By sowing seeds in boxes or pots in cold-frames in February and March and transplanting the seedlings to a north border, a much earlier bloom will be secured. The seeds of perennials usually germinate slowly.

DESCRIPTIVE LIST OF FLOWER SEEDS

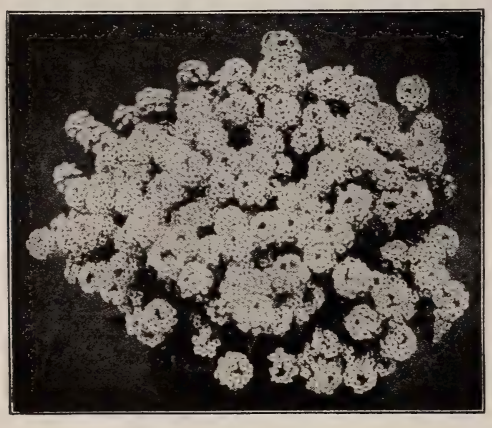
Our flower seeds are selected with greatest care from the best obtainable strains. We take special pains to send out those of **highest quality** only. Our list has again undergone a thorough revision, and we believe now embraces only the choicest types in their respective classes. We sell nearly every variety by the packet; some popular sorts are offered by weight as well.

The arrangement is, for the most part, alphabetical, the various plants being described by class, hardiness, height, color of flower, time of bloom, etc. This information we hope will be an aid to determine whether or not the flower under consideration meets your requirements or otherwise.

In this list of flower seeds the following abbreviations are used to indicate the classification:

H. A. .....Hardy Annuals	**H. P.** .....Hardy Perennials	**H. H. B.** .....Half-Hardy Biennials
H. H. A. .....Half-Hardy Annuals	**H. H. P.** .....Half-Hardy Perennials	**H. C.** .....Hardy Climber
T. A. .....Tender Annuals	**H. B.** .....Hardy Biennials	**G. S.** .....Greenhouse Shrub

NOTE.—For the convenience of purchasers and to facilitate the filling of orders, numbers are prefixed to all varieties of flower seeds. When ordering, it is only necessary to state quantity desired and number.



SWEET ALYSSUM

DWARF AGERATUM

Pkt.

ABRONIA—Sand Verbena

2000 **Umbellata.** H. A. A trailing plant which thrives in poor soil. Its fragrant pink flowers are borne in clusters all summer 5

ABUTILON—Flowering Maple

2001 **Mixed.** Shrubby plants, suitable for house, greenhouse, or garden. 4 ft. Drooping, bell-shaped flowers of various colors..... 10

ACHILLEA—Milfoil or Yarrow

2012 **"The Pearl."** H. P. 1½ ft. Double white daisy-like flowers in summer and fall. A good plant for cemetery decoration 10

ACONITUM—Monk's Hood

2022 **Napellus.** H. P. 4 ft. Does well in shade. Helmet-shaped, blue flowers..... 5

ADONIS—Flos Flower

2002 **Æstivalis.** H. A. 1 ft. Dark green foliage; scarlet flowers in summer.....1 oz., 10c.... 5

ADLUMIA—Allegheny Vine

2007 **Cirrhosa.** H. B. Climber; 15 ft. Feathery foliage; pink flowers in mid-summer. Desirable for covering trellises, tree stumps, etc..... 10

AGATHEA—Blue Marguerite

2017 **Coelestis.** Valuable for winter blooming in pots in the house. Blue, daisy-like flowers. T. P..... 5

AMPELOPSIS—Boston Ivy

2098 **Veitchi.** Rapid-growing hardy vine. It adheres firmly to stone, brick, or wood. Foliage turns to scarlet in autumn .....½oz., 15c.... 5

AGERATUM

Half-hardy annual. Grows well anywhere and blooms continually until destroyed by frost. Valuable for cut-flowers. Tall sorts are effective grown with Alyssum, Candytuft, etc. Dwarf varieties are suitable for edgings. Pkt.

2023 **Imperial Dwarf,** blue, 9 inches.....⅛oz. 10c... 5
2025 **Imperial Dwarf,** white, 9 inches.....⅛oz., 10c... 5
2033 **Imperial Dwarf,** mixed .....⅛oz., 10c... 5
2024 **Blue Perfection,** 9 inches; very dark..... 5
2032 **Little Blue Star,** 5 inches; bright blue..... 15
2038 **Mexicanum,** 18 inches; blue.....¼oz., 10c... 5
2039 —**Album,** 18 inches; white.....¼oz., 10c... 5
2040 **Mixed,** 18 inches.....¼oz., 10c... 5

ALONSOA—Mask Flower

2139 **Grandiflora.** H. H. A. 2 ft. Of compact growth; suitable for bedding and cutting. Scarlet flowers.. 5

ALYSSUM

Hardy annual of dwarf habit, blooming until killed by frost. Fine for beds, borders, and vases. The snow-white flowers are fragrant and lasting. For edging to beds or borders, sow thickly to form masses. Cut flowers freely and others will take their places.

2084 **Maritimum** (Sweet Alyssum). 1 ft....1 oz., 25c.. 5
2085 **Carpet of Snow.** Of trailing habit; 4 in..¼oz., 20c.. 5
2091 **Little Gem.** Erect, distinct; 6 inches;....¼oz., 20c.. 5
2092 **Little Dorrit.** A gem for edgings; 4 in..¼oz., 20c.. 5
2097 **Saxatile compactum.** H. P. 1 ft. In spring each plant is a mass of golden yellow flowers..¼oz., 15c. 5

AMARANTHUS

2045 **Caudatus** (Love-Lies-Bleeding). H. A. 3 ft. Brilliant foliage; dark-red, drooping spikes..¼oz., 10c.. 5
2046 **Tri-color** (Joseph's Coat). Foliage crimson yellow and bronze .....¼oz., 10c.. 5
2046a **Fine Mixed.** Above and others.....¼oz., 10c.. 5

ANCHUSA—Alkanet

Pkt.

2145 **Italica.** H. P. 4 ft. Blue, star-shaped flowers from May until August. Desirable for borders, also for cut-flowers. Useful in shrubbery..... 10

ANEMONE—Wind Flower

2100 **Coronaria.** H. P. 9 inches. Poppy-like flowers in spring. The flowers are brilliant and showy. Fine for bouquets. Mixed 5

2102 **St. Brigid.** A selection of the above producing double and semi-double flowers in lovely colors. Mixed 15

ANTHEMIS—Hardy Marguerite

2135 **Kelwayi.** H. P. 2 ft. Bright yellow flowers like Daisies. Fine for cutting..... 10

SNAPDRAGON

ANTIRRHINUM—Snapdragon

H. H. P. 1½ to 3 ft. Dark, glossy leaves, and curiously shaped, showy colored flowers with spotted throats. Snapdragons blossom the first year, if seed is sown early. Slightly covered with leaves, they survive our winters. Succeed best in rather light soil.

TALL, GIANT-FLOWERED SORTS (3 feet)

The following five varieties have very large individual flowers borne upon long spikes. Pkt.

2078 **The Bride.** White, changing to rose..... 10
2069 **Venus.** Pink shade on white ground..... 15
2070 **Purple King.** Intense deep purple..... 15
2048 **Queen Victoria.** White, fine foliage..... 5

We offer six distinct colors, also mixtures of the Giant strain—a great improvement over the old tall-growing sorts.

2056 White 5
2051 Light Pink 5
2057 Carmine 5
2058 Coral Red..... 5
2068 Deep Rose..... 5
2047 Yellow 5
2049 **Giant-Flowered Mixed** .....¼oz., 25c... 5
2050 **Tall Sorts Mixed**.....¼oz., 15c... 5

DWARF VARIETIES (12 to 18 inches)

This class, owing to their dwarf and compact habit of growth, are well adapted for bedding out.

2083 **Queen of the North.** White..... 5
2071 White 5
2076 Carmine 5
2077 Pink Empress..... 5
2080 Deep Rose..... 5
2079 Black Prince..... 5
2081 Yellow 5
2082 Mixed Dwarf Sorts.....¼oz., 15c.... 5

SINGLE-FLOWERED AQUILEGIA

AQUILEGIA—Columbine

H. P. 2 to 3 ft. Well-known and favorite plants for the garden border; especially suitable for shady places. Are easily grown, soon form large clumps, and bloom from May until August. Our list has been greatly extended and now includes many beautiful long-spurred hybrids; also the fine Rocky Mountain Columbine and its hybrids. All Aquilegias are desirable for herbaceous borders. They require moist soil.

2107 **Canadensis.** Scarlet and yellow; native..... 5
2112 **Chrysantha.** Long-spurred, yellow, single..... 10
2123 **Chrysantha.** Double, yellow, gold-spurred..... 10
2133 **Coerulea** (Rocky Mountain Columbine). Sepals deep blue, petals white 10
2134 **Coerulea Hybrida.** These hybrids bear large, beautiful flowers in various colors..... 10
2126 **Double Mixed** .....¼oz., 15c.... 5
2127 **Grandiflora alba.** Half dwarf, white; long-spurred. 5
2124 **Nivea grandiflora.** Large, white..... 5
2125 **Vulgaris.** Single, mixed .....¼oz., 10c.... 5

ARCTOTIS—African Daisy

2146 **Grandis.** H. H. A. 2 ft. Bushy, branching plant with daisy-like flowers; white with light-blue center. Valuable for cutting from July until frost..... 5

ARISTOLOCHIA—Dutchman's Pipe

2136 **Sipho.** H. P. A splendid climbing plant to train against a house or trellis. Heart-shaped leaves.... 10

ARTEMESIA—Summer Fir

2137 **Saccorum Viridis.** A new annual ornamental plant forming bushes 3 to 5 feet high. When developed it looks like a Christmas tree. Has dark-green, finely feathered leaves. A companion plant for Kochia. Pkt. (about 500 seeds)..... 15

ASCLEPIAS—Milkweed

A fine, hardy border perennial; 2 ft. In bloom from July until frost.

2138 **Tuberosa.** Bright orange 10

Ornamental Asparagus

2162 **Plumosa Nanus** (Lace Fern). One of the most popular house plants; easily grown from seed. Graceful, spreading sprays of feathery-like, upright leaves. Pkt. 15

2161 **Sprengeri** (Emerald Feather). Of trailing habit, suitable for pots and hanging baskets. Dark-green foliage, white flowers, followed by red berries. Pkt. 10

ASTERS

It is unnecessary to dwell on the great beauty of these popular favorites, as they are appreciated by every one. Asters are annuals, and they are sufficiently hardy to endure a little frost without injury.

We recommend sowing seed of a number of varieties, as by this method of culture the blooming season can be made to extend from June until late in the autumn.

For best results Asters should have good rich soil and plenty of moisture. The seed may be sown indoors early and plants set out in May, yet seeds sown in the open ground produce excellent results. The location of the bed should be changed every year. As the roots are produced near the surface, a mulch of some kind spread over them in hot weather is very beneficial. Any extra care is repaid by finer plants, larger blooms, stronger stems, and more profuse blooming.

Selected Named Asters

For several years we have been making trials at our nursery of the many classes and strains of Asters now in cultivation. We believe the list which follows contains the most desirable sorts now in cultivation. The seed we send out was grown by experienced specialists, both American and European.

2193 **CACTUS.** This Aster is very distinct. The petals of the carmine flowers are bent or twisted near the tip. The cut flowers are not only pleasing but lasting.....Pkt. 25

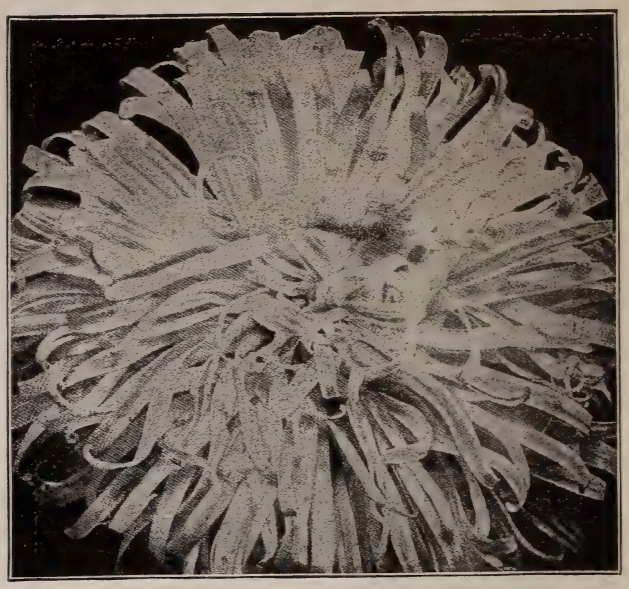
2213 **CARDINAL.** In growth resembling the Branching Aster, but a little more dwarf; in color a beautiful shade of cardinal. Commences to bloom in August, retaining the beautiful color for many weeks 10

2242 **CRIMSON GIANT.** A splendid upright-growing sort, producing very large, well-formed, dark-crimson flowers. Its brilliancy of color and erect habit makes it desirable for garden culture..... 10

2244 **DAYBREAK.** The flowers are round as a ball, very large and full, on long stems; the color a lovely sea-shell pink..... **10**

2214 **ENCHANTRESS.** Color, soft delicate pink that does not fade. The plants are tall and strong; the flowers are large, made up of broad petals loosely arranged 25

ASTER, CRIMSON GIANT



ASTER, HERCULES

Pkt.

2194 **HERCULES.** The plants throw up strong stems 15 to 20 inches high, which branch about 4 inches from the ground, bearing at their summit many central flowers, while on the side shoots appear four to six secondary blooms. The flowers are of different colors with very long petals, and attain the enormous diameter of 6 to 7 inches. Mixed... 20

2238 **LAVENDER GEM.** An early branching sort of the Comet type, with large, double, wavy petaled flowers of an exquisite shade of lavender so much admired 10

2227 **LEMON DROP.** A decided yellow, and as good a grower as any of the other varieties of the Daybreak class. The flowers are not quite so large as those of Purity, its parent, but are more perfect and symmetrical in form..... 15

2391 **MAUVE QUEEN.** An Aster of the Comet type. Very large flowers of mauve color. They are similar in form to Hercules, illustrated above. 10

MIKADO. A grand midsummer Aster. The outer petals show to their full extent, while toward the center they curl across each other, making a large, full, fluffy flower.

2232 **Pink.** 2237 **White.** Each..... 15

2243 **PURITY.** Similar in form and habit of growth to Daybreak. Double pure white flowers..... 10

2240 **ROSY MORN.** Large, well-formed flowers of a handsome shade of rose. Very double; one of the best of the Daybreak group..... 10

2220 **ROYAL PURPLE.** Large flowers with full centers and of a rich shade of royal purple. Plants of branching habit and medium to late flowering 10

2241 **ROYAL STRIPE.** Of Giant Comet type. Large flowers on long stems. A broad band of violet blue runs the entire length of each petal.... 10

2239 **SALMON KING.** Color is novel and pleasing shade, bright enough to be conspicuous..... 15

2221 **SNOWDRIFT.** One of the earliest, with immense perfectly double snow-white flowers..... 10

2249 **ROSE KING.** Color, a bright, deep rose. It differs only in color from the now well-known Violet King..... **10**

2226 **VIOLET KING.** The long, narrow flower petals are folded lengthwise and have a quilled appearance. The bloom is round, full and very large, measuring from 4 to 5 inches in diameter. The color is a soft violet-lilac..... **10**

Asters continued on following page.

ASTERS—Selected, Standard Varieties

CARLSON, or Invincible

A superior type of branching Aster with long-stemmed, peony-formed flowers, of handsome form, large size, and fine substance. Wonderfully prolific, free from disease; in bloom from summer until frost. **Our seed is from the originator, and has no superior in quality.**

2172 **Crimson** 2179 **Light Pink** 2190 **White**
2173 **Dark Blue** 2180 **Purple** 2191 **Mixed**
2174 **Lavender** 2185 **Rose** **Each, per pkt., 10c**

GIANT COMET

A beautiful and distinct class with long curled and twisted petals gracefully formed in loose yet densely double globes. 18 in.

2195 **Carmine** 2200 **Light Blue**
2196 **Crimson** 2201 **Pink and White**
2197 **Dark Blue** 2202 **The Bride**
2198 **Deep Rose** 2203 **Mixed**
2199 **Lavender** **Each, per pkt., 10c.**
2206 **Empress Frederick.** Pure white Comet..... 10
2192 **Triumph of Paris.** Outer petals pure white, center yellow. Pkt. 10

ASTER, CREGO

CREGO

The form of the flower is similar to that of the Comet class, but much larger. They are fluffy and graceful. In bloom from mid-August until fall. This Aster is a universal favorite both with florists and private gardeners. **Each, per pkt., 10c.**

2208 **Light Pink** 2210 **White**
2209 **Dark Pink** 2211 **Purple** 2212 **Mixed**

HOHENZOLLERN

An early fall Aster with enormous flowers. The plants grow 2 feet tall or more and branch freely. The flowers are so large and have such long, twisted petals that they are sometimes mistaken for Chrysanthemums.

2254 **Light Pink** 2263 **Dark Blue**
2255 **Light Blue** 2264 **White**
2260 **Rose** 2265 **Mixed**
2262 **Lavender** **Each, per pkt., 10c.**

Mixtures of Asters

Made of the best varieties suitable for cut-flower purposes, principally of white, pink, and the brightest red, together with a small proportion of blue and purple.

2266 **Asters, tall varieties,** mixed.....¼oz., 25c..Pkt. 5
2267 **Asters, dwarf varieties,** mixed....¼oz., 35c..Pkt. 5

ASTERMUM

A splendid new type of the Hohenzollern Aster, of immense size, center very full. The following is the description by the raiser. "The plant itself grows straight up with very strong, sturdy stems, starting near base and reaching from 18 to 24 inches. The three colors are unsurpassed. Each plant yields from ten to fifteen blooms, and their solidity is such that they make good shippers. **Each, per pkt., 10c.**

2388 **Pink** 2389 **White** 2390 **Blue**

Queen of the Market

Excepting Snowdrift, this is **earlier** than other Asters, and therefore a favorite. Beautiful flowers of large size and fine appearance, borne on stiff stems. **Each, per pkt., 5c.**

2268 **White** 2279 **Dark Blue**
2272 **Pink** 2280 **Lavender**
2273 **Crimson** 2285 **Light Blue**
2278 **Purple**
2290 **Mixed Queen of the Market**.....¼oz., 25
2291 **Collection,** 1 pkt. each of above colors..... 30

Semple's Late-Flowering Branching

The form of the flowers, which are borne upon long stems, places this class of Asters as among the very best late-blooming varieties. Height, 2 feet. **Each, per pkt., 5c.**

2292 **White** 2300 **Crimson**
2297 **Light Pink** 2301 **Purple**
2298 **Lavender** 2307 **Rose**
2309 **Mixed,** ¼oz., 25c 2308 **Light Blue**
2314 **Collection,** 1 pkt. each of above colors..... 30

Peony-Flowered Perfection

Flowers are incurved like those of a Peony, and are handsome in form. August and September. **Each, pkt., 10c.**

2319 **Pure White** 2327 **Dark Blue**
2320 **Rose** 2328 **Crimson**
2325 **Blood Red** 2333 **Sky Blue**
2326 **Light Blue** 2334 **Mixed**
2339 **Imported Collection,** six distinct colors..... 30

Vick's Branching

They bloom in August and September. The flowers are of extraordinary size—much larger than other varieties—and stand erect on long, graceful stems, well above the foliage; flower stems 15 to 20 inches long.

2347 **White** 2352 **Rose**
2349 **Pink** 2362 **Lavender**
2350 **Purple** 2363 **Mixed Colors**
2351 **Crimson** **Each, per pkt., 10c.**

Improved Victoria

A magnificent class of Asters, having large, double, globe-shaped flowers 4 inches across and from 20 to 30 on a single plant. The colors are both delicate and handsome. Height, 18 to 24 inches. **Each, per pkt., 10c.**

2365 **White** 2369 **Dark Blue**
2366 **Rose** 2370 **Lavender**
2367 **Carmine** 2371 **Crimson**
2368 **Light Blue** 2372 **Mixed**
2373 **Imported Collection,** six distinct colors..... 30

Other Varieties of Asters

2374 **DWARF BOUQUET.** For edging. Mixed..... 5

DWARF QUEEN. For pots and beds. Height, 10 inches.
2375 **White.** 2376 **Crimson.** 2377 **Mixed.** Each, pkt., 5c

SINGLE JAPANESE. Splendid cut-flower. The yellow disk is encircled with long, ray-like petals, either white or delicate rose. 2378 **White.** 2380 **Rose.** Each, pkt., 15c

OSTRICH FEATHER. A very beautiful and distinct class with long curled and twisted petals formed into large globe-shaped flowers. 2382 **Pink.** 2383 **White.** 2384 **Mixed.** Each, per pkt., 10c.

SMITH'S PEERLESS. Habit of growth similar to the Branching Aster. The stems are long and wiry, flowers of large size, heavily petaled. A grand cut-flower sort.

2385 **White.** 2386 **Pink.** Each, pkt., 10c
2387 **HARDY PERENNIAL ASTERS.** Easily grown from seed. All colors mixed..... 15

We supply Aster, Pansy, and Salvia plants at proper time to set out.

ASPERULA—Woodruff

2156 **Odorata.** H. P. 1 ft. Valuable for shady places. Flowers white; sweet scented..... 10

Bachelor's Button. See Centaurea Cyanus.

2404 **BALLOON VINE.** 10 ft. A rapid-growing annual climber, with white flowers and inflated seed pods which look like small balloons. Succeeds best in warm soil. Sow where to bloom..... 5

Balsam Apple and Pear

Ornamental climbers, with pretty foliage and flowers, followed by handsome fruit, which, when ripe, bursts open, exposing the bright-red seeds within. 10 ft. H. A.

3337 **Balsamina** (Balsam Apple) 5
3338 **Charantia** (Balsam Pear) 5

BALSAM, WHITE PERFECTION

BALSAM—Lady Slipper

Balsams love rich soil, hot sun, and plenty of water. Sow the seed in window boxes or hotbeds early, or in the open air in May, and transplant when two or three inches in height. Stimulate by weekly applications of liquid manure.

Double Camelia-Flowered Balsams

The delicate flowers of waxy texture are borne along the stems among the leaves. The seed we offer cannot be excelled for quality. *We offer only the finest double sorts.* **In separate colors or mixed. Pkt., 5c.**

2410 **Scarlet** 2415 **Crimson** 2426 **Yellow** 2427 **White**
2428 **Solferino,** white, with scarlet spots and stripes.... 5
2429 **Mixed** ..... 5 2425 **Pink** 5
2430 **Alba Perfecta.** Extremely large white flowers.... 5
2431 **Carnation Striped.** White, striped with purple or scarlet, like a Carnation; very showy..... 5
2432 **Double Balsam, mixed.** A very good strain..... 5
2433 **Double Balsam.** Rose-flowered, mixed..... 5
2405 **BARTONIA aurea.** H. H. 18 inches. Flowers bright golden yellow, of metallic lustre; seed pods curiously twisted. Adapted for partial shade and moist locations 5

Runner Bean

2493 **Butterfly Bean.** Will grow in any soil. In bloom from July to September. The flowers are distinguished by pure white wings and scarlet standard.. 5
3860 **Scarlet Runner.** An exceedingly rapid grower. Its strong vines are always clothed with deep scarlet flowers from early summer until fall..... 5

BEGONIAS—Tuberous Rooted

Of great value for summer decorating or window gardening, blooming the first season from seed if sown in January or March in a temperature of 60 degrees. To secure the best results they should be planted in a partially shaded place.

2434 **Single Tuberous Begonias** 25
2439 **Double Tuberous Begonias**..... 25
2460 **Frilled Tuberous Begonias** 25

BEDDING BEGONIA GRACILIS

Ever-Blooming Bedding Begonias

The following varieties make splendid bedding plants. Start the seed early, in the house, and set out the plants in June.

2444 **Semperflorens alba.** White 10
2461 **Erfordia.** Delicate rose..... 10
2445 **Gracilis Luminosa.** Satiny bronzy foliage. Bright scarlet flowers..... 20
2446 **Rex.** Ornamental leaved plants, much esteemed for pot culture indoors. Not suitable for bedding. The seeds are so very small they should not be covered, but simply sown on the surface of the soil and lightly pressed into it..... 10
2447 **Prima Donna.** Rose-colored flowers..... 20
2448 **Vernon.** Orange-scarlet flowers; leaves dark green. 10
2449 **Dwarf Vernon.** Fine bedder..... 15
2455 **Mignon.** Dwarf; scarlet flowers, green foliage... 20

BELLIS—English Daisy

Perennials which will stand the winter if given the protection of a few leaves or litter; in bloom from early spring until well on in the summer. Easily raised from seed.

2806 **Longfellow.** Double pink..... 5
2809 **Snowball.** Double white 5
2810 **Double Mixed.** All colors..... 5
2811 **Giant White**..... 10 2812 **Giant Mixed**..... 10

Bellis Monstrosa

Flowers measure two or three inches across.

2808 **Monstrosa.** White.. 15 2807 **Monstrosa.** Red... 15
2479 **BRACHYCOME Iberidfolia.** Dwarf annuals which bloom nearly all summer. Suitable for baskets and edgings. Mixed colors..... 5

BROWALLIA

Excellent for bedding. Verbena-like flowers. In bloom all summer in the open; also excellent house plants for winter use. 18 inches.

2478 **Finest Mixed** 5

BOLTONIA

Fall plants for the hardy border. Large flower heads like single Asters. H. P. 6 ft.

2467 **Asteroides.** Flesh color..... 10
2468 **Latisquama.** White flowers in September and October 10

CACALIA COCCINEA—Tassel Flower

2494 **Coccinea.** Showy trusses of scarlet flowers, blooming profusely from July to October. 18 inches. Pkt., 5c.

CAMPANULA (CANTERBURY BELLS)

2499 **CALANDRINIA speciosa.** H. A. Very pretty dwarf-growing plants, with portulaca-like flowers, thriving best in a light, dry soil. Seed should be sown in gentle heat about March or in the open about the middle of May..... 5

CALCEOLARIA (Pocket Flower)

Plants suitable for greenhouse and window culture. Bear large pocket-shaped flowers in spring and summer. Colors: Yellow, maroon, crimson, etc. G. P.

2504 **Large Flowering.** Height, 18 inches..... 25
2505 **Nana.** Dwarf, 12 inches..... 25

CALENDULA (Pot Marigold)

H. A. 2 ft. Calendulas bloom all summer and thrive anywhere, especially in city gardens. The graceful star-shaped flowers exhibit every shade of yellow from ivory to deep orange. Well adapted for cutting, being borne upon long stems.

2507 **Meteor.** Large yellow flowers, striped with orange. Handsome..... 5
2508 **Prince of Orange.** Like "Meteor," but much darker in color..... 5
2509 **Mixed.** All the double sorts....½oz., 10c.... **5**

CALLIOPSIS

Showy, beautiful, free-blooming plants, producing large, bright flowers of rich and charming colors throughout the entire summer. Mainly hardy annuals. 1 to 2 feet.

2538 **CALLIOPSIS.** Best mixed .....Oz., 15.. 5
2526 **Drummondi.** Flowers large; rich golden yellow with crimson-brown center 5
2527 **COREOPSIS Lanceolata.** H. P. Blooms June to autumn. Rich golden yellow; fine for cutting 5

CANARY BIRD VINE

2541 **H. A.** Grows to a height of 15 feet. Has beautiful foliage and yellow flowers..... 5

CAMPANULA (Bell Flower)

One of the best hardy perennials. The tall varieties are splendid for cutting, while the dwarf sorts are useful in borders.

2584 **Persicifolia alba.** White, 2 ft..... 10
2589 **Persicifolia coerulea.** Blue, 2 ft..... 10
2574 **Pyramidalis** (Chimney Bellflower). 6 ft. Blooms in late summer; tall, erect stems, beautiful blue flowers..... 5
2579 **Pyramidalis alba.** White, 6 ft..... 5

CANTERBURY BELLS (Campanula Medium)

These will bloom the first year from seed if sown early.

SINGLE	Pkt.	DOUBLE	Pkt.
2544 **Blue,** fine shade.....	5	2555 **Blue,** fine shade.....	5
2545 **White,** pure.....	5	2560 **White,** pure.....	5
2549 **Rosea.** Rose pink.....	5	2561 **Rosea.** Rose pink.....	5
2550 **Single mixed**.....	5	2562 **Double mixed**.....	5

"CUP AND SAUCER" CANTERBURY BELLS

The flowers differ from the ordinary type in having an extra large calyx of the same color of the flower, giving the appearance of a cup and saucer. In bloom for weeks during early summer.

2567 **Calycanthema, blue**.... 5
2568 ———. White..... 5
2569 ———. Rose 5
2570 ———. Mixed 5

CANDYTUFT

A dwarf annual of easiest culture; free-blooming, showy, and useful for beds, borders, and edgings. Sow seeds where plants are to bloom, in rows 6 or 8 inches apart, thinning out to afford plenty of room, as they branch quite freely. Height, 1 foot.

2510 **Carmine.** Glowing carmine rose..... 5
2511 **Crimson.** Rich, dark crimson..... 5
2512 **White Rocket.** Long white flower spikes..... 5
2513 **Empress.** White, large flowers..... 5
2514 **Purple.** A beautiful shade of lilac..... 5
2515 **Queen of Italy.** Dwarf; erect, p..... 1
2516 **Little Prince.** Large heads; pure white..... 5
2517 **Gibraltarica.** Blush white. H. P..... 10
2518 **Hyacinth-Flowered.** White, 2 ft..... 5
2522 **White Tom Thumb.** Grows 6 inches high..... 5
2523 **Annual Sorts** of Candytuft, mixed .....oz., 15c.. 5
2524 **Sempervirens.** Survives winter out-of-doors. Its fine white flowers are produced early in spring. H. P..... 10

CANNAS (Indian Shot)

These very attractive summer bedding plants can be grown readily from seed. The seed is extremely hard and should be soaked in warm water until swollen. Sow singly in small pots of sandy soil and set in a warm place, preferably a hotbed or sunny window. Set out in June where they are to flower.

2542 **Large-Flowering French.** All colors and shades..... 5
2543 **Cannas, mixed**..... 5

GIANT HYACINTH-FLOWERED CANDYTUFT

CARNATION

These very popular favorites are valuable for culture in the open ground in summer and for pot culture in winter. Seeds of the Margaret and Chabaud types sown in the spring will, by August, produce plants that will be full of bloom until frost takes them; or they may be cut back, potted, and carried over winter in a cool room. The Grenadine and Double Mixed bloom the second season after sowing.

2611 **Margaret,** mixed. Pkt., 5c. 2609 **Scarlet,** 5c.
2610 **Margaret.** Fink 5
2604 **Margaret,** white. Fine double flowers..... 5
2612 **Giant Margaret.** Immense double flowers..... 10
2613 **Chabaud's Giant Perpetual.** Colors the same as Margaret. Blooms in five months after sowing... 15
2614 **Guillaud.** Yellow, and yellow-striped flowers..... 15
2615 **Red Grenadin...**10. 2616 **White**..... 10
2618 **Barnard's Carnation Mixture.** Contains seeds of all Carnations which *bloom the first season* after sowing 10
2623 **Fine Double Mixed.** Many colors..... 10

CELOSIA PLUMOSA, Plumed Cockscomb

Branching plants 3½ feet high, bearing large, conical, plumed heads of either golden yellow, fiery scarlet, purple, salmon, blood-red, etc. Good for cut-flowers. Annuals, growing easily and quickly from seed.

2633 **Pride of Castle Gould.** This forms pyramidal, branching plants, bearing large, conical, plumed heads in various colors. Mixed..... 25
2655 **Triumph.** Bronzy foliage, crimson plumes. We have an improved strain that is desirable to sow for pot plants 5
2653 **Ostrich Feather.** Grows in pyramid form. Its flower sprays resemble plumes. They are orange and scarlet in color. Mixed..... 5
2656 **Thompsoni Magnifica.** An exceptionally fine strain, both for bedding and cut-flowers. The colors vary, running from light yellow to dark blood-red.... 10
2641 **Ostrich Feather.** Yellow 5
2646 **Ostrich Feather.** Crimson 5

CELOSIA CRISTATA, Cockscomb

Hardy annuals of easy culture. Thrive in light soil. Fine border plants; in bloom from midsummer until frost. When grown as large specimens they are of unrivalled beauty. For filling flower beds and borders these plants are now largely used during summer in city parks.

2652 **All-a-Glow.** Dwarf; with immense ruffled combs.. 10
2651 **Pres. Thiers.** Dark leaves, crimson combs..... 10
2657 **Glasgow Prize.** Very large crimson combs..... 10
2634 **Tall Cockscomb,** mixed 5
2635 **Dwarf Cockscomb,** mixed 5

BACHELOR'S BUTTON OR CORN FLOWER

CELOSIA OSTRICH FEATHER

CENTAUREA

These are hardy plants; some annuals, others perennials. They are known by several different popular names.

CENTAUREA CYANUS, Corn Flower

Also sometimes called "Bachelor's Button," "Blue Bottle" and "Ragged Sailor." One of the most popular of our garden annuals, blooming continually all summer. Seed may be sown either in spring or autumn. Thrives well in poor soil; for best results plants should be thinned out to 8 inches apart.

2671 **Single.** Finest mixed, 2 ft..... 5
2666 **Double Mixed** 5
2663 **Double Blue.** Fine cut-flower for vases..... 10
2672 **Emperor William.** Dark blue, 18 inches..... 5
2673 **Victoria.** Azure blue; 9 inches. Fine for pots.... 5

CENTAUREA IMPERIALIS, Sweet Sultan

Very showy, fragrant flowers; excellent for cutting. They are borne on long strong stems and when cut and placed in water will last for days in good condition.

2682 **Imperialis,** mixed colors 5
2680 **White,** 5c. 2681 **Lavender,** 5c. 2696 **Rosea**.... 15
2679 **Suaveolens.** Bright yellow; sweet scented..... 5
2662 **Odorata.** Purple, fragrant flowers..... 5
2664 **Chameleon.** Yellow and rose, superb..... 5
2665 **Margaritae.** Very large flowers of purest white, borne on long stems. A grand cut-flower..... 5
2674 **Americana.** A native variety. Bears fluffy, thistle-like blooms of purplish color. A fine border plant. In bloom from June to September..... 5
2695 **Montana.** Very showy perennial with dark blue flowers. Height, 1½ feet. 10

SILVER-LEAVED CENTAUREAS OR "DUSTY MILLERS"

These are planted for edgings to beds or borders.

2683 **Candidissima.** Silver gray foliage, 1½ feet..... 10
2693 **Gymnocarpa.** Leaves silvery white. 1 foot..... 5

CHRYSANTHEMUM MAXIMUM PERFECTION

CHRYSANTHEMUMS

A beautiful family of plants of varied character. Annuals and Perennials. The flowers of all are greatly prized for cutting. The Annual varieties bloom profusely from early summer until frost, and their bright colors make a fine display. A little pinching back while plants are young will result in bushy and stocky growth up to 12 to 18 inches in height. Do not confound these Annual Sorts with the great globular flowers of the Japanese varieties.

2703 **Single Early-Flowering Hybrids.** Flowers in many shades produced very copiously..... 15
2697 **Single, Mixed.** H. A. 5
2698 **Double, Mixed.** H. A. There is a wide range in the colors—from nearly white to rich deep orange.. 5
2700 **Frutescens** (Marguerite, or Paris Daisy). G. P. Long-stemmed single white flowers with golden centers; fine for cutting..... 5
2702 **Inodorum** (Bridal Robe). H. P. Pure white, extra double, compact, fine foliage; splendid for cutting.. 10
2701 **Maximum Perfection.** White with yellow center. 5
2813 **Shasta.** Of bushy growth, bearing all summer a profusion of immense white flowers on long stems. Seed saved by Mr. Burbank from named flowers.. 10
2699 **Japonicum fl. pl.** This is the seed which produces the most beautiful flowers with quilled and twisted petals, as sold by florists in fall..... 15

CINERARIA

Beautiful plants for decoration of window, garden, or conservatory in spring. Readily and easily grown from seed. Sow in July in boxes and transplant into small pots, changing them into larger size when required.

2705 **Grandiflora.** Red and white, etc. Mixed..... 25
2706 **Nana.** Of dwarf, compact habit; mixed..... 25
2707 **Maritima.** Desirable for edgings; silvery foliage.. 5

CLARKIA

Clarkias are hardy annuals, which bloom most profusely during summer. Colors range from white to purple. Pkt., 5c.

2712 **Single Mixed**.... 5 2713 **Double Mixed**.... 5

CLEMATIS—Virgin's Bower

Well-known climbers. One of the best plants in existence for verandas and trellises; also suitable where drooping plants are required. For two to three-year-old plants see page 75.

2715 **Large-Flowering Hybrids.** Mixed..... 15
2716 **CLIANTHUS Dampieri** (Glory Pea). G. A. Pea-shaped scarlet flowers. Soak seeds in hot water before sowing 10

COBAEA SCANDENS

One of the most rapid growing of the annual climbers. Climbs thirty feet in a season. The flowers are bell-shaped. Plant the seed edgewise and cover lightly.

2717 **Purple** ..... 5 2718 **White** 5

COLEUS—Foliage Plants

Bedding plants, growing about one foot high. Their foliage is highly ornamental. Easy to raise from seed. Sow indoors.

2719 **Choice Mixed**..... 10 2720 **Variegated Hybrids**.. 25

CONVOLVULUS—Morning Glory

The tall growing sorts are indispensable for covering arbors, trellises, fences, etc. Dwarf varieties make pretty beds.

2765 **Minor.** Dwarf growing; desirable for bedding, as flowers are open nearly all day. Mixed, oz., 15c.. 5

TALL GROWING MORNING GLORY

2755 **Major.** The well-known kind.....Oz., 10c.... 5
2754 **Imperialis Japonica.** The flowers are of great size, some of them beautifully fringed, and of lovely varied colors. Mixed .....Oz., 15c.... 5
2753 **Imperialis fimbriata.** Fringed. Mixed..... 5

DOUBLE MORNING GLORY

2766 **Snow Fairy.** A handsome new climber, growing to a height of 12 to 15 feet, and covered with beautiful pure white double flowers, which do not close up in the sunlight, like the Single Morning Glory, but remain a mass of bloom throughout the day. This is a genuine novelty. Pkt..... 15
2790 **CUPHEA Platycentra** (Cigar Plant). A favorite pot and bedding plant. Flowers scarlet and black.. 15
2791 **CYPERUS** (Umbrella Plant). An aquatic plant readily grown from seed. The leaves radiate from the stem and expand in umbrella form..... 10

COSMOS

A hardy annual having strong stems from four to six feet high with delicate, feathery foliage and pretty flowers of shades of rose, red, pink, yellow, and also pure white. One of the most popular fall flowers; excellent for cutting. Cosmos is most effective when planted in broad masses or along background borders against fences or evergreens. Cosmos may be had in bloom from August until frost.

Early Flowering Cosmos

From seed started early in frames, and afterwards transplanted into light sandy soil, the plants will be 3 or 4 feet high by August, tossing into the air a perfect cloud of bright-colored, daisy-like flowers. Each, per pkt., 5c.

2721 **Early Pink.** 2722 **Early White.** 2723 **Early Crimson**
2732 **Early Flowering Cosmos,** mixed.
2724 **Tints of Dawn.** White ground flushed with rose.

Giant-Flowered Cosmos

These do not usually bloom until late. Per pkt., 5c.

2740 **Giant Red** 2742 **Giant Pink**
2741 **Giant White** 2748 **Giant Mixed**
2743 **Giant Orange** (Klondyke). Very fine.
2735 **Lady Lenox.** Admired everywhere. Size of flower, 5 to 6 inches in diameter. Color, a beautiful shell pink.

CYCLAMEN

These are beautiful winter-blooming plants for pot culture in the window or greenhouse. They may be flowered from seed in about one year. Sow in shallow boxes and grow the young plants in a temperature of about 60 degrees.

2774 **German-grown seed,** mixed colors. Pkt..... 15
2775 **English-grown seed,** mixed colors..... 25

DAHLIA

Well-known fall blooming plants. They grow very readily from seed which, if sown early, will bloom the same year. Almost any soil suits them, a moist one being preferable. H. H. P. 3 to 5 ft.

2803 **Cactus-Flowered.** Double 10
2804 **Double, Large-Flowered** 10
2805 **Single, Mixed,** from fine varieties..... 5

CYPRESS VINE

Pretty annual climber which, in a favorable season, will attain a height of fifteen feet or more. Scalding the seeds before sowing hastens germination. Should be planted at the base of a tree or trellis and trained upon strings. Its beautiful dark-green foliage and star-shaped flowers in clusters are a mass of beauty all summer long. Each, per pkt., 5c.

2796 **Red** 2801 **White** 2802 **Mixed**

DIGITALIS—Foxglove

Hardy perennial plants useful as the background of the shrubby border. They attain a height of 2 to 3 ft. Rich loamy soil and partial shade suit them best.

2933 **Purpurea.** Fine mixed..... 5
2934 **Gloxiniaflora.** White 5
2935 " Purple 5
2936 " Rose 5
2937 " Yellow 5
2938 " Spotted flowers, mixed. (See illustration 5

DIGITALIS

DELPHINIUM BELLADONNA

DELPHINIUM (Hardy Perennial Larkspur)

Among the best plants for mixed borders, where they make an imposing display with their long spikes of graceful flowers, ranging in color through many shades of blue and others. The foliage is attractive and the plants strong and neat in habit. Perennial Larkspurs grow better than annual varieties; they should be planted further apart. By keeping the plants well watered and the flowers cut, a second crop of bloom may be had.

2860 **Barlowi.** 2 ft. Rich dark blue..... 10

2865 **Belladonna.** The freest and most continuous blooming Hardy Larkspur, never being out of flower from the end of June until cut down by severe frost. *The clear turquois blue of its flowers is no equaled for delicacy and beauty by any other flower.* Seed sown in early spring will produce plants that will bloom freely through the late summer and autumn **15**

2875 **Chinese.** These fine Larkspurs are admired for their handsome feathery foliage as well as their flowers. The plants branch freely. 2 ft. Mixed..... 5

2873 **White**..... 5 2874 **Blue**..... 5

2871 **Elatum Nanum.** All shades of blue; dwarf..... 10

2858 **Formosum.** Dark blue, with white center. 3 ft.. 5

2870 **Coelestinum.** Bright azure blue; fine..... 10

2872 **Selected Hybrids,** mixed..... 10

2879 **Kelway's Hybrids.** Exceptionally fine..... 25

2884 **Gold Medal Hybrids.** Spikes 2 to 3 feet long. Flowers mostly light blue..... 10

2859 **Nudicaule.** Orange scarlet. 1½ ft..... 15

DIANTHUS or Garden Pinks

A magnificent genus of plants, annuals and perennials, embracing some of the most popular flowers in cultivation, producing a great variety of brilliant colors and profusion of bloom. The Chinese and Japanese varieties bloom the first season, the same as hardy annuals; height, 1 foot. The hardy perennial varieties are very fragrant and of easy culture for the garden or greenhouse.

CHINESE AND JAPANESE GARDEN PINKS

Many of the flowers have fringed edges. The coloring of all is beautiful, varied, and unique. Pinks are flowers for everybody; they will thrive almost everywhere, and they remain in bloom a length of time. Cutting the flowers freely makes more come in their place.

2889 **Chinensis, fl. pl.** Chinese double mixed.....¼ doz. 10c.. 5

2892 **Chinensis albus pl.** Double white..... 5

2896 **Heddewigii fl. pl.** White..... 5

2899 **Heddewigii fl. pl.** Mixed..... 5

2917 **Heddewigi.** Single flowered..... 5

2918 **Crimson Belle.** Single, dark, velvety red..... 5

2919 **Eastern Queen.** Single rose-colored flowers..... 5

2930 **Luteola.** Double yellow (see cut)..... 15

2921 **The Bride.** Single; white with purple center..... 5

2914 **Fireball.** Double. Dark scarlet; beautiful..... 5

2915 **Snowball.** Double. White, fringed flowers..... 5

2908 **Mourning Cloak.** Double. Blackish crimson..... 5

2916 **Laciniatus** (Japan Pink). Single, fringed..... 5

2905 **Double Japan Pink.** Rich colors..... 5

2920 **Laciniatus Mirabilis** (Single Wonder Pink). Very deeply laciniated petals. Large, beautiful flowers..... 10

2906 **Imperialis.** Double, mixed.....¼ oz., 10c.. 5

2907 **Diadematus** (Diadem Pink). Double, mixed..... 5

2913 **Double Pinks.** All colors mixed.....¼ oz., 15c.. 5

2926 **Single Annual Pinks.** These seeds will of themselves alone give you a flower garden to be proud of.....¼ oz., 15c.. 5

2927 **Single and Double Annual Pinks.** A blending by ourselves of all the annual varieties described above. Seed sown early will make a bed of blooming flowers by July or August.....¼ oz., 15c.. 5

HARDY GARDEN or CLOVE PINKS

This splendid class of hardy perennial pinks should be in all gardens. They have the delightful clove fragrance.

2928 **Plumarius** (Pheasant-Eye). A beautiful, single, hardy pink with fringed-edged white flowers, dark center..... 5

2929 **Plumarius Fl. Pl.** Double and semi-double varieties in mixed colors. Fragrant and beautiful..... 10

DATURA—Trumpet Flower

Bushy, strong branching plants, 2 to 3 feet high, bearing large trumpet-shaped flowers.

2824 **Mixed.** Many varieties..... 5

2829 **Cornucopia.** Three funnel-shaped flowers in one. White inside; outside marginal with purple..... 5

DOUBLE YELLOW HEDDEWIG PINK

DIMORPHOTHECA (Orange Daisy)

H. A. 12 to 15 inche . Just the thing for groups and borders. Early sown seed will produce plants to bloom all summer. Desirable for cut flowers. Easily grown; prefers a sunny location.

2931 **Aurantiaca.** Flowers glossy rich orange gold with dark center, surrounded by black zone. This is the parent variety..... 10

2932 **Aurantiaca hybrida.** Similar in habit to the parent. The flowers range in color from purest white through yellow and orange to rich salmon, being zoned with same color around the center. 15

DOLICHOS Lablab (Hyacinth Bean). 10 ft. Rapid growing climber with pretty foliage and bean-like flowers. Desirable for covering trellises and porches. Sow seed in a sunny spot in May.

2943 **Purple and white,** mixed..... 5

DRACÆNA or Club Palm. C. P. 2 ft. A popular plant for pots and vases.

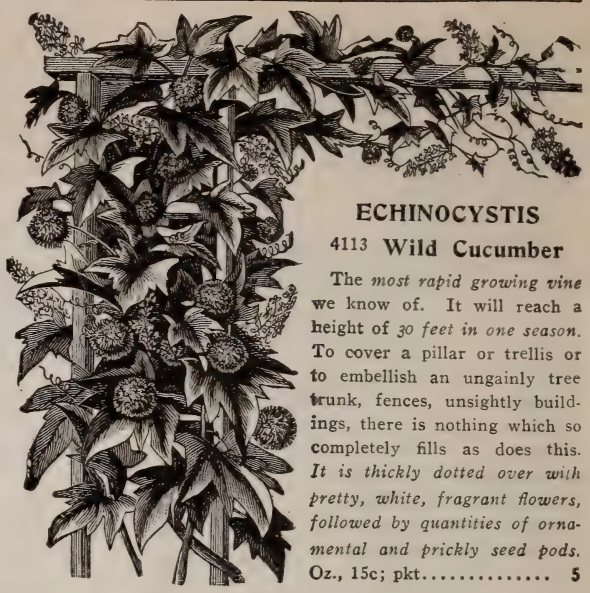
2948 **Indivisa.** Narrow, dark-green foliage..... 5

ECHEVERIA (Hen and Chickens). G. P. 4 inches. The rosette-like plants are largely used in parks and cemeteries for carpet bedding. Seeds are very small.

2950 **Secunda.** Yellow flowers 20

2951 **ECHINOPS Ritro** (Globe Thistle). H. P. 4 feet. Fine for bees. Peculiarly shaped steel-blue flowers good for cutting..... 5

2952 **EDELWEISS.** H. P. 6 in. An interesting Alpine plant with star-shaped wooly-leaved flowers. Requires a sunny location. 10



ECHINOCYSTIS

4113 Wild Cucumber

The *most rapid growing vine* we know of. It will reach a height of *30 feet in one season.* To cover a pillar or trellis or to embellish an ungainly tree trunk, fences, unsightly buildings, there is nothing which so completely fills as does this. *It is thickly dotted over with pretty, white, fragrant flowers, followed by quantities of ornamental and prickly seed pods.* Oz., 15c; pkt..... 5

EVERLASTINGS

A group of annual plants whose flowers, cut when nearly at full bloom and dried in the shade, retain their form for years thereafter. They thrive in any sunny garden; need good soil.

2965 **Acroclinium,** mixed.

2967 **Gomphrena,** 1 ft., red clover-like heads.

2968 **Helichrysum,** 2 ft., also called Straw Flower.

2970 **Silver Ball,** white.

2971 **Helipterum,** yellow.

2973 **Rhodanthe,** 1 foot, mixed.

2974 **Xeranthemum,** 3 ft.

2975 **Mixed Everlastings.**

Each, per pkt., 5c.

DIMORPHOTHECA

ESCHSCHOLTZIA

H. A., 1 ft. Especially valuable for growing in flower beds and masses. Sow where plants are to bloom. Bright, showy flowers and feathery foliage. Good for cut flowers. The yellow varieties make a fine combination when placed with blue flowers—Larkspur, Corn Flowers—in a bouquet.

2955 **Dainty Queen.** Flowers of dainty coral pink which deepens toward the edges 10

2956 **Golden West.** Large yellow flowers..... 5

2958 **Mandarin.** Red-gold flowers; orange within; scarlet outside..... 5

2959 **Rose Cardinal**..... 5

2960 **Single,** mixed..... 5

2961 **Double,** mixed..... 5

2954 **Bush Eschscholtzia.** Buttercup yellow flowers from July until frost. Beautiful feathery foliage. Grows bushy, about 2 ft. high. 5

EUPHORBIA

Snow on the Mountain

Hardy annual growing about 2 feet high. Useful in shrubbery borders.

2949 **Variegata.** Leaves veined and margined with white..... 5

GAILLARDIA—KELWAY'S HYBRID

GAILLARDIA (Blanket Flower)

H. A. and H. P. 2 ft. If started early, will bloom until frost. Excellent for borders, for bedding, and for cut flowers. Give them a light soil and a sunny location.

2998 **Picta Lorenziana.** Crimson and Orange. Double..... 5

2999 **Picta, Single.** Mixed colors.....¼ oz.,10c .. 5

Following Are Hardy Perennials, and Should Be in Every Garden

3000 **Grandiflora Superba.** Large and showy flowers; constant bloomer. 5

3001 **New Hybrids.** These produce flowers of a combination of crimson and golden yellow colors all in one, and are strikingly beautiful. 10

3002 **Kelway's Hybrids.** Beautiful flowers of large size and great brilliance in color. Invaluable for decorations because they retain their beauty a long time after being gathered..... 25

GERANIUM

Favorite plants for pot culture and bedding out in summer. Spring sown seedlings bloom the same year.

3017 **Zonale.** Single mixed. Saved from the largest and finest flowers 5
3018 **Apple Scented.** This fragrant-leaved sort can be grown from seed only..... 10

GILIA

H. A. and H. B. 1 ft. Early and continuous bloomers.

3020 **Mixed** ..... 5 3021 **Dwarf,** white.... 5
3026 **Coronopifolia.** H. H. B. Very brilliant scarlet flowers in great profusion..... 15

GLOBE AMARANTH—Gomphrena

2967 H. A. 2 ft. Red, clover-shaped flowers. Cut when in full bloom and dried, they retain their colors.... 5

GLOXINIA

Beautiful greenhouse plants of dwarf habit. Seeds sown in spring under glass will give flowering plants in autumn.

3044 **Gloxinia.** Mixed colors 15
3048 **Defiance.** Erect, scarlet flowers..... 20

GODETIA—Satin Flower

Hardy, pretty annuals suitable for beds, borders, and to grow in shady places. They grow rapidly and flower profusely from June until frost. Flowers of satiny texture and of delicate and lovely colors. Excellent for cut-flowers.

3053 **Mixed Colors** .....¼oz., 10c..... 5

GOURDS—Ornamental

A climber. Quick-growing vines; excellent for covering arbors, walls, and waste places. Gourds grow in very curious shapes, and are used for house ornaments.

3040 **Calabash or Pipe Gourd**..... 10
3039 **Dipper.** Always useful 5
3028 **Dish Cloth.** Like a sponge..... 5
3027 **Nest Egg.** May be used as such..... 5
3037 **Sugar Trough.** For buckets..... 5
3041 **Gourds,** mixed .....½ oz., 15c..... 5
3042 **Hercules' Club.** Sometimes grows 3 ft. long..... 5

GREVILLEA—Silk Oak

3054 **Robusta.** G. P. Fern-like foliage. A fine decorative house plant..... 5

GYPSOPHILA PANICULATA

GYPSOPHILA—Baby's Breath

Mostly hardy annuals with graceful flowers produced in abundance in loose panicles. Excellent for their delicate effect in bouquets or other cut-flowers.

3064 **Elegans alba.** Pure white tiny flowers..... 5
3069 **Elegans rosea.** Soft pink 5
3071 **Paniculata.** Pure white. Plants make fine clumps for garden use. Perennial..... 5

HELICHRYSUM

HELIANTHUS—Sunflower

H. A. 3 to 6 ft. The state flower of Kansas. Of easiest culture. Suitable for backgrounds, screens, and to plant among shrubbery. In bloom from June until frost.

3077 **Multiflorus.** Forms a dwarf plant. Each branch carries double golden yellow flowers..... 5
3072 **Miniature.** Flowers single, bright orange..... 5
3082 **Mammoth Russian.** Grown chiefly for its seeds... 5
3087 **Single and Double,** mixed..... 5
3092 **Globosus Fistulosus.** 6 feet tall. Double saffron.. 5
3093 **Double Chrysanthemum-Flowered** 5

HELICHRYSUM—Strawflower

One of the best flowers to dry for house decoration. Gather before the blooms expand and hang heads in cool place.

2968 **Mixed colors** 5

HELIOTROPE

Sown early, blooms same season; 2 ft. Excellent for bedding; very fragrant; fine for cutting.

3094 **Dark Sorts,** mixed. A fine strain..... 5
3095 **Mammoth Flowered.** This strain gives flowers almost twice the size of others. Colors from almost white to deep, dark purple..... 10
3096 **Heliotrope,** fine mixture of colors..... 5

HIBISCUS—Mallow

Sturdy perennials growing four feet high. Desirable for shrubbery borders. Blooms first year if sown early.

3099 **Crimson Eye.** Very large white flowers with crimson center 5
3097 **Golden Bowl.** Creamy-yellow with black center.... 10

HOLLYHOCK

H. A. and H. B. 6 to 8 ft. Hollyhocks make a fine row in a garden, a fine background next to a building, or high wall or fence. The double varieties are the most desirable, but the newer, semi-double, fringed types are also very popular. Seed sown before mid-summer will insure fine plants next season. Give deep, rich soil.

3100 **Single.** Annual sorts, mixed..... 5
3107 **Single.** Perennial sorts, mixed..... 5
3127 **Mammoth Allegheny.** Annuals with double and semi-double fringed flowers ranging in color from pure white to deep red..... 5

DOUBLE HOLLYHOCKS IN SEPARATE COLORS

3125 **White** 3114 **Pink** 3126 **Mixed,** ¼oz., 20c
3108 **Crimson** 3119 **Yellow** Each, per pkt., 5c
3109 **Salmon** 3124 **Maroon**
3128 **Chater's Prize Hollyhocks,** mixed.....10
3138 **Kelway's Choice Mixed** 25

HUMULUS

(Japanese Hop Plant)

H. A. climber. 12 ft. Grows very rapidly. Has dense leaves and is valuable for covering a trellis or porch.

3148 **Japonicus** 5
3149 **Variegated leaved**..... 5

HUNNEMANNIA

(Giant Tulip Poppy). H. P.

2954 Buttercup yellow flowers from July until frost. Beautiful feathery foliage. Grows bushy, about 2 ft. high..... **5**

3166 **ICE PLANT.** H. A. Of drooping habit. Useful in baskets and vases. Has peculiar leaves covered with small watery postules 5

IMPATIENS **Zanzibar Balsam**

G. P. 1 foot. Valuable for pot culture as well as bedding. The delicate flowers are very pretty and constantly in bloom.

3155 **Holstii. Vermillion**..... **10**
3160 **Sultani.** Bright rose.. 10
3161 **Sultani Hybrida,** mixed 10

IPOMOEA **(Moon Flower)**

Tall-growing annual climbers, related to the family of Morning Glories. As Moonflower plants have dense foliage, they are useful to cover trellis work, verandas, etc. Plant seeds out-of-doors when warm weather sets in. Soak them first.

3326 **White Hybrid.** Its large white flowers expand in the evening and remain open until the following day. 5

3323 **Pink Hybrid**..... **5**
3325 **Heavenly Blue.** Blooms in the forenoon. Pure blue with a yellow throat..... **5**
3324 **Bona Nox** (Good Night). Its large lilac flowers expand in the night..... **5**

3336 **Northern Light.** Blooms early; pink..... **10**

3168 **JERUSALEM CHERRY.** A favorite house plant. Dark-green leaves and red berries **5**

3167 **JOB'S TEARS.** A. 2 ft. Broad, corn-like leaves and hard, shiny seeds....Oz., 10c..... **5**

3169 **KOCHIA Tricophila** H. H. A. 2 to 3 ft. Makes a pyramidal-shaped cypress-like bush with feathery, light-green foliage, deepening until it becomes a lovely crimson hue about September. Excellent for hedges along garden walks..... **5**

3170 **KUDZU VINE (Jack and the Bean Stalk).** An extremely fast-growing, hardy vine. Its large, bright-green leaves make dense shade. Bears rosy-purple pea-shaped flowers toward the end of August .....⅓ oz. 15c.. 5

LARKSPUR, GIANT HYACINTH FLOWERED

Giant Hyacinth Flowered Larkspurs

2834. The plants grow 2 to 3 ft. high. The flowers very strongly resemble those of a Hyacinth, hence the name. Colors, white, flesh-tinted, lavender, and blue in mixture. Easy to cultivate, but seed should be sown where the plants are to bloom. Mixed colors. ¼ oz., 15c; pkt., 5c.

LOBELIA SAPPHIRE

ANNUAL LARKSPUR

H. A. 1 to 6 ft. Handsome, feather-like foliage and long spikes of lovely flowers—white, pink, blue, and violet. Fine for cutting. In bloom July to October. Prefer cool, moist soil.

For perennial varieties see Delphinium.

2835 **Branching, Sky Blue**.. 5
2840 **Branching, Dark Blue**. 5
2851 **Branching, Shell Pink**. 5
2856 **Branching, White**..... 5
2845 **Branching, Mixed**..... 5
2850 **Tall Rocket,** mixed... 5
2857 **Emperor,** compact, mxd. 5

3171 **LANTANA.** G. P. 2 ft. Desirable plants for bedding or culture in pots. The handsome clusters of Verbena-like flowers constantly change in hue..... **5**

LATHYRUS

(Hardy Sweet Pea)

Perennial climber, almost constantly in bloom; fine for cut flowers. Pkt.

3177 **Albus,** white..... 5
3179 **Pink Beauty**..... **5**
3178 **Red** **5**
3180 **Mixed** 5

3190 **LAVENDULA.** H. P. 3 ft. (Lavender). Fragrant flowers borne on long round spikes.... **5**

3191 **LINARIA cymballaria** (Kenilworth Ivy).H.P. Lavender and purple. Of trailing habit, suitable for hanging baskets and vases..... **5**

3192 **Maroccana "Excelsior."** The tiny flowers resemble miniature Snapdragons; showy in borders **5**

3197 **LINUM Rubrum.** A. 2 ft. Scarlet Flax..... **5**
3198 **Perenne.** White and blue.... 5

LOBELIA

Lobelias require rich soil and plenty of water. Flowers should be kept back to allow flowering until frost.

The annual varieties, 4 to 6 inches, are extensively used for edgings, baskets, and urns. The perennial sorts are tall growing. Useful among shrubbery. Pkt.

3214 **Emperor William.** Light blue **5**
3219 **Crystal Palace Compacta.** Deep blue. Splendid bedder **10**
3220 **Speciosa.** Blue; trailing.... **5**
3221 **Alba.** White..... **5**
3222 **Bedding Queen.** Dwarf; purple with white eye..... **10**
3223 **Barnard's Perpetual.** Ultramarine blue; white eye.... **10**
3224 **White Gem.** Dwarf..... **5**
3233 **Lobelia.** Mixed..... **5**
3226 **Prima Donna.** Rich, velvety crimson; compact..... **5**
3225 **Queen Victoria** (Perennial). Dark bronzy foliage, scarlet flowers 10
3228 **Amanda.** Lilac; new 20
3229 **Cardinalis** (Perennial). Scarlet, 3 feet 15
3238 **Sapphire.** Blue, white eye..... 20

3247 **LOPHOSPERMUM scandens.** T. A. 10 feet. Rapid climber with showy rose-colored globe-like flowers.. 10

LUPINUS. H. A. and H. P. 2 feet. Easily grown plants, useful for beds and borders. July and August. The Sweet Pea-like flowers are borne upon tall stems. Prefer a little shade.

3199 **Tall Annual Sorts,** mixed.....Oz., 15c.... 5
3200 **Dwarf Annual Sorts,** mixed.....Oz., 15c.... 5
3212 **Perennial Lupins.** All colors mixed..... 5

LYCHNIS. H. P. 2 ft. Blooms first year from seed if sown early. Brilliantly colored flowers..... 5
3244 **Chalcedonica** (Maltese Cross). Scarlet..... 5
3245 **Haagena.** Various colors in mixture..... 5

3246 **LYTHRUM roseum superbum.** H. P. 3 ft. Rose-colored flowers July until fall..... 10

MARIGOLD—Tagetes

H. H. A. 2 to 3 feet. Bloom continuously all summer. They succeed best in a light soil exposed to the sun. A fine garden plant. Cut-flowers show to advantage in combination with those of blue shades—Corn Flowers, Delphiniums, Forget-Me-Not, etc.

DOUBLE AFRICAN VARIETIES

The African Marigolds produce very large flowers on tall stems. Plant them in borders or among shrubbery.

3248 **El Doraldo.** Imbricated; all shades of yellow..... 5
3249 **Lemon Queen.** Soft, lemon yellow flowers..... 5
3250 **African Double,** mixed 5
3254 **Prince of Orange.** Orange-gold tints..... 5

DWARF FRENCH MARIGOLDS

Fine for edging and bedding.

3251 **Legion of Honor.** Single, golden yellow, blotched, velvety crimson 5
3252 **Dwarf Gold Striped.** Very double. Chestnut brown, striped golden yellow 5
3253 **French Dwarf Double Mixed**..... 5

MARVEL OF PERU—Four O'Clock

Showy, fragrant flowers which open in the afternoon. Thrive anywhere; blooms entire season. Fine for beds and borders.

3257 Tall, mixed .....Oz., 10c.... 5
3256 Dwarf, mixed .....Oz., 15c.... 5

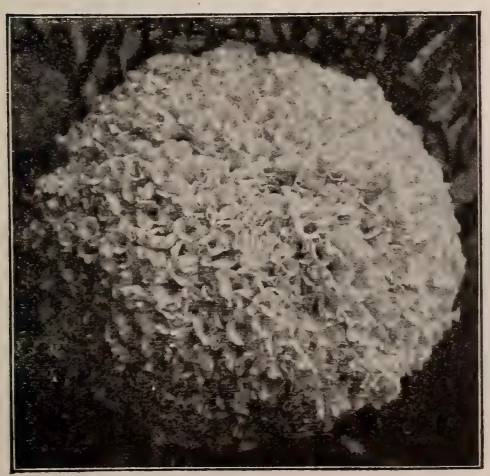
MATRICARIA—Double Feverfew

3262 **Capensis.** H. H. P. 18 inches. Blooms first year from seed if sown early. A fine bedding or pot plant, bearing white flowers in profusion all summer 5

MAURANDIA

3263 **G. P.** 10 feet. Climbers with slender vines and neat, pretty flowers. Bloom freely in the garden all summer. Especially adapted to hanging baskets and window boxes. Mixed 5

MESEMBRYANTHEMUM. See Ice Plant



MARIGOLD, AFRICAN

MIGNONETTE MACHET

MIGNONETTE—Reseda Odorata

H. A. 12 to 18 inches. If successive sowings are made, its fragrant, modest-colored flowers may be gathered outdoors until November. Sow in pots or boxes under glass in February or March, and thin or pot off the seedlings to make good plants for bedding out in April. Sow outdoors in rows about April 1, and again regularly at intervals of about three weeks till August.

3281 **Allen's Defiance.** Grown under favorable conditions, this variety makes spikes a foot long, and the individual florets are not only very large, but delightfully fragrant as well. The cut-flowers last well. 5
3291 **New York Market.** An extra choice strain, recommended for culture under glass..... 20
3292 **Gabriele.** Red flowers; desirable in gardens..... 5
3293 **Golden Queen.** A distinct color; sweet..... 5
3295 **Bismarck.** Red; crinkly foliage, fragrant..... 10
3296 **Goliath.** Rich green foliage; giant trusses of red flowers on strong stems..... 15
3294 **Machet.** One of the best of the family. Of dwarf habit with very large red flowers and handsome foliage 5
3297 **Golden Machet.** A distinct strain of the foregoing with golden yellow flowers..... 5
3298 **Large Flowering,** mixed .....Oz., 15c.... 5

MIMOSA—Sensitive Plant

3306 **Pudica.** H. H. A. 18 inches. Its fern-like leaves are extremely irritable, closing and dropping when touched 5

MIMULUS

3311 **Moschatus** (Musk Plant). H. H. A. 6 in. Useful for hanging baskets. Small yellow flowers..... 5
3312 **Tigrinus** (Monkey Flower). 1 ft. Large flowers of various shades of yellow, splashed and dotted with crimson and maroon 5

MONARDA—Bee Balm

3304 **Didyma.** Hardy perennial. 3 ft. Useful to plant among shrubs. Large heads of crimson flowers..... 5

MORNING GLORY. See Convolvulus

3339 **MUSA Ensete** (Abyssinian Banana). 6 ft. Foliage plant with dark-green leaves. Suitable for outdoor culture in summer. 10 seeds..... 20

MYOSOTIS—Forget-Me-Not

H. P. 6 inches. Dainty, elegant little plants with graceful flowers, mostly in shades of blue. Like Pansies and Daisies, they like cool, moist soils, and they will bloom most freely in fall and early spring.

2980 **Semperflorens.** In bloom all summer. Dark blue.. 5
2981 **Alpestris.** Blue; trailing habit .....⅛oz., 15c.... 5
2986 **Robusta Grandiflora.** Grown extensively for cutting. Pyramidal habit. Flowers sky-blue, with yellow eye 5
2982 **Victoria.** Sky-blue; dwarf; globular. Fine for pots. 10
2983 **Dissitiflora.** Rich blue; very early bloomer..... 10
2985 **Palustris.** Blue with yellow eye. Large flowers... 10
2992 **Mixed.** Many varieties .....⅛oz., 15c.... 5

NASTURTIUM

It is doubtful if among the plants classed as Annuals there is any other of the summer blooming varieties which combines in so great degree ease of culture, beautiful flowers of showy colors, profusion of bloom from early summer until killed by frost, and general excellence as Nasturtium. More and larger flowers are produced on thin soils. Hot weather has no injurious effect. In soils too rich, there is a tendency to run to foliage rather than flowers. In wet weather or locations the plants sometimes decay, especially if they are standing too close.

Tall or Climbing Nasturtiums

Sow in moderately good soil, preferably in a sunny position, covering the seeds about one inch deep. Thin out the seedlings so that they stand ten or twelve inches apart. Furnish strings or trellises to which the plants can be trained. These plants may also be cultivated as trailers for hanging baskets and vases. Pkt., 5c; oz., 10c.

3345 **Atropurpureum.** Crimson, velvety.
3346 **Chameleon.** Crimson, yellow, etc.
3347 **Coccineum.** Bright orange scarlet.
3348 **Dunnett's Orange.** Bright orange, blotched.
3349 **Edward Otto.** Brownish lilac, velvety.
3350 **Heinmanni.** Pale brown or chocolate.
3351 **Hemisphericum.** Yellow and pink.
3352 **King Theodore.** Dark foliage; crimson.
3353 **Pearl.** Lemon, nearly white.
3359 **Regalinum.** Brownish red shaded with violet.
3360 **Scheuerianum.** Straw color, striped.
3361 **Schillingi.** Yellow, blotched maroon.
3362 **Sunlight.** Very large, rich golden yellow.
3363 **Von Moltke.** Ruby rose.

3421 **Royal Mixture Tall Nasturtiums** (from named varieties). Pkt., 5c; oz., 15c; ¼lb., 35c; ½lb., 65c; lb., $1.20.

3365 **Tall Nasturtiums, Mixed.** Pkt., 5c; oz., 10c; ¼lb., 20c; ½lb., 35c; lb., 60c.

3366 **Hybrids of Md. Gunter.** These are climbing Nasturtiums distinguished by dark-colored foliage and for **richness and variety of coloring** of the flowers, including shades seen in no other class. Pkt., 5c; oz., 10c.

NASTURTIUM LOBBIANUM

Lobb's Climbing Nasturtiums

In this type the foliage is smaller and darker than those of the ordinary tall Nasturtiums. Flowers also are of less size, running mostly to brilliant shades of red.

3420 **Lobbianum.** Mixed colors .....Oz., 10c.... 5

Dwarf or Tom Thumb Nasturtiums

Price for each (except where noted), pkt., 5c; oz., 10c. Grand bedding plants. Their compact growth (about one foot) richly-colored flowers, free blooming and long lasting qualities, have made them general favorites. Nothing makes a finer show in the garden. Sow in rows about a foot apart. Thin out the seedlings.

3371 **Aurora.** Chrome yellow.
3372 **Beauty.** Scarlet, splashed with canary yellow.
3373 **Chameleon.** Beautifully splashed and variegated flowers upon the same plant.
3374 **Cloth of Gold.** Golden foliage.
3375 **Coeruleum Roseum.** Cherry red.
3376 **Crystal Palace Gem.** Sulphur spotted maroon.
3377 **Empress of India.** Blue-green foliage, flowers crimson.
3378 **General Jacqueminot.** Crimson.
3379 **Golden King.** Dark foliage, orange yellow flowers.
3384 **King of Tom Thumb.** Dark-green foliage, glowing scarlet flowers.
3385 **King Theodore.** Velvety crimson.
3395 **Lady Bird.** Orange yellow; brown blotch.
3399 **Pearl.** Lemon or straw color.
3400 **Prince Henry.** Pale yellow spotted with scarlet.
3401 **Ruby King.** Light ruby red.
3402 **Rose.** Tinted salmon.
3403 **Scarlet.** A bright and vivid shade.
3404 **Spotted.** Orange, spotted.
3405 **Yellow.** Bright and clear.

3410 **Dwarf Nasturtiums Mixed.** Pkt., 5c; oz., 10c; ¼lb., 20c; ½lb., 55c; lb., 65c.

3422 **Royal Mixture Dwarf Nasturtiums** (from named varieties). Pkt., 5c; oz., 15c; ¼lb., 35c; ½lb., 65c; lb., $1.20.

NICOTIANA

Tobacco Plant

Hardy annuals, growing 2 to 3 feet high. Suitable for planting among tall-growing border plants like Hollyhocks and Sunflowers. The flowers of all are tubular, some of them fragrant. Valuable decorative plant.

3423 **Affinis,** white..... 5
3424 **Affinis Hybrids,** mixed..... 5
3429 **Sanderea,** carmine red..... 5
3434 **Hybrids,** collection of eight colors 25
3439 **Sylvestris,** white, of branching habit. Very dark green foliage 5

NICOTIANA SANDERAE

NIGELLA

Love-in-a-Mist

Hardy annual garden plant of easy culture. The blue and white flowers are partially hidden by the finely cut leaves. The seed pods are ornamental.

3444 **Nigella,** mixed 5
3445 **Miss Jekyll.** A fine cut flower of bright blue color. Foliage fern-like; long stems.. 10

PHYSALIS

Chinese Lantern Plant

Hardy perennial which, treated as an annual, will form fruits the first season. Flowers yellow, followed by scarlet fruit enclosed in balloon-like capsules; showy and handsome.

3670 **Francheti** 10

GIANT PANSY

PANSIES

Seed sown in shallow boxes in the house or, preferably in a cold frame, where one is available, will produce fine flowers in summer and all through the fall. If the seed is sown in spring out doors in a partially shaded location, the seedlings will bloom in autumn. The plants, if given a slight protection of leaves, usually come through the winter unharmed.

Pansies thrive best in cool, moist soil which should be enriched by well-decayed barnyard manure or finely ground bone meal. The flowers will be much larger and possess greater substance in their petals. Where extra large blooms are desired, it is recommended to pinch off all but one or two to the plant.

Giant Flowered Pansies

The blooms are marvelous in size, some being **4 inches in diameter;** in beauty their magnificence is unsurpassed; in colorings, they are superb and incomparable. The plants make vigorous growth and bloom almost continuously, except in hot weather.

PRICE: Any of the following Pansies, per pkt., 5c, except as otherwise noted.

3451 **Giant "Fiery Faces."** Rich scarlet, with gold edge and yellow center.
3452 " **Madame Perrett.** Lovely shades of pink and rose.
3465 " **Bugnot.** Large, round flowers, with shadings of colors not found in other pansies. 10c.
3466 " **Cassier.** Three to five spotted; showy. 10c.
3471 " **Parisian.** Flowers beautifully blotched; compact.
3472 " **Trimardeau.** Mixed; marked with three blotches lower petals.
3473 " **Auriculaflora.** Dark and handsome.
3474 " **Aurora.** Pure white; finely flowered.
3475 " **Azure Blue.** Beautiful shade.
3476 " **Coal Black.** Jet black.
3482 " **Purple.** Rich and velvety.
3483 " **Emperor William.** Navy blue; purple eye.
3484 " **Five Spotted.** Petals blotched. Novel.
3489 " **Lord Beaconsfield.** Upper petals lavender, lower deep purple. A beauty.
3494 " **Snowflake.** Pure white.
3495 " **Spotted White.** Has dark-blue blotches.
3496 " **Striped.**
3497 " **Yellow.** Dark center; yellow edge.
3498 " **Yellow Gem.** Clear yellow.
3499 " **Violet Blue.** A lovely pansy; large,

PANSIES IN MIXTURE

3457 **BARNARD'S FLORISTS' MIXTURE.** Our best combination of pansy seeds, and is the richest and most varied mixture possible. It produces flowers of largest size, beautiful colors, and graceful forms. A pansy bed grown from this seed will give you a grand display. It is the *Best Mixture* that money can buy. Pkt., 20c; 3 for 50c.

3458 **GIANT MIXTURE.** Made up from and including seeds of all the Giant Flowering Pansies, and several other sorts not otherwise obtainable than in this mixture. Pkt., 10c; 3 for 25c; ⅛oz., 75c.

3460 **SUPERB MIXTURE** of Trimardeau, Bugnot, Cassier, Odier and named pansies. For immense size and free blooming qualities, we unhesitatingly recommend this fine strain. Pkt., 15c.

3459 **PRIZE MIXTURE.** A pretty strain. The flowers are smaller than those grown from our other mixtures. Pkt., 5c; ⅛oz., 25c.

Fancy Pansies

Almost all the Fancy Pansies produce seed in very small quantities. Necessarily they are somewhat higher in price.

3504 **Andromeda.** Color, delicate apple blossom, showing lilac blue with darker veins..... 10
3450 **Coquette de Poissy.** Slate or mouse-colored..... 5
3550 **Mauve Queen.** Delicate mauve; three lower petals marked with carmine..... 10
3500 **Masterpiece.** Petals curled and twisted. Very large flowers more or less blotched and in combinations of color. The nearest approach to a double pansy.... 10
3503 **Hero.** Crimped and curled deep blue flowers, the upper petals margined white..... 10
3502 **Psyche.** Fine form and color. A fine blotched flower, entirely surrounded with white..... 10
3477 **Raphael.** A fine pansy of the Bugnot class. The ground color of the flower is sky blue; lower petals marked with a violet blotch..... 15
3506 **President Carnot.** A strikingly handsome pansy. Pure white petals each adorned with silvery margin. Always admired 10
3509 **Fairy Queen.** Large sky-blue flowers with silvery margin. Always admired 10
3510 **Hortensia.** Light and dark rose-colored flowers with prominent blotches on petals..... 10

NEW PANSY PSYCHE

3560 **PASSIFLORA Coerulea** (Passion Flower). 10 ft. Rapid growing climber, suitable for conservatories; also for outdoor culture in summer in the South. Rich foliage and sky-blue flowers.. 5

3564 **PENTSTEMON.** H. P. 3 ft. Ornamental plants which make a splendid effect in borders, etc. Will flower the first season if sown early. They bloom from June until late in the fall. The half-pendent bell-shaped flowers show beautiful shades and markings of scarlet, pink, white, and blue. Mixed..... 5

3564a **Hartwegii albus.** The illustration shows the shape of the beautiful flowers. At first the buds are of a creamy color, but change to clear white when opening. Its handsome spikes furnish excellent material for bouquets..... 25

3562 **PENNISETUM Rupellianum.** H. A. 18 inches. Ornamental grass used for edgings of Cannas. 5

3561 **Longistylum.** Brush-like heads..... 5

3563 **PEPPER, Celestial.** Makes a beautiful pot plant for Christmas presents, etc. Its fruits appear in various colors..... 10

PERILLA. H. H. Handsome foliage plants with broad and notched leaves. They grow about 18 inches high, and are used as background to geraniums and other bedding plants.

3595 **Atro Laciniatis.** Deep mulberry foliage, edges finely cut..... 5

3596 **Macrophylla.** Dwarfer than the above..... 5

PETUNIA. See following page.

PHLOX DRUMMONDI (Flame Flower)

The annual Phloxes are dazzling in effect, particularly so when sown in masses or ribbon beds. From June until October they maintain an endless display of brilliant and varied colored flowers. The plants grow about one foot high. By pinching them back while young they become more bushy. The young plants should be set out about one foot apart. Sow in the open ground in May.

3668 **Phlox Drummondi.** Unsurpassed for variety of colors. Flowers are smaller than those of the large-flowering varieties.....¼oz., 20c... 5

LARGE-FLOWERING PHLOX

3625 **Scarlet** 5
3626 **Pure White**.... 5
3627 **Rosy Carmine**.. 5
3645 **Chamois Rose** .. 5
3633 **Carmine**, white eye 5
3644 **Blood Red**..... 5

3646 **Large-Flowering, mixed** .....¼oz., 25c... 5

3647 **STAR PHLOX (P. Cuspida).** The center of each petal runs out to a point beyond the edge which gives the flowers a *regular star-like form.* Plant of compact habit, bearing large umbels of flowers. **Mixed colors**..... 5

DWARF PHLOX (Nana Compacta)

The little bushy plants rarely grow over 8 inches high. Throughout the entire season they are full of flowers. They are recommended for culture in pots, beds, or edgings of borders.

3648 **White** 10
3649 **Red** 10
3650 **Blush Rose**..... 10
3651 **Rose** 10
3652 **Blood Red**..... 10
3653 **Mixed** 10

3667 **Barnard's Phlox Mixture.**
Contains all the annual varieties above and others. One packet of seed will insure a beautiful bed of Phlox. This is a flower for everybody.....⅛ oz., 25c.. 10

DOUBLE-FLOWERING PHLOX

Some of these will prove only semi-double. To produce the best double flowers they should be grown in light sandy soil. Flowers are very durable, the white especially, as a cut flower.

3597 **White.** 3598 **Scarlet.** 3614 **Mixed. Each, 10**

HARDY PHLOX (Decussata)

They are perfectly hardy and need no protection; will grow in any soil, but succeed best in deep, rich, rather moist ground. Should be sown in autumn. Their handsome trusses of flowers are very showy and last a long time.

3654 **White**
3659 **Red**
3660 **Rose**
3665 **Carmine, white eye**
3666 **Mixed. Each, per pkt**..... 10

PENTSTEMON HARTWEGII ALBUS

PETUNIAS

No garden is complete without Petunias. They are hardy annuals of the easiest culture. Heat, rain and drought do not affect them. From early summer until late fall the plants are covered with flowers. The named varieties are desirable for pot culture. It is advisable to sow the seeds indoors, covering very lightly, and later transplant to beds or borders in May. The bedding sorts can be sown in the open ground in May and will be in bloom in a very short time.

PETUNIA, QUADRICOLOR

SINGLE LARGE FLOWERING

3565 **Giants of California.** A large-flowering strain with fringed and ruffled flowers of rich velvety colors and deep yellow throats 15
3570 **Fimbriata.** Enormous flowers beautifully veined. Edges of petals ruffled and fluted..... 25
3572 **Large-Flowered Mixed.** Superb colors and markings 20
3579 **Quadricolor.** Its bright red rose flowers are veined for two-thirds of their surface with network..... 25
3580 **Pepita.** Petals fringed. Color rich, deep carmine, nearly scarlet, bordered with white..... 25

DOUBLE LARGE FLOWERING

(A proportion will come single or semi-double)

3581 **Empress.** Rose 25
3585 **Double White.** Fringed flowers..... 25
3582 **Fringed.** Mixed 25
3583 **Pure White** 25
3584 **Barnard's Double Petunias.** Mixed 25

Bedding Petunias

Compact, bushy little plants, seldom more than 8 inches high. They are desirable for culture in pots and window boxes; also for garden beds, borders, and edgings. The flowers, while not large, remain boldly expanded, and in their profusion frequently hide the plants for months.

3594 **Fine Mixed**.....¼ oz., 25c.. 5
3586 **Dwarf Inimitable.** Cherry red with white star..... 5
3587 **Blotched and Striped** 5
3588 **Pure White** 5
3589 **Snowball.** White 5
3590 **Violet-Blue** 10
3591 **Adonis.** Height and habit like Snowball. Carmine with white throat 5
3593 **Rosy Morn** 10
3592 **Howard's Star.** Crimson maroon with a clearly defined five-point star in center of flower. Fine for bedding, baskets, vases etc..... 10

PHYSOSTEGIA—False Dragon Head

Handsome hardy perennial plants 3 to 4 feet high. In mid-summer is clothed with delicate tubular flowers.

3762 **Lilac**..... 10 3673 **White**..... 10

PLATYCODON—Chinese Bell Flower

Hardy perennials of easy culture and very rapid growth. Excellent for planting among shrubbery. Blooms all season.

3674 **Grandiflorum.** Steel blue 5
3675 **Grandiflorum Album.** White 5
3676 **Mariesi.** Dwarf. Blue..... 5

PINKS. See **Dianthus.**
POLYANTHUS. See **Primula.**

POPPY

Well-known plants which will endure considerable hardship and thrive on sandy soil. There are both annual and perennial poppies. The seed is very fine and should be very lightly covered. Annual sorts should be sown in a loamy soil where they are to bloom, as they do not take kindly to transplanting. They make a fine show planted among shrubbery.

ANNUAL POPPIES

3684 **Single Poppies.** Mixed colors.....½oz., 15c.... 5
3677 **King Edward.** Scarlet with black blotch..... 10
3678 **Admiral.** A beautiful variety having large smooth-edged white flowers with a broad scarlet band..... 5
3683 **Single Red** 5
3679 **Glaucum** (Tulip Poppy). Mixed; dwarf..... 5
3680 **Shirley.** Delicate colors, in great variety..... 5
3685 **Cardinal.** Red double 5
3693 **Double Poppies.** Mixed colors.....½ oz., 15c.. 5
3686 **White Swan.** Double white; fringed..... 5
3687 **Peony-Flowered.** Mixed 5
3689 **Carnation-Flowered.** Mixed 5

PERENNIAL POPPIES

For permanent beds these are unequaled. Effective among shrubbery, being of tall growth, large flowered, and showy. While Tulips are yet in bloom the Oriental Poppy makes the garden glow and from soon afterwards until late autumn a succession of Poppy blooms in their brilliant colors are available for cut-flowers.

3697 **Nudicaule** (Iceland Poppy). The various-colored flowers are borne on long, slender stems with feathery foliage. Mixed colors..... 5
3696 **Scarlet.** 3695 **White.** 3694 **Orange.** Each.. 5
3702 **Orientale** (Oriental Poppy). Scarlet..... 5
3703 **Orientale Hybrids.** Mixed colors..... 10

PORTULACA—Rose Moss

One of the neatest and best of hardy annuals. Specially adapted for dry, light soils, and particularly for sowing on surface of beds of spring-blooming balls such as Tulips, Narcissus, etc. The seed is very small; it is advisable to mix with sand before sowing. Sow on open ground in May in a sunny situation. A bed of double Portulaca is very attractive.

3704 **Double.** Splendid mixed.....⅛oz., 25c.... 5
3705 **Single Mixed.** .....¼oz., 15c.... 5
3706 **Single Red** ..... 5 3708 **Single Rose**..... 5
3706a **Single White**..... 5 3708a **Single Yellow**..... 5

DOUBLE PORTULACA

CHINESE PRIMROSE

PRIMULA—Primrose

Chinese Primroses and the Obconica varieties are among the finest pot plants for window or greenhouse decoration in winter and spring. They are stocky and robust in growth, about twelve inches high. Easily grown from seed which, if sown in April or May, will bring plants to bloom next winter.

Primula Sinensis

The flowers of Chinese Primroses are large, more or less fringed, rich in hue, and stand well above the foliage. Almost all shades of color are found, from pure white to deep crimson, and occasionally a blue one appears.

3709 **Barnard's Mixed** 25

Primula Obconica

This is an almost ever-blooming variety. Its single fringed flowers are produced in clusters borne on long stems.

3711 **Obconica.** Mixed colors..... 10

Baby Primrose

A desirable winter window plant. Blooms very quickly from seed and bears in great profusion small lavender-colored flowers.

3710 **Forbesi** (Baby Primrose)..... 15

Hardy Primulas

Favorite spring-blooming plants. Although classed as hardy, they should be protected with a covering of leaves, or in a cold-frame in winter. They like a cool place, alongside a north wall where there is moisture.

3712 **Auricula.** Very popular..... 10
3713 **English Cowslip.** Mixed..... 10
3718 **English Primrose.** Yellow 10
3723 **Japan Primrose.** Mixed colors..... 10
3724 **Po'yanthus.** Bright and showy..... 10

RICINUS—Castor Bean

Decorative plants with palm-like foliage and showy fruits. Desirable to place in center of beds of Cannas, etc., giving to the garden magnificent sub-tropical effects; even a single plant forms a pyramid of leaves.

3744 **Borboniensis arboreus.** 15 ft. Green foliage..... 5
3745 **Cambogensis.** 6 ft. Dark maroon..... 5
3750 **Sanguineus.** 10 ft. Stems red; leaves green..... 5
3752 **Zanzibarensis.** 15 ft. Leaves vary in color from light green to purplish red. The plants of this variety surpass all others in height besides having enormous leaves. The seeds are beautifully marked. Oz., 15c..... 5
3753 **Gibsonii.** 6 ft. Dark leaves; dwarf..... 5
3758 **Ricinus.** Finest Mixed .....oz., 10c.... 5

DWARF PYRETHRUM OR FEVERFEW

PYRETHRUM—Feverfew

Hardy perennials, useful in borders. Their daisy-like flowers are fine for cutting. They come in a variety of colors and in great profusion. The golden-leaved sorts are invaluable for edging and bedding.

3729 **Aureum.** Bright yellow foliage..... 5
3730 **Comet Flowered.** Petals twisted and tangled. Color pure white to blood red..... 20
3741 **Roseum Hybridum.** Large, Aster-shaped flowers in shades of white, pink, red, and purple. May and June 10
3743 **Roseum nanum.** A dwarf form of the above. One of the best hardy perennials. Useful among shrubs.. 15
3742 **Kelway's Single Mixed.** Valuable for cutting. Colors are bright and attractive..... 25
3740 **Hybridum fl. pl.** Aster-like flowers. All colors, from pure white to crimson. Mixed..... 15

ROSEMARY. See Herbs, page 28.

RUDBECKIA—Cone Flower

Showy, free-blooming; fine for cutting. In bloom from July to September.

3767 **Bicolor superba.** Large, bright yellow, with dark spots 5
3768 **Fulgida variabilis.** H. P. 3 ft. Orange yellow.... 5
3773 **Pupurea.** H. P. 3 ft. Reddish purple flowers..... 10

SALPIGLOSSIS—Painted Tongue

Hardy annual worthy of more extensive cultivation. The funnel-shaped flowers are like a Petunia. They come in a wide range of colors, each flower veined and penciled. In bloom August to October. Useful for cutting.

3775 **Mixed.** Many shades and markings..¼oz., 20c.... 5
3774 **Emperor.** An improved strain; growth is more compact, and flowers larger. Mixed..... 10

SCARLET RUNNER. Page 42.

SCHIZANTHUS—Butterfly Flower

Plants desirable for bordering beds of taller flowers, also for indoor culture in pots during winter. Easily grown from seed. The dainty flowers, peculiarly marked, are fine for cutting. Sow outdoors when weather becomes settled.

3848 **Mixed Colors** 5
3850 **Wisetonensis.** The plants are covered with bloom, the ground color of which is white with a large spot on the upper lip..... 15
3861 **SEDUM** (Stonecrop). H. P. 4 inches. Showy little plants, suitable for rockwork, stone walls, edgings, etc. Mixed 5

SALVIA SPLENDENS

SALVIA—Flowering Sage

A hedge or bed of Salvias is a blaze of color during late summer and fall. They are used to good effect for bordering Canna beds, also for hedges along walks or lot dividing lines. Seed should be started either indoors or in a hotbed; do not sow in open ground until soil has become well warmed.

3837 **Splendens.** 2½ ft. The well-known variety, fiery scarlet ..... ⅛oz., 20c.... 5
3824 **Silver Spot.** 2 ft. Scarlet flowers; spotted leaves.. 10
3802 **Clara Bedman.** 2 ft. Dwarf and compact..... 10
3819 **Drooping Spikes.** 2½ ft. Red flowers..... 10
3829 **Burning Bush.** 2½ ft. Blooms early..... 10
3807 **St. Louis.** 2½ ft. Scarlet flowers..... 10
3785 **Fireball.** 2 ft. Very compact; desirable for pots.. 15
3790 **Zurich.** 12 to 15 inches. Scarlet, early..... 20
3832 **King of Carpets.** 16 to 18 inches. Covers itself completely with long, bright red ears right down to the ground, which produces a brilliant effect..... 25

The four Salvias below, while mostly perennials, bloom the first season. They are desirable for border plants, but not for display bedding.

3795 **Argentea.** H. P. 3 ft. Silvery foliage; small white flowers 5
3800 **Coccinea.** A. 2 ft. Scarlet..... 5
3830 **Globosa.** H. B. 1½ ft. Blooms the second year from seed. Excellent foliage plant for lawns. Silvery gray leaves deeply cut; large white flowers... 15
3801 **Patens.** T. P. 2 ft. Blue flowers on erect spikes.. 10

SCABIOSA—Mourning Bride

The Scabiosa is an old favorite, and of late years has been greatly improved. The flowers are borne on long wiry stems, in white, yellow, pink, scarlet, crimson, and maroon. Beautiful in the garden, and excellent for bouquets. 12 to 18 inches high.

3839 **Tall Double Mixed**.. 5
3840 **Dwarf Double Mixed** 5
3842 **Golden Yellow**..... 5
3843 **Snowball,** white..... 5
3846 **Pink** 5
3847 **Fiery Scarlet**..... 5
3844 **Caucasica,** H. P. Lavender 10
3845 **Caucasica.** H. P. White 10

3862 **SHAMROCK.** H. P. 6 inches. Sow indoors. Use good rich soil and give plenty of moisture..... 10
3863 **SILENE** (Catchfly). H. A. 1 ft. An easily grown annual with pretty flowers all summer long..... 5
3864 **SMILAX.** Greenhouse climber. 6 ft. Requires strings to run upon. Its long, beautiful green sprays are much used for decoration..... 5
3917 **STATICE Latifolia.** H. P. 2 ft. Light blue flowers. 10
3865 **STEVIA serrata.** T. P. 1½ ft. Suitable for summer or winter blooming; largely used for cutting. Small, fragrant, white flowers in clusters..... 5

STOCKS—Gilliflower

Stocks are hardy annuals indispensible in every garden. There are both summer and winter-blooming varieties. For either bedding or pot culture they are desirable. Average height of plants, 1½ feet. Stocks last a long time in bloom, are beautiful, fragrant, and satisfactory.

Dwarf German Ten Weeks

The favorite sort for bedding. Grows about one foot high. May be sown in open ground and thinned out; early flowering will result from starting in a hotbed and transplanting. Seed of very superior quality.

3866 **Purple** 10
3867 **Blood Red**..... 10
3868 **Pure White**..... 10
3869 **Rose** 10
3870 **Light Blue**..... 10
3871 **Crimson** 10
3872 **Canary** 10
3873 **Mixed** 10
3874 **Imported collection,** of six distinct colors..... 25

Giant Perfection or Cut-and-Come-Again

Useful for outdoor bedding as well as for pots or cut-flowers. They throw out numerous side branches, all bearing very double, fragrant flowers. Height, 18 inches.

3880 **Pink** 10
3881 **Light Blue**..... 10
3882 **Lavender** 10
3889 **Mixed** 10
3887 **Princess Alice.** White..... 10

Winter Stocks

3912 **White Lady.** 20 inches; white. Throws up a central spike like that of a Tree Wallflower, branching freely and assuming a pyramidal form..... 25

Beauty of Nice Stocks

These may be sown early to bloom in summer or in July and August for later flowering. Seedlings bloom in ten weeks. Splendid for pots and cutting. 2 ft.

3902 **Abundance,** rose... 15
3914 **Beauty of Nice,** pink 10
3896 **Crimson King**..... 10
3901 **Queen Alex.,** lilac.. 15

SWEET ROCKET—Hesperis

An old-time garden favorite. It is a hardy perennial, excellent to grow in a permanent border or among shrubbery. The plants grow 2 to 3 ft. high with spikes of fragrant blooms; valuable for cut-flowers.

4030 **Purple** 5
4031 **White** 5
4031a **Mixed** 5

SCABIOSA

SWEET PEAS

There is no annual grown that is more popular. Inexpensive, easily and quickly grown from seed, thriving on a city lot or in the country garden, supplying a wealth of flowers for months to adorn the home garden or corsage; is it any wonder that they are favorites?

Much improvement has been made by specialists in Sweet Pea development. About ten years ago the first of a new type appeared. The new comer produced the largest flowers theretofore seen. They were pink, beautiful and handsome in form. The new Sweet Pea was called Countess Spencer, and it is from that now well-known sort that the Giant Orchid-Flowering or Spencer Sweet Peas have been obtained.

Sweet Pea seed should be sown plentifully, as early as possible. They are usually grown in double rows with a wire trellis or a row of bush between. Make the drills about 6 inches deep and nine or ten inches apart. Change the location of the rows each season. At the time of planting, cover with one inch of soil only, and fill in the drill as the young plants grow, taking care not to cover the top of the plants. A deep soil enriched by bone meal and a sunny situation is best suited for their needs.

TYPE OF SPENCER SWEET PEAS

Named Spencer Sweet Peas

All admirers of Sweet Peas should be interested in this splendid collection of Spencer varieties which we list under color selection. Their grand flowers with their charmingly waved petals are borne in clusters of three or four, and sometimes more, on one stem and make grand cut flowers for vases, etc. Their delicate coloring and fragrance cannot be excelled and scarcely equaled by any other flower.

Named Spencers—Continued

3922 **America.** White, striped with crimson. Large, showy flower. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3923 **Apple Blossom.** Fine, bright pink and rose; free bloomer. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3928 **Asta Ohn.** Pinkish lavender. Large, handsome flower, which has become one of the favorites with florists. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3933 **Aurora.** White laced with light pink. Very dainty, beautiful flower. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3939 **Capt. of Blues.** Violet Blue. Large, wavy flowers, very handsome. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3944 **Clara Curtis.** Delicate cream color. Usually four flowers to a stem. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3945 **Constance Oliver.** Cream and pale pink delicately blended. Pkt., 10c; oz., 35c; ¼ lb., $1.00.

3946 **Countess Spencer.** This beautiful pink variety was the first of the Spencer type to be introduced. Flowers of unusual size and substance. The beautifully waved petals and their soft pink color makes it one of the most attractive and admired by all. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3947 **Dainty.** Fine large flowers. White edged with delicate rose. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3948 **Florence Morse.** Lovely combination of two shades of pink, a soft delicate tint with a darker edge. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3949 **Flora Norton.** Bright blue, large showy flowers for cutting. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3950 **Geo. Herbert.** Splendid crimson flower veined and tinted with magenta. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3951 **Helen Lewis.** Beautiful salmon pink blending into orange. One of the favorite Spencers. Pkt., 10c; oz., 35c; ¼ lb., $1.00.

3952 **King Edward VII.** Splendid scarlet. Very free bloomer; should be included in every collection. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3953 **Margaret Madison.** Azure blue; one of the newer and probably the finest of the light-blue Spencers. A beautiful flower of delicate color and of splendid size and form. Pkt. 10c; oz., 35c; ¼ lb., $1.25.

3954 **Marie Corelli.** Handsome, bright crimson, of late introduction and quite distinct. Pkt., 10c; oz., 30c; ¼ lb. 85c.

3955 **Mrs. C. W. Breadmore.** Light buff, bordered with rose. A very pretty flower. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3956 **Mrs Hugh Dickson.** Cream colored and pink, very delicately blended large flowers, vines vigorous. Pkt., 10c; oz., 35c; ¼ lb., 85c.

3957 **Othello.** Rich maroon. The best of the dark varieties and one of the largest and finest of the Spencers. Pkt., 10c; oz., 35c; ¼ lb., $1.00.

3958 **Primrose Spencer.** This is a delicately colored variety having the petals beautifully waved. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3959 **Senator.** An odd colored sort; chocolate striped on white ground, large flowers which are very attractive. Pkt., 10c; oz., 30c; ¼ lb., 85c.

3960 **Stirling Stent.** Lovely salmon pink, blooms freely. Usually four flowers to a stem. Very much admired wherever put on exhibition. Should be one of the Sweet Peas you plant this year. Pkt., 10c; oz., 35c; ¼ lb., $1.25.

3961 **Thomas Stevenson.** Orange scarlet, of splendid size and form. One of the newer Spencers and becoming popular. Pkt., 10c; oz., 35c; ¼ lb., $1.25.

3962 **Vermillion Brilliant.** Very brilliant scarlet; large flowering and exceedingly showy. Pkt., 10c; oz., 35c; ¼ lb., $1.25.

3963 **White Spencer.** Very large, beautifully waved flowers, pure white. Pkt., 10c; oz., 35c; ¼ lb., $1.25.

SPECIAL OFFER

One packet each of the above-named Spencer 24 varieties for $2.00.

See opposite page for list of recent introductions in Spencers. Also Special Collection illustrated on the back of this catalogue.

SWEET PEAS—New Spencer Varieties

These are noted for their unusually large-sized flowers, and for the waved or fluted appearance of the petals. The varieties here listed we consider are among the very best of the recent introductions.

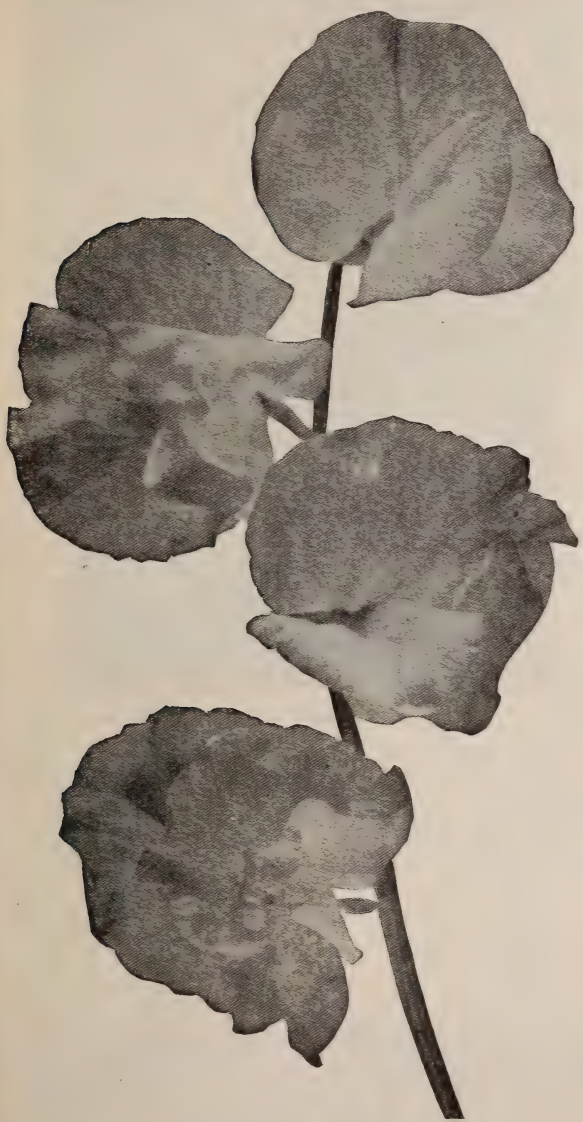
Price of the New Spencers (except Margaret Atlee); Pkt., 10c; oz., 50c.

3964 **Bertha Massey.** Peculiar shade of pale mauve shading into violet. A distinct and lovely flower.

3965 **Bouquet.** Soft shade of buff with rosy-salmon marking, this color becoming more prominent in the wings.

3968 **Florence Nightingale.** Soft delicate lavender flowers of unusual size handsomely waved and frilled. Blooms freely, has long stems; especially fine for cut-flowers.

3969 **Juliet.** Apricot pink, outlined on creamy ground.



MARGARET ATLEE SWEET PEA

3970 **Margaret Atlee.** Described by those who know it best as the finest of all Sweet Peas. The color is a delicate shade of pink—a blending of salmon and rose over a creamy ground. The flowers are of superb form and size, often measuring 2½ inches across. Both standard and wings are beautifully fringed and often come double. The vines are of very vigorous growth with unusually long stems, and support very graceful clusters of four of these lovely flowers. We offer by pkt. only. **Pkt., 25c.**

3966 **Dobbie's Cream.** Pretty primrose flowers. Of large size and form; best of the cream-colored sorts.

3967 **Edith Taylor.** Salmon rose, mammoth flower. One of the finest of that color. Blooms very freely and does not sunburn.

3971 **Maude Holmes.** Brilliant carmine; quite sun proof. Very large fine flowers.

3972 **May Campbell.** This is a very pretty and odd-colored variety. Creamy white dotted with carmine.

3973 **Melba.** Delicate salmon; a very beautiful flower. This is truly a Giant Spencer; the flowers often measuring 2 to 2¼ inches across.

3974 **Moneymaker.** Pure white; valuable for florists on account of the size of flower, length of stems, and profusion of bloom.

3975 **Nubian.** A mammoth maroon-colored flower; almost black. A very free bloomer.

3976 **Scarlet Emperor.** Largest and finest of all the scarlets. A very striking flower on long stiff stem.

Collections of Spencers

SPECIAL OFFER 1. One package each of Margaret Atlee, Florence Nightingale, Scarlet Emperor, Dobbie's Cream, Nubian, and Edith Taylor (illustrated in colors on back cover) for 60c. This offer should appeal to every lover of Sweet Peas, as it includes the very choicest of our entire line of Spencers.

SPECIAL OFFER 2. One packet each of the 13 new varieties listed on this page for $1.25.

SPECIAL OFFER 3. One packet each of our entire list of Spencers, 38 varieties, for $3.00.

SWEET PEAS—Grandiflora

The Spencers have largely taken the place of the smaller Grandiflora type, but the latter are still in demand and desirable, as they bloom well and seed freely and sell for considerably less than the Spencer Sweet Peas. Our list includes those that are recognized as the best of their colors.

3986 **Dorothy Eckford.** White.
3987 **Golden Gleam.** Cream.
3988 **Katherine Tracy.** Soft Pink.
3989 **Blanche Ferry.** Pink and white.
3992 **Mrs. Willmot.** Orange pink.
3997 **King Edward VII.** Scarlet.
3998 **Lady Grisel Hamilton.** Lavender.
4000 **Lord Nelson.** Blue.
4001 **Lottie Eckford.** Blue and white.
4002 **Black Knight.** Maroon.
4003 **America.** White striped scarlet.
4004 **Mrs. Joseph Chamberlain.** White striped pink.
4009 **Senator.** White striped chocolate.

Price of the Grandiflora Sweet Peas: Pkt., 5c; oz., 10c; ¼lb., 25c.

SWEET PEAS—Forcing Varieties

For florists or greenhouse culture we carry a full line of the named sorts in the following colors: 4010, white; 4011, pink; 4012, pink and white; 4013, lavender; 4017, purple; 4018, scarlet. Pkt., 5c; oz., 15c.

SWEET PEA MIXTURES

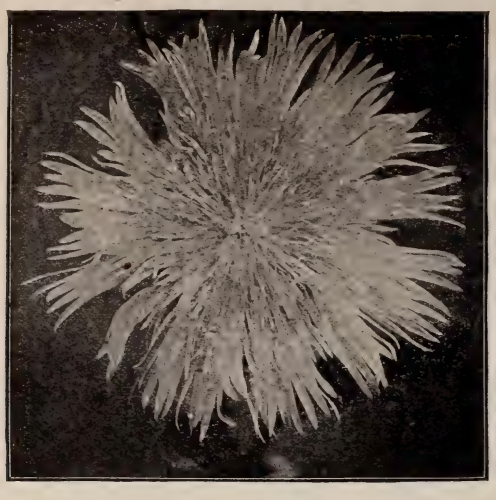
4020 **Barnard's Royal Mixture of Spencers.** Made up from our complete list of named varieties, including those of recent introduction. We have been very careful in preparing this mixture so that each package will contain a proper proportion of color; also seeds of the choicest varieties. Pkt., 10c; oz., 30c; ¼lb., $1.00.

4023 **Choice Mixed Spencers.** This is a field-grown mixture and contains a good assortment of colors. Pkt., 5c; oz., 15c; ¼lb., 50c.

4024 **Barnard's Royal Mixture of Grandiflora Type.** Made up from named varieties carefully blended as to color. A good mixture. Pkt., 5c; oz., 15c; ¼lb., 35c.

4025 **Choice Mixture of Grandiflora Type.** Ounce, 10c; ¼lb., 20c; lb., 70c.

4029 **Cupid** (Dwarf Sweet Pea). All colors mixed. **Pkt.,** 5c; oz., 15c.



STOKESIA CYANEA

2694 **STOKESIA cyanea** (Cornflower Aster). **H. P. 2 ft.** Of easy culture. Large lavender blue flowers on long stems. Blooms all summer until fall..... 5

SWEET WILLIAM (Dianthus Barbatus). H. B. 1½ ft. For bedding, bordering, or cutting, this favorite is invaluable. Of vigorous growth and extremely easy culture, bearing fragrant masses of flowers. Blooms second year from seed.

4032 **Giant-flowered Double Mixed**..... 10
4033 **Single Finest Mixed**.....¼ oz. 15c.. 5

4035 **Auricula-flowered**, or Hunt's Perfection,..... 5
4037 **Pink Beauty**..... 5 4040 **Single White**..... 5
4039 **Nigrescens**..... 5 4043 **Scarlet Beauty**... 10

4044 **THUNBERGIA** (Black-Eyed Susan). H. A. Climber. Useful for window boxes, hanging baskets, vases, etc. Trumpet-shaped flowers in great profusion in summer. Mixed colors..... 5

4045 **Alata Alba.** White, with dark eye..... 5

4050 **Alata.** Yellow with black eye..... 5

TORENIA. H. H. A, 1 foot. Good both for bedding out and hanging baskets. Trumpet-shaped flowers; in bloom all summer long.

4058 **Fournieri compacta.** Porcelain blue..... 10

4060 **Fournieri.** Sky blue and violet..... 10

4065 **TRITOMA Grandiflora** (Red-Hot Poker Plant). H. P. 4 ft. Effective among shrubbery or planted in clumps. The large spikes of orange-red flowers are borne in the autumn..... 5

VERBENA

One of the best annuals for bedding purposes, also for vases and window boxes. Easily grown from seed, producing stronger, more vigorous, and better plants than from cuttings. In bloom all summer. Start seed in the early spring, in the house or under glass, and transplant where they are to bloom, after three or four inches of growth have been made.

4079 **Choice Mixed**.....⅛ oz., 15c.. 10
4070 **Dwarf, Mixed**..... 10

Mammoth-Flowered Verbenas

Saved from finest specimens only. **Each, per pkt., 5c.**

4071 **White** 4075 **Blue Shades**
4072 **Scarlet** 4076 **Pink**
4073 **Striped** 4077 **Auriculaflora**
4074 **Purple** 4078 **Mixed** .....⅛oz., 15
4081 **Lemon Scented.** Foliage is delightfully fragrant.. 10
4070 **VERONICA Spicata.** Tall spikes of violet blue flowers. H. P..... 10

VIOLA odorata (Violet). H. P. 6 inches. Well-known favorites that are much in demand on account of their fragrance and profusion of bloom.

4082 **Single Blue** ..... 5 4083 **Single White**..... 5

VINCA (Periwinkle). T. P. 15 in. Blooms first season from seed. Much used in parks and private grounds for bedding. The plants require no trimming, are free from attacks of insects, and most profuse in blooming. The handsome flowers and pretty foliage make Vincas very desirable.

4087 **Rosea.** Fine shade of rose..... 5
4088 **Rosea Alba.** White and pink..... 5
4089 **Rosea Alba Pura.** Pure white..... 5
4090 **Mixed.** Above varieties..... 5

VIOLA cornuta (Tufted Pansies). These miniature pansies are adapted to shady places and rockwork, also in beds or edgings. Unlike the regular pansies, these Viola are a mass of bloom from June until frost. 4086a **Mixed.**

4084 **Blue Perfection** 4085 **White Perfection**
4086 **Lutea splendens,** yellow **Each, per pkt., 10c.**

WALLFLOWER (Goldlack). H. H. P. 1½ feet. Blooms first year from seed. Adapted to outdoor culture, also in pots. Fragrant, velvety flowers of mostly brown or yellow shades.

4091 **Double Mixed**..... 10 4092 **Single Mixed**..... 5
4093 **Single Annual.** Mixed 5
4094 **ZEA Japonica** (Striped Japanese Maize). H. P. 5 to 6 feet. An ornamental variety of Corn. The foliage is striped with bands of white and those again divide into white and green..... 5

ZINNIA, GIANT-FLOWERED

ZINNIAS (Youth and Age)

Zinnias are among the most showy and brilliant of Annuals. They are flowers for everybody. Come readily and quickly from seed, are easy to transplant, will endure considerable drought. For filling flower beds and borders they are unsurpassed. Blooms continuously until frost.

Tall Double

4095 **White** ..... 5 4099 **Orange** 5
4096 **Golden Yellow**..... 5 4100 **Scarlet** 5
4097 **Flesh Pink**..... 5 4101 **Crimson** 5
4098 **Rose** ..... 5 4102 **Purple** 5
4103 **Tall Double Mixed**.....¼oz., 10c.... 5

Tall Double Giant-Flowering

4104 **White** ..... 15 4107 **Flesh Pink**..... 15
4105 **Golden Yellow**..... 15 4108 **Crimson** 15
4106 **Violet** ..... 15 4109 **Scarlet** 15
4110 **Giant-Flowering.** Mixed.....¼ oz., 25c.. 10
4111 **Dwarf Double,** mixed. Splendid variety..... 5
4112 **Zebra.** Flowers striped, spotted, and blotched..... 10
4113 **Double Mexican.** A dwarf-growing class much admired for its extra fine flowers; mixed..... 10
4114 **Crested and Curled.** Colors orange, purple, pink, rose. Flowers with twisted and curled petals. Mixed. 10

4116 **Flower Garden Mixture** Seeds of more than one hundred varieties of easily grown and handsome flowering plants suitable for forming a beautiful garden, are put together in proper proportions and carefully mixed. They are very useful for sowing alongside of fences, and in any untidy bare spots of ground that are so frequently unsightly and which, if properly cared for and kept free from weeds, produce a continual display of bloom during the summer. Large pkt., 5c; oz., 15c.

Bulbs for Spring Planting

AMARYLLIS

BULBS are of easiest culture, inexpensive, and require but little care. Put them in the ground out-of-doors in April and May. **Some will bloom in June, and all during the same year as planted.** They are almost sure to grow.

Mailed postpaid at single or dozen rates.

AMARYLLIS

Most of those we list are suitable for house, conservatory, and garden. Halli is an outdoor, hardy sort. For pot culture Amaryllis require a well-drained, turfy, sandy soil and a growing and resting season.

Atamasco Alba (White Fairy Lily). Plant three or four bulbs to a five-inch pot. For the garden culture, set out in spring and lift in autumn like Gladiolus. Each, 5c; doz., 50c.

Atamasco Rosea (Fairy Lily). In bloom all summer. Fine for edging. Rose-pink flowers. Each, 5c; doz., 50c.

Formossissima (Jacobean Lily). Rich, deep, velvety crimson flowers which usually appear in advance of leaves. Valuable for either pot or outdoor culture. Each, 10c; 3 for 25c.

Halli (Lycoris squamigera). A hardy variety, suitable for shrubby borders. Its green leaves produced in early spring, disappear in June; in August the rosy-lilac flowers appear. Each, 25c; 5 for $1.00. Not prepaid, each, 15c; doz., $1.50.

Johnsoni (Barbadoes Spice Lily). Large trumpet-shaped flowers, with a white stripe through each petal. A favorite and well-known variety. First size bulbs, each 25c. Large selected bulbs, each 35c; 3 for $1.00.

CALADIUM ESCULENTUM

Showy, ornamental plants, generally called Elephant's Ear. They are frequently planted in groups and quite often as a border around Cannas, their green foliage making a pretty contrast. Thrive in light soil and require plenty of water.

Grade	Prepaid		Not Prepaid
First Size Bulbs	$0.15	each	$0.10
Extra Large Bulbs	.25	each	.15
Mammoth Bulbs	.40	each	.25

BEGONIAS, SINGLE AND DOUBLE

BEGONIAS—Tuberous Rooted

Started indoors during March and April, the first flowers will appear in June and increase with the season. Dormant bulbs put into the ground in May or later, will give good results.

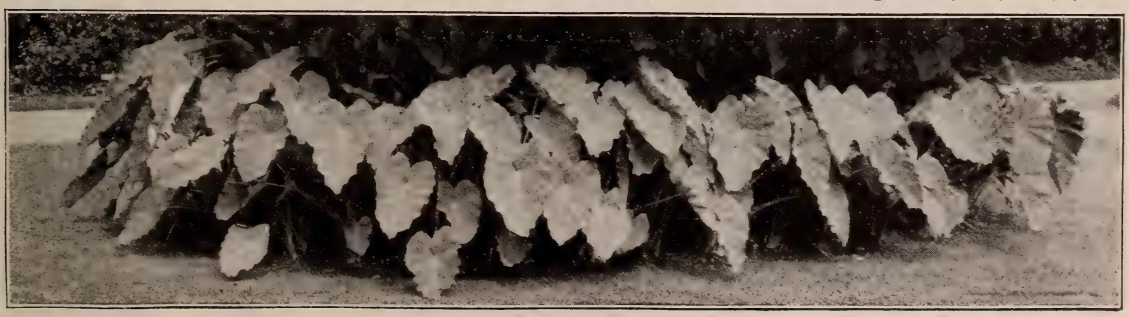
Single. In separate colors, White, Red, Scarlet, Rose, Dark Pink, Orange, Yellow, or Mixed. Each, 5c; doz., 50c.

Single Frilled. These are entirely distinct, the petals being wavy and beautifully frilled on the edges similar to the newer forms of Petunias. Scarlet, crimson, white, pink and yellow. Each, 10c; doz., $1.25.

Double in separate colors, White, Red, Rose, Dark Pink, Orange, Yellow. Each, 10c; doz., $1.25.

Double, all colors mixed, each, 8c; doz., 80c.

Lafayette. Rich brilliant scarlet. Unexcelled for bedding. Stands hot sun without wilting. Each, 25c; doz., $2.50.



CALADIUMS BORDERING A BED OF CANNAS

CANNAS

Cannas should be planted in good, rich garden soil, mixed with old rotted stable manure. Water sparingly at first after planting; when growing freely, water liberally. Plant about 18 inches apart each way, and if more than one variety is used, set the taller growing ones in the center and the dwarf sorts around the edge or in front.

Prices herein are for dry tubers. We shall have a fine assortment of Cannas in our retail store during the season.

CANNA, FIREBIRD

Competent judges pronounce this "the best red-flowered, green-leaved Canna." Strong, upright stalk, medium height; very large trusses and flowers of shapely form. The color is pure scarlet without streaks or blotches. A grand novelty. Each, 65c; doz., $6.50.

Cannas of Recent Introduction

Gladiator 3 ft. A very showy Canna of strong and rugged habit. Flowers are bright yellow, thickly spotted with crimson. Each, 15c; doz., $1.50.

King Humbert 4 ft. Broad, coppery-bronze leaves. Flowers orange-scarlet with red markings. Bold and effective. Each, 20c; doz., $2.00.

Improved Mont Blanc The White Canna. 3½ ft. Has creamy-white flowers with well-rounded petals. Contrasts well with highly colored sorts. Each, 15c; doz., $1.50.

Mrs. Alfred F. Conrad 4 ft. Salmon pink flowers of largest size. Unsurpassed for planting single or in large beds. Foliage green. Constant bloomer. Each, 30c; doz., $3.00.

Rosea Gigantea 4 ft. Takes its name from its large flowers of rich rose-pink color. A fine grower and very profuse bloomer. Each, 20c; doz., $2.00.

Uncle Sam 6-7 ft. This is a highly recommended variety, bearing bunches of orange-scarlet flowers. Equal to King Humbert. Each, 15c; doz., $1.50.

Orchid Flowering, mixed.
Bronze Foliage Varieties,
Variegated Flowering.

All Sorts, mixed.

Each, 8c; 3 for 20c; 6 for 35c, postpaid.

GLADIOLUS

Single bulbs and dozens prepaid by us.

These are among the easiest and most satisfactory bulbs for everybody to grow. As decorative flowers for the garden or the adornment of interiors, they have few superiors. Start to plant the bulbs in April, continuing to do so every ten days or so for succession. Set them from two to four inches deep, according to size, and about six inches apart each way. Cut the spikes when the first bloom begins to unfold. Place in water and the buds will expand beautifully and last for several days if water is changed daily.

Gladiolus, Named Sorts

Selected from the newest and best varieties of recent introduction including some old favorites. They will be found invaluable for bedding, cutting, or exhibition purposes.

America. Soft flesh pink lightly tinged with lavender. Full round spike and large flower. Each, 5c; doz., 50c; 100, $3.00.

Attraction. Deep, dark, rich crimson, with conspicuous, large, pure white center and throat. At once a most beautiful and attractive sort. Each, 7c; doz., 75c; 100, $5.00.

Augusta. Pure white with a tint of lavender in the throat. Each, 5c; doz., 50c; 100, $3.00.

Baron Hulot. A deep blue of an indigo shade; an extra fine variety. Each, 7c; doz., 75c; 100, $5.00.

Brenchleyensis. Vermilion-scarlet, showy. Each, 3c; doz., 30c; 100, $1.35.

Ceres. White, flamed with lilac. Each, 5c; doz., 50c; 100, $3.00.

Chicago White. Pure white with faint lavender markings on the lower petals. Tall, straight stems. Early; fine bedding variety. Each, 7c; doz., 75c; 100, $5.00.

Dazz'er. Fine spike of salmon-scarlet flowers of very large size; the lower petals red-orange with a lake stripe. Each, 30c; doz., $3.00.

Eugene Scribe. Large and wide flower, tender rose blazed carmine red. Each, 7c; doz., 75c; 100, $5.00.

Fire King. Intense fire scarlet; more brilliant than Brenchleyensis. Perfectly grand; a splendid cut-flower variety. Each, 30c; doz., $3.00.

Irene. Pink, flaked crimson. Each, 10c; doz., $1.00; 100, $7.00.

Isaac Buchanan. Clear yellow. Each, 7c; doz., 75c; 100, $5.00.

Kunderdi Glory. The ruffled petals give to the flower an odd and original appearance. Color, delicate cream pink, with very attractive crimson stripe in the center of each lower petal. Each, 10c; doz., $1.00; 100, $8.00.

Madam Monneret. Delicate rose. Each, 6c; doz., 60c; 100, $4.00.

May. White, striped crimson. Each, 6c; doz., 60c; 100, $4.00.

Mrs. Beecher. Deep rosy crimson with white throat. Beautiful flowers. Each, 10c; doz., $1.00; 100, $7.00.

Mrs. Francis King. One of the newer varieties of merit; very large and beautiful flowers; color a light scarlet with crimson blotches. Each, 5c; doz., 50c; 100, $3.00.

Negerfurst. Best of the dark varieties; dark blood black inflamed with white and flaked with lilac rose. An odd color. Long graceful spike. Each, 50c; doz., $5.00.

Niagara. Somewhat resembles America in type. In color the flowers are of a cream shade tinted blush, and splashed with carmine in the throat. Each, 20c; doz., $2.00.

Princeps. Rich crimson, with deep shadings in the throat; large white blotches on lower petals. Immense, wide-open flowers. A grand variety, entitled to front rank. Each, 10c; doz., $1.00; 100, $6.00.

Reine Blanche. Pure white with carmine blush. Each, 12c; doz., $1.25; 100, $8.00.

Rosy Spray. White, beautifully sprayed rose. Large and fine. Each, 8c; doz., 75c; 100, $5.00.

Scribe. Enormous spike; large, well-opened flower tinted white, striped carmine. Each, 9c; doz., 90c; 100, $6.00.

Shakespeare. A standard sort, excellent for cutting; white, slightly suffused rose. Each, 7c; doz., 75c; 100, $5.00.

Sulphur King. Fine, clear yellow. Grouped with Baron Hulot, makes a striking color combination. Each, 15c; doz., $1.50; 100, $12.00.

Taconic. Bright lively pink, striped with shades of same color. Markings on the lower petals are deep crimson running into lemon yellow. Each, 7c; doz., 75c; 100, $5.00.

Wild Rose. Delicate and pretty blush tint. In its color it stands alone. Each, 12c; doz., $1.20; 100, $8.50.

GLADIOLUS AMERICA

Gladiolus Primulinus Hybrids

Highly recommended for cut-flowers. Their colors vary from pale yellow to light salmon. These flowers are somewhat different in style from ordinary Gladiolus; the petals are quite thin. On account of their delicacy and slender form, these hybrids are destined to be greatly appreciated.

Mixed. Each, 15c; doz., $1.50; 100, $12.00.

Gladiolus in Separate Shades

Young, Vigorous Bulbs	Each	Doz.	100
Red and Scarlet, bright colors	$0.03	$0.30	$1.50
Pink and Salmon, delicate shades	.05	.40	2.50
Yellow Shades, the best mixed	.07	.65	4.50
Light and White, all first-class	.06	.50	3.00
Striped and Variegated, extra fine	.04	.35	2.75
All Colors Mixed, fine variety	.03	.30	1.50

Gladiolus in Mixture

Tracy Mixture. Including many choice showy, large-flowering varieties; all colors. Each, 7c; doz., 75c; 100, $5.00.

Superfine Mixed. Each, 5c; doz., 35c; 100, $2.75.

Fine Mixed. Well worth the money. Each, 3c; doz., 25c; 100, $1.25.

Childsil Hybrids. A mammoth-flowered strain with spikes of bloom sometimes 2 feet in length. Mixed. Each, 5c; doz., 50c; 100, $3.00.

DAHLIA

One of the most showy of the autumn flowers. The culture is most simple; any extra attention given to the growing plants is repaid by larger and more blooms. A sandy soil which has been well enriched and a sunny position are advantageous factors, yet good results accrue in almost any soil. About three by three feet apart is the distance to plant. Lay the tuber flat on its side and cover about four inches deep. Planting time in this latitude is from about May 10 to the end of June. Tall growing varieties should be tied to stakes for support.

Barnard's Novelty Set of Dahlias for 1915

This season we are offering ten desirable varieties of tried merit. They are all early blooming and free flowering, and are suitable either for the garden decoration or for cut flowers. **Prices include prepaid delivery.**

Augusta Nonin (Decorative) The color is a rich, fiery scarlet. Blooms are of the largest size, full in the center and of the best exhibition type. The plants are free and of upright growth, and produce quantities of large flowers with ease. 30c each; $3.00 doz.

Delice (Decorative). This Dahlia attained a world-wide popularity in the last year. In color it is a beautiful shade of rosy pink, suffused with lavender-pink. The flowers are medium size, of perfect form, and are produced in profusion on long stems well above the foliage. This variety should appeal to every lover of flowers on account of its delicate color. 30c each; $3.00 doz.

Goldsmith (Fancy). This variety will be doubly welcome as it is so very seldom we get a new fancy dahlia with merit. The color is clear, butter-cup yellow, regularly marked with fine stripes and splashings of clear scarlet. The plant is a very robust grower and produces its flowers on exceptionally stout stems. 35c each; $3.50 doz.

Kaiserin Augusta Victoria (Decorative) The color is a clear ivory white, without a shade or blemish; the flowers are large, with immense, broad, flat petals of graceful curves. One of the many features of this grand sort is its early-blooming qualities, which have heretofore been unknown in any Dahlia. 20c each; $2.00 doz.

DECORATIVE DAHLIA, PERLE DE LYON

Libelle (Cactus). With so many lighter shades now to be seen in Dahlias, flowers of darker color are more than welcome. This fine variety is a very early and profuse bloomer and answers well for either exhibition or cutting. The color is a light purple shading to a clear magenta. 35c each; $3.50 doz.

Master Carl This variety combines many advantages; its color is a pleasing shade of bright amber; unsurpassable for exhibition or garden purposes. Unlike most other Cactus Dahlias, its colossal flowers are held upright on long stems, displaying the center to advantage. 25c each; $2.50 doz.

Mont Blanc (Decorative). One of the finest varieties it has been our good fortune to list. The color of this sterling novelty is a clear, ivory white, without the usual green center most always noted in white dahlias. This variety can be used for either garden, cutting, or exhibition. 35c each; $3.50 doz.

Paul Kruger (Pæony-flowered). The color is a very pleasing blending of purplish maroon and white. An early and prolific bloomer, producing its flowers on extremely long stems. The center petals are very beautifully twisted and incurved, and unlike other Pæony-flowered Dahlias, it has a range of three rows of petals instead of two. 20c each; $2.00 doz.

Perle de Lyon (Hybrid Cactus). Perfect in form, pure white in color, and produced on long stiff stems. The best white regardless of type. The blooming qualities are unsurpassed. We know of no variety more suitable for the garden. 35c each; $3.50 doz.

Rene Cayeux (Cactus). At last there has come a dahlia that can be rightfully termed "the dahlia for the million" on account of its free blooming qualities and perfect flowers. Surpasses Countess of Lonsdale in every way. The color is a bright, rich blood-red with a velvety texture. When blooming, the plants resemble a solid mass of red flowers. 35c each; doz., $3.50.

One each of the above Ten for $2.50, prepaid.

Decorative Dahlias of Special Merit

The massive, gigantic flowers of Decorative Dahlias are loosely formed and present a striking appearance. The petals are broad, long, and flat. The varieties offered here can be relied upon to give entire satisfaction and be a mass of colors from early August until cut down by frost.

Catherine Duer. Bright irridescent crimson-scarlet. Very effective under artificial light. A very large flower.

Fire Rain. Rich cardinal red. Plant produces an abundance of blooms during the entire season. Invaluable for cutting.

Frank L. Bassett. Bright royal-purple, shading to blue. Very early and profuse bloomer. Dwarf, branching habit.

Gettysburg. An extremely large flower; full; round; high center. Bright, rich scarlet. An early bloomer.

Grand Duke Alexis. Color pure white, distinctly tinged, delicate pink. Large and of unique form, as the petals are rolled up so that they overlap each other. One of the best in this class.

Henry Patrick. A superb pure white variety with flowers of large size, borne on long stems; fine for cutting.

Any of above, each 20c; doz., $2.00, prepaid.

Decorative Dahlias—Continued

Jack Rose. Very large flat flower; full to the center. Brilliant crimson, similar in shade to the well-known "Jack" Rose. A sturdy grower. Exceedingly free bloomer; the cut flowers have wonderful lasting qualities. Desirable for exhibition purposes.

Lyndhurst. One of the best. Bright scarlet; perfect flowers with long stems, borne well above the foliage.

Maid of Kent. Cherry-red, tipped white; sometimes coming a solid color, a beautiful shade of red.

Miss Minnie McCullough. Soft yellow overlaid with bronze. Valuable for use under artificial light. One of the best varieties for cut flowers.

Mrs. Winters. Very large, finely formed; pure white. A superb variety.

Perle d' Or. Best white to date of its class. Early and profuse bloomer. Flowers of largest size on long stiff stems. Fine cut flower.

Sylvia. Flowers from 4 to 6 inches in diameter; of fine form and full to the center. White shaded to soft pink on the outer petals. Early and free-blooming.

Virginia Maule. Delicate shade of flesh pink. One of the most beautiful varieties we have, form, size, and habit all alike being good. Tall grower.

Wm. Agnew. Glistening scarlet-crimson; always a mass of color. Effective for all purposes.

Yellow Duke. A giant flower on long stems. Canary yellow. One of the best for decorative purposes.

Dry roots, each, 20c; doz., $2.00 prepaid.

Selected Cactus Dahlias

Dahlias in this class have long, narrow, twisted petals of the most beautiful color, many of them blending one color into another in the most exquisite manner possible. The flowers are perfectly double, loosely arranged, irregular in outline, and borne on good stems, well supplied with buds and foliage. The plants are mostly strong growers and are profuse bloomers.

Atlanta. Large, bright, rich red, shaded darker. A strong, vigorous grower and profuse bloomer.

Comrade. Fawn-color at the base, gradually shading to pink at the tips of the petals. Long, slender stems.

Countess of Lonsdale. A peculiar but pleasing blending of salmon-pink and amber; early, and one of the very best; blooms freely under all conditions.

Earl of Pembroke. Bright plum, deeper and velvety toward the center; finely formed flower of large size.

Flora. Pure white, without shade or blemish. A large, heavy flower formed of long, broad, flat petals, produced on a stout, stiff stem. Valuable for cut flowers.

Floradora. Color, dark velvety crimson. Plant of medium height. An early and profuse bloomer, continually covered with finely shaped blooms.

Galliard. The best scarlet-crimson Cactus Dahlia. A profuse bloomer and invaluable for cutting.

Goliath. Flowers of surprising size with perfect centers, borne on long, strong stems. The color is yellow, suffused and tinted with reddish salmon. We cannot recommend this variety too highly as it is certain to give satisfaction.

Harbor Light. Orange-red overlaid with flame sometimes coming golden-orange. The flowers are of immense size, often measuring 7 inches in diameter. This variety should be in every collection.

Prince of Yellows. Very large, rich, canary-yellow, with broad, flat petals which are fringed at the tips.

Single Dahlias

Gaillardia. Golden yellow with broad band of red, round yellow center.

Crimson Century. Deep glowing crimson, shaded darker and tipped rose with rose disc around the center.

Gorgeous Century. A rich dazzling scarlet without a blemish, with an occasional white petal intermingling.

Maroon Century. Rich maroon shaded plum.

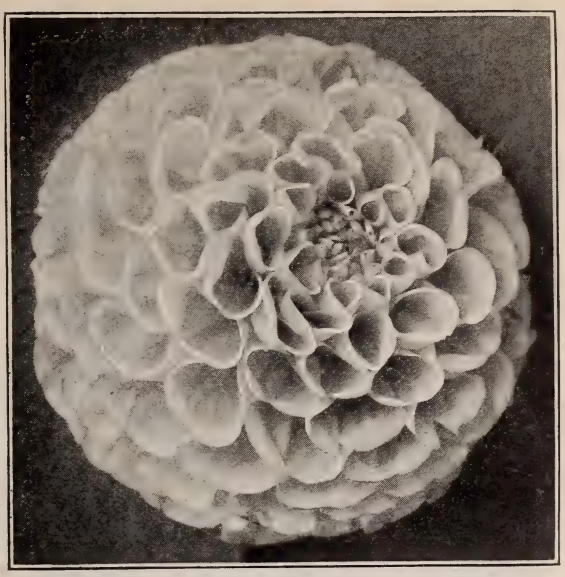
White Century. Flowers measure from 5 to 7 inches in diameter, of a pure snow-white color.

Twentieth Century. Very large rosy-crimson, with white tips and white disc around the yellow center.

Dry roots, 20c each; doz., $2.00 prepaid.

Unnamed Dahlias

White, Red, Yellow, Pink, Variegated. 15c each, $1.50 doz., prepaid; not prepaid, each 10c; doz. $1.00.



SHOW DAHLIA, ARABELLA

Show and Fancy Dahlias

Show Dahlias are a branch of the old ball type. Their flowers are of perfect form, round and full. The petals are cupped or quilled. The colors are mostly solid or tipped a little lighter than the ground color. Fancy Dahlias are of the same form of those called Show Dahlias only they are striped, spotted, or otherwise variegated.

Admiral Schley. Rich, glowing crimson with a broad band of white running through each petal. Free bloomer.

A. D. Livoni. Beautiful clear pink; quilled petals. The best pink show variety. A splendid cut flower.

Arabella. Beautiful form; pale primrose tipped old rose and lavender. (See illustration above.)

Emily. White, heavily tipped with lilac. A striking flower, large and beautiful.

Frank Smith. Deep maroon. The quilled petals are tipped with white. One of the best.

Jamaica. Deep rich purple; quilled petals.

John Thorpe. Flowers of large size; fine soft pink.

Lemon Beauty. Soft shade of lemon-yellow. Large, full rounded form. Invaluable for cutting as the stems are strong and stiff.

Lucy Fawcett. Sulphur yellow, striped and spotted carmine, rose, and sometimes with lilac.

Miss May Lomas. White, suffused with lavender.

Mrs. Roosevelt. A most beautiful perfectly double flower. It combines giant size, graceful form, and has good cutting and keeping qualities. The color is a delicate shade of pink. Each, 35c; doz., $3.50.

Olympia. Another one with flowers of immense size. The color is a deep rose-pink. Striped and pencilled crimson.

Penelope. White, flaked rosy lake; beautiful and chaste.

Progress. Clear, soft, rosy lake, beautifully pencilled and spotted crimson, the soft shade predominating, producing a smooth effect.

Queen Victoria. A fine show variety with quilled petals and handsomely formed flowers. Tall grower. Canary yellow.

Scarlet Ball. Its name describes this variety.

Storm King. A seedling of A. D. Livoni, and having all the good qualities of that sterling sort. An extremely early and constant bloomer of a dwarf branching habit. Undoubtedly the finest white of its class.

Pompon Dahlias

Small flowers, very double. Useful for bouquets, etc. They grow bushy, and are dwarf in habit.

Alewine. White, flushed soft pink; good form.

Elegante. Bright pink flowers with beautiful quilled petals.

Fairy Queen. Sulphur-yellow, edged deep peach.

Klein Domitea. Salmon-buff. Very profuse bloomer.

Little Herman. Deep red, tipped white. A perfect flower.

Snowclad. Finest white of its class.

Dry roots, 20c each; doz., $2.00 prepaid.

LILIUM AURATUM

At the single and dozen rate we prepay delivery; at the hundred rate purchaser pays transportation charges.

LILIUM RUBRUM

SOME GOOD LILIES

LILIES have always been regarded as among the most lovely flowers of the garden. In late June after Irises and Peonies have passed away the beautiful flowers of hardy Lilies impart new life and a second crop of bloom to herbaceous borders and among shrubbery. (For an example see illustration on page 37.) In such situations Lilies grow luxuriantly as they are benefited by the shade afforded by surrounding plants. Once established, they become a permanent and attractive feature.

The best time to set out hardy Lilies is in October and November. Those offered on this page, planted out during the early spring months, should bloom the same season. There are a number of other popular Lilies which must be secured and put into the soil in the fall; they cannot be furnished at any other time. Among such are **Candidum** (St. Joseph's Lily), **Harrisi and Longiflorum** (Easter Lilies), and others. The latter-named varieties are offered in our autumn catalog published each year in September.

Lilies thrive best in a well-dug, rich, moist soil. Deep planting is recommended—at least six inches deep for most, and more than that for the Speciosum varieties. All Lilies form two sets of roots—one set below and the other above the bulb. For best effects place the bulbs in clumps of six or more; lay them on their sides with at least an inch of sand beneath, over, and around each one, then cover with soil. Although these Lilies are generally known as hardy, it is advisable to cover the surface with leaves or litter in late fall as a protective measure against frost.

Beautiful Japan Lilies

Auratum (Golden Japan Lily). Unsurpassed for garden culture, a most prolific bloomer and splendid cut flower. This variety is peculiar in that it does not take kindly to having any kind of manure near its roots. Suitable also for pots indoors. **First Size:** Each, 15c; doz., $1.50. *Not prepaid:* Each, 10c; doz., $1.00; 100, $7.00. **Medium Size:** Each, 20c; doz., $2.00. *Not prepaid:* Each, 15c; doz., $1.50; 100, $10.00. **Large Size:** Each, 40c; doz., $4.00. *Not prepaid:* Each, 30c; doz., $3.00; 100, $18.00.

LILY OF THE VALLEY

Speciosum Rubrum. This variety is largely grown for cut flowers and for garden adornment it is one of the best in our list. Its tall stems three to four feet tall are surmounted with flowers light crimson and white in color with graceful, recurved petals. **First Size:** Each 15c; doz., $1.50. *Not prepaid:* Each, 10c; doz., $1.00; 100, $7.00. **Medium Size:** Each, 20c; doz., $2.00. *Not prepaid:* Each, 18c; doz., $1.75; 100, $12.00. **Large Size:** Each, 40c; doz., $4.00. *Not prepaid:* Each, 30c; doz., $3.00; 100, $18.00.

Speciosum Album. Grows about four feet tall. Fragrant, glistening pure white flower. The best pure white garden Lily. Suitable also for pot culture. **First Size:** Each, 20c; doz., $2.00. *Not prepaid:* Each, 15c; doz., $1.50; 100, $12.00. **Medium Size:** Each, 30c; doz., $3.00. *Not prepaid:* Each, 25c; doz., $2.50; 100, $20.00. **Large Size:** Each, 45c; doz., $4.50. *Not prepaid:* Each, 35c; doz., $3.50; 100, $25.00.

Hardy Garden Lilies

Just the thing for groups in borders or to plant among shrubbery. Bloom in July.

Tigrinum (Single Tiger Lily). Flowers orange-red, spotted black. Each, 10c; doz., $1.00; 100, $10.00.

Tigrinum fl. pl. (Double Tiger Lily). Very large, double flowers. Each, 10c; doz., $1.00; 100, $10.00.

LILY OF THE VALLEY

A well-known and universally admired spring flowering plant; flowers bell-shaped, freely produced and fragrant. To grow in open ground, select a partly shaded rather moist situation. A few clumps will start a bed that with little care affords an abundance of flowers and pleasure. **Not prepaid:** Each, 30c; doz., $3.00.

Miscellaneous Bulbs and Roots

FOR INDOOR AND OUTDOOR SUMMER FLOWERING

CINNAMON VINE ROOTS

Bulbs on this page are mailed postpaid at single and dozen rates.

NOTE—We do not send BULBS of any kind by mail until all danger of freezing is passed.

CINNAMON VINE

A very satisfactory climber for covering trellises, screens, or anything to which it can cling. Grows 15 to 20 feet high. Pure white flowers in clusters. Foliage thick, shiny and glossy; very free from attack by insects. Each 5c; doz., 50c.

SUMMER BLOOMING OXALIS

GLOXINIA

The flowers of Gloxinias are really beautiful. They are trumpet-shaped and range in color from deep scarlet to violet blue. The dry bulbs should be started in damp moss, and when the roots have developed, pot the tubers in rich soil. Very easily grown and a highly decorative house plant. Each, 12c; doz., $1.25.

HYACINTH CANDICANS

(Summer Hyacinth)

The large, solid bulbs, planted in spring among shrubbery or interspersed among scarlet Geraniums, produce a grand effect in August and September with their tall flower spikes 3 to 4 feet high, each one bearing 20 to 30 white, bell-shaped blossoms. Thrives in any situation. Each, 5c; doz., 50c.

MADERIA VINE

(Climbing Mignonette)

A tuberous-rooted, rapid-growing climber which quickly covers a large space. Nothing better to train around the windows of a dwelling or to screen a porch or veranda. Fleshy, heart-shaped leaves and pendant stems of fragrant flowers. Each, 5c; doz., 50c.

RICHARDIA

(Spotted Calla)

Grows very freely either outdoors or as a pot plant. Requires plenty of water. The leaves of this variety are dark green, largely spotted and blotched with white, making a pretty border plant. Flowers white with purple throat. Each, 10c; doz., $1.00.

ZEPHYRANTHES

(Fairy Lilies)

They produce their pretty flowers all summer. Plant outdoors and treat like Gladiolus. See also Amaryllis, page 61. Each, 5c; doz., 50c.

TUBEROSE

OXALIS

The summer-blooming varieties which we here offer are unexcelled as an edging to borders of walks or flower beds. Planted two or three inches apart, they produce an unbroken row of handsome foliage and pretty flowers. (Winter-blooming Oxalis can be supplied in fall only. They are offered in our autumn catalog.)

Deppei. Clover-like foliage; white flowers. Doz., 10c; 100, 65c.

Lasiandra. The bulbs of this sort are larger than those of Deppei. The plants also grow somewhat taller. Beautiful cut foliage; rose-pink flowers. Doz., 10c; 100, 65c.

TIGRIDIA

(Shell Flower)

Clumps of Tigridias planted among shrubbery produce a brilliant effect. They grow about two feet high, bloom from midsummer until frost. Large, wide-open flowers 4 to 6 inches across. The colors and marking are odd and attractive.

Alba. Large ivory-white flowers, spotted with maroon, rosy-lake in center. Each, 6c; doz., 50c.

Conchiflora. Yellow and orange; Each, 6c; doz., 50c.

Pavonia. Red, crimson spot. Each, 6c; doz., 50c.

TUBEROSE

Probably the most popular of all the summer-blooming bulbs on account of its fragrant, beautiful flowers. Plant Tuberoses in May and June for succession in rich soil and full sun, and they will bloom freely if kept free from weeds. For earlier flowers start the bulbs in pots in the house or, preferably, in hotbeds. When well started, set out in locations in which they are to bloom. We have an excellent strain of Tuberoses, and offer either Dwarf or Tall. Each, 5c; doz., 50c, postpaid. Not prepaid, 100, $2.00.

Imported Bulbs

FOR FALL PLANTING

In September of each year we publish our Bulb Catalog. It is beautifully illustrated and contains cultural notes, descriptions, and prices of such popular flowers as **Hyacinths, Tulips, Narcissus, Easter** and **Chinese Lilies**, and many others. Mailed free to our customers and to anyone on application.

Hardy Herbaceous Perennial Plants

Those who do not cultivate the sturdy, hardy plants have little conception of the great pleasure to be derived therefrom. A well-arranged plant border, even a very small one, on a city lot, will produce from April to October a constant succession of beautiful flowers, not only useful for garden adornment, but for cut flower purposes as well.

Perennials are perfectly hardy in the open ground, and die down only to the roots at the approach of cold weather. Once planted, they become a lasting pleasure. Failure with them is practically impossible. They succeed admirably upon all sorts of soil and in any situation that is not too greatly shaded.

For Summarized List and Prices, See Page 71.

ACHILLEA (Milfoil). Hardy herbaceous border and alpine plants of easy culture. Dwarf kinds excellent for bedding. **The Pearl,** pure white double flowers in dense clusters, blooming freely through the summer; fine for cutting purposes and cemetery use. Height 2 ft. Season, June to October.

ANEMONE Japonica (Japanese Windflower). One of the finest of hardy plants, stems are erect, 2 to 3 feet high. Flowers rosy purple or carmine, 2 to 3 inches across. Season from August until frost.

ASTER Hardy (Michaelmas Daisy). Hardy Asters are easy of cultivation in ordinary soils and exposures, and are among the best plants for the hardy border and for cut flowers. Flowers appear in the Autumn and are brilliant blue, red, purple or white.

AQUILEGIA (Columbine). Excellent border plants, blooming in May and June. Their flowers are spurred, and embrace a wide range in color-white, blue, red and yellow. April to August. Valuable for cut flowers. 1 to 3 feet.

BORDER OF FOXGLOVE AND SWEET WILLIAM

BELLIS Perennis. (English Daisy). The hardy English Daisy is a favorite as a border plant especially for edging. They thrive best in a cool soil and moist atmosphere. Grows 3 to 6 inches high, with double, white and rose flowers, 1 to 2 inches across. Season, April to June.

CAMPANULA media. Canterbury Bells). Canterbury Bells are probably the oldest and most popular of all Campanulas. They are easy of culture.

CHRYSANTHEMUM. Hardy Pompon varieties are becoming more popular each season for their culture is simple and they bloom late—from July to October—with a glorious display. They are very attractive.

SHASTA DAISY. Graceful and elegant pure-white flowers with yellow centers; lasts a long time. In bloom from June to October. Extra fine cut flowers, having long, stiff stems.

CHRYSANTHEMUM Maximum (Ox-eye Daisy). Forms bushy plants about two feet high. They thrive in hot sun, continuing in bloom all Summer. Flowers are like the white daisy, but larger. An excellent and lasting cut flower.

CENTAUREA Montana (Perennial Cornflower, Mountain Blue). Useful and effective border plant; invaluable for cutting. Flowers blue, about an inch across. Season May to August, growing 12 to 18 inches high.

COREOPSIS Lanceolata (Tick Seed). Rich golden yellow flowers produced the entire season. Each flower is borne on a long leafless stem. When cut, they will last in water for several days without fading. Height, 18 inches.

DELPHINUM (Larkspur). One of the loveliest blue flowers, growing on tall, erect spikes that overtop the rest of the garden. They are of easy culture, hardy but preferring sunny, well-drained places. Particular attention is called to **Belladona,** which is sky blue and a good border plant, and to **Chinense,** which has fine leathery foliage.

Hardy Herbaceous Perennial Plants---Continued

DIANTHUS Barbatus (Sweet William). These old-fashioned favorites are prized border plants. They look well in large clumps. There is a great variety of rich colors, and the flowers are very fragrant. Our plants are grown from a very select strain of seed.

DIANTHUS Plumarius (hardy Garden or Pheasant Eye Pinks). These "Clove Pinks," so much used for edgings in old-fashioned gardens, bloom most profusely during May and June. They grow about a foot high, and bear double flowers resembling small carnations. We have both White and Red.

DICENTRA Spectabilis (Bleeding Heart). Charming hardy plants with much-cut foliage and flowers of interesting structure. Easily cultivated and very highly prized for border and cemetery planting because of their bushy growth. Flowers are rose-colored, heart shaped, produced in early Spring. Large size, each 25c.

DICTAMNUS (Gas Plant). An ornamental plant which, when rubbed emits a strong, fine odor resembling lemon peel. It is one of the most permanent and beautiful features of the hardy border; growing about 3 feet high; flowering from May to July.

DIGITALIS (Foxglove) A favorite of the old-fashioned garden; the tall stalks covered with tubular flowers dominate the garden when in bloom. Their heavy masses of green foliage make a good back-ground for Sweet William, a good example of which is seen in our illustration on page 68.

FUNKIA (Day Lily). Ornamental and beautiful both in foliage and flower. They delight in damp, moist shady places.

Lancifolia. Slender, lance-like leaves; flowers pale lilac.

Subcordata (White Day Lily), with handsome waxy white blossoms with odor resembling orange blossoms.

Hemerocallis (Yellow Day Lily). A very popular perennial. Has narrow grass-like foliage and funnel-shaped lemon yellow lilies in June.

GAILLARDIA (Blanket Flower). Unequaled for rich and constant display of bloom from June until frost.

Grandiflora. Flowers very large; bronze-scarlet bordered with yellow. Makes beautiful cut-flowers, lasting a long time in water.

HELIANTHUS (Perennial Sunflower) This hardy sunflower attains a height of about 4 to 6 feet. In August and September the plants are covered with bright double golden yellow flowers, much like Cactus Dahlia. Beautiful as a cut flower.

HIBISCUS (Crimson Eye). An immense white flower with a crimson eye. Of the hollyhock family. Perfectly hardy. Blooms freely from midsummer until killed by frost. Succeeds everywhere. Large plants, each 25c.

HOLLYHOCK (Althea Rosea). Growing 5 to 6 feet tall, these plants produce a pleasing effect planted either in rows on the lawn or among shrubbery. They require a deep rich soil, and a sunny situation, and will repay for a little extra attention given them.

Allegheny Fringed. Mammoth flowers with loosely arranged fringed petals. Colors vary from light pink to deep red. Each, 20c; doz., $2.00.

We also offer Hollyhocks under colors; plants grown from best strains of seed.

IBERIS (Candytuft). Dwarf plants with evergreen foliage. In April and May they produce large quantities of flat heads of pure-white flowers. Very free flowering and very charming.

GERMAN IRIS—Fleur-de-Lis

This is the old standard variety, with tall stately stems bearing majestic flowers of purple and white. Standards refer to three upright curled petals; falls to three drooping petals. Each, 15c; doz., $1.50.

Bridesmaid. Standards white, softly shaded with lavender; falls soft lavender netted at the base; irregularly marked along the edge.

Celeste. Standards pale lavender; falls deeper; tall.

Flavescens. Delicate soft yellow, very fragrant; unexcelled for mass planting or cutting.

Florentina Alba. Pure white.

IRIS—Continued on Page 70

LAVANDULA (Sweet Lavender). An ancient garden favorite; grown because of its aromatic silvergrey foliage and very fragrant flowers. 1 to 2 feet. July to August.

LILY OF THE VALLEY. No garden is complete without a clump or two of this well-known plant with its pure-white, fragrant flowers. It well repays good treatment. Well-decayed manure applied on the surface early in March will greatly increase the size, number and quality of flowers. Field-grown clumps, especially suited for outdoor planting, which should be done before the end of April, if possible. Each, 30c; doz., $3.00.

LOBELIA. (Cardinal Flower). One of the most showy of our native flowers. Its erect spike of crimson-red flowers is very attractive in the border. Grows best in a moist soil.

LYCHNIS. A well known and much-loved flower of the early gardens; easy of culture and pleasing of habit. Flowers freely during the season, having numerous bright scarlet flowers. 1 to 1½ feet high. May to September.

MYOSOTIS Palustris. (Forget-Me-Not). A well-known flower around which much sentiment has been woven. Succeeds best in damp situations. Flowers blue with white throat.

PYRETHRUM Roseum (Feverfew) A group of beautiful single, flowers of shades of pink, lavender, red and yellow. Very desirable for cut flowers.

DOUBLE HOLLYHOCKS

GERMAN IRIS—Continued

Honorabilis. Height, 1½ feet; standards, golden; falls, rich mahogany.

Mme. Chereau. 2 to 3 feet. One of the most beautiful flowers, pure white with a broad irregular border of clear blue.

Mrs. H. Darwin. Blooms early and freely. Pure white, falls slightly netted, with purple toward the base.

Pallida Dalmatica. Standards light lavender; falls clear and deep. Each, 20c; dozen, $2.00.

Queen of May. Soft lilac suffused with rosy pink. A distinct variety.

Mixed German Iris. Each, 15c; dozen, $1.50.

JAPANESE IRIS

JAPANESE IRIS—Iris Kaempferi

Their unsurpassed beauty and orchid-like form surpass description. They begin to bloom in June, and continue for weeks. Some of the flowers measure 7 to 9 inches across. They can be had in a variety of colors. The erect flower stems reach a height of 2 to 3 feet. Japanese Iris will succeed in almost any good mellow soil if well drained. We have a collection of 25 varieties, which are being imported especially for our retail trade.

Collection of 25 named varieties, $5.00.

PAPAVER Orientale. A clump of Oriental Poppies with the bright, red, silky flowers borne above the green foliage is a striking sight; or cut with the dew on and placed in the house, makes an excellent decoration.

Iceland Poppy. A dwarf-growing, delicate flower from the Arctic regions. Flowers freely and is a good cut-flower.

TRITOMA Pfitzeri. Sometimes called "Red-Hot Poker." Flower spikes are of gigantic size, attaining a height of 4½ feet with head of bloom 12 inches long. Rich orange-scarlet shading to salmon-rose; needs protection in winter.

VINCA (Periwinkle or Trailing Myrtle). A dwarf plant with evergreen leaves; indispensable for covering ground under shrubs and trees. Pretty blue flowers.

YUCCA Filamentosa (Adam's Needle). A tropical-looking plant with long, sword-like leaves which remain green the entire year; flower stem three to four feet high, bearing a large spike of cream-white, bell-shaped flowers.

HARDY PHLOX

These delightful and showy flowers bloom freely from July until late in autumn. One of the pleasures of gardening is making a collection of various plants and varieties, such as phlox, in all their gorgeous hues. Phlox being very bright and showy, especially the newer-named varieties, afford a charm to the collector in gathering together these beautiful flowers. They propagate easily by division in the fall or spring. The colors of phlox range in beautiful shades from delicate flesh to bright red. The following varieties are one-year-old field-grown plants:

Beranger. Dwarf, white ground suffused with light rose; early. Each, 15c; doz., $1.50.

Bridesmaid. Tall, pure white, with large crimson center. Each, 20c; doz., $2.00.

Champs Elysee. Half-dwarf, deep purplish crimson, gold trusses. Each, 15c; doz., $1.50.

Coquelicot. Tall, light vermilion red, bright eye, mid-season. Each, 20c; doz., $2.00.

Eclaireur. Tall, bright lilac purple, carmine eye, large flowers; late. Each, 15c; doz., $1.50.

Fraulein G. von Laessburg. Tall, pure white, large flowers; the largest and finest white. Each, 20c; doz., $2.00.

Lothair. Tall, salmon red, with dark crimson eye; strong grower. Each, 15c; doz., $1.50.

Jeanne d'Arc. Tall, absolutely snow-white flowers and truss, medium size flowers. Each, 15c; doz., $1.50.

Matador. Medium height, orange-scarlet, bright cherry eye. Each, 15c; doz., $1.50.

Miss Lingard. Tall, white, faint lilac eye; a grand free-blooming variety, best for mass effects; early. Each, 20c; doz., $2.00.

Pantheon. Bright carmine-rose; tall and effective. Each, 20c; doz., $2.00.

R. P. Struthers. Tall, bright rosy red, crimson eye. One of the best. Each, 20c; doz., $2.00.

Mixed Phlox. Choice mixture. Each, 10c; doz., $1.00.

HARDY PHLOX

GAILLARDIA

SWEET WILLIAM

ORIENTAL POPPY

HARDY PERENNIAL PLANTS

We cannot urge you too strongly to plant Hardy Perennials about your place. They are one of the most satisfactory plants that we have. They do well among the shrubbery, in the border, or planted in beds. By selecting plants which bloom at different periods, you can have a constant succession of bloom from April to August. Ornamental both in the yard and as cut-flowers.

On pages 68 to 70 you will find full descriptions of these Perennials, which we summarize here for quick reference.

Prices are for one-year-old field-grown clumps for delivery by express, not prepaid.

Botanical Name	Common Name	Color of Flower	Height	Season	Divided Clumps Ea.	Doz.
Achillea, The Pearl	Milfoil	White	1-2 ft.	June-October	$0.15	$1.50
Anemone Japonica	Windflower	Various	2-3 ft.	August-October	.20	2.00
Aquilegia	Columbine	Mixed colors	1-3 ft.	April-May	.15	1.50
Aster	Hardy Aster	Purple, white	3-4 ft.	Autumn	.15	1.50
Bellis Perennis	English Daisy	White, rose	3-6 ft.	April-June	.15	1.50

Hardy Herbaceous Peonies

The Peony of all the hardy outdoor plants is perhaps the oldest and best known inhabitant of the flower garden and in the improved double forms offered by us the gorgeous display of blooms in the month of June is unequalled, the flowers being perfectly double, many being very fragrant and all of massive size. The abundant dark green foliage is exceptionally attractive. The Peony is one of the most desirable and lasting plants for the perennial border or shrubbery decoration.

Peonies will do well in almost any garden soil, but the better enriched the soil, the more liberal the space allowed for each plant, the more vigorous the growth. The Peony is extremely hardy and will survive the coldest winters with little or no protection. In planting the roots, cover the crown with two inches of soil. September is the best time to procure and transplant the roots, as plants put out then have a chance to form the small rootlets before freezing weather comes on. They may also be planted in the spring, but it is not as preferable as fall planting.

CLUMPS. We can supply field-grown roots of the varieties priced below. These clumps are excellent in situations where early blooming is desired. 3 to 5-eye Peony roots can be sent by parcel post; weight about 1 lb. per root.

PEONY QUEEN VICTORIA

White and Light Varieties

	Divided Roots 3-5 eyes, Each	Clumps Each
Alba Plena. Pure white; double; fine scented	$0.25	$1.00
Couronne d'Or. Large snowy white blooms, with golden yellow stamens and delicate carmine markings; strong, upright grower. One of the choicest of the late flowering varieties	.50	1.25
Duchesse de Nemours. A very fine, cup-shaped bloom; sulphur-white, changing to pure white. Has a fine bud and is particularly beautiful when half open	.50	1.25
Duke of Wellington. Soft white, with pale creamy white center. Fine shape. Early	.50	1.50
Festiva Maxima. Generally considered the finest early white Peony. Large, globular type; pure white, flecked with crimson; very fragrant; tall, vigorous grower	.50	1.25
Golden Harvest. Medium size, loose flowers, guard petals light rose, center creamy white. Fragrant. Stiff stem. Very free bloomer	.50	1.25
La Tendresse. Very full spreading flowers of immense size. Creamy color changing to pure white. One of the choicest varieties	1.00	2.75
Marie Lemoine. Large, pure white blooms of perfect shape; slightly shading to chamois, narrow carmine edge; very late; magnificent; fragrant; medium height	.75	1.50
Mme. de Verneville. Beautifully formed flower; pure white, with very broad, sulphur-white guard petals; compact centers, delicate rosy white touched with carmine. Grand midseason variety	.60	1.50
Queen Victoria. A strong-growing, pure white variety, with creamy-white center; one of the best early cut-flower varieties	.40 and .50	
Solfaterre. Creamy white. Large, globular flowers. A tall, erect grower	.50	

Pink and Rose Varieties

	Divided Roots 3-5 eyes, Each	Clumps Each
Claire Dubois. Very large globular, rose type; clear, deep violet color. Fragrant. Late	$1.00	$2.75
Edulis superba. Large, loose bloom of perfect shape; bright mauve-pink, with lilac edge; fragrant. A free and early bloomer	.50	1.25
Eugene Verdier. Large, flat, semi-rose type; pale pink; fragrant. One of the showiest pinks	1.00	2.00
Isabelle Karlitzky. Glowing rose. A variety we have grown successfully for many years	.50	1.25
Lady Leonora Bramwell. Beautiful silvery rose; of fine form; free-blooming, vigorous growing variety. The beautiful, soft-colored flowers make it very attractive for mid-season flowering	.50	
Madame Chaumy. Large; bright lilac-rose blossoms, with silvery reflex. One of the most desirable late blooming varieties	.50	
Modele de Perfection. Full, flesh-rose blossoms. A new variety possessing extra merits; fragrant; strong grower	.75	
Meissonier. Large blooms on long stems; beautiful pink; fragrant; late; strong grower	.50	
Zoe Calot. Very large globular bloom. Soft pink, shaded lilac	.25	

Red Varieties

Louis Van Houtte. One of the most conspicuous dark varieties; rich, dark carmine, with slightly silver tip borne well above the foliage; strong grower	.50	
President Roosevelt. Fine full bloom; very brilliant red	.50	
Rubra Triumphans. The old favorite crimson, which has stood the test of time	.50	1.50
Officinalis rubra. Old-fashioned, deep red Peony	.35	

Unnamed Peonies

We offer double white, pink, and red Peonies under color but unnamed for those desiring a reasonably-priced Peony. 3 to 5 eye roots, each, 25c; dozen, $2.00; large roots, each, $1.00.

PEONY FESTIVA MAXIMA IN BORDER

FRAU KARL DRUSCHKI

MRS. JOHN LAING

PAUL NEYRON

Hardy Roses--Hybrid Perpetual and Everblooming

Roses should be planted in the spring just as soon as the ground can be worked, and carefully handled, as they are plants that need attention when planted. Select a good sunny location where the soil is well drained, and should the soil be heavy or clayey, some sand should be put with it. A good plan is to take out the soil from 18 inches deep to 2 feet, and in the bottom place from 10 to 12 inches of well-rotted cow manure and sod, then place the black earth that was taken out, on top of this.

The plants offered herein are field grown and dormant. They can be planted as soon as frost is out of the ground. They are large and bulky, and not to be compared with small plants out of pots. From their size, we can send them **only by express or freight. The purchaser pays the transportation charges.** Having no soil on the roots and being dormant, they can be sent at low cost by express. Plants are not included in parcel post rates.

Hardy Hybrid Perpetual Roses

These are the June Roses, so admirably suited for gardens. They are of easy culture and luxuriate in a rich soil.

Purchaser's selection from list below (except as noted): Two-year-old field-grown plants, each 30c; doz., $3.00.

WHITE

Ball of Snow. Pure white variety; medium size; very full, double flowers of delightful fragrance.

Frau Karl Druschki. An extraordinary grower, blooming freely. Vigorous and hardy. Magnificent brilliant white flowers; immense in size, and produced with great freedom on long stiff stems.

Mabel Morrison. Flowers pure snowy white, extra large in size, regular in form. One of the best white roses.

Madame Plantier. Pure white; a favorite for cemetery decoration. Hardy as an oak.

SHADED WHITE

Captain Christy. Extra large double flowers. A beautiful flesh color deepening at center to a rosy crimson.

Clio. Recommended by expert growers as the finest rose of its type. Vigorous grower, handsome foliage. Flowers flesh color shaded in the center with rosy pink.

BRIGHT PINK

Mrs. John Laing. A beautiful fragrant soft pink. Flowers produced on strong stems.

Mme. Gabriel Luizet. One of the choicest bright pink roses. Flowers large and cup-shaped.

DARK PINK

Anne De Diesbach. Lovely carmine. Long pointed buds and finely formed and compact flowers. Very free and delightfully fragrant. One of the hardiest.

American Beauty. Very fragrant, deep rose. In center shaded with crimson. In size, color, and form it has no equal. Wherever this rose is known (and that is almost everywhere) it is prized more than all others. Each, 25c; doz., $2.50.

Magna Charta. Beautiful large dark pink flowers. A general favorite, prized on account of its strong, upright growth and bright, healthy foliage, as well as for its magnificent bloom.

Paul Neyron. Bright, shining pink, probably the largest and finest. Finely scented and free blooming. Very desirable as a garden rose.

CARMINE RED

Alfred Colomb. Brilliant carmine crimson. Very large flowers of fine globular form. An excellent sort.

Mme. Victor Verdier. Brilliant rosy carmine.

Marshall P. Wilder. Vigorous grower with heavy foliage. Flowers well formed, cherry crimson; very fragrant.

SCARLET

Ulrich Brunner. Brilliant cherry-red. Flowers of fine form.

Baroness Rothschild. Flowers rosy pink. Borne on erect, stout canes. Perfectly hardy, blooming late.

Fisher Holmes. Dark rich scarlet. Extra large full flowers. Very sweet.

General Jacqueminot. Brilliant crimson. Fragrant and very hardy. Esteemed as one of the most desirable roses

Prince Camille De Rohan. Deep rich velvety crimson. The nearest approach to a black rose. Free bloomer.

Baron De Bonstetten. Rich velvety maroon. Large flower and free bloomer; splendid variety.

YELLOW

Gloire Lyonnaise. Flowers rich creamy white.

Half Hardy Hybrid Tea Roses

Plants need to be well banked with earth and covered with straw to protect them during the winter. Extra care devoted to this class of roses is well repaid in the abundant and continuous bloom during the summer.

Two-year-old field-grown plants, each 40c; doz., $4.00. (except noted).

WHITE

Kaiserin Augusta Victoria. A strong, sturdy grower. Free bloomer. Full double flowers; fragrant creamy white.

Caroline Testout. Vigorous grower with large, clear, bright-rose, fragrant flowers. Free bloomer. Of sturdy habit.

Killarney. Vigorous grower. Flesh color. Suffused pale pink flowers. Blooms freely throughout the summer. Each, 30c; doz., $2.50.

La France. Delicate silvery rose. Very large. Blooms of globular form. One of the sweetest roses.

RED

Gruss an Teplitz. Color scarlet, shading to velvety crimson. Free grower and most profuse bloomer.

Richmond. Hardy, free blooming, with immense scarlet crimson flowers. Each, 30c; doz., $2.50.

Hardy Climbing and Other Roses

The plants of this class of Roses are used for covering trellises, walls, pillars, etc. They may be planted out as soon as ground is free from frost. Climbing Roses grow with great rapidity, are perfectly hardy, and produce flowers in large clusters.

New Roses

Ellen Pousen. Might be described as a dwarf Dorothy Perkins, though the flowers are a little larger, and not so double; flowers in large clusters and very sweetly scented, color bright cherry rose with cream base. We can recommend the variety as the best baby rose, and a most attractive rose for bedding and potting. Each, 50c, 3 for $1.35; dozen, $4.50.

Rodhatte (Little Red Riding Hood). This is a delightful dwarf rose, and has character of growth of the ever-blooming roses, and the free blooming characters of the Baby Rambler. Color a clear, shining, cherry red, semi-double blossoms produced in clusters of good size. Each, 50c, 3 for $1.35; dozen, $4.50.

George C. Waud. Exceptionally fine rose, orange vermilion color, blooms full, distinct and beautiful, with perfect finish. Free-blooming, with a strong tea rose scent. One of the best new roses. Each, 50c; 3 for $1.35; dozen, $4.50.

Rubrifolia (Red-leaved). For planting in with other shrubberies, this rose is particularly attractive on account of its beautiful reddish-green foliage, as well as pink flowers early in June; 3-year. Each, 60c, 3 for $1.50.

Favorite Climbing Roses

Our list includes the very popular Rambler class. Arranged by color of flowers to aid in selecting varieties. **Prices are for field-grown, select stock. Strong plants, delivered to express or freight office in Chicago but not prepaid, unless noted. Each, 50c; dozen, $4.50.**

WHITE

Baltimore Belle. Pale blush variegated carmine rose and white. Flowers borne in large clusters.

White Rambler. Large white flowers, sometimes tinged blush.

PINK

American Pillar. A recent introduction and great acquisition. Single flowers of a beautiful shade of pink, borne in clusters, succeeded later by red seeds. The rich deep green foliage is retained until late autumn.

Dorothy Perkins. Very vigorous in growth and continuous in blooming. Flowers rose-pink; clusters large and lasting.

Lady Gay. Flowers cherry-pink, which fades into soft white. Very profuse foliage of glossy deep green.

Pink Rambler. Carmine buds. When fully open, the yellow anthers give to the flowers a most pleasing effect.

Queen of Prairie. Bright rose color; compact and globular; a cup-shaped rose of much beauty.

Seven Sisters. Large flowers in clusters of seven of varied colors from white to crimson. No two alike in cluster. Fine and odd.

Tausendschon. Soft pink changing to rosy carmine. Flowers appear in large clusters. The plant is of strong, vigorous growth, perfectly hardy, and a good variety to plant where a strong climber is desired. This rose is nearly thornless.

BLUE

Veilchenblau. This is the so-called blue rose widely advertised. It is a vigorous grower, bearing semi-double, medium-sized flowers in clusters; is reddish lilac at first, changing to a steel blue.

YELLOW

Persian Yellow. Well known. Each, 35c; dozen, $3.00.

Soleil d'Or. A grand new yellow rose with large, flat-shaped flowers. The color in bud is a rich chrome yellow tinted with coppery rose, and on expanding becomes a beautiful orange-yellow, shaded with copper and red; a very free bloomer and one of the best and most distinct roses of recent introduction. Each, 35c; dozen, $3.00.

Yellow Rambler. Flowers medium size, cup-shaped, semi-double, fragrant. They are borne in large clusters. Each, 50c; dozen, $4.50.

RED

Crimson Rambler. So well known as to need little description. The foliage is rich, dark green; the growth rapid and diverse. During June and July the plant is covered with clusters of the brightest crimson flowers which remain on a long time.

ELLEN POUSEN

Bedding Roses

Baby Rambler. Of dwarf bushy habit. Brilliant crimson flowers. A grand bedding variety. Each, 35c; dozen, $3.00.

Gruss an Teplitz. One of the very best bedding roses. Scarlet, shading to velvety crimson; cup-shaped, semi-double flowers in clusters. Each, 40c; dozen, $4.00.

Rugosa Roses

The Rugosa roses are very hardy and so vigorous that they are suitable for rose hedges or cultivated as individual shrubs. Grow 4 to 6 feet in height. Each, 35c; dozen, $3.00.

Rugosa alba. Single, pure white flowers.

Rugosa rubra. Single, rosy-carmine flowers.

Hardy Moss Roses

"The charm of a Moss Rose is the bud."

Blanche Moreau. Pure white, sometimes shaded with rosy blush; full and perfect in form.

Crested Moss. The open flowers are of the most delicious fragrance. Color, a pale rosy pink, tinged crimson; large and globular. The buds are covered with beautiful moss.

Salet. An extremely vigorous grower. Flowers are of medium size, flat form, and well mossed. Color, beautiful light pink. **Large, field-grown plants, each, 35c; dozen, $3.00.**

Tree-Shaped or Standard Roses

The stocks are budded on hardy rose stalks four to five feet high. When in full bloom, they are handsome plants for the lawn or rose border.

Crimson Rambler. Very free flowering; crimson flowers in clusters. Also a number of varieties in different colors; list upon application. By express or freight, not prepaid, each, $1.00; 3 for $2.50.

Hardy Ornamental Vines and Climbers

Hardy Vines and Climbers thrive and flower in any garden soil, and, once established, require no extra care. All of those named here are hardy; that is, they live outdoors all winter, starting again anew the following spring. For covering porches, verandas, terraces, walls, fences, etc., they are indispensable

All of the plants are two and three years old, in strong, healthy condition. Prices named after each variety include packing. Shipments will be made as desired, by express or freight; the buyer pays the transportation.

AKEBIA quinata. Suitable for large arbors and trellises. Very rapid growers. Small, deep-green foliage and purple flowers which are sweet scented. Each, 50c.

AMPELOPSIS quinquefolia (Common Woodbine or Virginia Creeper. A native vine sometimes called Five Fingered Ivy. A rapid grower, of sturdy growth. Its leaves are larger than those of Boston Ivy. In fall they turn to bright crimson. Holland grown. First size, each 60c.

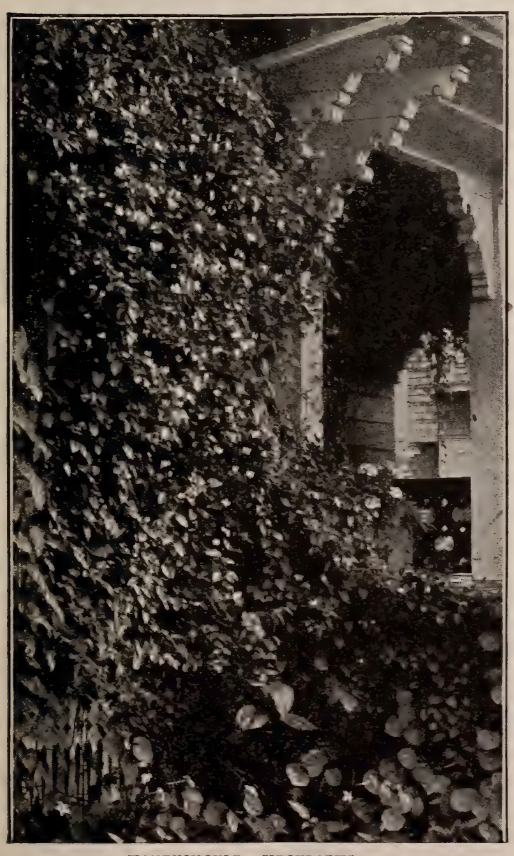
Engelmanni. A variety of the Virginia Creeper with very strong tendrils, enabling it to cling to stone walls without support. Holland grown. Each, 50c.

Veitchi (Boston Ivy). Extremely rapid grower. Handsome, glossy green foliage which in fall changes to orange and scarlet. No. 1, 3 to 4 ft., each 35c; Good grade, each 25c.

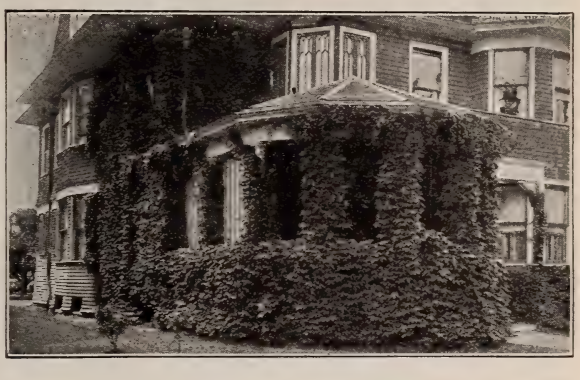
ARISTOLOCHIA Sipho (Dutchman's Pipe). Of rapid growth and large heart-shaped leaves; is suitable to cover arbors and for screens. Bears brownish flowers, the corolla of which resembles a miniature pipe. Holland grown in three sizes: 6 to 8 ft., each 65c; 4 to 6 ft., each 50c; 3 to 4 ft., each 35c.

BIGNONIA radicans (Trumpet Vine). Useful to cover dead trees and other unsightly objects. Clings to bark or walls with tenacity. Foliage fern-like; flowers orange-scarlet, trumpet-shaped, borne in clusters. Heavy plants, each 50c.

CELASTRUS scandens (Bittersweet). A native climbing or trailing plant with large leaves; yellow flowers in May or June, followed in the fall by clusters of orange-colored berries. Heavy plants, each, 50c.



HONEYSUCKLE, HECKROTHI



AMPELOPSIS VEITCHI

CLEMATIS

HYBRID LARGE-FLOWERING VARIETIES

Invaluable for verandas and trellises. These plants succeed best when grown in a deep, rich, sandy loam. The roots should be mulched with manure in winter. Failures with Clematis are frequently the result of shallow planting. We offer a selection of the best, large-flowered sorts suited to our climate. They are two- to three-year-old plants (except noted), having three to six shoots; strong, vigorous, and healthy.

Jackmanni superba. An improved form of Jackmanni. Rich violet purple. Very free bloomer. Strong, healthy, vigorous plants, having two to five shoots.

Gipsy Queen. Dark, velvety purple; very free bloomer.

Henryi. Large, creamy white; handsome.

M. Koster. Bright rose pink; much admired.

Miss Bateman. Pure white; large and showy. **Each, 50c,**

Standishi. Dark blue; a constant bloomer. **3 for $1.25**

Ville de Lyon. Wine red. A beautiful variety.

SMALL-FLOWERING CLEMATIS

Coccinea. Handsome bell-shaped flowers of a bright coral-red color. Blooms with great profusion from June until frost. A desirable variety. Each, 50c.

Paniculata. Particularly useful to cover verandas, pillars, fences, or other situations where support can be provided for it to climb upon. It is a strong, luxuriant grower, with pretty foliage. At the end of August the vine is covered with star-shaped, pure-white flowers of delightful fragrance. 2 years old, each 30c; 3 years old, each 50c.

LONICERA, or HONEYSUCKLE

Climbing Honeysuckles are valuable for training to posts, on verandas, and along fences. The vines make rapid growth in almost any soil or location. Heavy plants, Holland grown, each 50c; 3 for $1.35.

Hall's Japan. A strong-growing, almost evergreen sort; flowers pure white, changing to yellow; fragrant. Covered with flowers from July to November.

Scarlet Trumpet. Bright red trumpet-shaped flowers. Blooms very freely the entire season.

Yellow Trumpet. Clusters of flowers all season.

Heckrothi. Very vigorous in growth. Deep red flowers with yellow throat. One of the finest varieties in cultivation.

LYCIUM Chinensis (Matrimony Vine). A vigorous climber, covered from June to September with star-shaped purple flowers, succeeded by scarlet berries borne along the length of the branches. Two-year-old plants, each, 30c; heavy, each, 50c.

PERIPLOCA (Silk Vine). Will twine around a tree or other support to the height of 30 to 40 feet. Foliage glossy and purple brown flowers. Strong plants, each 50c.

WISTARIA Sinensis. The favorite variety, producing thousands of pendulous clusters of delicate violet blue blossoms, richly perfumed. 3 to 5 ft., each 50c; 6 to 8 ft., each 75c.

Alba. Of similar habit to Sinensis, with pure white flowers. Large plants, 6 to 8 ft., each 75c.

Flowering and Ornamental Hardy Shrubs

SHRUBBERY is of the greatest value and importance in adorning the home grounds, imparting to them a finished and artistic appearance which cannot otherwise be produced. There is nothing that will so quickly, and for the cost, add so much beauty to the surroundings.

Shrubs are not particular as to location; once planted, they are there to remain, as they endure. The time of bloom of the different varieties extends over nearly the whole season, though the greatest show is to be expected in spring and early summer. The variegated and golden-leaved sorts, together with those which bear ornamental fruit, make a greatly varied display. Our list includes the best, well-tried kinds, and affords a good selection to choose from.

Shrub orders amounting to $5.00 or more include prepaid delivery within the limits of Chicago by express or freight. All others are shipped at the buyer's expense of transportation. Be sure to tell us how to ship.

ALMOND, Flowering. A bushy shrub rarely over five feet tall; bearing rose- or blush-colored double flowers in early spring. Hardy; very attractive. Specify pink- or white-flowered. Heavy plants, each 50c.

ALTHEA (Rose of Sharon). An attractive hardy shrub, desirable on account of its large, showy blossoms, which appear in August and September. Excellent for a flowering hedge or to grow singly. We have double red, white, and purple. 2 to 3 ft., each 35c; 3 to 4 ft., each 45c.

Variegated. Leaves marked with green and yellow, 40c.

Tree Form. Double red, white, or purple, each 60c.

AZALEA Mollis. Dwarf habit with large, fragrant flowers. Flowers all shades of red, white, yellow, and orange, 75c.

BARBERRY Thunbergii (Japan Barberry). One of the best lawn and border shrubs. Compact, low-growing, especially suitable for a hedge or as a border along walks and drives. Foliage a fine brilliant green in summer, turning a deep, autumnal red in fall. Yellow flowers in April to May, then followed by bright scarlet berries in profusion, which remain fresh until the following spring. 18 to 24 inches, each, 35c; 10, $3.00; 100, $25.00. 2 to 3-foot, each, 50c; 10, $4.00.

Vulgaris (Common Barberry). 5 to 8 ft. at maturity. One of the most popular shrubs. Handsome in spring, with its golden yellow flowers and light green foliage, and in fall with its bright scarlet fruits, remaining through the whole winter. 2 to 3 ft., each 30c; ten, $2.50. 3 to 4 ft., each 45c; ten, $4.00.

Purpurea (Purple Leaved). Grows 3 to 5 feet high. Violet-purple foliage. Very effective in groups or masses. Each, 35c; doz., $3.50.

BURNING BUSH. See under Strawberry Tree, page 85.

CALYCANTHUS (Carolina Allspice, or Sweet-Scented Shrub). Handsome plant, growing about 6 feet tall, with large, glossy foliage and spicily fragrant chocolate-red flowers about 2 inches across. Succeeds well in shady or sunny location. Each, 50c.

CHIONANTHUS Virginica (Fringe Tree). A large shrub with large dark-green foliage and very showy panicles of white flowers in June. Thrives best in a moist location with plenty of sun. 3 to 4 ft., each 85c.

CLETHRA Alnifolia (Sweet Pepper Bush). Valuable for its fragrant, erect panicles of creamy-white flowers from July to September. 2 to 3 ft., each 50c.

CORNUS. Hardy shrubs with handsome foliage, often assuming a brilliant fall coloring and with attractive flowers and fruits. They grow nearly as well in shady places under large trees as in sunny, exposed positions, and thrive in almost any soil. *One of our best shrubs.*

Siberica (Siberian Dogwood). Rapid growing, attaining 6 to 10 ft. in height. Clusters of small white flowers appear in May and June. Its chief attraction is the bright-red bark in winter. 2 to 3 ft., each 30c; 3 to 4 ft., each 50c; 4 to 5 ft., each 75c.

Sanguinea. Grows 8 to 10 feet high. Has dark, blood-red branches. The flowers, which appear in May and June, are greenish-white in flat-topped clusters, followed by bunches of black berries. 3 to 4 ft., each 50c.

Stolonifera Aurea. A variety with golden-yellow bark. Very attractive. Each, 40c.

CRAB, Double-Flowering. See under Trees, page 84.

CURRANT, Flowering (Ribes). See page 78.

CYDONIA JAPONICA (Japan Quince). This ranks among the choicest of flowering shrubs. Bears pruning into any desired form. As a specimen shrub it is very attractive; also fine for borders or groups. The large, brilliant, bright-red flowers appear early in spring, before the leaves, and every branch is covered with bright glossy green foliage all summer. Splendid hedge plant. 2 to 3 feet, each 50c; 3 feet, each 60c.

DEUTZIAS. Very ornamental and popular shrubs with showy white or blush flowers appearing in tassel-like clusters in spring or early summer. Slender, arching branches. They thrive in almost any well-drained soil and are well adapted to borders and shrubberies. D. Lemoinei is the hardiest, while D. Gracilis and Pride of Rochester require light protection.

Lemoinei. Spreading shrub, 3 feet high. Pure white flowers in broad clusters. More vigorous, hardier, and with more showy flowers than Gracilis. 18 to 24 inches, each 35c; 2 to 3 feet, 50c.

Pride of Rochester (D. Crenata). Grows to 6 feet. Blooms in May in advance of the others. With very large, double white flower. Each, 50c.

Gracilis. Low growing; 3 feet high with slender arching branches; bright green leaves; snow-white flowers in May and June. Each, 40c.

Watereri. Single, bell-shaped pink flowers, 2 to 3 feet, each 35c; 3 to 4 feet., each 50c.

HYDRANGEA PANICULATA GRANDIFLORA

PHILADELPHUS, MOCK ORANGE OR SYRINGA

ELDER (Sambucus). Admired for their beautiful leaves as well as the flowers and fruit. They bloom in June. Require vigorous pruning to keep in shape.

Golden Elder. Yellow leaves. Each 50c.

Cut-leaved. Deep green foliage, delicately cut. 50c.

Red Berried. A new shrub with attractive snow-white flowers in June followed by large clusters of red berries. 3 to 4 feet, 50c.

EXOCHORDIA Grandiflora (The Pearl). A well-known garden shrub growing 6 to 8 feet in height. Its chief value is on account of its dazzling display of white flowers in early Spring. Thrives in any soil. 2 to 3 feet Each 40c; 3 to 4 feet, each 50c.

FORSYTHIA (Golden Bell). One of the showiest early flowering shrubs with brilliant yellow flowers borne in profusion along the slender branches before the leaves appear. Grows 8 to 10 feet tall in good soil; hardy; excellent for planting in borders.

Fortunei. A spreading bush with upright branches and dark shiny foliage. Deep yellow flowers. 2 to 3 ft., each 35c; 3 to 4 ft., 50c.

Intermedia. Slender, arching branches. Dark green lustrous leaves. Very profuse and early bloomer. 18 to 24 inches, each 30c; 3 ft., each 45c.

Suspensa (Weeping Golden Bell). Long, willowy branches covered with trumpet-shaped yellow flowers appearing before the leaves. Excellent for edge of groups as the branches drop over to the greensward. 2 to 3 ft., 35c; 3 to 4 ft., 50c.

HAMAMELIS Virginiana (Witch Hazel). A native shrub with large leaves and shiny yellow flowers, appearing after the leaves ripen in the Fall. Grows in all soils. 2 to 3 ft., 50c.

HIGHBUSH CRANBERRY, See Viburnum Opulus.

HONEYSUCKLES. For real home vines to be near you, climbing over your windows and doorways, there is nothing prettier than sweet-scented Honeysuckles. The foliage is pretty, neat, and clean; the flowers almost continuous, and their fragrance delicious. The climbing Honeysuckles are offered on page 75.

BUSH HONEYSUCKLE (Lonicera) These shrubs of upright habit with their fragrant flowers and red berries are very decorative. Loniceras thrive in almost any good garden soil, preferring sunny locations. Pruning may be done during winter. An attractive shrub for planting in the border or as a hedge.

Tartarica. A popular variety growing 8 to 10 feet tall. Produces an abundance of fragrant pink or white blossoms in May and June, followed by red berries in the late Summer and Fall. Each, 50c; 10, $4.50.

Morrowii (Japanese Bush Honeysuckle). Grows only 4 to 6 feet tall with wide-spreading branches. Vigorous grower, bearing snow-white flowers in May and June, followed by bright red fruits which are very decorative from August until late Fall. 2 to 3 ft., each, 35c; 3 to 4 ft., 50c.

HYDRANGEA. One of the best and most reliable shrubs giving a great abundance of showy white flowers in Autumn when blossoms are few. Hardy; grows well in any rich moist soil. To secure large clusters of blossoms, prune back, in the Fall or early Spring, the branches of the previous year to 1 to 3 pairs of buds, depending upon the quantity of blossoms desired.

Arborescens (Snowball Hydranea). The snow-white blooms are much like the Snowball flowers, but larger and more attractive. The habit of the plant is excellent, the foliage finely finished. One of the most valuable characteristics is its coming into bloom just after the passing of all the early Spring shrubs, while its long flowering season, from early June until late August, makes it a valuable acquisition in any garden. Each, 50c.

Paniculata Grandiflora. The most popular and widely planted shrub in cultivation. Adapted to any part of the country, perfectly hardy, stands heat and cold remarkably well. For the cemetery there is no better shrub. Grows 8 to 10 feet high; blooms from August until frost. The flower panicles are frequently nearly a foot in length, white when they first open, afterwards changing to rose, remaining in good condition for weeks. This shrub should be planted in masses or with backgound of other shrubbery. Can also be supplied pruned into tree form. First size, each, 30c; extra strong, each, 50c; dozen, $5.40.

Paniculata (Tree Form). The plants we offer are trained to a straight stem, having a bushy top. Grown in this way, they make handsome specimen plants on the lawn. In two sizes, each 75c and $1.00.

INDIAN CURRANT. **See Red Snowberry.**

LIGUSTRUM (Privet). They are very valuable for shrubberies, with their clean, dark green foliage, which is rarely attacked by insects and keeps its green color mostly unchanged until late Fall, excepting L. Ibota, which turns a purplish hue. The privets are all well adapted for planting as ornamental hedges and do well in the dust and smoke of the city. Hardy, growing well in almost any kind of soil.

Amureuse (Amoor River Privet). The Chinese variety, growing upright to a height of 15 feet. Hardier than the other varieties. Dark green leaves which remain on most of the Winter. Bears panicles of white flowers in June and July, followed by black berries. The best for hedge planting, and most desirable for this section. 18 to 24 in., each, 25c; ten, $2.00; 100, $15.00. 2 to 3 ft., each, 30c; ten, $2.50; 100, $20.00. 3 to 4 ft., each, 50c; ten, $4.50; 100, $30.00.

Vulgaris (European Privet). A familiar shrub with grayish green leaves and beautiful panicles of white flowers in June and July. 2 to 3 ft., each 20c; 10, $1.75; 100, $15.00. 3 to 4 feet, each, 35c; 10, $3.00; 100, $25.00.

Ibota. A graceful border shrub growing about 10 feet with spreading and curving branches, numerous small white panicles of blossoms appearing in June. 1½ to 2 feet, each, 25c; 10, $2.00; 100, $15.00. 2 to 3 feet, each, 35c; 10, $3.00; 100, $20.00. 3 to 4 feet, each, 50c; 10, $4.50; 100, $30.00.

LILACS (Syringa). Lilacs stand more neglect, heat or drouth without showing any bad effects, than any other plant, and there is hardly any other shrub that can take their place as ornamental plants for borders, etc. They bloom in early Spring.

Vulgaris (Common). A tall growing shrub (8 to 15 feet) having large clusters of fragrant purple flowers in the Spring. 2 to 3 ft., each, 35c; 3 to 4 ft., each, 50c; 4 to 5 ft., each, 75c.

Vulgaris Alba (Common White Lilac). Similar to purple variety. 2 to 3 ft., each, 45c; 3 to 4 ft., 60c; 4 to 5 ft., each, 75c.

Persica (Persian Lilac). Habit more open and branches more slender and drooping than the Common Lilac. Flowers light purple. Grows 6 to 10 feet. 2 to 3 ft., each 50c; 3 to 4 ft., each 65c; heavy, 75c.

Charles X. Magnificent clusters of single, rosy-purple flowers. Each, 75c.

Marie Le Graye. Finest White Lilac. Has beautiful clusters of single flowers. Dwarf grower. Each, 75c.

Mme. Lemoine. Best double White variety. Vigorous habit, with large foliage. Each 75c.

PHILADELPHUS (Mock Orange; Syringa). These shrubs are usually tall, vigorous growers and are also remarkable for their abundance of very fragrant white flowers which are excellent for cutting. They thrive well in almost any well-drained soil and even under trees. If pruning is necessary, it should be done after flowering, since the flowers appear on the wood formed the previous year. Cut out the branches which are 3 or 4 years old and allow the young shoots to grow. This will result in cleaner bushes and finer flowers. Valuable for planting as backgrounds and screens.

Coronarius (Garland Syringa). One of the best and earliest. Bearing immense clusters of pure-white fragrant flowers in May. Grows 6 to 12 feet. 2 to 3 ft., each 35c; 3 to 4 ft., each, 50c.

Aureus. Medium in height. Foliage golden yellow. 60c.

Grandiflorus (Large-flowered Syringa). A very vigorus upright grower attaining at times a height of 20 feet. Slender branches with an abundance of pure white, slightly fragrant flowers in June. 2 to 3 ft., each 30c; 3 to 4 ft., 35c; 4 to 5 ft., 50c.

PRUNUS Triloba (Double Flowering Plum). A vigorous, low growing, hardy shrub upon the slender branches of which appear, in advance of the leaves, many double pink blossoms. 2 to 3 feet., each 50c.

RHAMNUS Catharticus (Buckthorn). A large shrub, 6 to 10 feet high. Excellent for hedges. Has dark foliage with attractive white flowers in June and July. 2 to 3 ft., 35c; 3 to 4 ft., 50c.

RHUS (Sumac). The Sumacs are mostly very hardy and good ornamental plants. Their rich fern-like leaves give a peculiar and somewhat tropical suggestion to a planting. The rich bright colors of the Sumacs in the fall make them very attractive. The best display is secured if the old wood is constantly cut out and the vigorous shoots depended upon.

Cotinus (Purple Fringe or Smoke Bush). A low growing shrub of about 10 feet which derives its name from its large loose panicles of purple flowers in early Summer. Each, 60c.

Copalina (Black or Shining Sumac). A shrub or small tree at times growing to a height of 20 feet, with shiny dark green leaves, which turn a rich crimson in the Fall. Each 50c.

Glabra laciniata (Cut-leaved). One of the best species for mass or other planting on account of its deeply cut, beautiful fern-like leaves, which are dark green above and white beneath, crimson fruits and rich autumnal coloring. Each 50c.

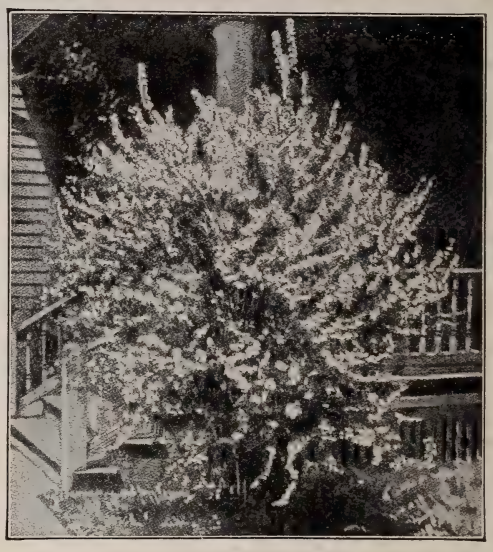
Typhinia laciniata (Cut-leaved Staghorn Sumac). The branches are densely covered with velvety hairy-like growth resembling the developing Elks Horn. Grows to a height of 30 feet. Deeply serrated leaves whose deep crimson color and presistent crimson fruit make it an attractive tree. Each, 50c.

RHODOTYPHUS Kerroides (White Kerria). An interesting Japanese shrub growing 3 to 6 feet high, good foliage and single white flowers from late in May on, with attractive shiny black seeds in Fall. 2 to 3 ft., 50c.

RIBES (Missouri Golden Currant). Grows to a height of from 4 to 7 feet. Flowers fragrant and useful for cut-flowers. Cultivated for its many pretty spicy, sweet-scented, bright yellow flowers in May, and its clean attractive foliage and bright autumnal tints. Each, 2 to 3 ft., 35c; 3 to 4 ft., 50c.

SPIREA. An ancient Greek name for a plant used for garlands. Spireas are all medium sized or low shrubs and well adapted for borders of shrubberies or shrubs. They offer a great variety both in flowers and foliage. They are all of easy culture and rapid growth, and amply repay the grower in an abundance of beautiful flowers. Will grow in almost any moderately moist soil. As single specimens or in groups on the lawn they are unsurpassed. Spireas flower in the following order, from the middle of May to the middle of August:

1. Arguta and Thunbergii. 2. Van Houttei. 3. Opulifolia and Aurea. 4. Billardii. 5. Anthony Waterer.



SPIREA

Van Houttei (Bridal Wreath). This is the most satisfactory shrub in cultivation. It is the best variety of Spireas. The bush is round and graceful with long, thin, arching branches. The white flowers are in clusters, and are so numerous that when in full bloom the bush resembles a snow-drift. 2 to 3 ft., each 25c; 3 to 4 ft., 50c. Specimens, each, $1.00.

Arguta (Snow Garland). A Japanese variety of dwarf, graceful habit. One of the earliest of the Spireas, with a wealth of pure white flowers in May which are produced on erect stems. Each 50c.

Anthony Waterer. A very low-growing shrub with deep rose-colored blooms all through the latter part of the Summer. Each, 50c.

Billardii. Strong growing plant, blooming in July and August. Grows to a height of 3 to 4 feet. We have both white and pink-flowered varieties. Each, 35c.

Opulifolia (Ninebark). A strong-growing shrub with white flowers along the stems in June. Grows to a height of 4 to 5 feet. Each, 50c.

Opulifolia Aurea (Golden Spirea). One of the best of the yellow-leaved varieties. Each, 60c.

Thunbergii. A dwarf variety blooming in April or May. With delicate drooping yellowish-green foliage which has lovely autumnal tints. Each, 50c.

TAMARIX, Africana. An odd-shaped shrub or small tree, slender upright branches with asparagus-like foliage. Hardy pink flowers in May. Each, 50c.

SYMPHORICARPUS (Waxberry). A good native shrub with attractive white berries in autumn and early winter. They are very useful plants for covering the ground under trees, for massing in the edges of beds or borders, or for detached groups where something low is desired. They will thrive in almost any soil. On account of their tendency to retain their fruit late into the winter, they are very pleasing in the winter landscape.

Racemosus (White Snowberry). A medium shrub of bushy form with pink flowers in July, followed by white waxy berries in the autumn and early winter. 2 to 3 ft., each 35c; 3 to 4 ft., 50c.

Vulgaris (Indian Currant). A low-growing, spreading shrub of graceful habit and attractive foliage. Noted for its beautiful clusters of red berries, which are persistent into the winter. 18 to 24 inches, each 20c; 2 to 3 ft., 35c. Bushy plants, 50c.

Variegated. Leaves marked with yellow and green. 35c.

VIBURNUM. A superb, much-admired group of shrubs bearing, in June, great clusters of white flowers in the form of a Snowball. They are perfectly hardy, grow quickly, and are remarkably free from attacks of insects.

Dentatum (Arrow-wood). A shrub of medium size with glossy leaves, white flowers in June fine steel-blue berries in the fall. Each, 50c.

Lantana (Way-faring Tree). Medium-sized bushy shrub with large foliage. Noted on account of its silvery underlining. Flowers in May or June with ornamental red fruits later turning black in the fall. Each, 45c.

Opulus (Highbush Cranberry). A tall-growing shrub. One of the best for general planting. Leaves are broad and elegant. Flowers are pure white in clusters, followed by bright scarlet berries in the fall which in the winter are very attractive to the eye. 2 to 3 ft., each 40c; 3 to 4 ft., each 50c.

Opulus Sterilis (Common Snowball). Shrub growing to a height of 8 to 10 feet., which is covered with globular clusters of snowy-white flowers in May. Very attractive. Medium size, 35c; large size, 50c.

Plicatum (Japan Snowball). One of the finest shrubs in existence. Useful for its flowers and foliage. The beautiful plicated leaves are very attractive. Flowers are white and globular. Plant is desirable either as a specimen plant or in a border. Medium size, each, 50c.

WEIGELIA Candida. A shrub of vigorous and fine habit, with long, tubular, white flowers produced from June all through the summer. Each, 50c.

WEIGELIA
(Diervilla)

Beautiful shrubs that bloom in May, June and July. The flowers are produced in so great profusion as almost entirely to hide the foliage. They are very desirable for the border or for grouping, and as specimen plants for the lawn. We strongly recommend them as good shrubs to set out. One of ten most popular shrubs.

Rosea. A reliable and fine variety with rose-colored flowers. Shrub growing to a height of 4 to 6 feet. Flowers in June. Each, 50c.

Rosea Variegata. Dwarf habit with clearly defined silvery variegated leaves. Flowers nearly white. Each, 50c.

Eva Rathke. One of the best of the Weigelias. Plant of vigorous habit, blooming freely and having large, well-shaped crimson blossoms. Medium size, each 40c; heavy, each 75c.

EVERGREENS

Evergreen shrubs and boxwood are attractive throughout the season, particularly so in the winter time when other trees are leafless. For this reason there is a growing demand for Evergreens for decoration. The following evergreens we quote with the ball of earth and burlap. Evergreens can be had at all seasons of the year, but August and September is the best time to transplant.

ARBOR VITÆ (Thuya Occidentalis). This is the most valuable of the Arbor Vitæs, being in common use as an ornamental hedge, bright olive green foliage, natural pyramidal shape; stands severe pruning. 18 to 24 inches, 60c; 2½ feet, $1.00; 3 feet, $1.50.

Pyramidal. Of upright, compact, narrow, pyramidal form with bright green leaves turning to a dull brownish green in fall. Very desirable. 2 feet, each, $1.00; 3 feet, $1.50; 4 feet, $3.00.

BUXUS (Boxwood). An evergreen shrub with close-growing dark oval, shining foliage. Stands being pruned in various shapes. Does best in partially shaded locations; much used on porches for decoration.

Bush Form:	Each	Pair
1 foot	$0.50	$0.85
1½ foot	.85	1.50
2 feet	1.50	2.75
3 feet	3.00	5.25
3½ feet	5.00	9.00

Pyramidal:	Each	Pair
2 feet	$1.75	$3.00
2½ feet	2.50	4.50
3 feet	3.25	6.00
3½ to 4 feet	5.00	9.00

ABIES Concolor (White Fir). The Concolor is the most desirable fir for planting, as it is very hardy, growing rapidly, and best able to stand heat and drought. 3½ feet, $4.00; 4 feet, $5.00.

PICEA Englemanni (Engleman's Spruce). A very ornamental tree varying in the color of its foliage, slender of growth, spreading in habit. The leaves have a strong aromatic odor when bruised. 18 to 24 inches, each, $1.50; 2 to 3 feet, each, $1.75; 3 feet, each, $2.75.

PICEA Excelsa (Norway Spruce). Handsome tree; very graceful habit, rapid growth. Dark green, dense foliage. Adapts itself to any soil condition. Bears handsome light brown cones. 18 to 24 inches, each, 50c; 2 to 3 feet, each, 85c; 3 to 4 feet, each, $1.00.

PICEA Pungens Kosteriana (Koster's Blue Spruce). This is one of the most ornamental of the conifer; rapid, vigorous grower, with stiff close branches, brilliant silvery-blue foliage. Perfectly hardy. 2 to 2½ feet, each, $5.00; 2½ to 3 feet, each, $6.00 and $7.00; 3½ feet, each, $8.00.

RHODODENDRONS, Catawbiense Grandiflora. A native, close-growing form with handsome, dark-green foliage. Flowers are deep, rosy purple, borne in great profusion. 18 inches, each, $2.50.

SELECTED FRUIT TREES

Special attention is called to our selected fruit trees. They are first-grade stock, selected especially on account of their superior value for our retail trade. We have listed only a few of the better varieties, which have proved to be the most valuable. Trees, vines, and shrubs are all liable to insect and fungus attacks; the only successful way to insure good growth, flowers, and fruit is to spray and care for your plants. Plants are living organisms and require constant care in their development. Before setting out fruit trees, it is necessary to prune off all broken twigs and roots. Cut back the branches about one-half in length, making the cut about an inch outside of a bud, and cut upwards. In order to get young, transplanted stock growing well, the amount of top should be about the same as the root area. More failures of trees to grow are due to lack of pruning and inattention than to poor stock. Keep the roots covered, plant properly, and prune thoroughly for satisfactory results.

We deliver our nursery stock in good condition either to the express compan or within certain districts of Chicago without additional charge. We guarantee our stock to be in good condition when delivered to the express company or your residence. If, on arrival, mistake has been made in filling your order, we should be promptly notified. Accompanying each shipment will be a copy of the certificate of inspection issued by the State Entomologist, showing the freedom of our stock from San José scale and other injurious insects and diseases.

APPLES

Summer Varieties

Select No. 1 trees, running 11-16-inch in caliper, about 5 to 7 feet in height. Each 40c; 5 for $1.75; 10 for $3.50.

Red Astrachan. Deep crimson. Juicy, rather acid. Very hardy, reliable bearer. Excellent apple for home use, ripening in August.

Early Harvest. An old favorite. Medium. Pale yellow, Tender, rather acid. Ripening in August.

Red June. Medium. Brilliant red. Juicy and good. An old favorite. Early.

Sops of Wine. Medium; dark crimson; juicy, subacid; good; desert apple for family use. August.

Sweet Bough. Large; pale yellow; tender, juicy, sweet; best early sweet apple; August.

Yellow Transparent. Medium; pale yellow; fragrant, of good quality; slightly subacid; a very popular variety.

Autumn Varieties

Maiden's Blush. Large; lemon yellow with pink blush; tender and juicy, subacid; desirable for cooking; August and September.

Fameuse (Snow Apple). Medium; deep crimson; tender, subacid, melting, delicious. Flesh white, of best quality. One of the best desert apples. Season, November to January.

Oldenburg (Duchess). Good sized; yellow striped with red; subacid; an excellent cooking apple; regular bearer; one of the hardiest varieties known; ripening in September.

Wealthy. Medium; bright red; juicy, vinous; good desert apple; August and September.

Winter Varieties

Baldwin. Large; bright red, crisp; juicy, subacid. Desert and cooking apple; ripening December to March.

Ben Davis. Large; heavily striped with red. A commercial variety and long keeper; ripening December to March.

Gano. An improved Ben Davis, Beautiful deep red; December to March.

Grime's Golden. Large, golden yellow; juicy, aromatic subacid. Desert apple of highest quality; season, middle of October to middle of December.

APPLES, Winter Varieties

Jonathan. Medium; brilliant red and yellow; tender, juicy and rich; one of the best for table or market; season, November to January.

Mc Intosh Red. Of good size; bright deep red; flesh very tender and aromatic; delicious; a desert apple ripening from October to December.

Delicious. Large; beautiful brilliant dark red blending to golden yellow at blossom end; flesh fine-grained, crisp, juicy, melting; a desert apple of highest quality; season, December to March. Famous in the Western apple sections. Each, 50c.

Northern Spy. Large, striped red; tender, juicy, mild; a very good desert and cooking apple; season, November to June.

Northwestern Greening. Large, green, a fine grade; rich, subacid; a long keeper.

Rome Beauty. Large; yellow striped with bright red; tender; sprightly subacid; desert and cooking apple; ripening December to February.

Salome. Large; reddish stripes over greenish-yellow body; very high quality; a long keeper; hardy; November to March.

Tolman's Sweet. Medium; an atractive yellow apple; moderately juicy; decidely sweet; a good cooking and baking apple. November to March.

Winesap. Medium; dark red; flesh yellow tinged with red; very juicy, first quality desert apple; December to march.

CRABAPPLES

Each 50c; 10 for $4.00.

Crab Apples make fine, ornamental trees, are hardy, grow in almost any kind of soil, regular bearers, and fruit is unequalled for jelly or preserves.

Hyslop. Large; brilliant dark red; very showy; juicy and astringent when first ripe; season, September and October.

Martha. A clear yellow, crisp, juicy and brisk subacid; one of the best because of its high cooking qualities, and enormous yields; September to November.

Whitney. Large; averaging about 2 inches in diameter; yellow striped with red; crisp, mildly subacid or nearly sweet; a desert and cooking apple; heavy cropper; season, August and early September.

CHERRIES

Cherries may be divided into two groups; the Morello or sour cherries and the Hearts or Sweet cherries. The latter have soft, tender flesh and are usually dark colored. Cherries do not do well on damp, soggy soils, and require very little pruning.

Heavy selected No. 1 trees, 11-16-inch caliper; about 5 to 7 feet high for the sweet varieties and 4 to 5 feet for the sour varieties. Each, 60c; 5 for $2.75; 10 for $5.00.

Sour Cherries

Early Richmond. Medium size, dark red, juicy; rich acid flavor; stone adheres to the stem. The old standard; one of the most valuable of sour cherries. June. 1¼-inch caliper, $1.00; 1¾ caliper, each, $1.50.

Dyehouse. Similar to Early Richmond but several days earlier. June.

Montmorency. Larger and finer than Early Richmond and one of the best flavored cherries. Strong, hardy tree, rapid grower, heavy cropper. Ripens a week or ten days later than Richmond. One of the best varieties. Late June.

Ostheimer. Large, heart-shaped, dark red fruit; dwarfish growth; fine for desert and cooking; trees early bearers; one of the most productive. August.

Sweet Cherries

Black Tartarian. Large, purplish-black fruits. One of the best, ripening late June.

Windsor. Large, liver-colored; very firm; very good. Valuable variety for the market or home use; hardy; season, July.

PEACHES

One of the most delicious of our Summer fruits. The Peach requires a well drained moderately rich soil, which should be kept clean and mellow about the roots. When first planted, all side branches should be cut back to within ½ or ¼ of an inch of the main trunk. The fruit is borne on wood of the previous season's growth and twigs should be cut back about one-half each Spring. 4 to 5 ft. trees, each 35c; 10 for $3.00.

Barnard's Yellow Rare-Ripe. Medium size; yellow with dark red cheek; flesh yellow; juicy, sweet and rich; Early September.

Carman. Large, resembling the Elberta. Creamy yellow with deep blush; skin very tough. flesh tender; fine flavor and quite juicy; one of the hardiest; ripens two to three weeks before the Elberta. August.

Champion. Large, handsome, creamy white with red cheek, sweet, rich and juicy; the best and hardiest white peach. August.

Elberta. Large, yellow with red cheek; juicy, well flavored; prolific, hardy, sure bearer; leading market variety; finest yellow free stone. September.

Old Mixon. Large, pale yellow; deep red cheek; white flesh; tender and rich; September.

Crawford's Improved. Larger and finer in quality than the old strain; a sure bearer. September.

Yellow St. John. Large, early, yellow free stone; fine color and flavor, showy fruit, fine desert peach; tree bears while small. August.

PEARS

Pear trees will grow in almost any good soil. Thrives best in rather heavy clay or loam. All blighted twigs should be cut from tree as soon as they appear. Spraying is recommended for Pears.

Standard Pears: Heavy No. 1 stock, ¾-inch caliper; about 5 to 6 ft., each 60c; 5 for $2.75; 10 for $5.00. (except where noted).

Summer Pears

Bartlett. Large, waxen yellow with red blush; juicy, buttery, with a rich musky flavor; very popular; August and September.

Clapp's Favorite. Very large and handsome. Yellow and crimson; juicy and delicious; ripens before Bartlett. Should be picked about ten days before it would ripen on tree. August.

Winter Pear

Lawrence. Medium to large; golden yellow, melting pleasant aromatic; early Winter pear; tree hardy, heavy cropper; November and December.

Autumn Pears

Flemish Beauty. Large; yellow and russet; juicy, melting, sweet; a very popular old variety of exceptionally good quality; September and October. Dwarf plants, each 50c.

Garber. Earlier and larger than Kieffer. Tree is hardy; fruit of better quality. Does not keep as long. Should be planted with Kieffer as a pollenizer; September and October.

Kieffer. Large sized, handsome; remarkable keeping qualities; slightly coarse flesh; juicy; excellent for cooking; one of the most profitable and sure bearers; September to January.

Seckel. A small russet pear of highest flavor; juicy, melting and buttery; September, October.

Duchess D'Angouleme. Greenish yellow splashed with russet; flesh white; rich flavored; recommended for the home garden. Dwarf, each 50c.

PLUMS

Plums thrive on all soils but give the best results when grown in deep, well-prepared loam. Fruit and trees are subject to many diseases and the trees should be thoroughly sprayed with Bordeaux Mixture each year. It is advisable to thin the fruit for the best crop.

Heavy, No. 1 stock, about 5 to 7 feet in height, each 60c; 10 for $5.00.

Japanese Plums

Abundance. A beautiful lemon yellow overspread with bright cherry. Large to very large; oblong, tapering to the point; flesh orange yellow; rich and highly perfumed; abundant and annual bearer; highly recommended; August.

Burbank. Large, clear cherry red; flesh deep yellow; very sweet; a peculiar and agreeable flavor; tree usually bears second year after transplanting; later than Abundance; end of August.

Satsuma. Large, globular, with sharp point; color purple and red; flesh firm, juicy, dark red or blood color. Fine quality; will keep one to three weeks after picking; August.

Red June. Medium; roundish; purplish red, yellow flesh; good quality; early August.

European Plums

Lombard. Medium; oval, dark red; flesh yellow; pleasant flavor; adheres to the stone; very productive, late August.

Shropshire Damson. Dark purple; of large size; very popular for preserving; October.

German Prune. Large, long oval, purple firm flesh; sweet; flesh separating from stone; September.

Native Plums

Desoto. Medium size; yellow, marbled red; very hardy, abundant and sure yielder; September.

Wild Goose. Fruit, medium, dark red, sure bearer of excellent quality.

Green Gage. An excellent variety for canning.

CURRANTS

Currants are perfectly hardy and may be planted in spring or fall. They succeed well in a cool, moist soil, and should be planted about 4 ft. apart and well cultivated. The currant worm can be controlled by applications of Hellebore and the old non-productive wood should be kept pruned out. Heavy 2-year-old plants, each 15c (except Perfection), 3 for 40c; 10 for $1.25.

Black Champion. Produces large crops of excellent fruit.

Cherry. Fruit of the largest size; deep red; rather acid; short bunches; strong, erect grower.

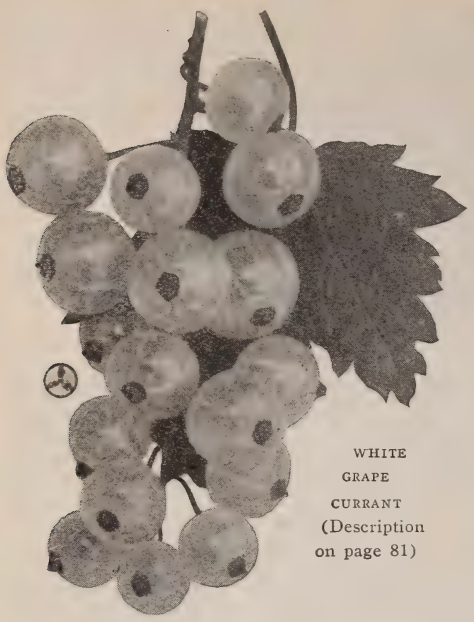
Perfection. Beautiful bright red berries of large size; quality rich, mild, subacid; having plenty of pulp and few seeds. Awarded Gold Medal by The Western New York Horticultural Society: One of the most productive of currants. Each 30c; 3 for 75c; 10 for $2.25.

Victoria. An erect growing variety; very productive; with large handsome clusters of bright red fruits; late season variety.

White Grape. Very large, yellowish-white sweet currant; excellent quality; valuable for the table; finest of the white varieties.

Wilder. Red with large fine-flavored fruit; of bright attractive color; productive and long keeping.

North Star. Red; hardy; good quality; bush is a strong grower.



WHITE GRAPE CURRANT
(Description on page 81)

BOOKS ABOUT FRUIT CULTURE

(Postpaid at price named)

We shall be pleased to procure for you any book on Horticulture. See also page 95.

Fruit Harvesting, Storing and Marketing (Waugh). Useful instructions on the storage of vegetables. Cloth, 221 pages. Price, $1.00.

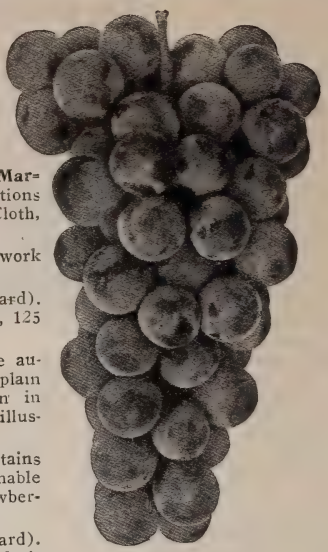
Grape Culturist (Fuller). Best work on hardy grapes. Price, $1.50.

Practical Fruit Grower (Maynard). Orchards and small fruits. Cloth, 125 pages. Price, 50c.

Pruning Book, The (Bailey). The author takes particular pains to explain the principles of each operation in every detail. Cloth, 537 pages; illustrated. Price, $1.50.

Strawberry Culture (Fuller). Contains all information necessary to enable anyone to grow their own strawberries. Price, 25c.

Successful Fruit Culture (Maynard). Covers the entire business of fruit culture from a practical standpoint. Cloth, 274 pages. Price, $1.00.



CAMPBELL GRAPE

GOOSEBERRIES

2-year-old, each, 25c; 10 for $2.00.

Downing. Whitish green; vigorous and prolific; of splendid quality for desserts or cooking; fine for general culture.

Houghton. Medium pale red berries; tender and good; very productive and vigorous.

Red Jacket (Josselyn). Large smooth berries of good flavor; fruit bright red. The best large variety to plant.

Industry. Fruits large, oval, dark red; best English variety for our climate; quality is good. Each 35c.

ELDORADO BLACKBERRY

BLACKBERRIES

For garden culture, plant 4 feet apart in rows 5 feet apart. Pinch back canes when 4 ft. high and allow three canes to hill. Each 10c; 10 for 65c; 100 for $3.00.

Early Harvest. A very early productive variety with sweet, medium sized berries; two weeks earlier than the Snyder.

Eldorado. Vines are very hardy and vigorous. Perhaps the best variety ever introduced. Produces enormous crops of very large jet black fruit which is sweet and melting.

Erie. Fruit very large; excellent quality. Very hardy.

Mersereau. A strong grower; claimed to be the hardiest blackberry. An enormous producer of extra sized berries which are black and retain their color. Of extra quality, sweet, rich and melting. Without core. Ripens early.

Snyder. A hardy, well-known variety; berries of medium size, sweet and melting; producing in profusion; early.

GRAPES

There is scarcely a gardener either in the city or country who does not want to plant a few grapevines. They grow readily in most soils, but a little extra attention as to the soil, pruning and cultivation they receive will result in a better quality of fruit. No part of the fruit garden yields a richer harvest than the vineyard. Set them 8 feet apart. Two-year-old plants, each, 20c; 10 for $1.50, except as noted.

Black or Purple Grapes

Campbell's Early. A fine new grape. Large compact handsome clusters, with large nearly round black berries; flesh firm but tender; seeds few; quality rich and sweet; strong vigorous grower. Each, 30c; 10 for $2.50.

Concord. One of the best known grapes. Large clusters of round, black berries; flesh moderately juicy; sweet pulp; quite tender when fully ripe; September.

Moore's Early. Clusters of medium size; berries large with blue bloom; of better quality than the Concord; desirable because of its earliness.

Worden. Splendid grape of the Concord type, but 10 days earlier and superior to it in flavor; hardy and healthy; should be widely planted.

Red or Amber Grapes

Brighton. Large handsome bunches of the best quality; berries medium; of good flavor. An excellent early grape.

Delaware. Bunches and berries small; compactly set; light red; flesh very juicy, sweet, spicy and delicious; a much prized variety.

Regal. One of the hardiest red grapes known. Bunch of good size, compact and handsome; berries large, persistent, dark-red and juicy, with a thin skin; a heavy annual bearer. Each, 40c.

Salem. Bunches and berries large; coppery red; flesh tender; juicy; with slight pulp of the very best quality. Ripens with Concord. Each, 30c.

White Grapes

Diamond. Bunch large and compact; color greenish white with a yellow tinge when fully ripe; flesh juicy; almost without pulp; quality very good; early.

Niagara. Bunch medium; with large berry which is slightly pulpy; tender and sweet; ripens with Concord; probably the most valuable white grape in cultivation.

Pocklington. Bunch and berries large; light golden yellow when fully ripe; juicy; tender; sweet, with little pulp; thoroughly hardy and healthy; bears well in favorable seasons; ripens after Concord.

RASPBERRIES

Plant 3 feet apart in a row and keep vines growing in good condition. Old wood must be cut away as soon as it has fruited to give vigor to young canes. Strong plants (except as noted), each, 10c; 10 for 65c; 100 for $3.00.

Purple and Red Caps

Columbian. A variety of purplish color; vigorous growing and very hardy. Delicious for table or canning. 10c each, 10 for 80c.

Cuthbert. An old hardy variety producing large crimson conical berries which are sweet and luscious; a certain cropper. Season, medium to late.

Black Caps

These Raspberries can only be planted in the spring, and the young canes should be pinched back when about 2 feet high to keep the bushes snug and compact.

Cumberland. A large glossy berry ripening in mid-season. Of good quality, hardy and productive; among the best.

Gregg. A very showy berry produced in great abundance.

Plum Farmer. Large, handsome berries; thick meated and firm; very attractive when picked for table. Worthy of trial in the home garden. Each, 15c; 10 for $1.25.

Kansas. A valuable second-early variety which stands cold and drouth well, yet bears heavy crops; berries are large, firm and of the best quality.

Golden Queen. Large beautiful fruits of pale amber color; firm and delicious; fine either for home use or shipping; a superior dessert fruit. Each, 15c; 10 for $1.25.

AROMA CHESAPEAKE SAMPLE SENATOR DUNLAP STEVENS' LATE CHAMPION

STRAWBERRIES

Early spring is the best time for setting out. The plants are set 12 to 18 inches apart in rows; 2½ feet between rows. At the end of the season, they will have formed narrow rows of plants. This system will produce more and better berries than where the rows are thickly matted together. A mulch of leaves or straw is to be applied after the ground freezes in winter; the covering should be removed before growth starts in the spring. Varieties marked "P" have imperfect flowers, and to produce well must be planted close to plants having perfect flowers.

Field-grown plants, 10 for 30c; 50 for 75c; 100 for $1.25.

Aroma. One of the most popular late market varieties; a good bearer of large, uniform, bright glossy red fruit. A choice variety; reliable.

Brandywine. Berries very large; broadly heart-shaped; bright red in the center; firm flesh, of fine flavor; a late berry.

Chesapeake. A new variety of high quality; one of the largest and most prolific grown; color is dark red; firm and of high quality; without green tips. Its immense size makes it easy to pick.

Climax. A second early variety; very productive, and has a long season.

Glen Mary. Vigorous and prolific; berries flattened; dark color; flesh light red; moderately firm, of good quality.

Sample. (P.) A variety doing well on nearly all soils; yields large crops of uniformly large fine berries; pointed, conical; scarlet; firm flesh and fair quality; mid-season to late.

Senator Dunlap. One of the best flavored berries; fruit of good size, regular form, beautiful bright red; firm, splendid keeper; one of the best for canning; ripens early.

Warfield. (P.) Early; productive; vigorous.

Stevens' Late Champion. Strong, vigorous grower, producing large, deep red fruits; flesh also is red.

William Belt. Berries large, conical, rather long, bright red, glossy; quality good, moderately firm; plants vigorous, healthy and quite prolific.

Everbearing Strawberries

The fall or everbearing strawberries are no longer an experiment. Their culture is not difficult as they require the same treatment as other strawberries, except that the blossoms should be removed to the middle or last of June. 10 for $1.00; 25 for $1.50; 50 for $2.75.

Americus. Berries of good quality; light red; heart-shaped; ripens in early June until ground freezes.

Superb. One of the largest and finest of fall-bearing strawberries; rich dark color; glossy and attractive; fine flavor.

Ornamental Deciduous Trees

In the following list are included only those varieties which are the most desirable and in the sizes most popular with our trade. If smaller stock than that which is offered is desired, or specimen trees are wished, of any variety, our close touch with the nurserymen of the country will enable us to secure at favorable prices stocks which we have not ourselves. **Prices below include packing and delivery to railroad depot or express office in Chicago, free of charge.**

We shall be pleased to help any who desire more full information about the varieties than we are able to give below. In writing us, kindly state just what you wish or the object to be attained in planting. We will then be pleased to give the matter our careful attention.

Your success in planting Ornamental Trees will depend largely upon the care and attention which is given them. The following suggestions from the pen of an expert horticulturist and clever writer are worthy of careful study:

"Plant same as fruit trees, except that larger holes should be dug to accommodate the roots. The ground should be pressed down firmly over the roots with the foot. Two-thirds of the tops should be cut off on all ornamental trees, except Cut-leaved Birch and Horse Chestnuts, which should not be headed in."

"Care should be taken to prune the tops so that the trees will make a well-balanced, uniform top. The forming of the crown is regulated entirely by the pruning. On some kinds of trees it may be necessary to tie the tree to a strong stake to hold it firmly in its place. Wrap the trunks of Maples with building paper, four or five feet from the ground up, to keep out borers."

In regard to watering—It is a mistake to give trees a slight watering each day, or to apply a hose to the trunk and let it run for several hours at night. The fibrous roots or feeders which take up the moisture are located away from the trunk at a distance equal to the length of its branches, and the water should be applied to these feeding roots. During June, July, and August the young trees should be given at least one, in some cases two, thorough waterings each week, using water enough to wet the soil thoroughly for a depth of a foot or two. It is also well to cultivate the ground for a distance of three feet around the trunk of the tree for the first two or three years. Loosen up the top soil with a hoe, spade or rake to keep it free of weeds and grass.

ALIANTHUS (Tree of Heaven). A rapidly growing tree which does well in poor soils, particularly sand. It is free from insect enemies, but has a bright, fresh foliage which remains green throughout the late summer, when many trees become ragged and unsightly. The matured leaf is often three feet long, with many pairs of leaflets and a terminal leaflet. 6 to 8 ft., each 75c; 10 to 12 ft., $1.75.

ALDER, European or Common. A medium-sized, neat tree of about forty feet, with dark, wedge-shaped foliage. Makes quick growth, especially in moist situations. 8 to 10 ft., each 75c.

ARALIA Spinosa (Hercules Club). An aromatic tree with straight, wide-spreading branches. Prefers a deep, moist soil. The leaves are the largest produced by any tree. Leaflets are often two or three inches long, which in autumn turn to a bronze-red touched with yellow. Flowers are creamy white and appear in great loose clusters. It is especially attractive, as the flowers appear in August after most of the other trees are through blooming. 6 to 8 ft., each $1.00.

ASH, American White. A graceful tree having a round head of great beauty when grown alone. Grows rapidly. Prefers rich, moist soil, and is particularly desirable for street planting as trees are of medium width. 8 to 10 ft., each 75c; 10 to 12 ft., each $1.50; 2½-inch caliper, $3.00.

GREEN ASH. Tree of medium size with handsome foliage bright green on both sides. Is recommended for a street and park tree. 8 to 10 ft., each $1.00; 1¾ to 2 in. caliper, each $2.50.

MOUNTAIN ASH, European. White flowers in the spring, followed by large clusters of red berries in the fall which hang on into the winter. A delightfully decorative tree for the lawn. 8 to 10 ft., each $1.25.

MOUNTAIN ASH, Oak-Leaved. Of the same habit with dark, lobed leaves. 6 to 8 ft., each $1.00.

BEECH, Blood-leaved. A very attractive ornamental tree for the lawn on account of its attractiveness and the color of its foliage during the season. 4 to 5 ft., each $2.25; 6 to 8 ft., $3.50; selected trees, each $8.00.

BIRCH, White. Native Birch with drooping, graceful branches. Very attractive. 6 to 8 ft., each 60c; 8 to 10 ft., $1.25.

CRAB, Bechtel's Double Flowering. Of medium growth with flowers of immense size and beautiful pink color; suggesting fragrant double pink roses. 3-4 ft., each $1.00; 4-5 ft., $1.50; 5-6 ft., $2.50.

Atrosanginea. A very showy small tree prized for its rose-red flowers which appear with the leaves, and are produced in great abundance. One of the best early flowering trees. Each $1.00.

Parkmanni, Parkman's Double Flowering. A dwarf Japanese variety having numerous semi-double rose-colored flowers which are borne on long slender stems which droop in graceful fashion. Each, $1.00.

AMERICAN ELM

ELM. The favorite tree for street planting or for shade about the home. Graceful in habit, with a straight trunk and spreading head. Leaves and twigs are delicate, no less so in winter than summer. 8 to 10 ft., each 65c; 10 to 12 ft., each $1.25; 2 to 2½ inch caliper, each $3.50; 3 to 4 inch caliper, $5.00.

Ornamental Deciduous Trees---Continued

CATAPLA Bungei. Curious, umbrella-shaped tree, desirable where formal effects are desired. Foliage large and glossy. Dwarf habit. Flourishes in most all soils and climates. While of dwarf habit, we can supply these grafted on stems 6 to 8 ft. high. 2-yr.-old, each $2.00; 3-yr.-old., each $4.00.

CATALPA Speciosa (Western Catalpa). A hardy tree with broad, heart-shaped foliage. Blooms in June, bearing handsome clusters of white flowers. It is particularly suitable for streets when planted thirty feet apart. 4 to 6 ft., each 25c; 10 to 12 ft., each $1.00; 2 to 2½ in. caliper, each $3.00.

CHERRY, Wild Black. Unusually rapid grower. Very ornamental and when in bloom a grand sight. Flowers sweet-scented. 6 to 8 ft., each 75c.

CERASUS (Double White Flowering Cherry). A small tree. Branches completely covered with a host of double, white flowers in May. 6 to 8 ft., each $2.00.

GINKGO (Maiden Hair Tree). Curious Maiden-hair-like foliage. This tree is immune from insects. Ornamental on public grounds, lawns or in street planting. 6 to 8 ft., each $1.00; 8 to 10 ft., $1.75.

HACKBERRY (Celtis Occidentalis). A large tree with a slender trunk. Prefers rich, moist soil. Grows rapidly. Is shapely. Leaves bright green during most of the summer, in autumn turning a light yellow. Fine street tree. 8 to 10 ft., each $1.25; 10 to 12 ft., each $1.75.

HORSE CHESTNUT. White flowering. A large tree, very showy when in flower, its chief value is as a shade tree on streets and lawns. Blooms in May. Hardy. 5 to 6 ft., each 80c; 2½ to 3 inch $4.00.

OHIO BUCKEYE. A large spreading tree with spreading branches. Showy yellow flowers in May. Rapid grower. 5 to 6 ft., each $1.50.

JUDAS TREE (Red Bud). A small tree of great beauty especially in early Spring when the twigs are almost covered with rose-pink blossoms. Leaves heart-shaped with glossy surface. 5 ft., each 75c.

LINDEN (American) or Basswood. A large tree with broad, rounded crown. Large heart-shaped dark green leaves, flowers creamy white. Suitable for street or lawn planting. Fragrant and very attractive to bees. 6 to 8 ft., $1.00; 1¼ to 1½-inch caliper $2.00

MAGNOLIA Acuminata (Cucumber Tree). A tall pyramidal tree with large oval, bright green leaves. flowers appearing in May and June, are greenish yellow, 2 to 3 inches long, with upright petals followed by cucumber-like pink fruits 3 to 4 inches long. Each, $2.50.

MAGNOLIA Soulangeana. Blooms in May before the leaves appear. Flowers large, cup-shaped, white, suffused with pink. Fragrant. Very hardy and showy. Each, $2.50.

Ash Leaved (Box Elder). Not recommended for city.

Norway. A large, handsome tree with spreading branches.

Maple This is a valuable family of trees. Maples are among the finest shade trees, beautiful in foliage, free from diseases, and adaped to all soils,—merits which make them universally popular.

ASH LEAVED (Box Elder). Not recommended for city planting by Chicago Forester.

NORWAY. A large, handsome tree with spreading branches and broad, deep-green foliage; very compact growth, rendering it one of the most desirable varieties for the street, park or lawn. Perfectly hardy. 6 to 8 ft., each 80c; 8 to 10 ft., each, $1.25; 1¾ to 2-inch caliper $3.50.

Purple Norway Maple. Schwedlerii. Young leaves crimson in Spring, changing to purplish green with age. 6 to 8 ft., each $1.25; 8 to 10 ft., each $2.50.

Sugar Maple. An excellent street and shade tree of upright, dense growth, turning bright yellow and scarlet in the Autumn. It does well in most every soil. Slow grower, hardy, permanent. 8 to 10 ft., each $1.25; 1½-inch caliper, $2.25.

Weir's Cut-Leaved Maple. A rapid growing Maple with beautiful deep cut foliage borne upon drooping branches. A handsome lawn tree. 8 to 10 ft., each $1.00; 10 to 12 ft., each $1.50; specimen trees, 3-inch caliper, 3.50.

MULBERRY. A low, dense-headed tree, rapid growing, with handsome bright green leaves. Fruits are long, sweet and edible. Attractive to the birds. 6 to 8 ft., 75c.

Poplar Poplars are rapid growing trees, which thrive best in damp situations, although they succeed in any soil. They are well adapted for screens or street planting.

Balm of Gilead. Of remarkably rapid and luxuriant growth, with large glossy foliage and peculiar resinous buds. 8 to 10 ft., each 50c; 1½-inch caliper $1.00

Carolina. A very distinct tree, growing symmeterical in form, with a large spreading head. Rapid grower, being used largely for screens, hedges or street where quick results are desired. 8 to 10 ft., each 50c; 10 to 12 ft., each 75. 2 inch trees, $1.25; 2½ inch, $1.75; 3 inch, $2.50; 3½ inch, $3.50.

Lombardy. A well-known tree remarkable for its erect, rapid and picturesque growth. 8 to 10 ft., each 50c; 10 to 12 ft., each 75c.

OAK, White. A beautiful park tree with large, stout, spreading branches forming a broad open head, light gray bark, foliage assumes deep violet purple in Autumn. 6 to 8 ft., each $1.75; 1¾ to 2-inch caliper $5.00.

SYCAMORE OR PLANE. (Buttonwood). A native tree of majestic size. Its gray-white bark makes it conspicuous in Winter. Good for street planting, also for shade. 6 to 8 ft., 75c; 10 to 12 ft., each $1.25; 1½ to 1¾-inch caliper $2.25.

STRAWBERRY TREE. Cork-barked. A small erect tree, with peculiar cork-like bark. Leaves bright green with beautiful Autumn coloring and scarlet seed coats. 1½ to 2 ft., each $1.00; 3 ft., each $1.50.

BURNING BUSH. A large tree with light green leaves 2 to 4 inches long, turning pale yellow in Autumn. The fruits are very deeply lobed with scarlet seed covers. 3 to 4 ft., each 50c.

Thorn The Hawthorns are a group of native plants which are attractive for their foliage, flowers and fruits.

Cockspur Thorn. Long thorns, glossy dark green leaves, white flowers with red fruits hanging on well into Winter. 3 to 4 ft., $1.25.

Paul's Double Scarlet Thorn. The best of its class. Large bright scarlet flowers, very double. 3 to 4 ft., 85c; 4 to 5 ft., $1.00.

TULIP TREE (Lirodendron). A rapid growing tree especially fine for street or lawn planting on account of handsome dark green glossy foliage and beautiful tulip-shaped flowers. Grows best in deep, rich soil. 6 to 8 ft., each 75c; 10 to 12 ft., each $2.50.

Willow A very showy tree especially in the Spring when the bright golden yellow bark is most conspicuous.

Golden Barked. Its yellow bark makes this tree conspicuous in Winter. 6 to 8 ft., each 50c.

Laurel Leaved. Leaves dark glossy green, highly ornamental, and when bruised having the odor of bay tree. 6 to 8 ft., 60c; 8 to 10 ft., each $1.00.

Trees of Drooping Habit

ASH, Weeping Mountain. Covered from July until Winter with bright red berries. 2-year heads, each $1.50.

BIRCH, Weeping Cut-Leaf. The most popular of all pendulous trees. Silvery white bark. 6 to 8 ft., each $1.50.

ELM, Camperdown. Tree covered with a canopy of green leaves. 2-year heads, each $1.75.

MULBERRY, Tea's Weeping. Makes a beautiful umbrella-shaped head. 2-year heads, each $1.50; 3-year heads, each $2.50.

WISCONSIN WEEPING WILLOW. Similar to, but much hardier than Babylonica. 6 to 8 ft., each 60c; 8 to 10 ft., 80c.

LAWN MOWERS AND LAWN SUPPLIES

All Goods on this Page Are Forwarded by Express or Freight at Buyer's Expense.

Philadelphia Lawn Mower.

The genuine "Philadelphia" is recognized as the standard Lawn Mower. It is guaranteed against imperfections and warranted to give entire satisfaction. We carry a large line, but list here only the more popular styles. Full descriptive and illustrated circular on request.

STYLE A. Width of cut, 15, 17, 19, and 21 inches. Made entirely of steel. Light in weight and draft; has long and large bearings. A durable and satisfactory mower for fine work. 10-inch drive-wheel, enabling it to cut high grass. 4 blades, double ratchet.

STYLE K. Width of cut, 14, 16, 18 and 20 inches. This is a popular medium-priced machine. Will cut high grass; light running; does smooth and fine work. 10-inch wheels. 5 blades. Also made of roller bearings at an advanced price.

ALL-DAY MOWER. Width of cut, 14, 16, and 18 inches. Superior to other low-priced mowers. It is mechanically proportioned, runs light, and does fine work. Thousands now in use. 10-inch wheels; 4 blades.

GRAHAM MOWER. Width of cut, 15, 17, 19, and 21 inches. All steel; the highest achievement in lawn mowers 10-inch drive-wheel; 4 blades; 6½-inch cylinder. Train of gears on both sides. Removable box-caps to take cylinder out for sharpening.

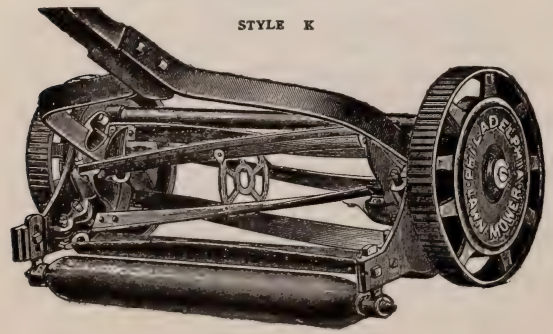
HORSE MOWERS. We have four different styles of Horse mowers. Ask for special circular and prices.

PHILADELPHIA GRASS COLLECTOR. This is a substantial, well-made catcher with galvanized iron bottom and never-rip cloth connections. Made in various sizes for Philadelphia Mowers. Low wheel: 10-in., $1.40; 12-in., $1.50; 14-in., $1.60; 16-in., $1.70; 18-in., $1.80; 20-in., $1.90. High-wheel: 15-in., $1.70; 17-in., $1.80; 19-in., $1.90; 21-in., $2.00.

PHILADELPHIA LAWN TRIMMER. Each, $5.00.

LAWN MOWER REPAIRS. We carry a large stock of extra parts for the Philadelphia Lawn Mower, and can give you prompt service.

STYLE K



HOSE—Barnard's Greenhouse (16). A select grade of molded, non-kinkable hose. Made of the finest quality rubber. It is guaranteed against defects during the season. We can supply in any length. ¾-in., 25-ft., $4.50; 50-ft., $9.00; in longer lengths, per foot, 17c.

Florists' Brand (7-ply). An extra quality woven hose, particularly adapted to high pressures. ¾-inch, with couplings, 50 ft., $6.50; 100 ft., $12.00.

Gardeners' Brand (5-ply). A serviceable, low-priced hose. ¾-inch, 25 ft., $2.75; 50 ft., $5.00; 100 ft., $9.00.

HOSE CLAMPS, Bulldog (9). Strong, reliable. ¾-in., each, 5c; dozen, 50c. Galvanized, each, 3c; dozen, 25c.

HOSE STRAPS, Caldwell. Used in fastening coupler on hose. Dozen, 15c.

HOSE COUPLINGS, Brass (8). **¾-inch, per pair, 15c.**

The Snap (18 and 19). Best on the market. ¾-inch hose, each, 15c; per pair, 30c. **Snap Washers.** ¾-inch, each 3c.

HOSE WASHERS. ¾-inch, per dozen, 10c.

HOSE MENDERS, Iron (17). ¾-inch, each, 5c; dozen, 50c. **Wood** (7). ¾-inch. Two for 5c; dozen, 15c.

HOSE NOZZLES, Gem (4). An all-round nozzle for garden or lawn use. Can be adjusted to throw a solid stream or a fine mist by simply turning. For ¾-inch hose, each, 50c. **Boston Spray, Brass** (2). For ¾-inch hose. Used for watering lawn and garden. Each, 60c.

Lawn Roller

These Rollers are electrically welded—no rivets are used. The drum cannot possibly leak. When filled with sand they weigh 50 per cent more than when water is used.

No.	Diam. Inches	Length Inches	Sections	Weight Empty	Filled Water	Price

Sprinklers for Lawns, Etc.

All Sprinklers have connections for ¾-inch hose.

Blake or Butterfly (5). Much used in Chicago parks. The spray is formed by a jet of water playing upon a revolving spoon. Very efficient and durable. **Blake,** for attaching direct to hose, each, 30c. **Busy** (1). 7 inches tall on sled, each, 60c.

Anaconda (6). 11 inches tall, on sled, each, $1.00.

Garden City. 13½ inches. Each, 80c.

Hartford. This Sprinkler is made in four heights: 2 ft., 75c; 4 ft., 85c; 6 ft., $1.00; 8 ft., $1.25.

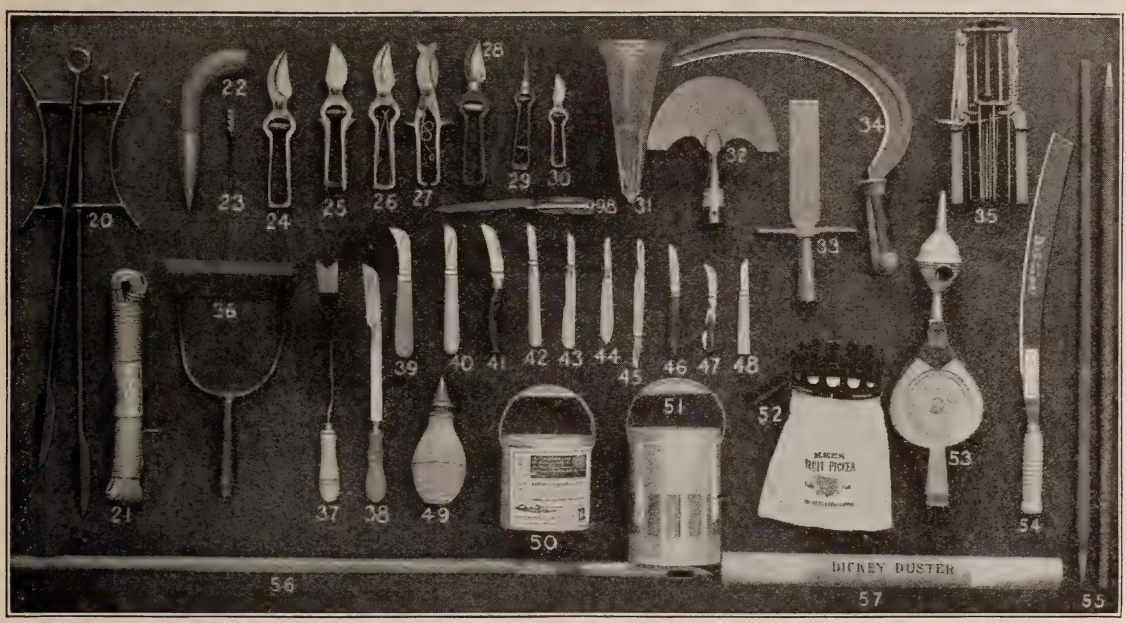
Elgin (12). An efficient rotary sprinkler with no back pressure on the hose. Never out of order. Each, 65c.

Evanston (13). Similar to the Elgin. Each, 40c.

C. B. G. (14). Cheap but good. Each, 25c.

Ring (15). Each, 75c.

GARDEN SUNDRIES



Prices Given Do Not Include Prepaying of Charges Except Where Noted

APRONS, Rubber. For protecting clothing when working or sprinkling. Light, single coated, each 75c. Medium, double coated, larger, each $1.75.

ASPARAGUS BUNCHER. No. 1 and No. 4 $2.50.

ASPARAGUS KNIVES (38). Imported, each $1.50.

American. (37). With V-shaped edge. Each, 50c.

Bellows and Dusters

American Powder Bellows (53). 20 inches long, 5½ inches wide, holds 4 ounces of powder; each $1.00. 24 inches long, 7½ inches wide, holds 8 ounces; each, $1.25. Extra heads, each 50c.

Dickey Duster. (57). For applying Bug Death. 25c.

Jumbo Duster. Holds 4 ounces. Each 25c.

Slug-Shot Duster (50) A shaker for applying Slug Shot, Bug Death, etc. ½ gallon, each 35c. 1 gallon 50c.

Acre-an-Hour Duster (51). Has holes perforated in the side to spread powder by twisting motion. Can be regulated with slide. Each 75c.

Dry Powder Duster. A serviceable article, each 75c.

CORN HUSKING PINS (98). Each 15c.

CORN KNIFE (54). Each 50c.

CORN PLANTER (Hand). Eagle. Each $1.35.

DANDELION RAKE, Roberts. This is a tool for raking off dandelion heads; very efficient. $2.75.

DIBBER (22). For transplanting; Steel point. Each 30c.

FORKS (Spading). 4 light angular tines. Each 85c. 4 extra heavy, angular tines, strap ferrule, each $1.25.

FRUITPICKER, Kee's (52). A handy device for picking specimen fruits. Each 75c.

GARDEN LINE (21). 100 ft., of the best braided hemp. 50c.

GARDEN LINE REEL (20). Melleable Iron. Small size 60c. Large 75c.

GRAFTING WAX (109). ¼-lb. bar, each 12c; ½-lb. 20c; 1-lb. 35c.

GLASS, Hotbed. 8 x 10, per box (90 panes), each $4.00; 10 x 12, per box (60 panes), each $4.00. Per pane, either size, each 10c; dozen $1.00.

GLAZING POINTS, Peerless. For repairing hot-bed sash, per M. 70c.

GLASS CUTTER AND GLAZING TOOL (23). Each 10c.

GLAZING PUTTY. Twenlow's Old English. Gallon $1.80

PUTTY BULB for applying liquid putty (49). Each, 90c.

GRASS HOOKS or Sickles (34). English, riveted back. No. 0, each 50c; No. 1, 55c; No. 2, 60c; No. 3, 65c.

GOOSEBERRY PRUNER. Handy to remove dead canes from gooseberries, raspberries, etc. Each $1.00.

PLANET JR

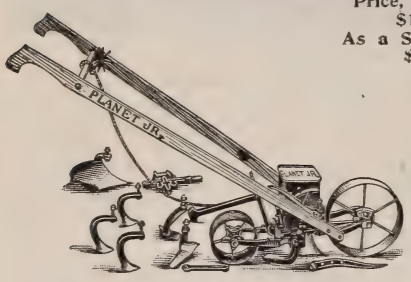
This name is a guaranty over all the world of the most modern scientific farm and garden tools manufactured. Every Planet Jr. **cuts your work in half.** These tools double your crop yield, pay for themselves in a single season, and last a lifetime. Built to **do the work,** by a practical farmer and manufacturer with over 35 years' experience. **The 72-page Special Planet Jr. Catalog is Free to all.**

ACCURATE PLANTING WITH PLANET JR. NO. 4

SINGLE WHEEL HOE IN THE FAMILY GARDEN

No. 4 Planet Jr. Hill and Drill Seeder and Single Wheel Hoe Combined.

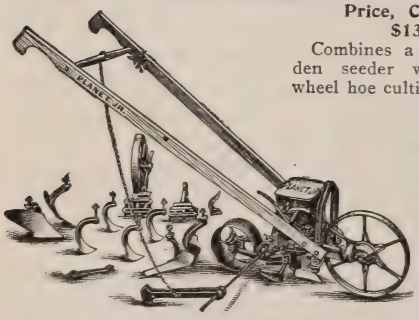
Price, Complete, $10.50.
As a Seeder only, $8.50



Plants all garden seeds accurately in hills or drills; hoes, cultivates, and plows quickly and thoroughly. Popular with farmers and gardeners everywhere.

No. 25 Planet Jr. Hill and Drill Seeder Double Wheel Hoe

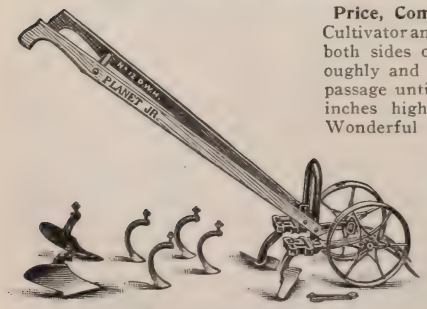
Price, Complete, $13.00



Combines a first-class garden seeder with a double wheel hoe cultivator and plow. Does the work of almost all garden tools combined. It sows accurately **all** garden seeds, cultivates, hoes, furrows, and plows. Indestructible **steel frame.**

No. 12 Planet Jr. Double Wheel Hoe

Price, Complete, $6.50



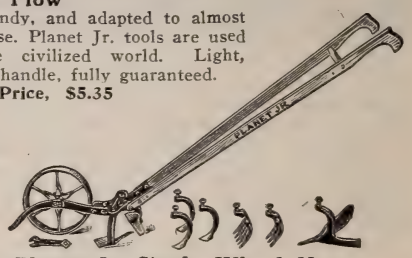
Cultivator and plow. Works both sides of plants thoroughly and rapidly at one passage until crops are 20 inches high. Wonderful garden cultivator and money saver.

No. 13 Planet Jr. Double Wheel Hoe is the No. 12 with 6 inch hoes only. Price, **$4.50.** Any or all the other attachments shown with No. 12 may be added at any time.

No. 16 Planet Jr. Single Wheel Hoe, Cultivator, Rake, and Plow

is light and handy, and adapted to almost every garden use. Planet Jr. tools are used throughout the civilized world. Light, strong, easy to handle, fully guaranteed.

Price, $5.35



No. 17 Planet Jr. Single Wheel Hoe

Price, $4.50

You can do more and better hoeing with it in one day than you can do in three days with a hand hoe. The No. 17 has a pair of 6-inch hoes, a plow, and a set of cultivator teeth, an outfit sufficient for most garden work.

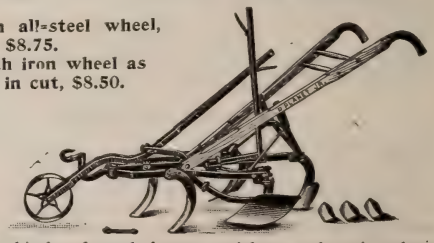
No. 18 Single Wheel Hoe

Price, $3.25

This tool has one pair of 6-inch hoes only—the tools that are most constantly useful throughout the season. Other tools can be added as needed.

No. 8 Planet Jr. Horse Hoe and Cultivator

Price with all-steel wheel, $8.75.
Price with iron wheel as shown in cut, $8.50.

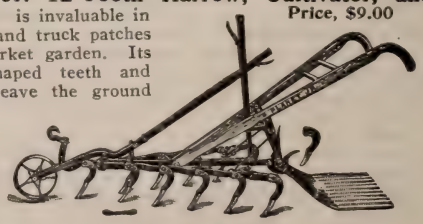


Does more kinds of work better, quicker, and easier than any other cultivator. Indispensable on the up-to-date farm.

Planet Jr. 12-Tooth Harrow, Cultivator, and Pulverizer

Price, $9.00

is invaluable in strawberry and truck patches and the market garden. Its 12 chisel-shaped teeth and pulverizer leave the ground



in finest condition without throwing dirt on plants.

New Universal and Other Garden Tools

Space will permit our showing and describing only one of the New Universal Tools, but we will send a fully illustrated descriptive catalog free to all who request it. The prices named herein are net.

New Universal No. 17 Garden Drill

NO BETTER SEEDER CAN BE PRODUCED

Sows all kinds of Vegetable Seeds, including Peas, Beans, and Corn. The depth may be gauged to any required space; will make a uniform deposit of the seed. This drill opens the furrow, drops and covers the seed, rolls down the earth over it and marks the next row, all by simply pushing the machine forward. **Price, boxed, $6.50.**

New Universal No. 16 "Hill and Garden Seeder"

The same in style as the garden drill, but is arranged so as to drop the seed either continuously in drill, or at distances of 4, 6, 8, 12, 16, 24, and 48 inches apart. The adjustment from drills to hills is made by one screw. The distance apart is regulated by the number of cogs on the Driving Wheel against which the agitator strikes. **Price, boxed, $7.25.**

New Universal Combination Hill and Drill Seeder, Cultivator, Plow, Rake and Marker, No. 22.

SIX IMPLEMENTS IN ONE

Seeder	Cultivator
Hoe	Plow
Rake	Marker

All for $9.50

Nozzles. Bordeaux (10), the best all-around nozzle. Each, $1.00.

Misty, Jr. (11) For ¼-inch pipe connection. Each, $1.25.

Extension Rods. Bamboo, 8 to 10 feet. Each, $4.25.

AUTO-SPRAY No. 1

Made of extra heavy brass or galvanized iron. This compressed air sprayer is first pumped up by a few strokes of the plunger and then carried by a strap over the operator's shoulder. After the sprayer is pumped up, there is nothing for the operator to do but to direct the nozzle.

The **Auto-Spray** is equipped with a plain stop-cock or the patented Auto-pop. The Auto-pop is a great improvement over all other shut-offs. By merely releasing the fingers, the spray is automatically shut off.

The new **Auto-Spray** is equipped with the only non-clogging nozzle manufactured. We accomplish this feature by a patented screen arrangement. Every particle that would otherwise clog the nozzle is stopped by a screen. The back of this nozzle has to be entirely clogged up before the spray will be hampered. We consider this nozzle the greatest improvement in compressed air spraying in years.

The **Auto-Spray** is very simple, and can be operated by man, woman, or child.

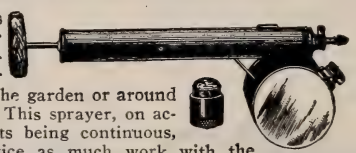
No. 1A. Brass tank, with stop-cock.....$6.75
No. 1B. Brass tank, with auto-pop..... 7.20
No. 1C. Galvanized tank, with stop-cock..... 4.50
No. 1D. Galvanized tank, with auto-pop..... 4.95
Brass Extension Rods, 2 ft. lengths, each.... .45
Brass two-row attachment 1.35
Brass Strainer..... .90 Brass Elbow..... .27

Attached to every **Auto-Spray** is a tag bearing an iron-clad guarantee.

BINK'S No. 22 COMPRESSED-AIR SPRAYER

Pump made entirely of brass and the galvanized iron tank is riveted and welded together. Height, 20 inches; diameter, 7 inches; capacity, 4 gallons. Complete with discharge hose, shut-off cock, spray nozzle, and shoulder strap. Each, $6.50.

THE AUTO-SPRAY No. 37



Continuous sprayer for killing insects or vermin in the garden or around the house. This sprayer, on account of its being continuous, will do twice as much work with the same amount of labor as any ordinary atomizer. It can be completely taken apart and cleaned. The pump cylinder is specially treated so that it cannot rust nor corrode. Made in 1 and 2-quart sizes.

No. 37B. 1 qt., galvanized. Each.....$0.90 net
No. 37C. 1 qt., brass. Each..... 1.25 "
No. 37D. 2 qt., galvanized. Each..... 1.20 "
No. 38E. 2 qt., brass. Each..... 1.65 "

Champion Powder Gun. For applying sulphur, bordeaux, paris green, and other dry insecticide powders. A very convenient machine where large areas are to be dusted. Dusts one or two rows at a time. Weighs about 6 lbs.; weight packed, 17 lbs. Each machine has four 16-inch tubes, six nozzles, two straps; reservoir holds one quart of powder. Each, $8.00.

Dry Powder Duster No. 12. A serviceable article where only a few plants are to be treated. Made of heavy tin; capacity one and one-half quarts. Each, 70c.

POMONA PUMP

For small orchards or large shade trees where a powerful pump is needed. The Pomona, with its solid bronze working parts and outside packed plunger, is simple and efficient. Plunger 2½ inches diameter, adjustable stroke. Pump, agitator, and suction hose, $15.00; with 15 ft. hose and spray nozzle, $18.00. If supplied mounted in barrel, add $3.50.

SUCCESS SPRAY

BUCKET SPRAYERS

SUCCESS. For the garden, greenhouse, or small orchard, this pump is well indispensable. Working parts and cylinder are of brass. The large, globe-shaped enlargement at the top of cylinder permits an easy motion and a steady stream. Supplied with 3 feet of hose, Bordeaux (the best all-around) nozzle, foot-rest. Shipping weight about 10 lbs. Each, $3.85.

PRIZE. An excellent and low-priced spray pump. All working parts brass. Slightly smaller than Success. Weight, 9 lbs. Each, with Acme nozzle, $3.00; with Bordeaux, $3.45.

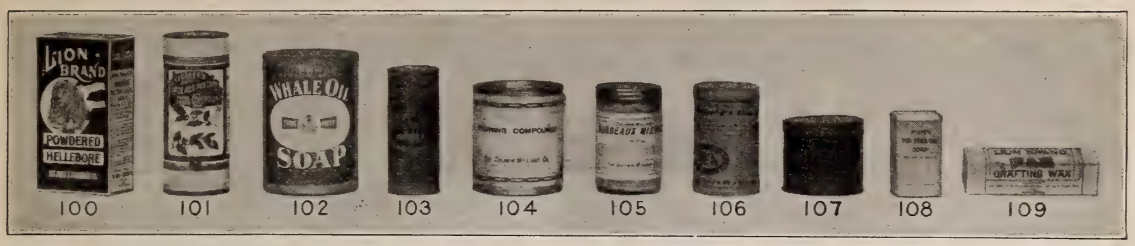
BARREL PUMPS

FRUITALL. A good low priced sprayer, well constructed and similar in many ways to Pomona. Thoroughly serviceable and reliable; 2-inch plunger, 4-inch stroke. Each, $10.00; with 15 feet hose and spray nozzle, $13.75. Barrel, add $3.50.

POMONA PUMP

Insecticides and Remedies for Plant Diseases

Liquid insecticides are not permitted in the mails. Dry powder and soap—non-poisonous—can be forwarded by parcel post, purchaser to remit us the amount of postage required in addition to the prices herein named. Consult your local postoffice for rate from Chicago. All prices subject to change without notice.



APHINE. Effective against all soft-bodied and plant-sucking insects, such as green, black, white fly; red spider, thrips, mealy bug, brown and white scale, currant and cabbage worm, etc. Used as a spray or wash, diluted in water at proportions as directed on each can. Can be used indoors and in the garden on flowers, fruits, and vegetables. Pt., 65c; qt., $1.00; gal., $2.50.

APHIS PUNK. For fumigating greenhouses and conservatories. It vaporizes the nicotine economically and evenly. Nothing else so thoroughly and cheaply keeps a house free from aphis, thrip, and other plant parasites. Pkt., of 12 sheets, 60c.

ARSENATE OF LEAD (112). Kills all leaf-eating insects, such as attack fruit trees, shade trees, shrubbery, flowers, and vegetables. Mixes with water readily and adheres to the foliage. **Paste,** 1 lb., 25c; 5 lbs., $1.00; 12½ lbs., $2.00; 100 lbs., $14.00. **Powdered,** goes twice as far as paste, 1 lb., 50c; 2 lbs., 85c; 5 lbs., $3.00.

BORDEAUX MIXTURE. This is a preventive of plant diseases, especially apple scab, rust on melons, beans, hollyhocks, etc., besides rot and mildew. Bordeaux Mixture may be applied alone or combined with arsenate of lead or Paris green for coddling moths, potato beetles, caterpillars, and chewing insects in general. **Semi-liquid** (113), mix 1 gallon with 40 gallons of water. Pt., 25c; qt., 40c; ½ gal., 75c; gal., $1.00; 5 gals., $4.50. **Paste** (105), mix 1 lb. with 24 gallons of water. Lb., 25c; 5 lbs., 85c; 25 lbs., $3.00. **Dry for dusting** (101), lb., 25c; with Paris green, lb., 35c.

BUG DEATH (103). Kills all bugs and worms that chew the leaves and foliage. Contains no Paris green nor arsenic. May be used dry or in solution with any sprayer on the market. Lb., 15c; 3 lbs., 35c; 5 lbs., 50c; 12½ lbs., $1.00. Dicky Duster (57), 25c; an Acre-an-Hour Sifter (51), 75c, are especially adapted to applying Bug Death.

CUT WORM FOOD (116). Lb., 25c; 5 3 lbs., 85c.

FIR TREE OIL SOAP (108). For use to exterminate mealy bug, red spider, aphis (black and green), worms, scale, thrip, and slug. Use at the rate of 1 oz. to 1 gal. of water. ½-lb. can, 25c; 2 lbs., 75c.

FISH OIL SOAP (102). Formerly called Whale Oil Soap. A very effective, simple and cheap preparation for the preservation of trees, shrubs, plants, vines, rose bushes, and garden plants in general, from the ravages of insects. ½ lb., 12c; lb., 18c; 2 lbs., 30c; 5 lbs., 65c.

GRAPE DUST. A fungicide. Readily diffusable light-weight powder. Very efficient in preventing blight and destroying mildew. 1-lb. carton, 15c; 5 lbs., 40c.

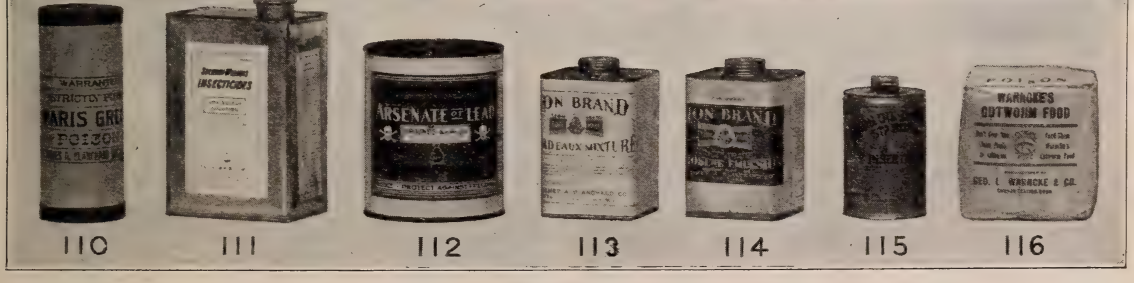
HELLEBORE (100). One of the best insecticides for all-around garden use. Kills leaf-eating insects, such as currant worm, cut worm, rose bug, etc. Can be used dry or in solution. 1 oz. to 2 gals. of water. ¼ lb., 15c; ½ lb., 25c.; lb., 40c.

KEROSENE EMULSION (114). That will destroy all sucking insects, such as scale, plant and bark lice, pea louse, etc. One of the best and most conveninet insecticides to use on flowering plants and shrubbery. Dilute 1 pint to 30 to 50 for tender plants, and 1 pint to 20 to 30 for fruits and vegetables. Gal., $1.00; 5 gallons, $4.50.

NIKOTEEN. In small bottles, making 4 oz. of spray. Each, 40c; ½ lb., 85c; lb., $1.50; 4 lbs., $5.00.

LIME SULPHUR (111). Effective against San José Scale, oyster shell bark louse, scurfy scale, maple scale, and all sucking insects such as ant, aphis, spider, etc. For winter use, dilute 1 part to 10 parts of water; for spring use, 1 part to 35 or 50 parts of water. Qt., 40c; ½ gal., 75c; gal., $1.00; 5 gal., $4.25.

PARIS GREEN (110). Has been in general use for years to kill potato bug, coddling moth, and other leaf-chewing insects. It may be applied dry mixed with flour, or mixed with water and sprayed on the foliage. For potato beetles, 1 oz. to 3 gals. of water is recommended. **Prices subject to market:** ¼ lb., 15c; ½ lb., 25c; lb., 40c; 5 lbs., $1.75; 14 lbs., $4.50.



SLUG SHOT (106). It is cheap and very effective. Destroys potato bugs, beetles, green and black fly, melon, squash, and cucumber bugs, etc. 1-lb. carton, 15c; 1-lb. tin canister with shaker top, 25c; 5-lb., pkg., 40c; 10-lb., pkg., 75c.

SULPHO-TOBACCO SOAP. Exterminates insects on plants and shrubs as well as on domestic animals. In cakes: 3 oz., each 10c; 8 oz., each 20c; Directions accompany.

TOBACCO DUST. Remedy for aphis, thrips, and beetles. Lb., 10c; 1 lbs. for 70c.

TREE TANGLEFOOT. A sticky compound for preventing the ascent of caterpillars and all crawling insects up the trunk of trees and large shrubs. Lb., 30c; 3 lbs., 85c.

WEEDICIDE. Special preparation to take weeds off drives and walks. Gal., $1.25.

FERTILIZERS

We handle but one grade of FERTILIZERS—THE BEST. Special quotations to large buyers.

PRICES SUBJECT TO MARKET CHANGES

Directions for Application

Never mix fertilizer with the seed. Be sure and work the fertilizer into the soil as thoroughly as possible.

Remember that in all cases thorough cultivation will enable the fertilizer to give the best results. Also that it is the roots of the plant that take up the plant food, and that fertilizer should be applied in such a manner that the roots can best assimilate it.

For the vegetable or flower garden the fertilizers here listed should be used at the rate of 5 to 10 lbs. per 100 square feet except as otherwise noted. A handful for two or three hills of corn or beans or for transplanted plants will induce a vigorous and quick growth. Mix thoroughly with the soil and do not allow seed or roots to come into direct contact with the fertilizer. After plants are well started, a top dressing of fertilizer cultivated into the soil will be found of great value. Where it is possible to do so, it is advisable to apply fertilizers a week or ten days before seeding or transplanting as this permits a partial dissolution of the fertilizer and lessens the danger of harm from burning the seeds or roots.

Fertilizers

BLOOD AND BONE. A desirable fertilizer for crops such as cabbage, cauliflower and corn, but not for root crops such as beets, turnips, etc., unless used with some form of potash. For garden use apply at the rate of 300 to 500 pounds per acre. 25 lbs., 75c; 50 lbs., $1.25. 100 lbs., $2.15; 200 lbs., $4.00; 500 lbs., $9.50; ton, $36.00.

BOWKER'S PLANT FOOD. Made expressly for flowers grown in the house or garden; clean, odorless, and produces early, abundant flowers, greatly adding to the richness and brilliancy of color. Stimulates the growth. Not prepaid, No. 1, each, 15c; No. 2, each, 25c. Mailing weight, No. 1, 7 ozs; No. 2, 15 ozs.

BONE MEAL. Guaranteed pure bone and equal to any brand. Approximate analysis: ammonia, ⅔ per cent; phosphoric acid, 25 per cent. It is ground fine and is an excellent top dressing for lawns, grass lands, farm and field crops; also for mixing with potting soil. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 70c; 50 lbs., $1.25; 100 lbs., $2.15; bag of 200 lbs., $3.75; 500 lbs., $8.50; 1,000 lbs., $16.50; ton, $32.00.

CATTLE MANURE, Shredded. It is as easy and clean to handle as grain. Dry and free from odor. Excellent for use on the lawn, as it can be readily raked in and there is no straw to be taken off in the spring. Good to mix with soil for all kinds of bulbs. For potting compound use one part fertilizer to six parts soil. 10 lbs., 25c; 25 lbs., 60c; 50 lbs., $1.00; 100 lbs., $1.75; 500 lbs., $6.50; 1,000 lbs., $12.00; ton, $21.00.

CLAY'S FERTILIZER. Contains the essentials of a readily serviceable plant food. It is safe and reliable, and quick in action, vitalizing and effectual. This fertilizer is imported from London for use of particular gardeners who appreciate its value either as a potting fertilizer or for making liquid manure. 5 lbs., 50c; 10 lbs., $1.25; 25 lbs., $2.00; 50 lbs., $4.00; 100 lbs., $7.00.

FARMER'S FAVORITE. A high-grade all-around fertilizer, especially adapted to all field crops and for market gardeners' use. Approximate analysis: ammonia, 3 per cent; phosphoric acid, 8 per cent; potash, 4 per cent. 50 lbs., $1.35; 100 lbs., $2.25; 200 lbs., $4.00; 500 lbs., $10.00; 1,000 lbs., $18.50; ton, $36.00.

HARDWOOD ASHES. They contain potash and lime, which are needed to help plant growth and sweeten the soil. Helps drive away insects and improves the texture of the soil. An excellent fertilizer to use on the lawn with bone meal. 25 lbs., 50c; 50 lbs., 85c; 100 lbs., $1.25; 500 lbs., $5.50; 1,000 lbs., $10.00; ton, $20.00.

HORN SHAVINGS. Used by florists to mix with potting soil. 5 lbs., 40c; 10 lbs., 70c; 25 lbs., $1.25; 100 lbs., $4.50.

LAND PLASTER. A top dressing for sour or wornout soils. Apply at the rate of 25 to 50 lbs. per 1,000 sq. ft. 25 lbs., 35c; 50 lbs., 65c; 100 lbs., $1.25; bbl. (about 300 lbs.), $3.

SHEEP MANURE, Pulverized. A pure, natural fertilizer for lawns and gardens, vegetables and fruit growing. It promotes quick growth and early maturity. For pot plants, mix one quart of manure to six quarts of soil. For vegetable garden strew over the surface at the rate of one ton to the acre and dig it into the soil. 5 lbs., 25c; 10 lbs., 40c; 25 lbs., 65c; 50 lbs., $1.00; 100 lbs., $1.75; 500 lbs., $7.00; 1,000 lbs., $12.00; ton, $23.00.

KAINIT. A German potash salt containing about 12½ per cent potash, and because of its slow action, should be applied in advance of planting. Used on potatoes, the lawn, and general garden. Apply at the rate of 20 to 25 lbs. per 1,000 sq. ft. 10 lbs., 30c; 25 lbs., 50c; 100 lbs., $1.50; 200 lb. bag, $2.50.

LAWN LIME. The soil of most small lawns in residence districts is acid. To correct this condition some form of lime is required.

Finest Ground Lime Stone. 100-lb. bag, $2.00.

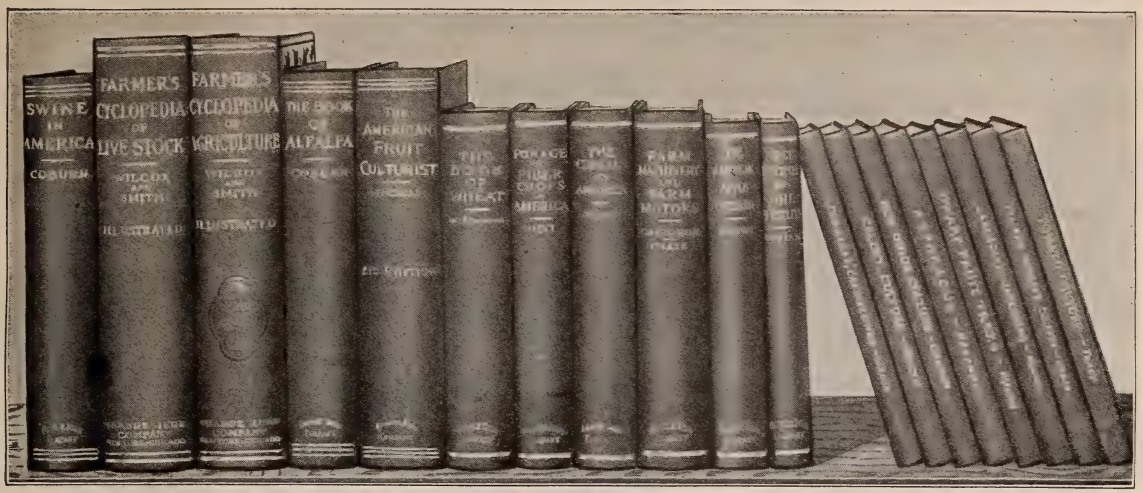
MURIATE OF POTASH. The most economical of the potash fertilizers. Contains about 45 per cent potash and is in general use with bone meal or farm manures on such crops as celery, corn, oats, turnips, cucumbers, grapes, onions, peas and beans. It should not be used on such crops as potatoes, tobacco, sugar beets, cabbage, or cauliflower because of injury to their quality. Apply at the rate of one pound to ten pounds per 1,000 sq. ft. 5 lbs., 30c; 10 lbs., 50c; 25 lbs., $1.00; 50 lbs., $1.75; 100 lbs., $3.50; 200 lbs., $6.50.

NITRATE OF SODA. A quick-acting fertilizer containing 16 per cent of nitrogen in a soluble form and best adapted to promote rapid and maximum growth in plants. Especially adapted to quick-growing vegetables such as lettuce and cabbage, also strawberries. For the home garden apply as a solution made at the rate of one ounce to two gallons of water. Do not apply until the plants are well established. 5 lbs., 35c; 10 lbs., 60c; 25 lbs., $1.25; 100 lbs., $4.50. Prices subject to market changes. Write for prices on larger quantities.

ROCK PHOSPHATE. Contains about 12½ per cent of natural phosphate, which is recommended very highly by the Illinois Agricultural Experiment Station for the improvement of the soil of that state. Phosphate becomes slowly available and its effect can be noticed for several years after application. (For immediate results, use bone meal as a phosphate fertilizer.) 50 lbs., 65c; 100 lbs., $1.20; 500 lbs., $5.00.

LAWN FERTILIZER

A quick-acting fertilizer for use by the home gardener, the market gardener, or the florist. An all-around fertilizer for the vegetable garden or the lawn. It is a rich, well-balanced fertilizer. Guaranteed analysis: ammonia, 4 to 5 per cent; available phosphoric acid, 8 to 9 per cent; total phosphoric acid, 9 to 11 per cent. Actual potash, 7 to 9 per cent. Use at the rate from 15 to 25 lbs. of fertilizer to 1,000 sq. ft., or from 600 to 1,000 lbs. per acre. When seeding down, broadcast the fertilizer, raking it into the soil thoroughly before seeding. On old lawns use as a top dressing. Three light applications on old lawns during the season are better than one heavy application. On hill crops, fertilizer can be used in the hill, being careful to work it into the soil thoroughly before planting the seed. 5 lbs., 30c; 10 lbs., 45c; 25 lbs., $1.00; 50 lbs., $1.75; 100 lbs., $3.00; 500 lbs., $12.00; 1,000 lbs., $23.50.



BOOKS---Farm, Garden, Poultry, Etc.

"There are two valuable possessions which no search warrant can get at, which no execution can take away, and which no reverses of fortune can destroy: they are what a man puts into his brain—KNOWLEDGE, and into his hands—SKILL."

THE W. W. BARNARD COMPANY gives no warranty express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and will not be responsible for the crop.

QUANTITY	NAMES OF ARTICLES WANTED	PRICE	
	Forward = $		

Delivery We deliver, postpaid, in the United States, all seeds by the packet, ounce, and one-fourth pound; bulbs at single and dozen rates; books (named in our catalogue). When larger quantities are to be mailed, add postage at the rate of eight cents per pound, fifteen cents per quart for peas and beans, ten cents for corn. Seeds in quantities of ½ lb. and 1 lb., pints, quarts, pecks, and bushels; bulbs (at the 100 rate); plants, shrubs, and other bulky goods are forwarded by express or freight to points outside of Chicago, purchaser to pay delivery charges.

Parcel Post This affords an economical means of transportation as all seeds and many garden supplies are mailable at parcel-post rates. If you wish us to send by parcel post, please add extra remittance to amount of your order to cover expense of mailing. Consult your postmaster for local rate from Chicago.

	Forward - $		

Flowers of Special Merit.

ASTER.—Giant Scarlet Hohenzollern.

This is the variety to grow for exhibition purposes. The mammoth flowers often measure 6 inches in diameter, with curled and twisted petals that gracefully overlap each other leaving no open center. The color is a peculiar coppery shade of scarlet that is wonderfully attractive. The plants are of vigorous growth and the stems strong and of good length for cutting. Admirers of this popular flower should not fail to include this splendid variety in their collection. Pkt. 15c.

CALLIOPSIS.—Star of Fire.

New dwarf variety of this year's introduction. Grows about one foot in height and produces a mass of cactus shaped flowers of brilliant scarlet. This is a very showy plant and will be sure to attract attention in your garden. Pkt. 15c.

ESCHSCHOLTZIA.—The Geisha.

This is a 1915 novelty, the name being suggested by its fantastic oriental appearance. The inside of the petals is of brilliant golden color and the outside an intense orange. It is quite distinct from all the other varieties of Eschscholtzia, and makes a striking plant in either the border or bed. Pkt. 20c.

SCABIOSA.—(Mourning Bride.)

Black King and Snowball Mixture.

This is a flower which, if better known would be more freely planted. It is attractive either in the garden or in the vase. The varieties we offer are the two extremes in color of this flower and the handsome blooms make a striking contrast. Pkt. 10c.

ZINNIA.—Mammoth Flowered Double.

This is truly a magnificent strain of the old-fashioned garden favorite. It should not be confounded with the ordinary double mixed Zinnia. It has taken years of careful selection to secure this large flowered type. They rival the double Dahlia in size and variety of color, including almost any shade of yellow, pink, red, white and a maroon that is almost black. Zinnia is a very satisfactory flower to grow, being easy of culture and forms a mass of color through the late Summer and Fall that is hardly surpassed by any other garden annual. Pkt. 10c.

ZINNIA
MAMMOTH FLOWERED DOUBLE
ONE PACKET OF EACH OF THE ABOVE (3 PACKETS) FOR 25c.

DOUBLE MORNING GLORY.—Snow Fairy.

A handsome; new climber growing to a height of 12 to 15 feet, and covered with beautiful pure white double flowers, which do not close up in the sunlight like the single Morning Glory, but remain a mass of bloom throughout the day. This is a genuine novelty. Pkt. 15c.

CARDINAL CLIMBER.

This beautiful climber was introduced last year and proved itself deserving of a place among the very best of the annual climbers. It grows rapidly, reaching a height of from 25 to 30 feet and is covered with trumpet shaped flowers of deep cardinal color from whence it gets its name. The foliage is also very attractive, having the delicate fern-like appearance of the Cypress Vine. This is a climber of special merit and sure to become very popular. Pkt. 25c.

COLLECTION. One packet of each of these seven new and beautiful annuals for $1.00.
